BUILT 30 YEARS AGO This is Clarke's garage a reality through the joint effort of farmers and businessmen of the community and of Lake Creamery. Hay had provided a limited marketing service at a small area operation, but the farmers, backing of a small area operation, but the farmers, backing of a small area operation, but the farmers, backing a buying agency here. The need for better processing and marketing was recognized and steps were taken to provide it.

In the summer of 1929 a building company was formed, known as the Thief River Cooperative Association, Inc., and this corporation purchased the property of Clarke to build a building at a cost of not more than $50,000. Of this amount, $20,000 was to be raised by the sale of stock. Some of those who bought $5,000 of the stock issued by the corporation, and the remainder being bought by business men of the city.

Mel Norby, building contractor, agreed to rent the building, and he operated it for a number of years. Later it was purchased by Ed Lee, who operated it as a garage for a number of years. He could effect to extend the cost being that amount, the building was completed and rented.

The remodeled Clarke operations in the city have greatly extended and the city has doubled in population. The building of the first cooperative helped spur on the movement to end the period of decline for the city and the beginning of the present era of progress. Today the building is owned by Mrs. Jean Dahlen Hillstrom.

Bankers Visit Farm Operations Helped by F.H.A. Financing

Representatives of Thief River Falls banks were given an opportunity Tuesday morning to observe farming operations in the community that had been benefited by Farmers Home Administration funds, at a meeting of supervisor for the agency in Pennington and Red Lake counties, conducted the tour and included stops in Red Lake and Polk counties.

F.H.A. loans are available only to farmers who are unable to get credit from other sources. For bankers in the district, it was a competitive agency. Mr. Reed, guest pointed out.

The first of three farms visited was that of Ralph Ell, Jr., in Red Lake county. Mr. Ell is a dairy farmer. Mrs. Ell also attended the tour. The original application was for a loan to build a house. The quarter section farm was purchased with borrowed money and a solution was found in the purchase of a house which already had a good dwelling. A making progress.

The second farm visited was that of Ralph Ell, Sr., in Polk county. Mr. Ell is a dairy farmer. The original application was for a loan to build a new pole shed at the dairy chattel loan. The original application was for a loan to build a house. The quarter section farm was purchased with borrowed money and a solution was found in the purchase of a house which already had a good dwelling. A making progress.

The third example was a loan made to Ralph Ell, Jr., in Red Lake county. Mr. Ell is a dairy farmer. Mrs. Ell also attended the tour. The original application was for a loan to build a house. The quarter section farm was purchased with borrowed money and a solution was found in the purchase of a house which already had a good dwelling. A making progress.

Drownings in State Increased This Year

Drownings as of September 15 this year total 125 persons, a gain of 17 over a year at this time, according to a report by Carl W. Moen, chairman of the water and boating safety section of the conservation department. The average drowning for the last 15 years is 127.

Swimming is our most hazardous water activity, claiming 52, almost this past summer, nearly as many as all other water activities combined. Of the 52 who lost their lives in swimming, 18 are associated with motorboating, 10 with fishing, 7 with boating while using motorboats for seven of the nonmotorboat accidents.

Although the summer season is just about over, there could be many more drownings before the boating through the ice season. Unless extreme cold is experienced this year, drownings will run about the last year total of 139. Our worst year on record is 1955 when 186 persons drowned in Minnesota.

GONYEA MAY IMPROVE STREETS

Councilmen Leodler Benoit, Reginald Abel, sewer, curb and gutter improvements for the city of Gonyea will be made as a result of a special public meeting called by the village council and attended by a number of property owners in the village hall and will begin at 8 p.m.

Also listed to discuss ordinances of paving the city are the petitioners. Besides [illegible] Benoit and Abel, the petitioners are Mrs. Jeanette Cibula, representing the firm of Sarah Bloedy; municipal bond consultants.

Fall Term at N. W. School Opens Sept. 28

Registration to Start Mon.; Near-capacity Enrollment Expected

The number of students at the Northwest School of Agriculture this fall term opens on Monday, Sept. 28, according to Dr. Lowell Hansen, principal.

Approximately 300 students will be enrolled in the school, including 100 freshmen girls. Harold Bilden, registrar, said that the freshmen girls dormitory will be filled to capacity and there is a waiting list for additional girls. Harold Bilden, registrar, said that the freshmen girls dormitory will be filled to capacity and there is a waiting list for additional girls.

Registration will start at 8 a.m. on Monday. Special orientation activities for new students are scheduled for the afternoon, as well as an all school mixer for Monday evening. Classes will start at 8 a.m. on Tuesday, September 29 and the first all school assembly is scheduled for 10 o'clock.

The highlight of returning students for the fall term, however, will be a new classroom and laboratory building which is now under construction.

To Explain Teacher Retirement Plans at M.E.A. Meeting

Plans for the retirement of teachers will be explained at the annual M.E.A. meeting at Thief River Falls Saturday, Sept. 26, at 8:30 o'clock. He will be assisted by Mrs. Ruth Hanson, executive secretary of the Minnesota Education association, and Mrs. Thief River Falls Teachers Association will preside.

Mr. Hamerlinck states that the purpose of the meeting is to benefit those who are interested in the plan.

Mr. and Mrs. Clayton Anne and daughter Sandra spent Sunday visiting afternoon guests at the home of Mr. and Mrs. Ralph Peterson of Brill.

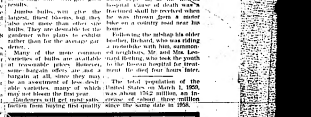
NEW NURSE — Miss Irene Kenny, a registered nurse whose home is in Valley City, N. D., has been employed at the Polk county public health office as supervisor of the maternity service. A graduate of the Valley City State Teachers college, Miss Kenny received her degree in nursing education from the University of Minnesota. She has been employed in Valley City, Fargo and Minneapolis.

Bigger Bulbs Bigger Flowers

The bigger the bulbs, the bigger the flowers.

That's a good gardener's motto and should keep in mind in buying of the various spring bulbs that are now on the market.

Mrs. Ralph Swanson, horticulturist for the Northwest Paper Co., says that among large flowering tulips bulbs should be at least 11 centimeters in size. Bulbs in smaller should be planted in the rock garden. Daffodils should be at least 12 centimeters and second large bulbs will give good results.

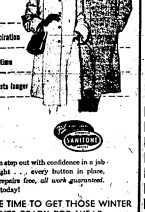


Jumbo bulbs, will give the largest flowers but they have a tendency to divide into many small bulbs after one year. Mrs. Swanson also plans to transplant bulbs in March before the ground has thawed.

Following the sidehop to elder berries, Richard, who was riding in the wagon with him, summoned neighbors. Mr. and Mrs. Lee, Mrs. Ralph Swanson and Mrs. Ole Gunderson, all of whom were in the field. Mrs. Swanson hopped to the rescue.

Many of the more common varieties of bulbs will multiply to reasonable sizes. However, Mrs. Swanson says that it is best to dig bulbs every three years.

The total population of the Thief River Falls area in 1960, was about 7542 million, an increase of 1,000 persons over the figure from buying first quality since the same date in 1958.



The Bigger the Bulbs the Bigger the Flowers

Unsuspected minor ailments can handicap a child's learning ability. Have your child's eyes examined by a competent optometrist. Don't wait until school starts. Good grades and work happiness depend so much on good eyesight. Don't risk needless suffering and expensive tuition that you are well advised to take your youngsters to the optometrist or dentist for periodic health examinations. Children who pass these "exams" find it much easier to pass their school exams.

Employ Physically Handicapped Urged

Member companies of the National Association of Manufacturers have been urged to use National Employ the Physically Handicapped Week, October 4-10, to search out additional job opportunities in their plants and offices for the physically handicapped.

Stanley C. Hope, president of NAM and president of Sound-Scriber Corporation, of North Haven, Conn., called attention of NAM's members to President Eisenhower's announcement of the 15th annual observance and declared:

"This announcement reminds us again of industry's pledge to provide increased opportunities for the phsically handicapped. This pledge stands as a challenge to management and a testimony to the outstanding record of progress it has made in the past 15 years in providing jobs for the handicapped.

"Once again the records of the public employment offices indicate a new high—a 25 per cent increase in handicapped placements during the first half of this year over the same period in 1958."

Mr. Hope also urged NAM's more than 20,000 members to "let your community know why you believe it is good business to hire the handicapped.

Rev. A. C. Seitz Attends Meeting at Henning

About 75 ministers from northwestern Minnesota are attending the annual meeting of the Park Region Conference of the Lutheran Church-Missouri Synod, Minnesota District, at the Lutheran Island Camp, near Henning, Monday and Tuesday, Sept. 21 and 22.

Rev. E. Bentrup of Fisher will be the speaker in the opening communion service at 10 a.m. Chief lecturer will be Prof. Harry Coiner of Concordia Seminary, St. Louis, Missouri, who will discuss the following topics: "The Function of the Pastor in the Body of Christ", "The Administrative Role of the Pastor", "The Pastor's Personal Nurture and Refreshment," "The Pastor's Life With His People," "Marriage and Divorce," and "The Pastor Dealing With Marital Problems." The Rev. Max Schaefer of McIntosh will conduct a Bible study.

The Rev. A. C. Seitz of Thief River Falls, district vice president, will present matters of synodical and district business. Other pastors attending from this area will be the Rev. M. Uhlig of Roseau, the Rev. Roger Fischer of Warren, the Rev. O. C. Poellet of Red Lake Falls, and the Rev. H. E. Sieving of Crookston. Chairman of the conference is the Rev. R. G. Troger of Detroit Lakes.

LIBRARY NOTES

Any child of 6 years and over and any adult in Pennington county may become a library patron by obtaining a library card. Those residing outside of Pennington county may have the same privilege by paying a membership fee.

Below are listed a few of our new books:

Warden's Wife, by Duffy: also known as "Mother Duffy" to the prisoners, San Quentin has been her home since childhood.

Eva, by Levin: the author's first novel since "Compulsion," telling the story of a daring Jewish girl who flees from a death trap in Poland.

I Was a Teen-age Dwarf, by Shulman: the story of a short lovable boy who grew up to be a short, lovable man.

The Flame Tree of Thika, by Huxley: Memories of an African childhood. Mrs. Huxley is an authority on African affairs. Her intimate knowledge of Kenya shows in every word.

Cormorant's Blood by Fletcher: a historical novel, North Carolina, 1725. Exciting story of Colonial history that led, finally, to the great drama of the Revolution.

The Town House, by Lofts: Serfs, masters, lords and ladies—all part of the mystery and romance of the 15th century England—come alive in this brilliant historical novel.

Advise and Consent, by Drury: a novel of Washington politics. Critics feel this novel tells more about the U.S. Senate than any factual reporting can reveal.

Be Your Own Decorator, by Rand: A stimulating and helpful guide to creating new beauty in your home or apartment.

The Cave, by Warren: The author returns to the contemporary scene for the first time since "All the Kings Men."

Surgeon at Arms, by Paul: A paratroop surgeon tells of his drop into combat; his capture by the Germans; his shelter by the Dutch underground and his eventful escape.

The Run, by Hay: A Cape Cod naturalist experiences the beauties and the dangers in the cycles of the migrating Alewife (herring family).

Lorena, by Slaughter: an historical novel of the Civil War.

Across the Sea of Stars, by Clarke: This omnibus contains Clarke's own selection of his best science fiction.

These titles are still in great demand. We will be glad to reserve them for you if they should be in use at the time you request them:

"Doctor Zhivago," Pasternak.
"Chinese Box," Eyre.
"Nine Coaches Waiting," Stewart.
"Exodus," Uris.
"Light Infantry Ball," Basso.
"Status Seekers," Packard.
"Love is a Wild Assault," Kirkland.

Safety Makes Sense—in preventing home accidents, which account for about one-fourth of all mishaps to farm people. It makes sense to be constantly watchful, to remove hazards and keep an orderly place, and to train children likewise.

SLAVES With "Slavedriver" Dr. Orion D. Belch, left, wielding the whip, the Lions club auction was held in the City auditorium Friday evening, Sept. 18, when 18 members of the club were sold for a total of $532.65. Forty-one additional members are being sold this week during radio auctions each morning beginning at 9 o'clock over station KTRF. Bids may be made by calling MU 1-1230.

Apple Harvest Brings Annual Celebration

Celebration of the annual apple festival at LaCrescent September 19 and 20 brought to the attention of the public the fact that choice, Minnesota grown fall and winter apples are once more available. Minnesota's commercial orchards are largely concentrated adjacent to the St. Croix and Mississippi rivers, with a sprinkling of them in the Twin City area and a few other points.

Largest concentration of big commercial orchards is in the LaCrescent area where an annual festival is held this time each year. The small southeastern Minnesota town becomes jammed with upwards of 23,000 visitors on the festival days and special attractions, barbeques, a giant parade, and exhibitions of Minnesota's finest apples greet the visitors.

Pasture Expert Speaks at Beef-Grassland Day

How pastures can be turned into bigger profit dollars for beef producers will be featured at the 7th annual Beef-Grassland Field Day Wednesday, Sept. 23, at the University of Minnesota's Rosemount Agricultural Experiment station.

Key speaker will be F. V. "Vic" Burcalow, extension agronomist and pasture expert from the University of Wisconsin. His topic will be "Our Steak in our Pastures."

Other highlights of the Field Day will include research reports on silage and protein, stilbestrol, hay and ear corn pellets, tranquilizers, ground ear corn vs. ground shelled corn, and pasture experiments. Sherwood Berg, University of Minnesota agricultural economics head, will discuss the beef outlook.

The Beef-Grassland project was set up at Rosemount in 1952 to study and demonstrate ways to increase efficiency of forages and other feeding methods for beef production.

The event starts at 10 a.m. with a tour of the cattle lots, pastures and other facilities, and research reports begin at 11. The student Block and Bridle club will serve a noon barbeque at the Field Day site.

Last Rites For Charles Mathieu Held Today at 2

Funeral services were held today, Monday, Sept. 21, at 2 p.m. at the Community Methodist church for Charles W. Mathieu. Officiating was Rev. Henry Freidman with interment made in the Greenwood cemetery. Sinding - Gulbranson Funeral Home was in charge of the arrangements.

Mr. Mathieu died Thursday, Sept. 17, at Northwestern hospital at the age of 85. He was born Jan. 1, 1874 at Jackson, Minn. He moved with his parents as a young boy to Buffalo, N. York and then to Howard, S. Dakota, where he attended school and grew to manhood. November 7, 1904 he was united in marriage to Maude Clawson at Pierre, S. Dakota and they made their home at Howard, then moving to Gettysburg, S. Dakota. In 1934 they moved to Excel township and have since made their home there.

Surviving are his wife, three sons and two daughters: Marie, Mrs. E. J. Opelt of Estherville, Iowa; Vera, Mrs. Newton Gillespie of Milo, Iowa; Floyd, Milton and William all of Thief River Falls. Also two brothers, Alfred of Clearlake, S. Dakota and Bert of Washington; two sisters, Mrs. Abe Mansell of Wadena and Mrs. Elsie Rider of Oklahoma; 15 grandchildren and 13 great grandchildren, several nieces and nephews.

He was preceded in death by two daughters.

NOW...'60 CHEVROLET TRUCKS WITH REVOLUTIONARY TORSION-SPRING SUSPENSION THAT GIVES ASTONISHING NEW SHOCKPROOF ACTION !!!!!

CHEVROLET

Chevy's done the next best thing to paving every road in America!

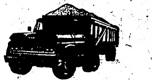
First they threw out the front axle and put in torsion-spring independent suspension. Then they built wide-base coil rear springs into most light-duty models, variable-rate leaf springs into heavies. That made it—a ride you have to feel to believe. A ride that lets you move faster to get more work done in a day's time.

Brawnier bulldozer builds!

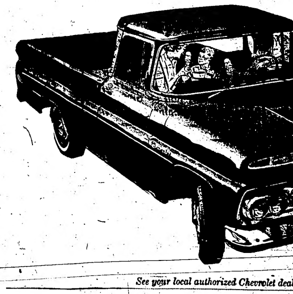
Frames are stronger, cabs 67% more rigid. Front wheels and tires are precision-balanced. And that new suspension cushions jars and road shock that used to spell slow death for the truck's body and sheet metal.

More comfortable cabs!

Easier to hop in and out of too. Many models are a whole 7 inches lower outside. Yet there's more head room inside, plus more width for shoulders and hips. More real comfort!



Big in the power department!



With the industry's most advanced gas-saving 6's. With high-torque Workmaster V8 performance in heavyweights. With new 6-cylinder or V8 power available in L.C.F.'s.

More models than ever!

New 4-wheel-drive models and tandems and high-styled Suburban Carryalls. It's the handsomest, hardest working Chevy fleet ever to report for duty. See your dealer soon for a ride!

Anything less is an old-fashioned truck!

St. Paul Markets

South St. Paul Livestock Market Reports, Monday, Sept. 14

Slaughter Cattle and Calves: Monday's cattle supply approximating 7,500 head was the largest since early December, 1958. Fully 75 per cent of the run was comprised of slaughter steers and heifers; cows made up approximately 20 per cent while stocker and feeder classes were included in the remaining 5 per cent. One major packer remained out of the trade due to the strike. Demand for slaughter steers and heifers proved insufficient to handle the large supply. Sales on steers were weak to 25c off, while heifers recorded 25-50c downturns. Cow prices were steady with Friday's price advance. Sales on bulls were uneven with most Commercial and Good grades finding outlet at 50c lower levels.

Steers and Heifers: Shipments of average-Choice 1,165 lb. and 1,258 lb. slaughter steers sold at $28, average-Choice 1,132 lb. offerings were noted at $27.75. Most low to average-Choice steers cashed at $27-27.50, Good $25.50-27.00, Standard grade steers moved at $ 21-24.50, while Canner, Cutter and Utility grades brought $15-20.00. Choice heifers bulked at $25.75-26.50, mostly average to high-Choice 908, 930, 940 and 957 lb. heifers reached $26.50. Good heifers turned at $21.50-25.50, Sandtard grade $21-23.50, Canner, Cutter and Utility grades at $15-20.00.

Cows and Bulls: Native boning type cows comprised a small portion of the cow run while close to 600 head of western range offerings made up the big end. All grades of cows found good outlet from start to finish. Sales on Utility and Commercial grades ranged from $16.50-18.00, Canner and Cutter grades $13.50-16.00 with some borderline Cutter and Utility offerings selling up to $16.50. Thin Canner cows sold down to $11.50.

Vealers and Calves: A few high-Choice and Prime vealers reached $33.00, Good and Choice grades bulked at $28-32.00. Standard vealers were taken at $23-27.00, Cull and Utility $17-22.00.

Stockers and Feeders: 12 loads of mostly two-year-old feeder steers and heifers and some stock cows made up the greatest share of the stocker and feeder run. The feeders graded Good and Choice and remained unsold at Monday noon. Most stocked and feeder prices were generally steady. A large shipment of Good 675 lb. stock steers cashed at $26. Medium and Good 800 lb. feeder steers scored $24. A 44-head string of Good and Choice 370 lb. stock steers cashed at $35. A large shipment of Common and Medium 401 lb. Holstein stock steers made $25, while another sizable shipment of same grades heifer calves weighing 300 lbs. sold at $21.00.

Hogs: The hog estimate for the opening session of the week was posted at 11,000. Mixed U.S. No. 1, 2 and 3, 200-250 lb. barrows and gilts sold during the day at $13.25-13.75 with most forenoon sales at $13.50 while closing sales were made largely at $13.25, few $13.50. U.S. 1 and 2 offerings cleared at $13.75-14.25, mostly $14.00 and up.

Sheep and Lambs: Sheep and lamb receipts revealed a seasonal expansion with around 3,500 expected here while the 12 markets had about 63,500. Most of the Good and Choice spring slaughter lambs sold at $21-21.50, and a part-deck of most Choice selling at $22.00. Utility and low-Good spring lambs moved at $17.50-20.50.

GROWING WITH YOUR CHILD

Institute of Child Welfare
University of Minnesota

Learning and Changing

As children grow older many of the changes which occur in their behavior often go unnoticed. This is most true of the changes in height and weight and general appearance which we simply accept as signs of "growing up." Such signs are welcomed by parents because we see our children becoming more like us or more like what we hoped they would become. And when parents are happy with the changes they see in their youngsters, they tell this to the children in many ways, and so encourage and assure them that the alterations are natural and proper and highly desirable.

Social scientists are agreed that middle-class Americans encourage early independence in children. Remember how we welcomed the early signs of growth and development in our youngsters; how strongly we encouraged the toddler to walk by himself, to feed and dress himself, and to take care of himself as much as possible as early as possible. We welcome the early signs of growing up.

But what about the later signs? Don't we sometimes forget that since learning involves change, we should expect our children to be different from month to month and year to year. If they aren't, chances are they haven't learned. It's more likely, however, that we haven't noticed or would rather not see the changes anymore. The transformation which takes place during the school years, gradually makes our children our equals in many respects, and makes us a parents quit a bit less necessary. For some parents this is a hard pill to swallow.

Anyone who lives with teen-aged youngsters must either accept and encourage the changes which make it possible for adolescents to come out "from under" our protecting wing, or stubbornly close his eyes and refuse to encourage further learning and changing. (As though, by so doing he could stop it!)

4-H CLUB NEWS

New Solum 4-H Club

The New Solum 4-H club met at the Rosebank school Friday, Sept. 11. Carolyn Copeland was in charge of the meeting in the absence of the president and vice president. Roll call was answered by a health rule. There was group singing for the program and the Copeland family served the lunch. For the business of the evening there was discussion on a picnic that will be held at the Elmer Kron farm Sunday, Sept. 27. On the recreation committee for the picnic are the junior leaders and Mrs. Bert Kron, on the lunch committee are Mrs. Copeland, Mrs. Dahl and Mrs. Holmstrom. Business that will be taken up at our October meeting will be the election of officers and enrollment; the parents are in charge of the program and pot luck lunch will be served.

Elaine Hellquist, Reporter

Sanders 4-H

The Sanders 4-H club met on Wednesday evening in the town hall for the September meeting. President Marcia Nelson called the meeting to order. The usual business was conducted. It was decided to have a hay ride and a committee of Loren Swanson, Leslie Swanson and Kathy Wold was appointed to plan it.

A demonstration was given by Barbara Wold and project talks by Linda Cameron and Kathy Wold. Group singing made up the remainder of the program and recreation was enjoyed by all. Lunch was served by the Hoefer family.

The Bethlehem Ladies Aid will meet at the church Thursday evening, Sept. 24, at 8 p.m. A program will be given and lunch will be served by the members.

Lloyd Nelson and Milton Leiran were among those who attended the 4-H Leaders' Council meeting at Thief River Falls Monday evening of last week.

Melvin Torgerson accompanied by his daughter Grace, JoAnn Klungness and Barbara Kaushagen left Tuesday for Moorhead, where the girls resumed their studies at Concordia college. Barbara is a senior and JoAnn and Grace are sophomores this year.

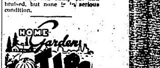
Mrs. Clifford Nelson and Mrs. Carl Torgerson visited at the Obe Omlid home Monday afternoon.

Danny Nelson was an overnight guest Thursday at the home of his friend, Lavern Nahben. Lavern spent Monday evening with Danny.

MANY HURT IN CAR ACCIDENT

(Karlstad Advocate)

Mrs. Willard Anderson and children, Cheryll, Lowell and Kristie of Svea township, west of Kennedy, and Ed Kihlstadius, of Pencer, in Roseau county are all patients at the Drayton hospital as the result of an accident on Highway 11 west of Donaldson last Tuesday afternoon.



Mrs. Anderson and the children were on their way to Drayton when they had a flat tire. Mr. Kihlstadius stopped his car and got out to help replace the tire when a gravel truck, driven by Roy Ellason of Donaldson hit the Kihlstadius car and then hit the Anderson car with such force that front truck tire tore into the Anderson trunk and pushed the back seat of the car into the front seat.

Mr. Kihlstadius was hit and had a badly broken hip, bruises and lacerations. The two Anderson children who were in the back seat of the car, miraculously escaped death, but all three were badly bruised and cut. Mrs. Anderson was rendered unconscious and was badly cut and bruised, but none is in serious condition.

Gourds

With their great variety of colors, shapes and uses, gourds have become increasingly popular for home decoration.

It's generally a good idea to leave gourds on the vines until after a light frost. Mature fruits should be cut off with the stems attached. You can usually detect maturity by a browning and drying of the stem. Often the fingernail test is used to determine the hardness of the skin. However, taking off a bit of the skin with the fingernail may blemish an underripe gourd and destroy its future ornamental value.

After harvesting the fruits, wash them with soapy water and rinse in clean water to which you've added a household disinfectant. The disinfectant will help control the organisms that often cling to the shell.

Next spread the gourds out on several layers of newspapers in a warm, dry place to allow evaporation of the surface moisture, to let the skin harden and to set the color. This process usually takes about a week, during which time the fruits should be rotated frequently so they will dry uniformly.

The curing process is completed by wiping the gourds clean and placing them in a warm, dry, but dark room for three to four more weeks.

After the gourds are cured, you may want to give them a coat of wax, shellac or varnish. Several applications of water-base wax, each followed by a brushing with a soft cloth, will accentuate the natural color and produce a slight gloss. The waxing is an inexpensive treatment that dries within a few minutes.

ADDITIONAL LOCALS

Mrs. Elmer Olson of Two Harbors, formerly of this city, spent this past week visiting at the Harold Buck home and with other relatives and friends.

Sgt. and Mrs. F. A. Harris and family of Anchorage, Alaska will leave for their home soon. They have spent the past two weeks at the home of Mrs. Harris's parents, Mr. and Mrs. F. D. Voth.

Mr. and Mrs. Wallace Vagel and family spent the weekend in Kennedy at the home of Mrs. Vagel's mother, Mrs. Julius Engquist. They also visited with Mr. Engquist who is confined to the Hallock hospital.

Mrs. Anna Foss and son Gordon of Edmonton, Alberta, Canada and Mrs. Art Peterson of Hilda and Anna Ahlberg Friday afternoon.

Prowlers Beat Scrappy Eagles by 21-6 Score

The Red Lake Falls Eagles were all fight and claws when they came out on the Riverside Park field in Red Lake Falls on Friday night to meet the Prowlers in a district conference football game, and the locals were very fortunate to be able to mark up a 21 to 6 win over coach Andy McCarthy's scrappy squad.

The Prowlers will engage in another rugged tilt this week when, on Friday night in the Memorial Stadium on the University of North Dakota campus in Grand Forks, they meet coach Harold Sullivan's East Grand Forks Little Green Wave. The game is a Northwest and district conference game. East Grand Forks, last Thursday night, dropped a 14 to 12 decision to the Bemidji Lumberjacks in a game played at Grand Forks.

With a drizzle prevailing thruout the first half of play at Red Lake Falls on Friday night, and a wet field marring the play throughout, the ball handling proved hazardous to the Prowlers and the Eagles, and several costly fumbles were made. At times it appeared that the ball had the slippery characteristics of a greased pig.

The Eagles jolted the Prowlers by scoring in the opening minutes of the game. The locals, winning the toss, chose to receive, with Red Lake Falls electing to defend the east goal. On the first play from scrimmage, from the Prowler 30-yard line, the locals fumbled, and the Eagles recovered.

A pair of running plays carried to the 20-yard line, for a first down. On a well-executed pass play, Tom Byers flipped a pass out to the left to speedy Jim Fellman, who made the catch on the 10-yard line and outsped the defense for a TD. The try for the extra point failed, with a pass being incomplete, and the Eagles held a 6 to 0 lead.

The most sparkling play of the game occurred just at the end of the period when, from the Prowler 27-yard line, Dale Wennberg cut through right tackle and side-stepped through the secondary to race seventy-three yards for a touchdown. Wennberg added the conversion point on a sneak over center, giving the Prowlers a 7 to 6 lead.

The Prowlers added another second period touchdown when, on a quick kick, Red Lake Falls fumbled the ball with the Prowlers recovering on the Eagles' 17-yard line. Gary Klungness swept right end for fourteen yards, to the 3-yard line. Jeff Hartje hit tackle for two yards, and then Wennberg pushed over for the touchdown. Klungness drove through left tackle for the point, giving the locals a 14 to 6 halftime lead.

The Eagles controlled the play in the third period and with Fellman, Bill Philion, and Byers carrying the ball, Red Lake Falls marked up three first downs, lugging the ball to the Prowlers' 32-yard line, where Benji Martin halted the drive by recovering a fumbled lateral pass play.

Midway in the fourth period a high pass from center prevented Jason Huseby from getting off a fourth down punt, and the Prowlers gained possession on the Eagles' 39-yard line. With the forward line blocking crisply for the first time during the game, and with Jeff Hartje carrying the ball on six of the eight plays from scrimmage, the locals moved to the 2-yard line. Wennberg's ten-yard sweep around left end, was the big gainer in the sequence as the Prowlers churned up yardage. From the two, Wennberg crashed center for the TD. A pass, Wennberg to Peter Iverson, added the point, and the locals held a 21 to 6 advantage.

The Eagles tried desperately to score a touchdown in the remaining minutes. And a passing attack, with Byers hitting targets Huseby and Ted Fladeland, a pair of rangy ends, moved the ball from the Eagles' 39-yard line to the Prowlers' 31-yard line. Just as the game-ending whistle sounded, Darrell Nelson intercepted a Byers pass to snuff out the threat.

Greeks Had a Word

The Greeks had a word for their favorite beverage of beer: zythos. Beer was well known and esteemed by the ancient Greeks, having been taught the art of brewing by the Egyptians. Even Sophocles, noted Greek playwright, included beer as a part of his "ideal" diet.

Serving Tip

Once beer has been chilled, it should not be returned to room temperature. If chilled beer is not used, don't remove it from the refrigerator. Store it there until required, for the change to room temperature may harm its delicate flavor.

Early State Brewers

Among the century-old respected business firms in Minnesota is the Gluek Brewing Company. Its founder, Gottlieb Gluek, arrived in Minneapolis during the panic of 1857. With typical Minnesotan faith in this region, he stayed to open his own brewery, augmented by modest savings plus a thorough knowledge of brewing learned in his home province of Wuerttemberg, Germany, and in the breweries of France. He utilized the cool natural caves of Nicollet Island on the banks of the Mississippi River to age his beer. Today, over 100 years later, the now thoroughly-modern firm is still owned by the Gluek family, and the fourth generation is active in its management.

Track Squad Starts Cross Country Run at Detroit Lakes

Ten candidates have reported to Prowler track coach Rod Max and have begun drills in preparation for the 1959 cross-country schedule. The schedule will begin on Friday, Sept. 25, with the Prowlers travelling to Detroit Lakes for an inter-school match against the Lakers.

The ten-man squad—three seniors, two juniors, and five sophomores—is headed by Dave Hauswirth, a senior, who is the defending regional champion. Other seniors are Russ Moga and Don Ranstrom. The juniors are Jim Hageman and LeRoy Udstrand; while the sophomores are Jack Houfek, Dave Jones, Jim Ewing, Mike Aune, and Larry Poole.

The cross-country schedule:
Friday, Sept. 25, at Detroit Lakes.
Wednesday, Sept. 30, Oak Grove at Fargo.
Tuesday, Oct. 6, Moorhead Invitational at Moorhead.
Tuesday, Oct. 13, Thief River Falls Invitational, here.
Thursday, Oct. 22, District tourney, here.
Saturday, Oct. 31, Region Eight meet, here.

Confiscated Sport Equipment Brings State $6,012.95

The game and fish fund was enriched by $6,012.95 last week as a result of an auction of confiscated sporting equipment, seized by game wardens for game and fish law infractions, reported Theo. Fischbach, confiscation supervisor.

An estimated 2,500 persons attended the sale which was held in the 4-H club building in the state fair grounds.

Listening to the chant of veteran auctioneer David H. Levine were bidders from every section of Minnesota. More than 250 articles consisting of shotguns, rifles, fishing rods, reels, spears, etc. were sold to the highest bidders.

A Fine Program

We are in receipt of a welcome and interesting letter from Connie Stanbridge of Sheridan, Wyo. Stanbridge, who played hockey with the Thieves in the late 1930's, and who coached the Prowlers in the first state high school hockey tournament in 1945, explains that Sheridan, a city of about 15,000 population, won the state American Legion junior baseball championship.

He adds, "We have quite an organization here now to produce ball players. The Quarterback club puts on the Little league and the Babe Ruth league program, and also donates from three hundred to seven hundred dollars a year to the Legion team. We had thirty-seven Little league teams this year. Then we put on a three-day tournament after the league play was concluded in which all the teams competed and to declare a champion.

"We finance the program through the sale of Christmas trees and most of the merchants cooperate with us. Primarily, of course, the club is a football organization so we try to film at least four or five games for the local coach so he can show his team the mistakes they have made. He is very grateul to the club.

"It certainly seems to bring results because last year we had the state football, basketball, baseball, and track champions here. What makes it such a good program is that the budget is only about $3,500.00, but all the fellows turn out when they can lend a helping hand.

"Most of our other organizations cannot put on as extensive a program of their own, so most of them make a donation to our club, not very much but every little bit helps.

"I thought maybe some of the suggestions that I have mentioned might help your local organization get into the swing. You will be surprised at the talent it digs up when the kids know that somebody is taking an interest in them, and the effect it has on juvenile delinquency. Of course it the first couple of years that are the hardest, as equipment has to be purchased and insurance secured to cover the boys, but it is surely worth the cost and the trouble."

Al Berge, Please Note

We had an opportunity to examine and study an affidavit issued by the Fuller's Tackle Shop at Park Rapids, and which stated that on or about August 26th, one Martin C. Gulbranson caught a 2-pound, 6-ounce brook trout.

This trout, one of the finest natives to be reported and entered in the big-fish contest sponsored by Fuller's, was caught on a minnow.

Martin, who is one of the city's most avid trout fishermen, isn't secretive about where he caught this brook trout, advising that it was east of Mahnomen. That's quite a concession from a trout fisherman!

And not only did he catch this 2-pound, 6-ounce trout; but he returned to the creek the following week and caught a 2-pounder.

A Welcome Visitor

A visitor in town on Saturday evening was Joe Popiel of Winnipeg. Old time senior hockey fans, those who witnessed the Thieves in States-Dominion action back in 1937, '38, '39 and '40 will remember Joe as being a wingman on the "pony" line.

Joe, who still looks like he can take his turn on the ice, was always a hustler, and he had as his line-mates Joe Novak at wing and Paul Kornek at center. Joe relates that Paul lives in Winnipeg, being employed by the CNR, and that Joe Novak died some years ago.

A Snare and a Delusion

And it verges on outright fraud. The opening of a thirty day season on sharptailed grouse, we mean.

We wonder if Jim Kimball, the director of game and fish, would be so kind as to provide us with the names and addresses and the fact-sheets of the state game wardens and biologists who recommended the opening of a season on sharptails and for thirty days.

If the majority of the game wardens and biologists in this area did make such a recommendation, and upon proper foundation, then we will accept the season. But if the majority of the wardens and biologists did not make such a recommendation, then upon whose recommendation was this thirty-day season declared? The commercial interests, perahps? Or was it to add incentive to the sales of hunting licenses?

The fellows who will be taking the rap for the continued depletion of the sharptailed grouse are the youngster who are coming up through the grades and on into high school. Unless some action is taken, these fellows won't have any sharptailed grouse hunting; and sharptailed grouse hunting is ideal for sturdy-legged youngsters. As this area is beyond the prime pheasant hunting territory, the only hope that the youths have is for sharptailed and partridge hunting.

A Note

Don Joppru's mother informs us that the injury that forced Don's hospitalization last week was in no way connected with his minor mishap at the speedway. She stated that Don was feeling ill when he arrived at the track, and an attempt was made to dissuade him from competing but "he couldn't be talked out of it".

Duck Population Down Northern Survey Reveals

Aerial surveys just completed in northern areas of the three prairie provinces indicate a 15-25 per cent decline in the overall duck population. Geese are little changed from last year . . . Heavy concentrations have moved down from the north and large numbers of blue-winged teal, pintails and some mallards have already migrated south into the United States.

These are significant excerpts from the September issue of the Ducks Unlimited "Duckological", prepared by Chief naturalist Bert W. Cartwright.

The report indicates that two of three aerial survey parties found excellent duck populations. Survey No. 1, covering the largest portion of northern Alaska, observed more ducks than ever before. Survey Two found more ducks, except for mallards, in northern Manitoba and the eastern portion of northern Saskatchewan. The No. 3 party, covering most of northern Saskatchewan and part of eastern Alberta, found "a serious decline as compared with last year".

Exams for Coast Guard Academy Held in 120 Cities

The 84th annual examination for admission to the U. S. Coast Guard academy, at New London, Conn., will be held February 23 and 24 in 120 cities of the United States, its possessions and selected cities abroad. Successful applicants will be admitted to a four-year course of instruction at the academy which has provided career officers for the regular Coast Guard since 1876.

Appointments to cadetships at the Academy are made solely on the basis of competitive examination and prospective adaptability to military life. There are no congressional appointments or geographical quotas.

An applicant must be a high school senior or graduate, who has reached his 17th but not his 22nd birthday on July 1, 1960. Applicants still in high school must graduate and earn 15 units by June 30, 1960. The units must include three in English, two in algebra and one in plane geometry. Applicants must be in excellent physical condition, between 64 and 78 inches in height, with proportionate weight, and have uncorrected 20/20 vision in each eye.

ANOTHER MINK RANCH STARTED
(Oklee Herald)

Another mink ranch is springing into being. Ray Jensen of Oklee bought the H. N. Genereux farm near Brooks and will move his residence from Oklee and will also build a meat freezer and mink sheds. Construction of foundations is now under way.

Ray has been in partnership with his brother, Alvin, in the raising of mink at the north edge of the village for a number of years. Alvin will carry on the present operation and also plans to build a new home on the foundation of the present Ray Jensen house.

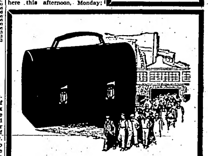
Prowler Golfers Win at Bemidji and Cloquet

Coach Jack Boyer's Prowler golf squad returned on Saturday night from a two-day swing into the Iron Range and a pair of matches against Bemidji and Cloquet.

On Friday, playing tne Lumberjacks at Bemidji, in a match play affair that credited one point for the first nine, one point for the second nine, and one point for the eighteen, the Prowlers, by a 12 to 6 margin, defeated Bemidji. The Prowler scoring found Ron Solheim carding a 79, Mark Chommie an 85; Bob Brown an 88, Ron Kvikstad a 90, Curt Johnson a 92, and Richard Thompson a 104. The Bemidji scoring found John Griffin posting a 79, Bob Kennedy a 91; John Layton an 87, Tom Eggers a 100, Mike Carpenter a 108, and Red Chandler a 109.

Playing at Cloquet on Saturday, in a three-man low-score competition, the Prowlers defeated Cloquet, 132 to 136. Solheim marked up a 40, and Brown and Kvikstad had 46's. For Cloquet, Bob Kurki had a 44, Tom Canfield a 43, and Jay Newby a 49.



The Prowlers will engage a pair of matches this week, meeting the Crookston Central squad here this afternoon, Monday; and meeting Warren and Bemidji in a tri-school match on Tuesday afternoon, also on the local course.

YOUR MARKET
... in this LUNCH BUCKET

The thousands of lunch buckets carried by the iron miners of Minnesota represent a huge market for Minnesota agricultural products.

Each year, more than $37,000,000 is spent for groceries by the 33,000 northern Minnesota families who depend upon iron mining and related industries for their livelihood.

Iron mining makes this market possible.

Today, the Iron Mining Industry is changing. Will this change mean growth or decline? The industry is working to achieve growth. Growth through research and experimental work. Growth designed to utilize Minnesota's vast resources of low-grade iron ore. If this growth materializes, the industry will continue its major role in our State's economy.

How much ore the Iron Mining Industry produces—how many jobs it provides depends upon many factors. Vital among them is the attitude of the people of the State. This is called business climate. If those factors are right, Minnesota's iron ore industry will continue to produce iron ore for many years, while providing jobs and markets for thousands of people in our own State.

Testing Necessary Because Fertilizer Need Varies Greatly

Soil testing is sure-fire investment insurance, a way to be sure your fertilizer dollars are making the most money for you. That's a simple lesson Art Trahms learned as a member of the Waseca County Farm and Home Management association.

Trahms says that without the soil test he would be treating all the land alike on his 210-acre farm. And that would mean too much fertilizer on some fields, not enough on others.

Take this year's soil test results for the Trahm farm, which are recorded in his "Crop Yield, Soil Test and Fertility Record" book. "Available potash" in his soil varied from 70 pounds per acre in one field to eight times that much in another. Phosphate varied widely, too.

The "Record" book—a simple year-by-year and field-by-field record of fertilizer needs and treatments worked out by association agent also shows the fertilizer recommendations that Christenson made on the basis of the soil test. He advised as little as 40 pounds of potash per acre on some fields, and up to 120 pounds on others.

"Without soil tests here, we'd have really missed the boat on this farm," Christenson says. "I probably would have recommend 10 pounds of nitrogen, 40 pounds of phosphate and 40 pounds of potash as a starter on corn.

"As you can see from the soil test results, that would have been 80 pounds short on some fields."

Here's how Trahms sums up the value of soil testing besides pointing to his 90-bushel-per-acre corn yields: "It really tells us where we're at in soil testing."

He plans to join thousands of other Minnesota farmers this month by testing soil during the University of Minnesota's Fall Soil Sample Roundup. He says that soil tests are always good profit-boosters — but it's extra easy and results are speedy if you take the samples in the fall.

Pontiac Holds the Line on Prices of New Models

Factory list prices for the 1960 Pontiac line cars were announced Friday by S. E. Knudsen, General Manager. Pontiac prices have not been increased over 1959 levels although important styling and engineering improvements have been incorporated, he stated.

Mr. Knudsen disclosed that the 1960 factory list prices of the heater and radio and other optional equipment have been reduced. With these reductions, he said the price of a 1960 model equipped with popular options can be as much as $32.00 lower than that of the corresponding 1959 model similarly equipped.

Mr. Knudsen said that an oil filter has been added as standard equipment on all 1960 models at no extra cost. The oil filter was available on 1959 models at a list price of $9.00.

The new Pontiacs will go on sale at dealers' showrooms across the country on October 1.

Mr. Knudsen also announced an addition to the 1960 line, a new series, the Ventura, which will be offered in two and four-door hardtop models. The series will on a 122" wheelbase and will be priced between comparable body types of the Catalina and Star Chief series.

September 30th is Final Day for Wool Balloting

Pat Culkins, manager of the Pennington County ASC office, today reminded wool growers that all ballots in the wool and lamb market development referendum must be voted not later than Wednesday, September 30.

The referendum has been conducted throughout September to give all growers ample opportunity to vote. Ballots were mailed to all known wool and lamb producers. After the ballot is voted, it should be mailed or brought in person to the county office. If the ballot is mailed, it must be postmarked not later than Sept. 30, 1959.

In the referendum, farmers who produce wool have the opportunity to vote YES or NO on approval of a new agreement between the Secretary of Agriculture and the American Sheep Producers Council for the advertising and sales promotion of lambs and wool. If the agreement is approved, deductions will be made from government wool and lamb payments for the 1959, 1960 and 1961 marketing years to finance the Council's activities.

Deductions for this promotion have been made each year since the wool incentive program began in 1955. Deductions amount to 1 per cent per pound for shorn wool and 5 per cent per hundredweight for unshorn lambs and may be no higher than that if the agreement is extended.

An eligible voter in the referendum is any individual, corporation, partnership or legal entity which had an interest as owner or partial owner in one or more sheep six months of age or older for any period of at least 30 days from Jan. 1, 1959 until the day his ballot is cast. Any wool grower who believes he is entitled to vote and has not received his ballot should notify the county ASC office.

Extension of the agreement requires a favorable vote by growers having two-thirds of the volume of production represented in the referendum.

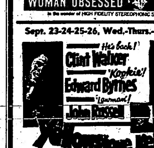
More Employment Opportunities for Aged Predicted



Greater employment opportunities for older people, especially during the next decade, are forecast by the National Association of Manufacturers.

NAM said that the nation's labor force is expected to increase ten million in the next ten years and that two and one-quarter million of these workers likely will be men and women over 55 years of age.

Because of the low birth rate in the 1930's there will be fewer available workers in the 25-44 age group and this will widen the market for older workers.

NAM which has presented its findings to the Senate Labor Committee's subcommittee on problems of the aging, pointed out that the proportion of older workers in industry has been growing steadily and today is at the highest point in history.

This employment trend has been stimulated by NAM which for decades has urged businessmen to hire on the basis of skills and abilities rather than on an arbitrary age factor. Thirty years ago the association began promoting the employment of older workers and since that time has periodically surveyed its member companies to determine actual on-the-job performance of such workers.

Small and Medium Eggs are Best Buy During this Season

For the best buy in eggs this season, select small and medium sizes. Eggs of these sizes are always in unusually heavy supply at this time, reports Mrs. Eleanor Loomis, extension consumer marketing agent at the University of Minnesota.

The small eggs are commonly known as pullet eggs because they are produced by the chickens—now pullets—that hatched in the spring. Because these small eggs are the first eggs a hen lays, they are the highest possible quality, according to Mrs. Loomis.

How can you tell when small or medium-size eggs are a better buy than large eggs? Mrs. Loomis gives this guide:

Small-size or pullet eggs weigh 18 ounces (minimum) per dozen, or about a fourth less than large eggs which weigh a minimum of 24 ounces per dozen. Small eggs are therefore a more economical buy than large eggs when the price is over a fourth less than that for large eggs. Medium eggs, which should weigh a minimum of 21 ounces per dozen or an eighth less than large eggs of the same quality.

Small or medium eggs may have another advantage besides price. These eggs served for breakfast, Mrs. Loomis says, may be just the right size to the children of the family.

Transportation Aids Discussed at Hearing

The interim Commission on Education held its second meeting at the state capitol Friday, September 11, to consider transportation aids. T. J. Berning, assistant commissioner of education, believes there may be too many different kinds of aids. It is felt that the number of different aids should be reduced substantially, and the method of payment should be revised. Mr. Berning stated the department favors school district-owned buses because the district could exercise better control and they prove less costly.

Lawrence Merrill, Faribault, a private bus operator and secretary of the private bus operators association, urged that uniform design and equipment standards be adopted for all school buses.

The highway study group meets next at 9:30 a.m. Monday, Sept. 21, Capitol Room 113. At 10 a.m. Thursday, Sept. 24, the Upper Mississippi Reservoir and Minnesota River Valley body meets in the same room, and at the same hour the next day, September 25, the Forest Resources group meets there.

Fine, All-purpose Apple . . . .

Editorials . . .

"Having kept up fairly well with the so-called progress of our educational system in small-town America, as reported in country newspapers, I am becoming increasingly convinced that all the fancy school buildings, the demands for more and more extracurricular facilities, the unimaginative requirements for teachers, and the insistence upon higher education for all nit-wits, has resulted in little progress. . . . In my opinion, a group of 15 to 20 children, gathered together in a small building for the sole purpose of learning, and taught by a teacher who is more concerned with their welfare than her own, would still get a much finer education than is available in our present million-dollar monuments to learning." —Don Robinson of The American Press.

Better Than the Moon

It was on September 17, 1787, that a Convention, called for that purpose, completed the drafting of the American Constitution. This week, therefore, has appropriately been designated as Constitution Week, and we are asked to give some thought to the importance of this Constitution as the foundation upon which our system of government has been built.

Until the present Constitution had been adopted, following the successful termination of the struggle for independence, the colonies had been banded together in a loose organization formed under the provisions of an agreement known as the Articles of Confederation. Under this confederation, the federal government had little authority. Each state maintained its sovereignty and it soon became apparent that unless a strong central government were created these states would drift apart and each one go its own way. It was by the adoption of our Constitution that our United States of America really came into being. The first session of Congress under this new government convened September 25, 1789, eleven years after the ineffective Articles of Confederation had been adopted.

The preamble to the Constitution says much in a few words. It reads:

"We, the people of the United States, in order to form a more perfect union, establish justice, insure domestic tranquility, provide for the common defense, promote the general welfare, and secure the blessings of liberty to ourselves and our posterity, do ordain and establish this Constitution for the United States of America."

It was "We, the people," who did thus declare, and the representatives of the people who drafted the document did a masterful piece of work in establishing a system of government that provided the strength and rigidity to maintain its authority and yet have sufficient flexibility to adjust gradually to the changing needs of new conditions. They incorporated into this government a system of checks and balances that has restrained us from extremes, encouraging the processes of deliberation rather than passion in making important and difficult decisions.

They established a system of division of powers between the federal government and the states that has worked out surprisingly well during a period of 170 years of trial and error. All authority that was not specifically delegated to the federal government was reserved to the states — and to the people. Always supreme in the Constitution are the people, the only limitation on their powers being the limitations of time. They have the right to change the Constitution itself, but the changes must come by orderly procedures and not by force.

It is a great document, establishing the fundamental rights of both majorities and minorities.

When Nikita Khrushchev arrived in Washington, he gave to President Eisenhower a miniature moon as a symbol of Soviet achievement. We can think of no more fitting gift for President Eisenhower to present to Premier Khrushchev, when he takes his departure, than a copy of the American Constitution. That Constitution would be worth much more to the Russian people than a rocket to the moon.

Refreshing Approach

Northfield staged a celebration last week commemorating the bank raid by the Jesse James gang back in 1876, for which the town has since been almost as well known as it has for its cows and colleges. Judging from the report of the celebration by the Northfield News, the Jaycees did a good job as the sponsoring organization. A Hollywood TV actor and singer who had a Northfield background had a leading role as one of the law men.

Interesting thing about the reproduction of this historic event was the fact that Jesse James and his gang were not glorified as modern Robin Hoods. The celebration was billed as Defeat of Jesse James Days, and the emphasis was on the brave citizens who destroyed the outlaws. That was a refreshing approach.

Let's Have All The Facts

A federal grand jury has indicted several Minneapolis underworld characters for misconduct that has extended over a period of years and that has been referred to suspiciously by Twin Cities newspapers from time to time. The action by the federal agency comes as no surprise to the people of Minnesota, many of whom have been wondering from month to month and from year to year, how long it would be before an attempt would be made to bring these people to justice.

[illegible], under the circumstances, [illegible] why such action has been so long delayed? We think it is fair to ask why have not the officials of the City of Minneapolis, or of the County of Hennepin, or of the State of Minnesota, shown more interest in the activities of these suspicious characters.

Possibly they have not been negligent. Maybe they have cooperated quietly but effectively with the federal agency that now has moved in to determine whether the many rumors are based on actual facts. If so, they should reveal their activities and lend support to the conviction of men who are charged with a great swindle and other crimes.

Minneapolis has no reason to be proud of its record in this matter. No city that has permitted known criminals to move about and operate in complete freedom can boast of being a clean city. Considering the fact that racketeers have had too much to say about running the city of Minneapolis, and that Minneapolis is the city that controls the State of Minnesota, we have a right, out here in the sticks, to get a report on why this condition has been tolerated.

Time Now for Debate

The League of Women Voters of Minnesota is pointing up some things said to be wrong about the reapportionment amendment that will be submitted to the voters in the next election. The League's reapportionment expert and legislative lobbyist, has summed up her ideas of the good points and the bad, in a publication sent to members throughout the state.

The League is performing a good service in bringing this issue before its members in ample time to assure calm consideration and thorough discussion of the questions involved. In calling attention to the report, John McDonald, in his Minneapolis Tribune column, indicated that, while it is not favorable to the amendment, it does not oppose the objective. There is no reason to question the sincerity of such an approach.

If the proposed amendment, as it is drafted, has serious shortcomings that would detract from its effectiveness as a permanent guide to reapportionment in the manner intended, then the necessary corrections should be made before it is submitted. The only way to find out whether the alleged defects are real is to get opinions on the objections from those who are competent to judge.

If we are in agreement on the objective, it should not be difficult to agree on the phrasing of an amendment that would make it possible for reasonable people to proceed in the manner intended.

Two Ways To Look At It

(The Soo-Liner)

On July 5 an auto driver-owner with four others left the highway near Buffalo, Minn. in the wee hours of the night and found themselves in the ditch. Looking skyward the driver saw an embankment and up and up he forced the old car to go. Finally he got out to look and found the front wheels had somehow gotten over the railroad tracks and there the car was hung up.

The whole gang left the car and the scene to get help. In the meantime a freight train came along and luckily the automobile was pushed aside out of the way without causing an accident.

Now read what we saw in the Buffalo Journal-Press:

"Dale R. Stenseth, Soo Line depot agent at Buffalo, brings up a good point in a letter to the Journal-Press when he states: "Regarding your story in Thursday's paper, you mention five in a car escaping injury in a car-train accident on the Soo. There were five other humans on the train involved that likewise were fortunate to escape with their lives."

The Soo Line agent then rewrites the Journal-Press story of last week to read as follows:

"The heading 'Five Escape Injury When Car Nearly Wrecks Soo Line Train.' And then his story—"The engineer, fireman, two brakeman and train conductor all escaped injury early Sunday morning when their train struck a car which had somehow gotten onto the tracks instead of the nearby roadway where it belonged. The train was traveling eastbound about 50 miles per hour when it came upon the auto and the crew was helpless to stop in time—only being able to hope and pray that the auto would not derail the train. Thankfully, only the auto was demolished." Signed by D. R. Stenseth, agent, Soo Line, Buffalo, Minn.

Mr. Stenseth's story contains a pretty good point, since there are two sides to the story. Depends on how you look at it.

A New Ike Emerges

(Faribault Daily News)

One of the encouraging developments on the nation's political front is the emergence of President Ike Eisenhower into a trusted, respected world leader and a rugged fighter for the issues he thinks are right.

Maybe the "lame duck" bill passed a few years ago by congress limiting a U.S. president to two successive terms has had something to do with it. If a president knows he cannot seek reelection, he need not bow to the demands and whims of politicians in order to save votes. He can speak his mind without fear or favor and stick "to his guns" verbally and with action. At any rate Ike has left no doubt in the minds of even his severest critics that he is the nation's administrative leader.

To all appearances, Ike seems to have taken a new lease of life. He has been hailed abroad as a president who has the best interests of the world at heart and not the bedraggled, ailing, shoved-around and washed-up president so many have been saying he has become.

Those political foes who have been trying to belittle him during his last term of office have been pushed into the background by the great acclaim accorded the former war leader on the fields where he displayed his military talents so effectively during the conflict in which Hitler's fantastic rise to fame and power was blasted.

It certainly looks as though Ike is going to wind up his service to his country in a blaze of glory despite all the petty sniping at his heels by disgruntled politicians.

QUESTIONS answered for VETERANS

Q—I am a registered plumber. As a Korean veteran, could I take a brush-up course in plumbing under the Korean GI Bill?

A—No. The law prohibits veterans training for objectives for which they already are qualified. And you certainly would be considered qualified as a plumber.

Q—When I took out my GI insurance I named an aunt as beneficiary. I have since married and naturally want my wife to be the beneficiary. Do I have to notify my aunt I am taking off her name?

A—No. In making a change of beneficiaries you need not notify anyone already so named. Selection of beneficiaries for your GI insurance is entirely up to you.

Q—I get a retirement pay check each month from the armed forces. Will the Government deduct the amount of my monthly GI insurance premium from my retirement pay, to save me taking care of this premium myself?

A—Yes. Veterans receiving service retirement pay may arrange for payment of GI insurance premiums by allotment. Authorization must be registered with your branch of service.

Q—I have been totally disabled for six months and have applied a waiver of premiums on my GI insurance policy. What will be the effective date of the waiver?

A—If your claim is allowed, the waiver will become effective as of the first premium-due date after the beginning date of your disability. This is the general rule. There are exceptions for those who wait an unusually long time before applying.

SANDERS . . .

Lee Wald returned home from the Deaconess hospital of Grand Forks Wednesday after spending ten days there.

Mr. and Mrs. Ray Krohn and Kermit drove to Grand Forks Saturday to bring Larry Krohn home.

B. B. Hammer and Mrs. Minnie Krueger of Minneapolis were supper guests Saturday at the Adolph Wald home.

Mr. and Mrs. Dennis Kezar joined with Mr. and Mrs. Sherman Johnson and Mr. and Mrs. Hillary Stoltman for a house-warming honoring Mr. and Mrs. Walt Leach Saturday evening. The honored couple were presented with a gift and pot luck lunch was served.

Girl Born to E. Yonkes Saturday

Mr. and Mrs. Everett Yonke are the proud parents of a girl born Saturday evening.

Mr. Clarence Moisknees, Jan Eitz and Susan and Mrs. Ole Thompson visited with Millie Ness Wednesday afternoon. Mrs. Thompson showed colored slides of their home, folks and scenic spots in and around Riverside, Calif.

Oscar Ness of Rockford, Ill. and Harry Ness of Thief River Falls were callers at the Ness Bros. and Olson Bros. on Monday.

Late Events in Middle River

Mrs. B. A. Hanson

PTA Association Met Wednesday

The Parent-Teachers Association of Middle River held its September meeting at the high school on Wednesday evening of last week with pastor James Hanson as its new president, Miss Amy Hjelle, secretary, and Mrs. Arvid Matero, treasurer. In the future the P.T.A. will visit in the band room on the first Wednesday of each month during the school year. The teachers introduced themselves by giving their names, home towns, the grades or subjects they teach and also where they received their education. A P.T.A. conference will be held in Red Lake Falls on Sept. 26th with registration at 8:30. Anyone wishing to go should call Supt. Prickett.

Donald Von Wold of Van Goon, Alaska, arrived Monday evening and is spending some time visiting with his brother-in-law and sister, Mr. and Mrs. Frank Anderson, and family.

Mrs. George Franzen entertained seven young ladies in honor of Janice's 12th birthday Thursday after school. Her guests were Margaret Nelson, Connie Hallquist, Judy Anderson, Susan Anderson, and Carol and Sherry Peterson. Lynn Walton was unable to attend. The birthday celebrant received many lovely gifts from her friends.

Mrs. Robert Rambeck of Goodridge was a Monday afternoon and overnight visitors at the Charles Josephson home.

Mrs. Selma Kortesmaki was hospitalized last week at the Northwestern hospital in Thief River Falls for medical attention.

Mrs. Eddie Johnson underwent an appendectomy at the hospital in Jamestown, N. D. last week.

Mr. and Mrs. P. J. Lillevold of Thief River Falls and granddaughter, Kathy Seelland of Emerado, N. D. were Tuesday evening guests at the Archie Prosser home. The occasion was Mrs. Prosser's birthday.

Pearl Pearson of Berkeley, Calif. was a weekend guest at the home of her sister, Mrs. Bertha Folden. She also visited a few days at the Sam Pearson home and at the John Pearson home at Warren. Enroute to California she will visit a few days at Robbinsdale and Minneapolis.

Mr. and Mrs. Eugene Hanson of Thief River Falls visited Thursday evening at the B. A. Hanson home. Mrs. Hanson had also visited in the afternoon with her mother, Mrs. Alice Hamness at Strathcona.

Three out of five U. S. farm homes had telephone service in 1958, a five percent increase since 1957 and up 32 per cent since 1950.

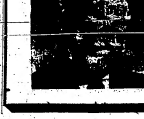
PEEKIN' into the PAST

The 'Rockaway'



These modern misses would have been a hit, even 88 years ago. You can tell by their carriage. And you can bet a hickory single-tree against a new neck-yoke that the "Rockaway" carriage was the luxury sedan of its day — about 1870.

The dashboard serves as a splash deflector, yet it does not obstruct visibility from the driver's seat; the sun visor, likewise. Four elliptical springs provided the kind of comfort that grandpa seldom enjoyed and the enclosed passengers' compartment kept out dust in the summer and snow in the winter.

Known as the "Rockaway," this type carriage was usually driven by a chauffeur but, unfortunately, not like the ones above.

COUNTY BOARD PROCEEDINGS

OFFICIAL PROCEEDINGS, BOARD OF COUNTY COMMISSIONERS PENNINGTON COUNTY, MINN. September 10, 1959

Pursuant to adjournment the Board of County Commissioners met in the Commissioners Room in the Courthouse at 10:00 a.m., September 10, 1959.

Members present: Hanson, Olson, Anderson, Lindberg and Tasa. All present.

Moved by Hanson seconded by Olson the Engineer Seidel be authorized to attend an American Road Building Association meeting in Minneapolis on Oct. 26-28, 1959. Carried.

Commissioner Tasa introduced the following resolution and moved its adoption:

WHEREAS, the County of Pennington appointed the Commissioner of Highways its agent to let a contract for the construction of a portion of County State Aid Highway No. 1 under Contract No. 9800, and

WHEREAS, said Contract No. 9800 has in all things been completed and the County Board being fully advised in the premises,

NOW, THEREFORE, BE IT RESOLVED, that the Commissioner of Highways be and is hereby advised that the work under said Contract has been performed and completed in an acceptable manner, that the Final Estimate now prepared for said work is true, just and proper.

BE IT FURTHER RESOLVED, that the Commissioner of Highways is hereby requested for and on behalf of the County to accept said work and pay said Final Estimate.

The foregoing resolution was duly seconded by Commissioner Lindberg and declared carried.

Commissioner Hanson introduced the following resolution and moved its adoption:

BE IT RESOLVED, that the Commissioner of Highways be and he hereby is authorized and requested to take such steps and perform such acts on behalf of the County of Pennington as may be necessary to have the construction and improvement of the roads hereinafter described properly approved by the Commissioner of Public Roads as a Federal-Aid Secondary Project eligible for the expenditure of Federal Funds thereon and eligible for present construction and letting of a contract therefor.

Description of Roads:

1. County State-Aid Highway No. 27; Grading and Gravel Surface.

Beginning at the Red Lake River, between Sections 10 and 11, T152N., R39W, Hickory Township; thence Northerly along the present established road and along or near the Section lines between Sections 10-11 and 2-3, T152N, R39W; Sections 34-35, 26-27, 22-23, 14-15 and 2-3 in T153N, R39W; Sections 31-33 in T154N, R39W to the Northwest Corner of Section 33, T154N, R39W, being the junction with T.H. No. 1 and there terminating.

2. County State-Aid Highway No. 21; Sand Lift and Bituminous Stabilized Base.

Commencing at the South County Line at the Southwest Corner of Section 24, T152N, R41W, thence Northerly along the established road as presently laid out and along or near the Section Lines between Sections 23-24, 13-14, 11-12, and 1-2, T152N, R41W, the Northwest Corner of Section 1, T152N, R41W, being the intersection with County State Aid Highway No. 3 and there terminating.

The foregoing resolution was duly seconded by Commission Tasa and declared carried.

Moved by Olson seconded by Tasa that the Road Committee and the Bridges and Culvert Committee inspect Roads and Bridges and Culverts at 8:00 a.m., September 29, 1959. Carried.

Letters from the Auditors of Beltrami County and Clearwater County were read to the Board indicating that the respective County Boards had seen fit to discontinue paying Bounties on Fox as a result of the action of the 1959 Legislature, which changed the reimbursement for such bounty payments and because Marshall County was not paying, Commissioner Hanson introduced the following resolution and moved its adoption: BE IT RESOLVED, that the County of Pennington discontinue the payment of Fox bounty effective September 10, 1959. The resolution was duly seconded by Commissioner Olson and declared carried.

Pursuant to annual request for assistance it was moved by Hanson seconded by Lindberg that $1250.00 be appropriated to the Carnegie Public Library for the year 1959 and the Auditor was instructed to draw his Warrant in payment thereof. Carried.

The minutes of meetings of July 30th and August 6th were read and approved as read.

The Bond of Alma S. Johak as Clerk of Probate Court in amount of $1000.00 with the Anchor Casualty Company of Saint Paul was approved on motion by Olson seconded by Lindberg. Carried.

Commissioner Lindberg introduced the following resolution and moved its adoption:

WHEREAS, the County Welfare Board has submitted a budget for Welfare purposes for the year 1960 and has requested a tax levy to provide funds to enable it to meet its responsibilities under Section 393.— MSA; and

WHEREAS, such budget and requested tax levies have been duly considered;

NOW, THEREFORE, BE IT RESOLVED, that the Board of County Commissioners approve such budget, including the following tax levy, with the provision that when taxes are collected and apportioned, the apportionment to each of the six welfare funds shall be in the ratio that the levy for each bears to the total levy for welfare purposes.

Old Age Assistance	$ 83,503.00	50.92%
Aid to Dependent Children	22,324.00	13.69%
Aid to Disabled	330.00	.20%
Aid to the Blind	2,029.50	1.23%
Poor (General Relief)	22,770.30	13.77%
Administration	32,082.30	19.45%
Total	$163,000.00	100.00%

BE IT FURTHER RESOLVED, that the County Auditor be hereby authorized and directed to spread a levy for Welfare purposes in the amount of $163,000.00 on the tax rolls of the County.

The foregoing resolution was duly seconded by Commissioner Tasa and declared carried.

The County Auditor submitted the budget and proposed tax levy for the year 1959, due and payable in the year 1960, as follows:

Revenue Fund	$103,000.00
Road & Bridge Fund	13 mills
Welfare Fund	163,000.00
Sanatorium Fund	8,750.00
Courthouse Sinking Fund	32,000.00
School Transportation	5,000.73
County Fair	2,531.37

Moved by Olson seconded by Hanson that the Board accept the budget and tax levy as submitted by the County Auditor and authorized and instructed the County Auditor to spread said tax levy on the tax books of the County for the year 1959. Carried.

Commissioner Don Olson introduced the following resolution and moved its adoption:

BE IT RESOLVED by the Board of County Commissioners of Pennington County, Minnesota, as follows:

1. It is hereby determined that contracts have been entered into for the repair and improvement of drainage ditches and the cost of said work has been determined and that lien statements have been recorded in the office of the Register of Deeds showing total assessments for benefits for the construction or repair of ditch systems in the amounts as follows:

Name of Ditch	Amt. of Lien	Amt. of Bonds
Judicial Ditch No. 18	$ 21,833.09	$ 19,000.00
County Outlet Ditch No. 75	31,797.57	25,000.00
Judicial Ditch No. 11	10,370.26	9,000.00
Total	$ 64,020.92	$ 54,000.00

and it is necessary to issue bonds to defray the cost of establishing, constructing or repairing such ditches.

2. It is hereby determined that it is necessary and expedient to issue the negotiable coupon drainage bonds of the County in the amount of $54,000, said bonds to be dated October 1, 1959, to be 54 in number and numbered 1 to 54, both inclusive, and in the denomination of $1000 each, to bear interest payable July 1, 1960, and semi-annually thereafter on January 1 and July 1 in each year at the rate determined at the sale thereof, and to mature serially on January 1st in the years and amounts as follows: $4000 in 1961, $5000 in 1962 to 1969, both inclusive and $10,000 in 1970, all without option of prior payment. The County Board shall meet to consider bids on said bonds on October 6, 1959, at 2:00 o'clock P. M.

3. The County Auditor shall publish notice of sale in the Thief River Falls Times, a legal newspaper having general circulation in the county, and in Commercial West, a weekly financial publication, at least ten days prior to the date of sale, which notice shall state that the county will furnish printed bonds and approving legal opinions of Messers. Howard Peterson, LeFevere, Lefler and Haertzen, Minneapolis, Minnesota, and will require a good faith check for $1000.

The motion for the adoption of the foregoing resolution was duly seconded by Commissioner Glenn Tasa, and upon vote taken thereon, the following voted in favor thereof: Odin O. Hanson, Don Olson, Carl R. Anderson, M. A. Lindberg and Glenn Tasa, and the following voted against the same: NONE, whereupon said resolution was declared duly passed and adopted.

Application for abatement of penalty and interest was approved for John Nelson on the SW¼SE¼ of Section 24-152-39; for John Nelson and Erick Johnson on the W½NE¼ and E½NW¼, Section 25-152-39 and for the same individuals on the NW¼ Sec. 22-152-39 subject to approval of State Department of Taxation.

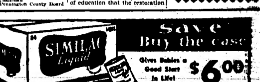
KENNEDY TO REBUILD GYM

(Karlstad Advocate)

Plans to restore the school gymnasium-auditorium, which collapsed in Kennedy in July, were pushed ahead this weekend when a citizens committee met with Algot Anderson of Grosz and Anderson architectural firm in Grand Forks.



The new gym-auditorium is to have a steel roof supported by steel beams and pillars and it would cost less than previously anticipated, about $60,000, Anderson told the committee.

A poll of members following Anderson's talk resulted in a recommendation from the advisory committee to the board of education that the restoration of the building be made.

The recommendation also asked that prompt action be taken to get the building enclosed before winter.

New Law Requires License for Blenders of All Fertilizers

Minnesota farmers are reminded by Commission Byron G. Allen that a new law, in effect since July 1, licenses fertilizer blenders in order to offer protection against poor workmanship. With the fall seasonal use of blended fertilizers increasing rapidly, State Department of Agriculture Inspectors are stepping up their efforts to maintain the standards required by the state regulations.

Farmers in sections of the state receiving normal precipitation this fall will plow down corn stalks and other harvested farm lands more than in previous years, if present trends are followed. Commercial fertilizer used on these plowed down crops are furnishing fertility that was not been taken advantage of in many cases before.

Figures just released by the state department of agriculture show that the total tonnage of fertilizer used in Minnesota for the fiscal year ending July 1 was up a whopping 22% over the previous year.

While many farmers still buy and use fertilizer with the plant food units in pre-mixed formulas, more and more of them are obtaining fertilizers with the plant food units blended for the best results according to the findings of the soil tests on their farms. This makes it more important that fertilizer blenders shall do their job accurately or the farmers may find some of their crops lacking in uniformity. For instance, improperly blended fertilizer applied to corn land may produce runty ears in some rows and long, thin, poorly developed ears on other plants.

Thus it is extremely important for every farmer to make sure that the blender he buys his fertilizer from is licensed under the new law that is now effect. This law authorizes inspectors to take samples for laboratory analysis to determine if the blend is in accordance with the sales invoice of each individual order. The law applies to blenders, including hand blenders, stationary blenders and blending trucks.

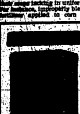
One-third of Farm Homes Rely on Off-farm Income

A recent Department of Commerce release reported that one-third of the farm homes of the nation are supported in part by earnings made off the farm.

Such earnings began long before the present decade but are being more marked in their impact in recent years. Many factors explain this trend such as better roads, improved farm machinery, economic necessity felt by the farmer and his family, and, of course, the expansion of industry into rural areas from the cities which have housed nearly all such industry until of late.

Some examples indicate the trend. One small-town manufacturer employs about 120 in its potato harvesting machine plant. Sixty per cent of them are farmers who work forty hours a week in the factory and whatever other hours are required to operate their farms, usually at no substantial decrease in the productivity of their acres.

Similar figures could be quoted for many communities, including Thief River Falls.



Part time employment of farmers, now recognized as essential if many family operated farm units are to continue and prosper, comes from a recognition on the part of farm and municipal leaders that they share the responsibility for economic stability and well-being of their area. Increased agricultural productivity alone will not assure such. Bringing new dollars into the community by the marketing of products with wide acceptance will perform this function. The state's department of business development notes this trend with enthusiastic interest and support.

USO Expands in Several Countries

Opening of a new USO club in Istanbul, Turkey, and an information center and lounge in Athens, Greece, were announced today by Josiah E. Brill, USO Chairman in Minnesota. At the same time expansion of USO operations in Puerto Rico was announced with the acquisition of a building for the USO at Aquadilla. The USO also operates an information center and lounge in San Juan.

On Okinawa, where no USO facility previously existed, a lounge and information center is being opened at Goya, preparatory to the construction of a major club installation in the near future.

This overseas expansion, Mr. Brill said, is in keeping with the USO policy of the re-alignment of services in keeping with the re-deployment of troops into smaller, scattered groups and new military concepts in the missile age.

Model Car Makers May Win $117,000

An all-time high of $38,000 in university scholarships and another $79,000 in cash and other awards are the stakes in the 1960 Fisher Body Craftsman's Guild model car competition. Enrollments for the competition are beign accepted now, it was announced today by C. W. McClellan, administrator of the Guild.

Approximately 1,000 public and parochial schools throughout the country will be visited this fall by field representatives of the Craftsman's Guild to explain the model car building program.

A booklet on model car design and construction is given to each boy enrolling in the competition. Prepared by professional designers and engineers, it is the only instructional booklet of its kind for young men wishing to learn about car design.

Alcoholism is Workshop Topic

The Lutheran Welfare Society of Minnesota will hold a series of fall workshops throughout the state from Sept. 17 through Oct. 9, 1959. Theme of the workshop will be "Understanding and Helping the Alcoholic". There will be a workshop in your area at Trinity Lutheran church in Crookston on Wednesday, Sept. 30th.

The workshops begin at 9:00 a.m. All interested persons are invited to attend.

GAME WARDEN WILL RETIRE
(Warren Sheaf)

After serving as a game warden in Minnesota for more than 31 years, Felix Kiet will retire October 6. Mr. Kiet has been stationed in Warren for the past 13 years, covering a district including parts of Marshall, Polk and Pennington counties. No successor has been named at this time.

Roseau Community Votes Big Bond Issue

Voters in the Roseau Area Hospital District voted strongly in favor of a $500,000 bond issue to construct a new hospital, complete the old folks home and remodel present hospital facilities into a nursing and care home according to the Roseau Times-Region. The 1235 voters cast 970 votes in favor of the proposal and 265 against for a margin of nearly 80 per cent! All of the seven townships included in the hospital district and the city voting precincts cast majority in favor!

Reflecting on the heavy approval, the district board indicated that the architects have been ordered to proceed at once on planning for the Old Folks home which will be the first project completed.

The architects were up for an examination this week and the state fire marshal has also visited the structure. He urged installation of a sprinkler system, reporting that not a single death has occurred in Minnesota in buildings equipped with the sprinkling system. The board plans to have the system installed, Norman Flagstad said.

Work will begin on the Old Folks Home as quickly as possible this fall with the aim of having it completed for occupancy next spring.

The new hospital construction will await allocation of Hill-Burton funds on the priority basis once Minnesota knows what its total will be. It is expected that this news will not be long in coming.

The remodeling of the present hospital will be last. It will be made into a nursing and care home and will be connected directly to the hospital. As in the old folks home, local funds will be used in this portion of the three-fold plan. Some Hill-Burton funds may be applied to those portions of the hospital which connect to the home.

The hospital will not be immediately affected by the bond approval as construction on the new unit cannot begin until plans are finalized and the matching funds are available.

Airport Open House Plans are Complete

Activities to Start with Breakfast; Rides to Sell at 1c Per Lb.

Plenty of activity is promised folks in the Thief River Falls community who attend Sunday's airport open house. The day will get under way at 8 a.m. when local JayCees start serving whopping big plate of hot cakes and sausages to those attending the flight breakfast. Serving will continue through 11:00 o'clock, according to Orin Meltz, chairman.

Merchandise prizes will be awarded the oldest pilot, youngest pilot attending from the greatest distance and the spot landing contest winner. In the flour bombing contest the pilots will purchase the flour bags from the contest chairman. The pilot dropping his bags closest to a ground target will rake in the jackpot, made up of the proceeds from the flour bag sale. A good participation is expected.

The model plane contests and demonstrations will also get under way early, under the direction of Stan Pladsen. The winners take home $15 in merchandise prizes in these contests, also.

Airport visitors will have the opportunity to take a ride over Thief River Falls at a saving—rides will again be sold on the basis of one cent per pound of passenger weight, with a $1 minimum in effect. Several planes will be on hand to give rides, all of them late-model aircraft, flown by competent pilots. Olaf Dahlen will handle ticket sales.

Several state dignitaries will be on hand for Sunday's open house, among them officials from the state education dept., state aeronautics bureau and the Federal Aviation agency.

Area Vocational school personnel will show the public through the shop building and surplus airplanes to be used for training mechanics. Visitors who wish to inspect the new shop building, jet fighter, transports and T-28 trainer, will be routed thorugh the airport administration building to the area north of the ramp. At least one home-built airplane, that belonging to Dale Stark of Thief River Falls, will be on display.

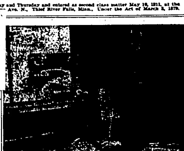
Automobile traffic will be directed by national guardsmen, while flying club members will assist airport manager Dan Illies in handling aircraft traffic.

Assisting Mack Draper in the flight contests will be local JayCees and flying club members, if available. Dawn Larson, Thief River Falls' only active woman pilot, will be in charge of the concession stand.

Model Plane Meet at Airport Sunday

Some local model airplane builders and fliers will walk off with $15 worth of prizes at the airport open house Sunday, said Stan Pladson, who is in charge of arrangements for the model contests.

The airport open house committee, in planning Sunday's affair, felt that youthful model enthusiasts have been neglected in past aviation events and that some encouragement should be given area youths who enjoy building and flying model planes.



Three prizes will be awarded and judging will be based on workmanship and performance, Pladson said.

He urged that any model plane builders interested in participating in the demonstrations and contests contact him before Sunday in order that details of the event can be worked out. Contestants may also enter Sunday but earlier entries would be preferable, Pladson stated.

NEWCOMERS CLUB BEGINS PLANS FOR FALL DANCE

Members of the Newcomers club, at a meeting last evening, Sept. 23, set October 14 as the date for their annual fall dance and smorgasbord. The event will be in the Elks club rooms.

The group also decided to have a speaker on subjects of interest to women, at one meeting a month beginning October 28. Mrs. Joy Sillerud was elected to fill the vacated position of treasurer.

NEWFOLDEN When the Marshall County State Bank opened for business Monday morning, Sept. 21, the location had been changed from Holt, where it had been in business since chartered in 1922, to Newfolden. Typical of the bank's new building is the office of Alton Carlson, above, cashier, in which the use of walnut paneling, bright curtains and harmonizing colors on the walls of the concrete block building make the bank one of the most attractive structures in the community.

Marshall County Bank Opened Monday at New Newfolden Home

After 37 years of service to the Holt community, the Marshall County State Bank closed its doors at the end of the working day Sept. 18. Today, the building stands empty but the bank is in business a few miles north and west of its original location.

Monday, the establishment resumed business at Newfolden and is housed in one of the most attractive buildings in the area. The building proper is of cement block construction with a brick front and large windows framed in aluminum.

Inside, the walls have been finished in colors to harmonize with the generous use of walnut panelling and planking. Open tellers' cages give an air of spaciousness and friendliness. The use of natural walnut has been carried into the private office which fronts on the main street of Newfolden.

To the rear of the bank, space has been provided for the use of safe deposit box users and spacious cabinets have been provided for storage.

Conspicuously displayed at the rear of the room is the vault door which also guarded the bank's funds and records at Holt. The question immediately came to mind, "What was done between the time the door was missing at either Holt or Newfolden and the money was at the other location?" According to O. H. Nohre, president of the bank, two sheriff's deputies, well armed and alert, were on duty until the change in the location of the vault door was made. Everything worked out without difficulty.

In the southwest corner of the bank, a unique room has been set up that has nothing to do with banking. Antique mementos of the area's past have been preserved for the future for everyone to see.

The move to Newfolden furnishes that community with the first service of this kind since 1927 when the Newfolden bank closed and the first time Holt has been without a bank since 1922 when the Marshall County State Bank was chartered.

In addition to O. H. Nohre, president of the bank, other officers are Olaf Ness, vice president, and Alton Carlson, cashier, the same officers who served at Holt.

Rafteseth Attends State Conference

H. B. Rafteseth, 412 Red Lake blvd., veterans service officer for Pennington and Red Lake counties, attended a conference and school of instruction in St. Paul Sept. 21-22.

One of the main topics for discussion was the new law which will go into effect in 1960 which makes widows of World War II and the Korean War eligible for pensions as are the widows of World War I at present.

Inquiries about the new pension law and other veterans affairs may be made at the veterans service office in the Pennington county courthouse.

Reuben Lockrem left today for Milwaukee, Wis., where he will spen several days as guest of the Ben Hur Freezer company.

Viking Church Will Note Anniversary

Commemorating the 70th anniversary of the Viking Covenant church, the congregation has arranged a series of weekend meetings with Pastor Arthur Fretheim of Brookdale Covenant church as guest speaker. The dates will be October 1-4, with services beginning at 8 p.m.

Conference superintendent Rev. Elmer Larson, will speak at the anniversary service Sunday afternoon, Oct. 4, at 3 o'clock. A light supper will be served. Rev. Fretheim will bring his closing message at 8 p.m. Sunday evening.

Rotary Foundation Scholar Reported on Sweden Monday

Cliff Erickson of Duluth, who attended the University of Stockholm during the past year under a Rotary club foundation scholarship, was guest speaker at the Monday noon meeting of the Thief River Falls club Sept. 21.

A graduate in physics at Harvard university in 1958, Erickson told local Rotarians that the countryside between Duluth and Thief River Falls reminded him very much of the Swedish landscape. "The effect was further heightened when the first three people I heard talking on the streets of Thief River Falls were speaking either Swedish and/or Norwegian," Erickson said.

During the summer vacation, the speaker told club members, he had taken part in a work camp which is maintained by the World Council of Churches. Cabins in the camp were used originally to shelter those who travelled a distance Saturdays to attend Sunday church services. Autos and good roads now make the overnight stay unnecessary and they are now used to house those who attend conferences at the camps and by those who have large families and are in need of shelter.

During his year in Sweden, Erickson travelled throughout the country addressing Rotary clubs and observing schools, industries and social life.

The educational system of Sweden is quite different from ours, according to the speaker. Attendance during grammar school years is compulsory but, after that, enrollment in the higher grades is by selection on a point system based on grades in the work completed. "Only 20 per cent of the young people have attended school in the higher grades or in college," he said.

"These people really study," he recounted. "An educated person must have a command of several foreign languages and there is tremendous competition for entry into the upper schools." He added that everyone is competing to get ahead in his position and that the additional education is necessary to climb the economic and social ladder.

"I had a chance to visit many European countries, including Russia, and it was apparent on my return that Sweden was a "new country," not the "old country." Their building program is great in extent and much in advance of other countries I visited," Erickson recalled.

Sweden has probably the highest standard of living in Europe, he concluded, and there are many who call it "Little America," partly because of the large number of Swedes who have relatives in the United States and partly because of the similarity of the two countries in progress.

Fall Conference of District PTA at Red Lake Falls

Session Will Open Saturday Morning at 9:00; Mrs. James Wells Will Preside

The Fall Conference of district 16 of the Minnesota Congress of Parents and Teachers will be held Saturday, Sept. 26, at the Red Lake Falls high school. Registration begins at 8:30 a.m. and the opening session is at 9:00, with Mrs. James Wells, president, presiding.

Main speaker of the day will be Dr. Roy Anderson of Fergus Falls who is state chairman of Mental Health of the Minnesota Congress of the PTA. He is a graduate of the University of Minnesota and the North Dakota A. C. He also has done undergraduate work in social work and psychology and has a master's degree in counseling and guidance. He has 7½ years experience as psychiatrist in county welfare work and is a consultant in the Fergus Falls schools in counseling. He is a member of the Madison Elementary school PTA and has been president of that PTA unit, parent-education chairman and vice president of the Fergus Falls PTA Council.

Three workshops are also planned for the morning program and will be conducted by Mrs. Roy Nordine, St. Cloud, state chairman on parliamentary procedures; Mrs. Richard Angevine, Newport, state chairman of health and summer round-up; and Mrs. Bernard Coyle, Moorhead, vice president of Region 8.

The noon luncheon will be served in the school cafeteria. The highlight of the afternoon session will be a panel discussion entitled, "Are We Meeting the Challenge of our Youth in Home, Church, School and Community?" with Father Noesen of Red Lake Falls as moderator.

All units in district 16 are urged to send delegates to the annual conference and all parents, teachers and interested persons are invited to attend, take part and help make this day a success.

Police School Ends 2-Week Session Here

First of Courses for Training Officers Under New State Law

After 80 hours of classroom lectures, demonstrations and field work during the past two weeks, 25 members of police departments and sheriffs' offices in an eight-county area will graduate Friday, Sept. 25, with increased knowledge of how to do their jobs better.

The law enforcement officers will be completing the first police school authorized by the 1959 state legislature and under the supervision of the state bureau of criminal apprehension. A school is scheduled in Benson in October, in Bemidji in November and in Rochester during December.

Minnesota is one of three states which have state-sponsored schools of this kind. The ultimate goal of the area police school system is to give every law enforcement officer in the state at least two weeks of intensive training with the possibility of advanced training at a later date.

Classes have been taught by instructors from the bureau of criminal apprehension, U.S. narcotics bureau, federal bureau of investigation, civil defense office, state highway patrol and Duluth, St. Paul and Minneapolis police departments.

Officers attending the school have been required to attend all classes from 8:30 a.m. until 12:30 and from 1:30 p.m. to 5:30 during the five-day, two-week school. Books in which they take their notes will be examined and graded as part of the school requirement and marks for the courses will be sent to the governmental bodies supervising the officers in their regular work.

Today, Sept. 24, subjects to be discussed and illustrated include the latent processing of fingerprints, identifying "hot" cars, first aid, photography, collection and preservation of evidence and crime scene investigations. The final day of school will take up the subjects of crime scene search, examination of physical evidence, first aid and plaster and moulage casting followed by a final examination and graduation.

As one officer commented, "They really pour it to us but we're learning things we never knew before."

Police school students who will graduate include Spencer Bogestad, Hallock sheriff's office; Raymond S. Bren, Thief River Falls police department; J. Beaven Carlson, Stephen police department; Elton C. Cummngs, Thief River Falls police department; Chester E. Dahlgren, Crookston police department; Harry Dillabough, Crookston police department; Oscar C. Erickson, Warren sheriff's office; Loren Curtis Fish, Warroad police department.

William J. Francis, Crookston police department; Theodore D. Heyen, Roseau police department; T. J. Heyen, Warren police department; Paul F. Knochen-

$5 Million Soil Bank Payments in 7 Counties

Mrs. Geving is Head of New Horticultural Society District

At the annual meeting of the Ninth district of the State Horticultural Society, held at Mahnomen Saturday, a division of the district was agreed upon. Under this reorganization into smaller district units this area will be District No. 13 and will include Red Lake, Pennington, Marshall, Kittson, Roseau and Lake of the Woods counties and the northwest portion of Beltrami.

Mrs. I. R. Geving of Thief River Falls, who presided at the meeting as president of District No. 9, was elected president of the new No. 13. Other officers are Mrs. Peter Grant of Stephen, first vice president; Mrs. Joe Freeman of Roseau, second vice president; Mrs. Stanley Roadfelt of Badger, secretary; Mrs. William Weisenhous of Williams, treasurer.

Officers of the two new districts were installed by E. M. Hunt, state secretary and manager of the official publication. The principal speaker was A. T Van Dyke of Fergus Falls, superintendent of parks in that city. He stated that Fergus Falls now has 400 acres of parks and that 18,000 tulip bulbs are planted each year. He urged garden clubs to work with state and local agencies in the interests of an expanding public park program.

As president of the district, Mrs. Geving is a member of the state board and she plans to attend a meeting of that board in November. She will call a meeting of the district executive board shortly, to be held in Roseau, and a district meeting will be held in April when plans will be made for next year's program.

Thief River Falls Native Son Named Bank President

Reubin Johnson, a native son of Thief River Falls, and who acquired his early banking experience in banks here, was recently elected president of the Continental National Bank of Harlowton, Montana. Johnson still has four brothers living in Thief River Falls; Willis, Arthur, Leonard and Ernest. Their parents were Mr. and Mrs. Morris M. Johnson, pioneer residents of the community.

Mrs. Reubin Johnson was Marion Henrud, a sister of Archie Henrud, formerly of this city.

Mr. Johnson started his banking career as a bookkeeper in the First National Bank and later served with the Union State bank here. He moved to Harlowton in 1942, starting as assistant cashier. He became cashier in 1943 and was named cashier-manager in 1950.

Fifty Tested, High Record Cows at Sale

Animals Listed Have D.H.I.A. Records of Not Less than 400 lbs.

A total of 50 head of dairy cows and heifers have been consigned to the "Top of the Nation" sale to be held at the fairgrounds pavilion, in Thief River Falls, on October 15, commencing at 1:30 p.m. Twenty-three dairymen, belonging to Northwest No. 1, Northwest No. 2, and Red Lake-Pennington testing associations have consigned animals to the sale.

A selection committee has inspected each animal consigned, and D.H.I.A. records have been checked, as only cows with a production record of 450 pounds fat if purebreds, 400 pounds fat if grade, are eligible for this sale. First calf heifers must be out of "dams" with these minimum requirements. It is believed that these requirements are the highest ever held for a dairy sale in this area.

Every animal in sale must have passed an inspection for T.B. and Bangs and many are calfhood vaccinated. A health certificate will be available to anyone who purchases an animal in this sale.

With the exception of one or two yearlings, all animals consigned are bred to calf in October, November and December and many will sell with calf at foot. Over 50 per cent of all animals consigned are first calf heifers, ready to go to work, out of high-record cows.

Martin Carrico of the Haftwood Farms at Hallock, sale manager, reports that sale catalogs will be available October 1. He was in Thief River Falls Tuesday conferring with Paul Stelmaschuk, and completing arrangements for the auction. He expressed great satisfaction with the prospect and was particularly pleased with the cooperation of the herd owners who have been willing to sell some of their best stock.

The purpose of the sale is to encourage higher producing herds in the area and herd testing.

County Officers Are Authorized to Start Payments October 1

Patrick Culkins, office manager of the Pennington County Agricultural Stabilization and Conservation office, states that county offices have been authorized by state ASC officials to start issuing soil bank checks to contract holders at any time after October 1.

He said that his office was in the process of preparing compensation statements at the present time, and it is anticipated that all statements would be completed by the end of September. These statements require the signatures of all contract signers prior to the issuance of drafts in payment of 1959 soil bank claims.

He stated further that contract signers would be notified by mail as soon as their compensation statements are completed by the county office and ready for signature. It is suggested that all soil bank participants delay their visits to the county office until after they have received their cards, because any interruption will only cause delay in the completion of the task that lies ahead.

Mr. Culkins estimates the total to be distributed at this time in seven northwestern Minnesota counties at more than $5 million, and more than $4 million of this total will be distributed in Roseau, Marshall, Pennington and Red Lake counties. His estimate for Pennington county is $[illegible].

Lions Slave Sale Total Now $932.65, 10 More to Be Sold

$19.53 is Average Price Paid; Money To Be Used for Club's Youth Program

With 10 slaves left to be sold today, the Lions club had raised $932.65 for youth activities through their second annual sale of one day's labor by each member, according to Phil Kays, chairman of the event.

The total amount was announced at the regular Wednesday noon meeting of the club whose program was highlighted by an explanation by each member of the job delegated to him by his "buyer."

Jack Forkenbrock, local automobile dealer, contributed both an amusing time and several fines to the club in recounting his job of selling cars which are normally not handled by the Forkenbrock Motor company.

The service of Lions brought an average of $19.53 to the youth activities fund of the club. Proceeds of the sale will be used for the annual Halloween party, kiddie carnival, sight conservation program and for the purchase of playground equipment.

The club's appreciation for services during the Sept. 18 sale by Dave and Roy Bruggeman was voiced at the meeting. The Bruggeman brothers, auctioneers in the area, conducted the sale held Friday evening in the City auditorium.

Ministerial Group Held Annual Meet

Plans for the coming year were discussed by the members of the Thief River Falls Ministerial association at their annual meeting held Thursday morning at Trinity Lutheran church. The meeting was called to order by Rev. M. O. Carlson and Rev. L. Luthard led devotions.

Among problems discussed was the schedules for radio broadcasts. This was referred to Rev. Langager for direction. Rev. Henry Friedman will direct the schedule for weekly service at the Oakland Park rest home. It was decided that a fellowship breakfast would be held at the Rex cafe at 8 o'clock on the first Tuesday of each month.

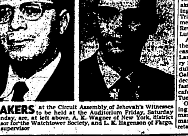
Officers elected for the coming year are Rev. J. Swan, chairman; Rev. L. Luthard, vice chairman; and Rev. R. Burkhardt, secretary-treasurer.

To Hold Three Day Session . . .

Jehovah's Witnesses to Meet Here

"Do the Divine Will" is the theme selected for the three-day circuit assembly of Jehovah's Witnesses which begins Friday evening at the municipal Auditorium.

The Friday program will open at 6:45 p.m., with A. K. Wagner, district representative from New York City, scheduled as speaker. Featured Saturday will be a baptism of new delegates, and for the evening program there will be a showing of pictures of the Witnesses' world convention held in 1953. Morning and afternoon services will be held Sunday.



In addition to participation in the regular program, members will spend some time calling on people of the community spreading their message which they believe to be "the only hope for world peace."

The assembly is expected to bring about 750 "ministers," including members of their families, from 19 congregations in northern Minnesota. The principal speakers are A. K. Wagner, who is district supervisor for the Watchtower Society, and L. K. Hagenson, circuit supervisor, of Fargo, N. D.

R. C. Mullen of Hibbing is in charge of convention organization, and Leslie Hogan of Cass Lake heads the committee on housing.

The Thief River Falls congregation of Jehovah's Witnesses, which meets at Kingdom Hall on Knight ave., is acting as host to the group. The local congregation is composed of three service centers, one of which meets at the Kingdom Hall, a second at the home of Bill Wetenkamp, and a third at the home of Roy Mogen. All three of these groups have combined their efforts in making advance preparations for the coming event under the direction of presiding minister, R. H. Wetenkamp.

Minnesota the Most Versatile State in Farm Production

Again in 1958 Minnesota proved to be the nation's most versatile agricultural state.

Federal - State Crop Reporting Service lists each year the top ten states in each of 12 categories of agricultural production. Only one state appeared in the top ten in all 12 categories. That was Minnesota. Only two states compared with Iowa's eight. California's nine, even Wisconsin and North Dakota beat it out with nine states but when it comes to seconds, Minnesota is the only state in the top ten in all 12 categories. That's versatility of state farming that is easily recognized.

Minnesota is also first in the nation for second, and so on. Minnesota ranks 2nd out of a possible 1430; Iowa's 757 is a close runner-up. Minnesota's 1958 farm income, Dakota Farmer reports, was $760 for the only states that beat Minnesota in Nebraska and Texas fall next into line, pretty well based on 62 and 57. Twelve states fall more at 40.

Minnesota's top farm products are: principally pork; livestock; cattle and heifers; farm fed in chickens raised; eggs; hogs; turkeys; hens; pigs saved; livestock and poultry products; wheat; oats; and barley. Minnesota also ranks high in other agricultural products, chiefly sugar beets, North Dakota led in flax, rye, and rye. Wisconsin led in green peas, milk cows on farms, and cheese. Iowa led in corn, soybeans, oats, hogs, and lambs. Texas led in cotton, grain sorghums, beans, Kansas wheat, Texas led in sheep and lambs.

Minnesota had three seconds, six thirds, two fourths, six fifths and one sixth. Only Texas had a higher total.

Right second value, the most significant is that Minnesota farmers in 1958 produced 1,000 more than they did in 1957. Minnesota's 1958 farm income was $760 million, a record. Net farm income of all crops, 5.44 per cent higher than 1957, another record here. The six most valuable crops

THE STARS

by LYN CONNELLY

COME time ago we wrote a column about Jerry Lewis, the TV star who had captured the hearts of millions of fans with his zany antics and his ability to pull off a big production number. Well, the president director show "Of Several Stars" is none other than Jerry Haugen; vice president, Joan Stanich; secretary, Mrs. Gross; treasurer, Leland Stanich; song leader, Mrs. Haugen and reporter, Mrs. Lloyd Anderson. Mrs. Oliver Haugen, Gerald Young, Mrs. Ray Stanich and Mrs. Ray W. A. Corbet.

Following meeting adjourned and the following program was given: Mrs. Ray W. A. Corbet gave a reading by Shorty Wh. Mrs. Gross on their state fair trips by Stanich and Herman Gross. Prizes were given by James Vik and Ted Gross. Mrs. Haugen and Mrs. Stanich both have seen to the refreshments. Mrs. Haugen and Mrs. Stanich served refreshments and Conley explained how the girls can enter their projects at the state fair.

Also the program lunch was served.—Sandy Wis, Reporter.

Senator McCarthy Reports on Session

In the last days of the session, the change was made from the Eisenhower budget that tight, fallen deflationist is the nation's ill interest would be exacted in a pre-adjournment rush.

Artfully, the possibility of hasty action by the Senate's liquids menace, Senator Mowe has introduced a bill to put the next man in charge of the congressional way make regrettable decisions on specific legislation, it does not often act hastily or without deliberation.

Freedom to Criticize

Freedom of opposition and to criticize national policies will be widely exercised in the weeks ahead as our citizens attempt to evaluate the accomplishments of this Republican session of the Congress. It is the democratic privilege of citizens who I hope to discuss with you in Minnesota this fall.

Farm legislation: the labor reform bill; highway financing and construction; conservation legislation; control of the power industry; civil rights legislation; unemployment compensation and economic and fiscal policy.

Substantial Balancing

During the past session, the Senate has been able to do a number of things which have resolved the broad question of proper federal-state relationship under our constitution. One such bill was concerned with the tidelands controversies engaged in by the states of Texas, Louisiana, the question of the federal government, financing and the control of right-of-way funds. Income taxes will also continue to be withheld from employees and their assistants.

Another bill was a program that will start at 9 a.m. with a talk by Dr. Bullock. The afternoon session will start at 1:30 with sixteen under the direction of Dr. Bullock.

ing the need to appraise the functions and activities of government in the light of the changing times as they affect the various levels of government and which create joint policy-making, joint financing, and joint administration. A bill to establish an advisory commission on intergovernmental relations to deal with these questions was passed by both Houses of the Congress and sent to the President September 12 for signature or veto.

There is no advance agreement as much needed at the present time as on such matters as these patterns and institutions grow constantly complex. I do hope that any of you who are in general agreement with the need for broad study of the problems of intergovernmental relations will write me your ideas as to how and when such a study should be undertaken.

Unbeaten Prowler Golfers Favored to Win District Title

Coach Jack Boyer's Prowler golf squad, in preparation for the 31st district tournament which will be played here Saturday, Sept. 26, scored a pair of wins this week. On Monday afternoon in a match against the Crookston Central squad, the locals marked up a 122 to 140 win. The Prowler scorers were Ron Kvikstad with a 40, and Curt Johnson and Rich Thompson with 41's.

In a triangular match played here on Tuesday afternoon, with Warren and Bemidji joining the play, the Prowlers marked up a total of 248, to post the low score. Bemidji tallied a 265, and Warren scored a 276. The five-man Prowler squad scored as follows with the three low scores being considered in the team total): Ron Solheim, 37-40—77; Curt Johnson 41-42—83; Mark Chommie, 45-43—88; Bob Brown, 41-47—88; and Rich Thompson, 44-44—88.

The district meet here Saturday will tee off at 10 a.m. The local course will also be the site of the Region Eight golf tournament on Thursday, Oct. 1.

In a 32nd district tournament, held here Tuesday, the Roseau Rams, with a score of 261, easily defended the district title they won last season. Roseau's Paul Dorwart, with a 40-43 for an 83, was the medalist. Roseau placed five golfers in the regional tourney.

CHANCE FOR TOMORROW

By Dorothy Holbrook

THE cure for Jane's broken heart was complete—almost—when she could wander through the State Fair grounds and actually enjoy what she saw. 20 years ago Don had proposed at these Fair grounds. They eloped to the city and spent the years in sophisticated, successful living, ignoring their farm background. Now, Don had a new wife, a new life—without Jane.

Finishing the last exhibit, Jane stepped into the ladies room. She winked at her reflection in the mirror—a salute to an attractive friend—the person she had become in the past year. The beautiful white hair against her changing skin tones gave her a more youthful look than the one she had tried desperately to coax from the dye bottle.

All the hurt and anger that took over when Don demanded a divorce had made other changes also. Jane lost her appetite and the excess weight. Her fits of dejection had exploded into temper and she lost her job in the big city while trying to catch up with business methods of a new generation.

To forestall a complete breakdown, Jane returned to the empty farm inherited from her father. Relaxed and grateful, Jane grew fond of the farm and accepted the aloneness. She grew tall again in a spiritual re-evaluation of her own worth. She mellowed in her thoughts of Don. It hurt most that the last time he saw her she had been so bitter, over-stuffed and over-wrought. She wished only that she could have said a quiet good-bye as she was today.

Slim and serene, Jane turned from the mirror toward a woman who twisted claw-like fingers impatiently around a paper towel. There was a stoney set to the woman's jaw and lines of irritability. "What a way to waste time—in this two-bit burg . . ." she tossed at Jane and brushed through the door. Then Jane heard the woman scream and caught up with her in time to see the tall boy disappear. The woman screamed: "That big oaf stole my purse."

A guard hurried up. Behind him was a man with lines of pained weariness on his face—a face so dear to Jane. It was Don. He tried to soothe the woman who turned upon him with violence. "You hick . . . you hay-seed! Why did you insist upon stopping here?"

Jane's prayer that she know the answer to that question was as sure as the slap Don gave the hysterical woman. Don gasped when he recognized Jane. Then a look of mirth followed which was not lost on the screaming woman. "You'll pay for this just as I've paid for everything the last three months!". The woman pushed through the crowd and was gone. Don's eyes followed her with distaste, then he turned to Jane with a hesitant, wistful look.

Jane whispered: "Is it true? You've lost everything?"

Don shrugged. "Only money . . . nothing important."

No woman once forsaken could have had sweeter triumph than the admiring warmth that Jane saw in Don's expression. Thus he dismissed the past year with the hopeful smile he gave to her.

In exchange, Jane gave him her hand to lead him from the pressure of the curious crowd. She said: "Walk with me a little way" and led him into the quiet night.

Don held onto her hand. "Not just a little way, Jane . . . all the way . . ." It was a promise for all their tomorrows. Jane didn't answer. At the garden gate, she stopped, remembering her wish to have said good-bye to Don as she was today. Then, she was holding her arms out to him saying: "Hello, Don . . . Hello, Darling."

"I REMEMBER"

BY THE OLD TIMERS

From Edward E. Williams, Penns Grove, N.J.: I am 78 years old and can remember incidents that happened when I was four years old more vividly than things that have happened in later years.

I well remember when we moved from Sewell, W. Va., the March before my fourth birthday. The train we arrived on ran into Pocahontas, and we had to walk from Bluestone Junction to Coopers—a distance of about two miles. The coal company store was in one of the houses about a half mile up the creek, but was soon moved to the junction near where the present store is located. Mr. Tickle was the store manager and Mr. Wood was the bookkeeper. Tom and Ed Cooper were store clerks. Mr. Cooper was part owner, and also manager for the Mill Creek Coal and Coke Co.

The Nelson family lived in a log house opposite the Cooper house. The N. & W. Railroad bridge that spans the village passes over the site where the Nelson home stood.

The house we lived in was formerly a store owned by Mr. Prince, who sold out to the coal company. The building was converted into a double dwelling. We lived in one side and Mr. Sam Cooper the other. The Elkhorn Tunnel was being cut through by Mills and Fairfax. The east end of the tunnel was located about one and one-half miles from Cooper's. The west end, a distance of three-quarters of a mile, ended at Coaldale, W. Va.

Slaughter cattle and calves: Monday's cattle supplies approximating 6,000 head were 1,000 less than previous Monday which was largest for year. About 65 percent of the run was comprised of slaughter steers and heifers; 25 per cent cows and the remaining 10 per cent largely stocker and feeder cattle plus a few packages of stock calves.

Steers and heifers: Two loads of high-Choice 1,071 and 1,127 lb. slaughter steers cashed at $28., most Choice steers turning at $26.50-27.50. Good steers brought $25.00-26.50, Standard grade $21.-24.50, Canner, Cutter and Utility $15.00-$20.00.

Cows and bulls: Cow prices showed little change with last week's low time. Utility and Commercial sold at $16.00-17.50, Canner and Cutter grades $13.50-16.00, latter price paid for high-yielding Cutter grade. Thin Canner cows were noted at $9.001 13.00.

Vealers and calves: High-Choice and Prime vealers remained at $33.00-34.00, Good and Choice grades $28.00-38.00. Standard vealers were taken at $23.-27.00. Cull and Utility $17.00-22.00.

Stocker and feeder cattle and calves: The largest string of stocker and feeder cattle of the current season arrived over the weekend. Most of these offerings were Choice two-year-olds and yearlings plus a few small consignments of stock calves. A 45-head string of Choice 560 lb. Montana yearling stock steers cashed at $30.25 while a load of Choice 615 lb. steers turned at $30.15. A shipment of mostly Choice 660 lb. weights moved at $30.00, and 887 lb. averages going at $27.25. One load of Good and Choice 913 lb. feeder steers brought $25.50, a load of Common and Medium around 800 lb. Holstein stock steers were purchased at $22.25, while two loads of mostly Common 690 and 700 lb. Holstein steers turned at $20.00-21.00.

Hogs: Hog receipts were reduced both locally and at the twelve markets on Monday. After a rather slow start trading moved at a moderately active pace. However, it appeared that demand and supply were fairly well balanced. Price changes were very minor.

Mixed U. S. No. 1, 2 and 3 200-250 lb. barrows and gilts sold during the day at $13.25-13.75, with most forenoon sales being made at $13.50 while closing sales ranged largely from $13.25-13.50. U. S. 1 and 2 offerings included sorted lots cleared at $13.75-14.25, mostly $14.00 and up. Weights over 250 lbs. continued scarce, a shipment of U.S. 2 and 3, 272 lb. butchers selling at $13.50. Mixed grade largely U. S. 1 and 2, 180-200 lbs. went at $12.50-13.50; 160-180 lbs. these occasionally including a Medium end, $12.00-13.00.

Sheep and lambs: Marketings of sheep and lambs here were only slightly larger than a week ago. Most of the supply consisted of native and Dakota spring lambs with a rather small showing of ewes. Receipts did also include a part deck of shorn lambs.

Good and Choice spring slaughter lambs fell in a spread of $20.00-20.50, with Utility and low-Good grades moving at $17.00-19.50. There was a part deck of Good and Choice 92 lb. shorn lambs with No. 1 and 2 pelts at $20.00. Cull to Good slaughter ewes sold mainly at $3.00-5.00, few Good and Choice bringing $5.50.

ADVERTISEMENT FOR BIDS FOR COAL TO SUPPLY MUNICIPAL BUILDINGS

NOTICE IS HEREBY GIVEN that sealed bids will be received at the Office of the undersigned up to eight o'clock P.M. on October 20th, 1959 for the furnishing and delivery of 480 tons, more or less, of a premium grade of Commercial Stoker coal, 1¼-inch, dust treated, to supply the municipal buildings of the City of Thief River Falls, Minnesota, for the heating season 1959-1960. Bidders shall furnish specifications relative to the particular product which they intend to furnish and will also be required to furnish identification tabs applying to the coal being delivered.

Coal is to be delivered in bins of the various City buildings as directed. City scale weights shall be the basis for payment thereof except that in the case of fuel furnished the Water Purification plant, carload weights shall apply.

A certified check or Cashier's check in the amount of five per cent (5%) shall accompany proposal as guarantee that bidder will conclude a contract in accordance with accepted bid, which amount shall be forfeited to the City as liquidated damages in case the successful bidder shall fail to enter into contract.

The Council reserves the right to reject any or all bids, to waive any irregularities and to award the contract as it deems to be in the best interest of the City.

P. O. PEDERSON,
City Clerk.

By Order of the City Council,
September 15, 1959.

Sept. 24,

RESOLUTION

At a regular meeting of the City Council held September 15, 1959, Alderman Benson seconded by Alderman Honebrink introduced the following resolution and moved its adoption:

WHEREAS the firm of Juran and Moody, Inc. has furnished a proposal to purchase $178,000.00 more or less of bonds for the financing of storm sewer improvements at a rate or rates so that the net interest rate will not exceed 4.5 per cent and

WHEREAS the City Council deems said proposal to be satisfactory,

NOW, THEREFORE, BE IT RESOLVED that said bid of Juran and Moody, Inc. be and it hereby is accepted, and the Mayor and City Clerk are authorized and directed to execute the acceptance of said proposal for and in behalf of the City.

CITY COUNCIL PROCEEDINGS

Thief River Falls, Minnesota

The Council of the City of Thief River Falls, Minnesota, met in special session in the Council Chambers at 10:00 o'clock P.M., August 23, 1959, pursuant to Call of the President. Aldermen Benson, Dahlen, Carlson, Ness were present. Aldermen Lee and Honebrink were absent.

The meeting was called for the purpose of discussion with members of Board of Directors of Thief River Co-operative Creamery and with reference to the discharge of cooling water from their plant into the City's sanitary sewer system, connection to the City's sewer System having been ordered by the Superintendent of such system.

Mr. Rosel, Manager of the Creamery Association, who was present, advised the Council that they had purchased equipment to re-use all of their cooling water; that the amount of cooling water entering the system amounts to approximately 30 to 50 gallons per hour and that such a small amount of flow would hardly justify the expense which would be involved in making connection to the Storm Sewer System. After considerable discussion in the matter, Alderman Ness moved that the connection order be rescinded, being seconded by Benson. All members voted in favor thereof and motion was declared carried.

Alderman Benson then moved adjournment, being seconded by Dahlen, carried and the meeting was declared adjourned.

BOB CARLSON,
President of the Council.

Attest: P. O. Pederson,
City Clerk.

Homecoming Game at Newfolden Friday: Play Middle River

Coach Jack Junker's Newfolden Nordics, who moved into the win column by scoring a 35 to 0 triumph over the Williams Wolves at Williams last Friday afternoon, will celebrate Homecoming by meeting the Middle River Skippers at Newfolden on Friday, Sept. 25, with the kickoff slated for 1:30 p.m.

Last year, in a game played at Middle River, the Skippers edged the Nordics, 40 to 34, scoring in the final minutes of play to gain the victory.

This year the Nordics have a 1-1 record, dropping their opener to Warroad, 12 to 6, and trouncing Williams. Middle River has a 1-2 record, having defeated Fisher in the season-opener, 12 to 0, and lost to Lake Bronson, 18 to 7, and Warroad, 26 to 6. Both teams will be looking for their initial wins in Northern Lights conference play.

Except for Dave Engevik, who is out of action because of a neck injury he received late last season, and Butch Johnson, halfback, who broke a leg in an earlier game, Middle River will send a near-veteran team against the Nordics on Friday.

Coach Junker will probably start Richard Ellingson and Ron Ueland at ends; Ernest Melvie and Wendell Hagenbeck at tackles; Howard Davis (Davis missed the Williams game because of illness) will be at center; David Haug at quarterback; and Lowell Halvorson and Darrell Bakke at halfbacks. Expected to see defensive action will be James Swan at end, and Dave Bakke and Wayne Bjornrud at tackles.

Prowler "B" Team Lost to East Grand Forks by 13 to 0

Gary Hjalmervik Scored Both Touchdowns; Meet Bemidji Here October 3

Coach Ron Thompson's East Grand Forks 'B' squad, with halfback Gary Hjalmervik scoring two touchdowns and John Harvey booting one conversion point, defeated the Prowler 'B' team, 13 to 0, in a football game played on the Lincoln high athletic field on Wednesday night.

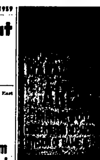
Coach Charles Decoursey's Prowler 'B' squad, with a record of one win and two losses, will play the Bemidji Lumberjack 'B' squad here on Saturday morning, October 3. Kickoff time is slated for 10:30 a.m.

In Wednesday night's tilt, the East Grand Forks 'B' squad moved into a 6 to 0 lead midway through the first period when Hjalmervik circled right end and sprinted twenty-one yards to cross the north goal. Elton Hornseth blocked Harvey's attempted placekick for the conversion.

A fine pass play, with quarterback Don Coulter throwing a pass to Hjalmervik, accounted for the East Siders second touchdown. From the Prowlers' 40-yard line, Coulter dropped back and whipped a pass to Hjalmervik who had sifted through the secondary and was in the clear on the Prowler 15-yard line when he made the catch. Harvey's successful placekick gave the Little Green Wave a 13 to 0 lead.

The Prowler 'B' team made a serious threat late in the second period, moving the ball to the East Grand Forks 2-yard line when the period ended.

In the third period, too, the locals made a bid to edge into the scoring column, carrying the ball to the East Grand Forks' 11-yard line, where a fumble ended the threat.



The summary:

Thief River Falls 'B' (0)
Ends — Hanson, DeLap, Anderson, Wold.
Tackles — Hornseth, Hassell.
Guards — Teal, Kelly, Myhrer, Bowman, Froehle.
Centers — Lofberg, Miller.
Quarterback — Aune.

Snowball Special Is Last of City's '59 Golf Tournaments

The local golf club will be host on Sunday to its annual end-of-the-season golf tournament, the Snowball Special. The tournament, come rain or shine, annually attracts a large number of the area's tournament golfers.

The championship flight competition will be on a 27-hole medal play basis, with the championship flight being open to all golfers.

The remainder of the flights will be arranged into match play competition, with the golfers being paired into 9-hole matches.

The entry fee for the tournament will be $3.00. Tee-off time for the championship flight will be at 9 a.m.

WARREN HIGH SCHOOL WAS BURGLARIZED

The Warren High School was entered Sunday night and approximately $20 in cash was taken. Considerable damage was done by the burglars in forcing their entrance and in their search for money.

Schedule Set Up for Grade school Gridders

The grade school football season opened on Wednesday afternoon at the Lincoln high school game field, with Phil Beadle's Northrop Indians playing Frank Hamerlinck's Washington squad. The Northrop Indians are the defending grade school football champions.

In addition to yesterday's game, seven games will be played on a schedule that will be concluded on Friday, October 30.

According to present plans, the games of Friday, October 23, Northrop vs. Knox, and Friday, October 30, Northrop vs. Washington, will be played during the halftime intermission of the Prowlers vs. Bemidji and the Prowlers vs. Crookston varsity games.

The schedule:
Wednesday, Sept. 30, Knox vs. Washington.
Wednesday, Oct. 7, Northrop vs. Knox
Wednesday, Oct. 14, Northrop vs. Washington.
Wednesday, Oct. 21, Knox vs. Washington.
Friday, Oct. 23, Northrop vs. Knox.
Wednesday, Oct. 28, Knox vs. Washington.
Friday, Oct. 30, Northrop vs. Washington.

Keeping Score with "Huck" Olson

It Will Be Rugged

With the possible exception of the game at Roseau on October 2, against the Roseau Rams, it is doubtful if the Prowlers will be subjected to as stern a physical test as that they will get on Friday night when they meet East Grand Forks and coach Snooks Sullivan's meat-grinding offense.

The game, which is a district and Northwest conference tilt, will be played on the Memorial stadium field on the University of North Dakota campus in Grand Forks.

The 1959 edition of the Little Green Wave of East Grand Forks follows the pattern of the past several years, with a powerful fullback operating behind a hard-charging and stubborn line. This season the East Siders have put a bit more stress on the play at fullback, having a pair of toughies who alternate at the position. Jerry Werness is usually the starting fullback, but if he needs a respite from his line-plunging duties, big Lowell Innes moves into the backfield from his tackle post, and the offense continues to grind out the yards.

Over the years, since 1919, and on an annual basis since 1921, the Prowlers and the Little Green Wave have engaged in 39 football games. Of that number, the Prowlers have won 23, lost 15, and tied one, that being a 0 to 0 game in 1941.

The Prowlers have a three-game winning streak going against East Grand Forks, having marked up victories in 1956, 20-0; 1957, 26-7; and 28-6 last season.

The longest win streak in the series was the nine-game skein by the Prowlers, running from 1939 through 1948, with only the 0 to 0 tie in 1941 marring the streak. The longest run of victories put together by East Grand Forks was back in the 1930's when, from 1930 through 1933, the Little Green Wave rolled up four wins in a row.

Having turned in what most fans agreed was a disappointing performance against Red Lake Falls last Friday, we look for the Prowlers to be on the rebound against East Grand Forks. We'll venture the guess that the East Siders' two fullbacks — Werness and Innes — won't be able to churn up enough yardage to give the Little Green Wave a win on Friday night. It'll be the locals, by a 20 to 7 score.

The Very First

On the eve of the Prowlers vs. East Grand Forks football game, which will be played in the Memorial stadium in Grand Forks Friday night, it would perhaps be of interest to recall the start of the series.

It was back in September of 1919 that the Thief River Falls vs. East Grand Forks high schools began their football rivalry, and from the Times of September 25, 1919, we have culled the following lines: "The lineup for Saturday's contest has not been given out, but Dennis McGinn will likely be at quarterback. The Irish lad is a bear when he gets going and will be a hard man to stop.

"The halves will be played by Reuben Hadrath and Elmer Larson, if present plans pan out, while young Ernie Barzen will hold down the fullback position. Stanley Sorenson also will be put in as a halfback when the occasion makes it necessary.

"Gordon LaBree, who is proving a brick wall at center, will no doubt get the job for Saturday's game, with Henry Aastad and Joseph Weirus at the tackles. The two guards will undoubtedly be Kenneth Russell and Ernest Zeh. The ends will be held down by Leland Schuster and Jim Parenteau, both of whom are wiry lads and quick on their feet.

"The game will be called into action at about 2 p.m., so as to allow the East Grand Forks squad to catch the afternoon train for home."

The score of the game? 92 to 6 for coach Al Tommerassen's Thief River Falls club.

The Original Snowball

On Sunday, Sept. 26, at the local golf club, the annual, and original, Snowball Special golf tournament will be played. This is the tournament that, over the years, has developed into a colorful and interesting golf competition, and which has proven to be a fitting windup for the golf season. It's unquestionably a golfer's tournament.

This year, the championship flight will be a medal play competition, with the golfers playing 27 holes. This play arrangement is limited to the championship flight, with the other flights using the customary nine-hole match play pairings.

It is stated, too, that the championship flight will be on an unrestricted basis, with all golfers being eligible to compete in the medal play competition.

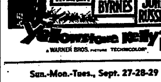
Get-Tough Drive Planned for Game Law Violators

With hunting seasons just around the corner, Francis W. Johnson, chief game warden, today announced that plans are nearly complete for a statewide "get tough" program on game law violators.

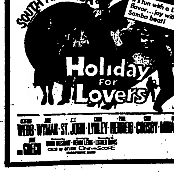
Meeting recently with law enforcement officials of neighboring states and provinces, as well as federal law officers, Johnson indicated that inter-state handling of violations, especially on ducks, is to well coordinated this year.

"The importance of vigorously enforcing this year's duck regulations cannot be over emphasized. With our continental duck population down, it is more important than ever that we crack down on illegal hunting," stressed Johnson.



"Wherever possible we intend to augment our warden force with department deputies. Refuge managers around the state will be checking the thousands of hunters who use our public hunting grounds and wetland units each year. Airplanes will be widely used during the duck and deer seasons, and our radio communications will be strengthened by additional portable units."

"Federal game wardens will again be working very closely with us this year in the field and on road checks. Special restrictions this year on canvasback, redhead, ruddy and wood ducks will be jointly enforced by state and federal officers."



Johnson explained this is the third consecutive year that a "maximum effort" will be made to combat hunting violations.

REDESIGNED '60 CHEVY TRUCKS

A revolutionary new suspension system gives vast improvement in ride, durability, and control to 1960 Chevrolet trucks. Front wheels are independently sprung on frictionless - torsion rods. Rear suspensions are new, with coil springs on light-duty models and stronger, softer riding leaf springs on heavier models for improved cushioning of load and driver. New frames reduce height up to seven inches, with some cab floors at step-in level from the ground. Styling is new with rubber-mounted, roomier cabs. Inside steps have been eliminated, providing a full-width floor. A 1960 model Chevrolet pick-up truck will be on display at the Northern Chevrolet Company this week.

WILDLIFE in Minnesota
by JIM KIMBALL

(Guest writer for this week's column is John B. Moyle, division of game and fish.)

The phone rings and the feminine voice on the other end says, "My husband was out fishing last weekend and brought home some fish and put them in the refrigerator. I was planning on having them for supper but I see some of them have black spots on them. Does this hurt them for eating?"

Or the question may be about little yellow grubs in fish flesh, or about hairless squirrels, or crappies dying with congested gills, or about large flukes in a deer liver brought home from a hunting trip. Answering such questions about diseases and parasites of wild animals is part of the everyday routine of the wildlife - researcher. Let's talk about such things for a bit.

Diseases and parasites are much more common in wild animals than is generally realized—indeed it is safe to say that any wild animal, if carefully examined, has some parasites, plant or animal, and it usually gets along with these parasites without too much difficulty. But epidemics do occur, now and then, which drastically reduce populations of wild animals. Often such epidemics go on little noticed except by those who are watching for them. Animals that have died from natural causes are not easily seen.

Sick animals seek places where they can hide and many scavengers, such as crows and gulls, soon destroy the carcasses of any dead animals they can find. Among wildlife epidemics noted in Minnesota in recent years are the redleg disease which hit the frogs three years ago; encephalitis in raccoon; rabies in skunks, bats and several other kinds of wild animals; and, disease of uncertain cause that has decimated muskrats in some marshes.

At present, mange, which is caused by mites, is appearing in epidemic proportions among squirrels and may well kill very many gray and fox squirrels before next spring. If you see a squirrel with patches of hair gone, this is what is the matter.

Diseases and parasites of wild animals are always present but it is when large populations build up that these diseases become epidemic. Disease organisms can then spread rapidly from animal to animal. The mange outbreak in squirrels, for example, has closely followed a great increase in the abundance of squirrels.

In fish hatcheries, diseases that do little damage in the lakes and streams can spread like wildfire where fish are crowded in rearing tanks. Here, even if sulfa drugs, antibiotics and other chemicals are used, fish diseases are difficult to control once they get started.

Sometimes really drastic measures are necessary. Last year we removed all the trout from the Lanesboro hatchery, completely sterilized the premises and started over again with sterilized fish eggs. Since the sterilization there have been no outbreaks of furunculosis, the blood disease of trout we were combatting.

Where animals are confined, such as fish in a hatchery, most diseases can be controlled, but disease control in the wild is much more difficult. Usually the results that might be expected would not justify the expenditures necessary. We should, however, understand something about wild life diseases so we known how serious they are and what we can and cannot do for them.

Consider the lady who asked who asked about black spots in fish. This is the immature stage of a fluke that matures in kingfishers and herons. Yes, we could control it by destroying all kingfishers and herons; but who wants to do that. Then too, except for the unsightly appearance of the spots, this parasite is harmless to humans. Perhaps it is best to just get along with it.

The same thing can be said for many other fish parasites. There is, however, one rare fish tapeworm that infects humans and it is always well to make sure that your fish is thoroughly cooked. As to diseases in mammals, beware of apparently tame wild animals and do not pick them up or handle them. They could be sick and some diseases of wild mammals are transmissable to humans. It is also a wise precaution for trappers and rabbit hunters to use gloves when skinning animals.

Fish and wild animals have many diseases and parasites but they are part of the wild environment. If wild animals are not too crowded they usually get along with their parasite family very well. Remember that dogs have had fleas for a long time.

U.S. Piggyback loadings for the week ended Aug. 22 totaled 8,072 cars, compared with 5,501 for the corresponding 1958 week. Loadings for 1959 up to Aug. 22 totaled 262,534 cars, compared with 165,498 for the corresponding period of 1958.

Given a choice, livestock prefer baled hay to loose hay as feed, according to New Holland's "Grassland News." Baling saves nutrient-rich leaves that ordinarily blow away from loose hay, and baled hay is more efficient to feed because there's less waste.

The Public Interest

Minnesota is feeling the pinch of unemployment caused by the steel strike. The state will also face a serious loss of tax revenue as a result of the shut-down of the Iron Range mining operations.

Over a period of time the tax loss may be offset to some extent by gains after operations are resumed. Unemployment is an immediate problem that is worsening, as more workers are idled involuntarily, adding to the ranks of those who are voluntarily out of work.

Minnesota's tax revenues will decrease because of reduced ore production and also because of reduced ore transportation. The state's taxes on both the mining industry and the railroads are based on operating volume, and when there are no operations these sources of tax revenue dry up.

Governor Orville Freeman is properly concerned about this and he is doing a little table-pounding, demanding that the steel industry settle the strike. But it is not the steel industry that is striking. As we understand it, it is the steel workers who are striking, and they could end the strike and go back to work at once.

What Governor Freeman is demanding, therefore, is that the steel industry give to the workers the things they are demanding.

He says the strike should be settled on the basis of facts and justice. To that all should agree. The facts are known. They were ably set forth by the secretary of labor to the satisfaction of both labor and management. In brief, it is agreed that steel workers are not now underpaid and steel prices are too high.

It would seem reasonable therefore that the proper solution for this deadlock would be a hold-the-line on wages and a cut in steel prices. That would definitely be in the best interests of the public and a stable dollar.

Under the circumstances we would suggest that Governor Freeman become more concerned about the public interest in this matter.

No Monopoly on Virtue

John Suel, editor of the Shakopee Valley News, gets a chuckle out of what he refers to as a down-state newspaper whose editor "frequently comments on the laws passed by the recent legislature and the actions and debates that preceded passage."

"Most of his comments," observes Suel, who leans a little to the Liberal side, "are about laws that he doesn't like and he really lambasts the Liberal House for passing such nonsense in the guise of legislation.—However, occasionally, as he wades through the 100 pages of Session Laws, he finds a statute that he likes. At such times his prose is laudatory as he generously gives credit to the Conservative Senate for such wise and foresighted legislation."

Then Mr. Suel concludes with this very fair and sensible observation:

"If by chance any of our readers happen to stumble on any of his gifted writings (and, if they read them, they will recognize them) we wish to remind them that every law passed in the recent session of the state legislature was approved by both the House and the Senate."

In political arguments it is well to keep in mind that neither party has a monopoly on virtue and wisdom, and there is much good among those to whom we refer generally as members of the opposition.

Reform Is Needed

Ralph T. Keyes, executive secretary of the State Association of County Commissioners, told an interim commission on county and township government in St. Paul last week that there is a need for modernizing and improving the activities of county government. He pointed out that counties today are performing many functions that were not taken into consideration when the present framework of county government was established.

This opens for consideration a field of study that will be highly controversial. As Mr. Keyes stated, county government has long since outgrown the present form of organization, or lack of it. Because it is so loosely organized, and almost entirely without central control and responsibility, county government is inefficient and needlessly expensive.

One of the things that makes reorganization of county government difficult is that each office holder is the member of a statewide organization that is created mainly to protect the interests of its members. Any attempt to reorganize would be a threat to the security of some of these office holders, and most of the statewide organizations would band together in opposition to any proposed reforms.

From the standpoint of officials who might be concerned about their own individual prospects, we think they have little to worry about, unless they are very young. Reform moves more slowly than death. The things proposed now might come to pass during the lifetime of the next generation. But in the best interests of those who follow us let's start talking it up now.

Hog Prices

To any community that leans heavily on agriculture for its livelihood the prices the producer gets for the products he sells are far more important than the cost of food to the consumer. We are richer individually, and as a community, when the farmers are well paid for their cattle and hogs and poultry and eggs and whatever other products they dispose of in the markets for cash and buying power.

Hereabouts, whether we are producers or consumers, low hog prices are not good for us. But we are satisfied too that, whether we are producers or consumers, fair prices for hogs, maintained by a government pork buying program, would not be good for us over a period of time.

Hog prices are down now because there are too many hogs. In Canada, too, there are too many hogs. In Canada they are worried about a possible surplus dumping program down here. At the same time there is a demand up there for the kind of a dumping program they don't want us to adopt. Obviously a dumping program is not the right answer either north or south of the border.

The right answer is production geared to market demand, and the adjustment to market demand, and fair prices will come faster if we do not interfere with the normal market relationships.

The indications are that production is already being adjusted downward, and that the trend to lower prices is bottoming out. It is encouraging to note that those who speak with authority for the producers are opposed to government buying. They recognize the fact that with government guaranteed fair prices, hog production would get completely out of hand.

Mr. K. Reverted to Type

Premier Khrushchev reverted to type momentarily at Los Angeles when he took exception to the Mayor's reference to his oft-quoted statement to the effect that the Communists would bury us. The Mayor's statement got under his skin and suddenly his great love for us became hatred. He would hear no more of such nonsense. He, the mighty leader of the great Soviet Union would pack up his toys and run back to his own yard and in less time than it took him to get here.

It is significant that following this display of temper Los Angeles lost interest in him. There was no crowd to witness his departure. The citizens of that city are to be complimented for their good conduct. Their display of indifference was a most effective way of indicating their reaction to his misconduct.

For the Want of a Farrier

(Financial Post, Toronto)

There's a good, steady city job going begging in Philadelphia. It's worth about $4,500 a year and the city's civil service commission has waived existing residence requirements. Anyone, anywhere would be welcome. But so far no applicants have put in an appearance.

What Philadelphia wants is a trained farrier, the technical name for the old-fashioned blacksmith who can shoe horses. Philadelphia needs this man to keep the 64 horses of its mounted police properly shod. Half a century ago any village in either the U.S. or Canada could have supplied a dozen suitable candidates. Today, outside the racing stables, there may not be that many left on the whole continent.

Juvenile crime is likely to go into a decline in Battle Creek, Mich., henceforth. A Battle Creek judge who is himself the father of nine children last week sentenced a youth convicted of a long string of crimes to 45 days in solitary confinement on bread and water, with the warning that he faced 15 years imprisonment if he broke probation. It will be interesting to watch how the Battle Creek method of youth conservation works out. —Art Suel in New Prague Times.

REPORT from the GOVERNOR

by Orville L. Freeman

Camping is a booming activity in Minnesota. In only five years, since 1954, camping in our state park system has increased over 600 per cent. The people are asking for more facilities and a longer season.

Fall Camping

This year, in response to popular demand, the customary closing date of September 15th for Itasca State Park has been extended to October 15th. During this extra month of operation several conventions will be held at Douglas Lodge in the park. The general public is welcome to make reservations for facilities not being used by such groups. Fall camping offers the startling beauty of autumn color and the added convenience of less congestion and crowding.

Our parks are, of course, open the year around. But when freezing weather arrives many services, such as running water, have to be curtailed.

Outdoor Recreation

Outdoor recreation is increasing so rapidly, — and so very rapidly in relation to the increase in facilities, — that it is unlikely that the supply of such facilities will catch up with the demand in the near future. Our state parks have not been able to keep up with the demand. Over one weekend this summer more than one hundred parties were turned away from one park alone because all the camping facilities were taken. Those parties were referred to and accommodated by private resorts.

Citizen Interest

Our Division of State Parks receives many letters from visitors expressing appreciation. Some, who have been disappointed by being turned away because no campsites were available, have written to ask what they can do to help increase the services and facilities now being offered. This kind of citizen interest and cooperation is bound to bring results. Perhaps we can look forward to the expansion of our state parks and their campsite facilities, as well as to the provision of more campsites by private owners, in appropriate areas.

County Parks

It might also be useful to have a strong county park law such as one recently enacted in Iowa. The Minnesota legislature recently considered such a law that would permit any county or group of counties to join together to establish county park systems, but finally passed the legislation was made applicable to rural Hennepin county only.

Nominal Cost

As costs of recreation go today, the cost of camping is nominal. It is estimated that Minnesota state parks spent 14.6 cents per visitor in 1958 for operations and maintenance. Receipts accounted for nearly a fourth of this expenditure, leaving the net cost for a Minnesota park visitor at 9.4 cents. Camping fees charged range from 50c to 75c a day.

In 1954 our state parks collected $7,274.00 in camping fees, a sum that has increased each year up to 41,797.00 in the fiscal year ending June 30, 1959. Since July 1st of this year the fee collection is 45 per cent higher than for the comparable period last year. In part this increase represents increased numbers of the larger fees charged for modern campgrounds. But it also reflects a 12 per cent increase that is accountable to increase in camping.

ROSEWOOD . . .

Mr. and Mrs. Norris Trochman and children of Agdar spent Saturday evening visiting with the Vernon Holmstroms of Fargo who were at their farm for the weekend.

Mrs. John Doran and son, Rodney, of Detroit Lakes spent Saturday visiting friends and relatives here and at Newfolden.

Martin Swenson was a supper guest Sunday of Mr. and Mrs. Arthur Swenson. Late evening visitors were Mr. and Mrs. Robert Olson of Holt.

Correction

An error was made in reporting the names of the children starting school this fall. It should be James Jarshaw, Jr., not Jon Sabo, who is a first grader at the Holt school. Sorry.

Guests for supper Tuesday evening at the home of Mr and Mrs. Alfred Rafteseth were Mr. and Mrs. Lloyd Rafteseth, Linda and Pamela of Moorhead.

The New Solum 4-H club members, their parents and families will have a picnic Sunday at the Elmer Kron farm. Committees have been named for recreation and refreshments.

Looking Backward

1899—SIXTY YEARS AGO

The City Drug was advertising mixed paints at $1 a gallon.—Rev. Henry Logan of the Methodist church left to attend the annual conference at Minneapolis.—The total enrollment in the Thief River Falls schools was 311.—Eugene Welsh broke his left arm. It was the third time in six months that the same kind of accident had happened to the same arm.

1909—FIFTY YEARS AGO

Gov. John A. Johnson died Sept. 21 at St. Mary's hospital in Rochester. He was serving his third term as governor of Minnesota at the time of his death.—A mass meeting was held for the purpose of discussing the erection of a city hospital. It was agreed that the city council should be urged to issue bonds in the sum of $15,000 or $20,000 for the purpose.—The surveying of the Thief River Falls-Duluth line of the Soo was begun from this end during the week.—A. H. Fasel announced himself as a candidate for alderman of the first ward.

1919—FORTY YEARS AGO

Walter and Carl Jung, who came to Thief River Falls four years ago, have announced that they will begin construction of a 41x54-foot bake shop at the rear of their building.—The Hermanson hardware company moved its new location at the corner of Third and Main and Hall brothers opened a hardware business at 113 Horace ave. N.—Nine-inch brown kid boots, "the style so important in adding the prestige of smartness to the costume," were advertised for milady by Loken brothers shoe department.

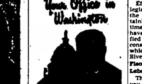
1929—THIRTY YEARS AGO

The Oen Mercantile company will spend $4,000 remodeling the second floor of its building to be used as a furniture department.—Ed M. Evenson, city treasurer for more than 20 years, has resigned his position.—Walls are now up to the second floor level on the Land O'Lakes poultry plant and the shortage of brick which has delayed work will soon be ended by a shipment which is on the road.—A talking picture, "The Leatherneck," starring William Boyd, is scheduled for this week.—A full size Plymouth roadster with a rumble seat is offered for sale by C. Gustafson and Son for $675.—The state will build modern barns on eight farms owned by the Rural Credit bureau in this county.

1939—TWENTY YEARS AGO

The final payment of $4,000 on a $40,000 bond issue originally dating back to 1911, when the two small diesel engines were purchased for the municipal power plant, was made.—An additional grant of $4,769 by the WPA to the Thief River Falls board of education was made to aid in financing the purchase of equipment for the new Lincoln junior-senior high school.—The Falls theater advertised as a coming attraction "The Champ," starring Wallace Berry and Jackie Cooper.—Periodic examination of relief employes on WPA projects will begin this week.

1949—TEN YEARS AGO



Work on the First st. bridge advanced with the footings being poured last week.—At a special meeting of the local board of education this week, it was decided to apply for the establishment of an area vocational school in Thief River Falls.—At an adjourned meeting of the city council plans were approved to sell bonds in an amount of $200,000 to $250,000 to replenish the city treasury which has become acutely short of funds.—The Gulbranson funeral home was moved last week from 188 LaBree ave. N. to 303 Riverside ave.—Legion members at their September meeting decided to remodel the Hanson motor company building for use as headquarters.—Ray Acuff, Les Smithhart and their "greatest western band" were on the stage of the Falls theatre.

Your Office in Washington

by Congressman ODIN LANGEN

The First session of the 86th Congress — like the weather in Washington — seemed for a time as though it would never cool off. But finally the five bells which signify adjournment have rung and we're on our way home.

The reason you didn't receive this monthly report shortly after the first of the month, as has been our practice since Congress convened, is that I wanted to wait until the Session's end so as to be able to summarize completely some of the year's congressional actions which are of significance to our Ninth district.

Agriculture

Agricultural legislation, it goes without saying, is of prime importance to those of us who reside in northwestern Minnesota. Many of us are farmers, and many more depend on farmers as a large part of the market for their business and products. Therefore, the matter of farm income and farm opportunity are of great and basic significance to the life and economy of our district.

No new major farm legislation came out of the first session of the 86th Congress, and this of course is of grave concern to me and to the entire Ninth district. Everyone seems to agree that there is a need for such legislation, but lack of understanding by some parties and disagreements between various farm groups and between the Congress and the Administration have caused lack of action in this field.

This, therefore, remains one of the big unfinished tasks facing congress when it comes back in January of next year. Constructive legislation at that time must, in my opinion deal with three problems:

(1) Such legislation must provide to the farmer the opportunity to achieve a more fair share of the national income and at the same time deal with the surpluses which are a headache to farmers and taxpayers alike.

(2) Such major farm legislation as the congress may consider next year must take into account the present situation in imports of farm products.

(3) More understanding of the farm problem by some members of congress, some segments of the press, and some segments of the general populace is necessary if we are to have constructive legislation drawn up in a good atmosphere next year.

School Milk, Public Law 480

Another program which provides for the health of our children at the same time as it provides an outlet for agricultural commodities, is the special milk program. This year's funds, provided by the last congress, proved to be insufficient, so I proposed legislation making a supplemental appropriation for this year and providing for the increased enrollments which the next two years will bring. This legislation is now law.

Public Law 480 — the program under which our country sells, barters and in some instances donates, surplus farm commodities to overseas countries — has been extended for two more years by Congress.

Efforts with regard to sugar legislation will carry over until the next session, and it is certainly to be hoped that by that time the Cuban situation will have become sufficiently clarified so as to expedite confident consideration of this matter which is so imporant to the Red River Valley.

Fiscal Responsibility and Labor Legislation

This "headline" may strike you as a little odd, since the relationship of the two subjects is probably not too apparent. However, there is in my opinion a very real relationship between the two, and a very important one. In both instances, congressional actions in these fields this year mirrored the voice of the people. Both are examples of our great democracy at work.

In the case of fiscal responsibility, the American people become veritable "watchdogs" of the way their taxes were being spent. They demanded a careful accounting of the staggering $77 billion budget, and the congress heeded this demand. As we adjourn, it looks as though this fiscal 1960 budget will balance.

You also were responsible for the Labor Reform act of 1959. Letters, telegrams and phone calls from "the folks back home" flooded Capitol Hill during consideration of this legislation and once again congress heeded this public demand. You demanded this act because rights sacred to all of us were being abused in certain labor unions, and certain labor leaders were engaging in activities alien to all that is good and decent in our way of life.

In both these instances—fiscal responsibility and labor legislation—our great democratic process was at work and America and the Ninth district are, I sincerely believe, the better for getting what they demanded.

Celebrates Birthday

Those who helped Mrs. Adolph Kostrezewski celebrate her birthday last Thursday, Sept. 17, at her home were Mrs. Elnar Englund, Mrs. Arnold Englund, Mrs. Hillary Peterson, Mrs. Peter Thompson and daughter, Mrs. Adolph Anderson and daughter, Mrs. Harry Bengston and son and Mrs. Emanuel Nelson, all of Karlstad and Mrs. Clarence Borsvold, Mrs. Vance Lefrooth and children. Mrs. Kostrezewski served a very delicious lunch and the guests presented her with many useful gifts.

Mrs. Clarence Carlson and girls of Warren and Mrs. Charles Bakke and children from east of Karlstad spent Wednesday visiting with Mrs. Clarence Borsvold.

Mrs. Charles Bakke and children and Mrs. Clarence Borsvold enjoyed coffee with Mrs. Jim Musbruger last Wednesday at Karlstad.

Donald Lefrooths name was drawn for $20 Saturday evening but he was absent. Gust Johnson and Otto Carlson each received $5.00.

Carl Johnson is hospitalized at Karlstad with a heart condition. Here's hoping he'll soon recover.

Mr. and Mrs. Otto Paulson enjoyed a dinner in Warroad Sunday and came home by way of International Falls and Bemidji. It is interesting to see how our own state looks.

Mr. and Mrs. Herman Carlson and Mrs. Sarah Akerstrom of Blackduck, Mrs. Kori Myhrer and Mrs. Rasmi Nelson of Newfolden and Mr. and Mrs. William Hanson were dinner guests of Mrs. Ella Thun Sunday. Mr. and Mrs. Alvin Nelson of Newfolden and Mr. and Mrs. Douglas Thun and family were supper guests.

Dale Carlson, Ronnie and Donnie Carlson of the state teachers' college at Bemidji were home for the weekend. Mr. and Mrs. Carlson of Minneapolis have also spent a few days home with Oscar Carlson as Mrs. Carlson is seriously ill.

Mr. and Mrs. Harold Donaldson and family moved into the Turner house Sunday which they recently purchased from Martin Myzskowski. We wish them well in their new home.

Mr. and Mrs. Merlin Nelson are the proud and happy parents of a daughter born Monday, Sept. 24 at the hospital in Karlstad.

Our Minnesota climate is good for Easter lilies. Two local ladies, Mrs. Martin Myzskowski and Mrs. William Hanson have lilies in bloom. It's strange—but very nice!

Strandquist . .

Mrs. Ed Stenson, Strandquist

Mr. and Mrs. Oscar Locken and Mr. and Mrs. Jonas Stromlund were Sunday dinner guests at the Art Zutzs at Red Lake Falls and also called at the Raymond Zutys in the afternoon.

WE FORD DEALERS HAVE JUST COME BACK FROM DETROIT AND WE'RE TELLING YOU...
"We've seen the Falcon and OH BOY!"
GET READY for the nicest surprise of a motoring lifetime, when you see and drive the New-size Ford . . . the Ford Falcon. Here's what you'll see . . . and experience . . .
1. An altogether new and smarter look in new-size cars.
2. More head room, leg room, hip room than you'd ever imagine in a car this size . . . and it seats six six-footers. It takes all their luggage!
3. Free and easy get-in and get-out convenience. No windshield "dogleg" . . . it's been swept forward, out of the way! And door openings are big!
4. Big expanse of safety glass all around (it was pioneered by Ford!) . . . with visibility like you'd never believe in a car the Falcon's size!
5. Steers, parks, stops so effortlessly that no power assists are even necessary. And you can have the Falcon's own 2-speed Fordomatic Drive to make the going even nimbler!
6. Body and frame are of single-unit construction like the Thunderbird . . . makes it almost immune to rattles. For greatest upkeep economy, fenders are bolted on, grille is non-rusting aluminum, important underbody structures are heavily zinc-coated to resist corrosion through the years.
7. The Falcon's now undergoing a dramatic Experience Run, U.S.A., over every mile of numbered U. S. highway, as the climactic test to 3 years and 3 million miles of research, development and testing.
8. Experience Run is now proving that the new Ford Falcon averages up to 30 miles per gallon of regular gas!
9. The new, 90-hp Falcon Six engine is up front, for greater stability and safety. And it's not an untried, experimental engine, but built on modern short-stroke principles that have been thoroughly proved and universally accepted by engine engineers.
10. The purchase price will be your first big savings. We can't tell you what it will be, just yet, but it will prove—right from the start—that the new Ford Falcon is your savingest car. Come in now, for more details. We're accepting orders for the new Ford Falcon, right now!

Management Area Signs, Do Not Forbid Hunting, Farmes Says

State-owned wildlife management areas are being posted but not for the purpose of forbidding hunting, Robert Farmes, area game manager states. On the contrary these areas are public shooting grounds and are open for hunting during the seasons prescribed by law.

These lands have been purchased by the state with funds provided by the sportsmen, Mr. Farmes points out. A part of the money comes from the $1 surcharge on all small game hunting licenses and the rest of it comes from the Pittman-Robertson fund, which is maintained by a special tax on sporting arms and ammunition.

"All sportsmen are welcome to use these areas,' says Farmes. Use them wisely and with a sense of responsibility because they belong to you. Also respect privately owned lands adjacent to these areas and elsewhere. Hunt on private lands with permission and then respect the owners wishes and property. Cooperation and respect will provide additional hunting opportunities for you."

There are only five of these areas in the Thief River Falls vicinity, but pheasant hunters will find many of them farther south, Mr. Farms states.

Check Reveals Need for Eye Examination

"There is a clear need for a re-examination program for renewal of drivers licenses in Minnesota," Harry A. Sieben, state higwhay safety director, maintains. "Seven per cent of our population has defective vision to the point where they are dangerous to themselves and to others on the streets and highways."

Seven out of every hundred persons examined for visual acuity at the Minnesota State Fair had eyes that were below the state's standard for driver licensing, he said.

Minnesota driver license examiners operating at an exhibit on Machinery Hill gave free eye checks to 14,229 fair visitors during the 10 day event. Of these 1,008 (7 per cent) failed to meet the standard of 20/40 vision required for the issuane of an unrestricted license in Minnesota.

The examiners used the telebinocular testing device used in all drivers license examinations and where vision was below standard recommended those persons visit their physician or eye doctor for further examination.

Of the 14,299 visitors who had the vision checks, only 10,937 had either chauffeur or driver licenses, although all were apparently of driving age. Of the licensed drivers only 4,272 or 39 per cent had taken an examination for a driver license. Most of the others were persons who had been originally licensed more than 12 years ago when the examining program began.

"We feel that is is very important for all drivers to have periodic vision checks," Sieben said. "Most of the drivers who had defective vision were unaware their eyes were failing to the danger point. Yet our present licensing program permits them to continue to drive although they may be potential hazards. Vision experts tell us that 99 per cent of those people could have their vision corrected if they would only visit their doctor."

There Were 987 FOREST FIRES THIS LAST SPRING...
...let's cut this way down and Keep Minnesota Green

Industry and Income Boosted by Lath Mill

Strips of wood 4 feet long, an inch and a half wide and a mere half inch thick have built the framework for a $160,000 annual business—at—a—Grand—Rapids, Minn., plant. The strips are lath—made mostly from popple, that tree you see everywhere in northern Minnesota and which some people call worthless.

Just a year and a half ago, Clair Cole and his son, Ray, employed two extra men, and were in the not-too-profitable box lumber business. Now, the Coles turn out more than 50,000 lath every day and are turning away other orders they can't fill. They have produced some 4 million so far this year and expect by Christmas to reach 8 million—laid end to end, enough lath to reach across the U.S. twice.

Firms buying the lath use it for slatted floors in poultry houses, for snow fencing and for fences around temporary silos.

The business brings outside money into northern Minnesota, provides added employment for local people and furnishes a good use for surplus popple—or aspen as foresters call it.

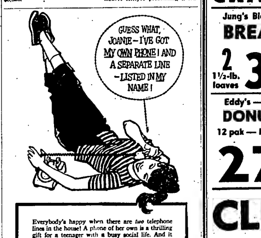
Clair Cole, a member of the Itasca County Rural Development committee, sees lath production as a business for more areas of northern Minnesota. He says, "More competition wouldn't hurt me—unless it were competition for logs. But the lath market is good enough for a lot more production than Minnesota will have for several years."

Hunting-Trapping Regulations Now at Auditor's Office

Now available at the offices of all county auditors are copies of the new Minnesota 1959 hunting and trapping regulations.

The little 20 page folder contain a synopsis of all big game, small game and waterfowl hunting regulations, license information, sunrise and sunset time schedule, deer zone boundaries and map plus general information of interest to the hunter and trapper.

Copies may be obtained on request from the county auditor or his license agents.



Times Classifieds bring fast results.

Game Wardens Made 130 Arrests During August

Minnesota game wardens made 130 arrests in August for violations of the state game and fish laws, reports Arthur Emme, assistant chief warden.

Violations of license regulations resulted in 46 arrests, while fishing infractions accounted for 52 apprehensions. Violations involving big game animals saw 12 persons arrested. A variety of other cases accounted for the balance of arrests.

Fines levied amounted to $3,626.

Licenses Required for Hunting Indian Relics

During the long years of time before white man came into this mid west area, the Indian people left villages and gathering sites, burial grounds and mounds on which have been found the tools and materials of war and everyday living for centuries of time. For many years the explorers, archeologists, and people who came into possession of the sites and areas have excavated them to gather the relics and evidences of Indian work.

In 1939 the Minnesota legislature passed a law which provided that explorations and excavations should be under license and control of the commissioner of conservation with the approval of the state archeologist. Digging by individuals or groups is illegal without a permit, subject to the rights of private ownership of the land.

Permits have been granted to the Science Museum of the St. Paul Institute, the Minnesota Science Museum and the Minnesota Historical Society during the last years. At the present time, the St. Paul Institute will explore and excavate the Rooney Mound, on the Leoanrd Rooney farm in Pope county. The Institute is also exploring the Crites site, a village site on the St. Croix River two and one-half miles south of Marine.

During the 100 years of Minnesota development a great number of mounds and sites have been unwittingly destroyed and lost and other areas have been combed for the relics and Indian artifacts. People are warned that the mounds and Indian sites are valuable and should not be opened or disturbed without the advice of experts and legal permits if required.

THE CHURCH FOR ALL . . . ALL FOR THE CHURCH

The Church is the greatest factor on earth for the building of character and good citizenship. It is a storehouse of spiritual values. Without a strong Church, neither democracy nor civilization can survive. There are four sound reasons why every person should attend services regularly and support the Church. They are: (1) For his own sake. (2) For his children's sake. (3) For the sake of his community and nation. (4) For the sake of the Church itself, which needs his moral and material support. Plan to go to church regularly and read your Bible daily.

Day	Book	Chapter	Verses
Sunday	I Samuel	1	26-28
Monday	Luke	2	41-52
Tuesday	I Samuel	3	17-19
Wednesday	Luke	2	46-49
Thursday	I Corinthians	3	1-3
Friday	Psalms	8	2-6
Saturday	Deuteronomy	31	9

Mrs. Thompson is a "modern" mother. She wouldn't think of neglecting her baby's regular visit to the doctor. She knows that these early check-ups plus proper diet, rest and care, are vital if her child is to grow up into a strong, healthy boy, ready to take his place in tomorrow's world.

Nor will she forget an even more important factor in his development—his spiritual check-ups. When the time comes and baby is old enough, his tiny footsteps will lead him into Church School where another kind of ministry will be given to him. Later still, he will worship with his parents, and the importance of the family unit together at work, at play and in worship will be engrained in his mind.

In tomorrow's world he will be well equipped to take his place physically, mentally . . . and spiritually.

SHE'S GETTING IDEAS
about shopping without ever leaving home
This lady's shopping expedition is well under way . . . and she's pretty enthusiastic about it, too, as you can see. Yet, so far, she hasn't put a foot out of the house! What goes on here? Same thing that goes on in so many homes when it's time to buy something. First step is to see who's got what for sale . . . and for how much. The place to get the most useful buying information fastest is in the advertising columns of this newspaper. That's where most shopping expeditions hereabouts begin!

Rotary District Chief Spoke to Club Today

Discussed Program with Committee Heads this Morning

"Rotary clubs in 113 countries throughout the world are united in an endeavor to promote international understanding, good will and peace." That was the *message of Frank F. Jestrab of* Williston, N. D., governor of district 558 of Rotary International when he addressed the Thief River Falls club this noon, following a conference with local officers and committee chairmen.

Jestrab, an attorney in the firm of Bjella, Jestrab and Neff in Williston, was elected district governor at the Rotary International's annual convention in New York City last June. He is one of 261 district governors supervising the activities of more than 10,200 Rotary clubs with a membership of nearly 500,000 business and professional executives throughout the world.

In addition to activities within individual communities, Rotary International has awarded grants of more than $3 million in the past 12 years through its program of student fellowships which enable outstanding college students to study for one year in foreign countries, Jestrab told local Rotarians. Since 1947 when the program was established, 1,202 fellowships have been awarded to students in 67 countries for study in 44 countries.

"With fellowship and service to others as its keynote, Rotary provides a common ground for business and professional executives throughout the world, regardless of differing nationalities, languages and political or religious beliefs," the district governor emphasized.

"In addition to this promotion of international understanding," Jestrab continued, "special emphasis is being placed by Rotary club of this district, which includes 40 clubs in Minnesota, North Dakota, Ontario, and Wisconsin, on improved community and intercity relationships."

The governor concluded by urging local Rotarians to attend the district conference in Grand Forks in April, 1960, and to make plans for clubs to be well represented at the 51st annual convention of Rotary International in Miami-Miami Beach, Fla., next May.

Preceding the noon luncheon, the district president met at 8:30 a.m., Sept. 28, with I. T. Mickelson, president of the Thief River Falls club, and Milton Schlechter, secretary. This was followed at 9:30 by a meeting with committee chairman before the noon luncheon.

More Than 40 Planes Share in Open House, Airport Breakfast

ROTARY club speaker this noon was Frank F. Jestrab of Williston, North Dakota, Governor of District No. 558. During the morning he held conferences with officers and committee heads, coordinating the activities of the club with the district and international programs for the year.

Despite blustery fall weather and overcast skies, the open house and flight breakfast at the municipal airport Sunday could be termed a great success, according to all concerned.

High winds severely buffeted the planes flown in by pilots from a wide area in Minnesota and North Dakota, but over 40 of them attended the affair, some from as far as St. Paul and Minneapolis.

Orin Meltz, Jaycees' breakfast flight chairman, reported well over 200 persons were served breakfast, a record for such an event. The crowd started arriving at about 8 a.m. and serving lasted well past 11 a.m. The large number of local residents present at the affair was very encouraging.

The rough weather forced cancellation of flight contests. It was felt the gusty winds would make accuracy in either the spot-landing or flour bombing contests practically impossible.

The new shop building, completed just in time for Sunday's open house, was viewed by thousands of people who came in a steady stream all day long. Considerable interest was shown in the well-equipped building, which will be used largely for the instruction of student mechanics.

The air force and navy surplus airplanes to be used for instruction purposes were very popular from the visitors' standpoint.

The winds also failed to dim the enthusiasm of those who took advantage of airplane rides offered for one cent a pound of passenger weight. At times during the day four planes were kept busy flying passengers and the rides continued until almost dark.

Dignitaries who attended the open house included S. K. Wick, vocational education director, state department of education; his assistant, William Knaack; Robert Van Tries, chief of the trade and industrial section, vocational education division, state department of education; Fred Gordon, also of the trade and industrial section; D. E. Ervin, safety inspector, Fargo FAA office; Eugene Miller, president, Minnesota Flying Farmers; State Rep. B. M. Wichterman, and others, all of whom came by air.

Vote Deadline Wednesday for ASC Committee

Culkins Reports Votes are Coming in Slower; late Votes don't Count

Patrick W. Culkins, manager of the Pennington county Agricultural Stabilization and Conservation office, told the Times today that as of the close of business Friday, Sept. 25, only 31.6% of the ballots mailed to eligible voters in the county for the election of community committeemen had been returned to the county office.

Listed below are the percentages of ballots returned by voters from the various communities: Black River-River Falls 44%; Bray-Polk Centre 35%; Cloverleaf-Goodridge 20%; Deer Park-Hickory 28%; Highlanding 40%; Kratka 46%; Norden-Numedal 31%; North 28%; Reiner-Star 28%; Rocksbury 28%; Sanders 33%; Silverton 32% Smiley 31%; and Mayfield-Wyandotte 35%.

Culkins said that the percentage of ballots returned so far is considerably less than in the 1958 election, when approximately 57% of the eligible voters voted for committeemen in the county. He stated further that it would be greatly appreciated if the voters who have not returned their ballots would do so at their very earliest convenience, because ballots received in the county office after September 30, 1959 would be declared ineligible.

Sp-4 Laurel Smith Sings in Quartet

Group Wins Fifth Region Competition in Chicago

Sp-4 Laurel Smith who is stationed at the Army (Nike) missile base at Selfridge AFB near Detroit, has been assigned to temporary duty with three other men in singing in the 28th Group Army Air Defense Command barbershop quartet competition.

After taking first place with the 28th Group on September 16, they were flown to Chicago where, on September 23rd, the quartet placed first in the 5th Region competition in Chicago.

They are now preparing to enter the national contest, to be held on October 15th and which is tentatively scheduled to be held in Colorado Springs, Colo.

Specialist Smith has been stationed at Selfridge since last June, after a year at the Army Missile school at Fort Bliss, Tex. where he was graduated in a class of 123 men last May, and promoted to Sp-4. He enlisted for 3½ years in January 1958 through the Pennington county draft board. He is the son of Mr. and Mrs. Arthur G. Smith, formerly of Thief River Falls and who now live in Gladstone, Mich.

Mr. and Mrs. Duane Larson spent Friday and Saturday at Grand Forks, where Mr. Larson attended a sales meeting and Mrs. Larson visited with her sister.

Girl Scout Area Board Met Here

The Northestern Minnesota Girl Scout Area Board meeting at Thief River Falls on September 19, was attended by approximately twenty members from the communities of Thief River Falls, Red Lake Falls, Roseau, Stephen, Warren, McIntosh and Fosston. Reports were heard from the standing committees. Of particular interest was the report from the Camp Director, telling of the highly successful two-week Girl Scout Encampment at Camp Wabanaquat last August.

Plans were made for the Northwest Area's annual council meeting in October. This will be a dinner meeting, at which election of officers and board members for the new year will be held. The meeting will feature a program with slides and swaps by the two patrols of senior scouts who attended the National Senior Round-up in Colorado. Communities are invited to bring their senior scouts to this meeting. The meeting will be held in Thief River Falls, the exact date to be announced within a few days.

Jehovah's Group Concludes 3-day Conference Here

More Than 700 Members Present at Meeting in City Auditorium Sunday

"God has willed a perfect government for mankind. This government will restore the earth to its original paradise where men will 'beat their swords into plowshares and spears into pruninghooks and nations will learn war no more.' This is God's promise," said A. K. Wagner of New York, district supervising minister of Jehovah's Witnesses, as he addressed an audience of 748 at the Thief River Falls city Auditorium Sunday.

Mr. Wagner's talk, "When is God's Will to be Done on Earth," was the highlight of a three-day gathering of Jehovah's Witness from 19 congregations in northern Minnesota.

Mr. Wagner stated that the divine formula for human happiness is based on the two greatest commandments — to love and obey the Creator, and to love his neighbor as himself.

One important part of the assembly was a baptismal ceremony with 20 new members being imersed. According to R. H. Wetenkamp of the Thief River Falls congregation, baptism is a recognized ceremony of ordination for the ministry as one of Jehovah's Witnesses.

On Saturday evening a film was shown depicting the worldwide Bible educational work of Jehovah's Witnesses. The Witnesses claim more than 800,000 ministers of nearly every race and color on earth in 175 different lands and islands.

The three-day assembly of the Witnesses was designed to help them to practice the "Divine Will" in their own congregation's territory.

SAILOR JOHN GUSTAFSON IN MEDITERRANEAN AREA

John F. Gustafson, seaman, USN, son of Mr. and Mrs. Ben Gustafson of Thief River Falls, is serving aboard the aviation base ship USS Alameda County, operating with the U.S. Sixth Fleet in the Mediterranean.

The Alameda County, homeported in Naples, Italy, is the Navy's first aviation base-ship, having been converted from a landing ship tank. As part of the powerful Sixth Fleet, one of her important jobs is to land men and equipment to establish aviation operations at deactivated airfields.

Before entering the Navy in July, 1957, Gustafson attended Lincoln high school and was employed by Piggly-Wiggly Supermarket of Thief River Falls.

Community Chest Drive to Start Oct. 19

Jarvis Prichard Heads Campaign; $12,991 is Tentative Budget

The tentative starting date of the 1959 Community Chest drive in Pennington county was set for Oct. 19, it was announced today, following a meeting of the board of directors in the Chamber of Commerce office Wednesday evening. Jarvis Prichard is the 1959 drive chairman.

Roy Jorgenson presided at last night's board meeting in the absence of George Hale, president. Other business discussed included the 1959 budget, which has been tentatively set at $12,991. This compares with $10,800 in 1958.

Also discussed was the possibility of a payroll deduction plan for contributions. While no definite announcement on this has been made, it is felt by many that this would result in a substantial increase in the size of contributions in the city.

Another meeting has been set for next week, at which a representative of the Lake Aggasiz scout council will attend to discuss the scouts' needs for the coming year.

Celebration Plans Being Formulated

"Progress" Program Covers Three Days of Many Activities

Plans gradually are shaping up for the "Thirty Years of Progress" celebration to be held here Thursday, Friday and Saturday, October 15-17, according to Morris Howick and Wally Jordet, managers. Committees are now functioning and the various activities are gradually being fitted into the general pattern.

The Northwestern Minnesota Auto Show, sponsored by local dealers, will be an unusually interesting attraction this year with the many new models that are being introduced and which will be displayed here. Roger Tunberg and Arnold Kelly, co-chairman, state that all dealers are participating and that all of the popular makes of cars will be here for inspection.

A Style Show is now definitely in the making. The members of the Northwestern Hospital Auxiliary have agreed to direct the presentation of fall and winter fashions. The program will be brightened with entertainment features and proceeds will be used for hospital purposes. Arrangements were being planned at a meeting of the Auxiliary officers and Cliff Bjorkman's committee this morning.

At their meeting Thursday night the Jaycees appointed committees for the free dance to be held at the Auditorium Friday night, with prizes to make the evening extra interesting. The Jaycees are also sponsoring a safe tractor driving contest for Saturday, to be held on the street near the Arena. A pie eating contest and a tug-of-war will also develop some prize winners.

The Thursday activities will consist of meetings of various kinds and the "Top of the Nation" sale of dairy cows. Thursday will be the official dairy day of the celebration, ending with the "Thirty Years of Progress" banquet that evening at the Armory. The thirty years of progress dates back to the coming of Land O' Lakes, an event that ended the gloom of the 'twenties and started a period of growth that has continued since then. Other organizations that have located here or expanded since then will be recognized.

Friday will be Turkey Day and activities will center around this industry. Details of the day's activities are still in the formative stage.

Hawley Man Dies on TRF Golf Course

Donald L. Cameron, 45, is Victim of Stroke, Sunday

A well-known Minnesota golfer, Donald L. Cameron, 45, Hawley, died suddenly Sunday, while playing golf on the local course with three city residents.

Cameron was one of a foursome which also included N. H. Kortuem, Steve Nelson and Curtis Johnson, all of this city. According to reports, Cameron had just made a shot and had walked about 15 paces when he collapsed on the green, shortly before 11 a.m.

Dr. George T. VanRooy, who made the final examination, said Cameron died of a cerebral stroke.

Cameron was taken to Sinding-Gulbranson mortuary where his body was kept until Sunday evening, when it was taken by ambulance to Hawley, where funeral rites will be held.

School Lesson Pays Off . . .

Warroad Chief Saves Son's Life

FIRST AID Loren Fish, center, Warroad police chief, demonstrates with a classroom doll how he applied a first aid lesson learned Thursday, Sept. 24, to saving the life of his own nine-month-old son that evening. Watching the demonstration are Willard Morris, left, training supervisor of the state bureau of criminal apprehension and director of the police school, and State Sen. Roy Wiseth, right, who awarded diplomas to 21 graduates of the school Friday.

The lessons learned during the police school held Sept. 14-25 paid off for a member of the class when he saved the life of his nine-month old son after returning from the school Thursday, Sept. 24.

Loren Curtis Fish, Warroad police chief, was recounting to his wife some of the things he had learned in first aid when his youngest son began choking on some food.

"We were told not to stick a finger down a child's throat in a case like this," Fish explained, "but to hold it upside down and strike it between the shoulder blades with the hand."

In the meantime, he recalled, his wife called the doctor and it was three or four minutes before Mr. and Mrs. Fish climbed into their car and started for the doctor's home. During the entire time, Fish was following the directions he had been given in the first aid class that morning.

After another four or five minutes, the food was dislodged and the family arrived at the doctor's home only to learn that he had left for the Fish home.

"I don't know what we would have done if I hadn't learned how to take care of an emergency like that in the police school class," Fish said.

The Warroad policeman was congratulated Friday, the last day of the police school, by instructors and was one of the members of the first class to graduate from the school this year by the state legislature.

On Thursday, October 1, there will be a meeting for the purpose of discussing important business, C. E. Hellquist, secretary, reports.

Half-inch of Rain Fell Here Friday

Mercury Dropped to 32 Degree Mark Saturday

Gray fall days with wind and rain, weather so familiar in northwestern Minnesota during the fall, are with us again.

Temperatures the latter part of last week ranged from 70 Thursday afternoon to 32 Saturday night, but have been mostly in the 60's during the daylight hours and in the 40's at night.

Rainfall during the period was concentrated on the 25th when .51 inch fell to bring the month's total o 2.60 inches. Only a trace was registered the following day.

A light drizzle fell this morning, Sept. 28, and the skies were overcast as the KTRF forecast called for mostly cloudy weather with occasional light rain and colder today, tonight and tomorrow.

The highs expected today are in the lower 50's and the low tonight from 35 to 40.

Rev. Augustine Tells of New Home in Africa

Rev. Marvin Carlson of this city received the following letter from Rev. Douglas Augustine, who served the Augustana Lutheran church of St. Hilaire four years and is now a missionary in Tanganyika, East Africa. Many Times readers will be interested in this letter, telling of the experiences and the reactions of the Augustines in their new home.

Sept. 14, 1959

Dear friends,

Here we are on the other side of the world, after a long and eventful trip. The boat trip across the Atlantic was seven continuous days of fog and rain. The four days in Switzerland demonstrated that this small beautiful country is truly one of the most delightful places in the whole world.

The railroads are really outstanding, the way they enable one to go "mountain climbing" while sitting and riding on the train. The cog trains go up at such a steep angle that the floors of the coaches are made in steps so that one can move about in the coach while it is going up or down the mountain. Another exciting way to climb a mountain the easy way is by taking one of the long cable cars or chair lifts which enable one to ride up while suspended over the city. It is an unforgettable experience to see the calendar pictures of mountains come to life.

On a side trip to Hanover, Germany, we got a three-month old baby boy for a missionary family in Africa to adopt. The first time we saw the child was 30 minutes before take-off. In contrast with the amount of handling the child received at the orphanage, he was held all that day, all that night, and all the next day as the plane went from Germany all the way to East Africa. He was remarkably content with the big change in his small life.

We have now actually been living in Africa for a month and one half. The most outstanding feature about life in Central Tanganyika is the weather. No one talks about it here because it seems to be perfect all the time. By perfect is meant comfortable. A blanket is necessary for sleeping every night. It would actually be chilly in the homes during the day if the sun did not warm the air outside.

By opening the windows, one can warm up the house, by keeping the windows closed, one can keep the house cool or cold as is preferred. Because this area is near the equator, the sun is warm. Because it is at five thousand feet elevation, the air temperature is cool.

If one ever works outdoors and perspires, the evaporation is so fast that one keeps cool, in spite of the tropical sun. There is one draw-back. Virtually no rain from April to November or December. It is a real mystery how there can be so many green and flowering trees and shrubs in the middle of the dry season. The cows may give only a cup of milk a day on their dry-grass diet, but the real mystery is how they manage to stay alive with so little water and feed.

The people here contrast with each other. Many live exactly as their ancestors have lived for thousands of years. They are completely self-sufficient, raising and making whatever they need to live. Others have some education, some have much education. Some wear clothes similar to our own, many wrap a cloth around themselves, some wear nothing.

Almost everyone walks if he is going somewhere, a few take busses if any go that way. It is not uncommon for an African to walk 25 or even 50 miles if necessary. It is possible to hire a runner to take a message 25 miles one way for three shillings ($.42). Laborers receive 15 cents a day.

With enough education to read and write as well as with experience a laborer could make 40 cents a day. We missionaries are all considered terribly wealthy out here, you can easily understad why. The only possible way they could ever use any machinery for farming would be for a large group to own it together. No one person could ever make enough in a lifetime to make a down pament on a tractor.

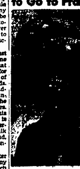
Most of the roads here are just like farm field roads. No one would really know what that meant unless he had ridden for six or eight hours in the box of a pick-up truck over such roads. This has required a bit of adjusting for us. Coming up-country on the railroad, we made the first 125 miles in eight hours. Of course it only averages this 15 miles per hour when it is running on time. But remembering how the pioneers had to walk in and carry their loads by hand, the railroad seems quite wonderful.

We are eating as well or better here than we ever have at any time. Meat can be shot which tastes as good as lean beef. Beef costs 14 cents a pound for any hunk, and that is how it is sold, by the hunk. Fruit is plentiful and available in a wide variety. Some of the best tasting and the most healthful fruits we had never heard of before. Pineapples and bananas are old favorites but a fruit such as the guava really beats them all.

Most of the Africans live on corn mush and are thin and undernourished. This is one of the big tasks. They have so much to learn about soil erosion, good seed and the many basic understandings which have made it possible for American farmers to produce more than just enough to feed their own families.

Our first evening in our new home was spent with Dr. and Mrs. Joe Norquist and their two children. It was a wonderful experience for our Scott to see his old friends, Stevie and Kathy, whom he had talked about seeing in Africa for such a long time. It isn't everyone who has the same family doctor on both sides of the world.

Except for the short-wave radio and Time magazine, etc. one could easily forget that the rest of the world and all its problems even exist out here. Language study is half over and already we can truly say that we love living in Africa—it is a wonderful place to live.



Yours in Christian friendship,
Pastor Augustine

Extra pasture, like extra cash, is handy to have around in emergencies. To get the most out of emergency pastures, rotational grazing is advised. Graze stands rapidly; then give the grass a long recovery period.

MURDER SCENE "Mr. X," leaning over his desk, met with foul play during the police school Friday, Sept. 25, and it was up to the students to translate clues into a solution of the crime and to apprehend the criminal. Investigating are from left to right: Charles R. Richards, Pennington county sheriff; Oscar Erickson, Marshall county sheriff; Elton Cummings, Thief River Falls police chief; Gordon Taylor, Grand Forks police department and Theodore D. Heyen of the Roseau police department.

Army Recruiter to Go to France

Sgt. L. J. Clemenson, who has been the army recruiter in Thief River Falls for the past five years, leaves Wednesday for duty in St. Germain, France. Going with him will be his wife, Marie and their two children. They will travel to New York by air and will be in France for three years. St. Clemenson stated he would like to thank all the people of Thief River Falls and surrounding area for a very enjoyable five years in this area.

Final Rites for Axel V. Jacobson Set for Tuesday

Funeral services will be held Tuesday, Sept. 29, at 2 p.m. at St. Hilaire Lutheran church for Axel V. Jacobson, Rev. A. E. Berg will officiate with interment to be made in the Community cemetery at St. Hilaire. The body will lie in state at the Sinding-Gulbranson Funeral Home from tonight, Monday, until 11 a.m. Tuesday and at the church one hour before time of services.

Mr. Jacobson died at the Virginia Municipal hospital in Virginia, Friday, Sept. 25, at the age of 73. He was born at St. Hilaire, Dec. 18, 1885. There he was baptized, confirmed, attended school and grew to manhood. He was united in marriage to Blanche Amble, April 21, 1909, and they established their home in the St. Hilaire community. Following the death of his wife in 1956 he made his home with his daughter, Mrs. Alvin Lee, at Mountain Iron, Minn.

Surviving are one daughter, Wanda, Mrs. Alvin Lee of Mountain Iron; one son Arle of Little Falls; one sister, Mrs. Victor Brink of St. Hilaire; two brothers, Hjalmer of Virginia and Benjamin of Hibbing; also four grandchildren. He was preceded in death by his wife, one son, one daughter, three sisters and four brothers.

PLUMMER . . .

Brooks-Plummer Church Meeting

Members of the congregation of the Brooks-Plummer Presbyterian church met at the Brooks church Tuesday to elect a new session board. Rev. Stanley Johnson of the Presbyterian church of Crookston presided.

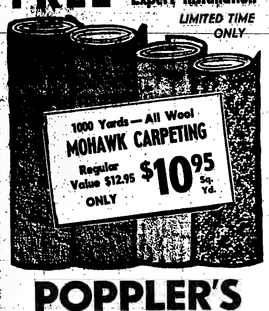
The following members were elected: Lawrence Carpenter, Chas. DeBoer, Bernice Orr, Mrs. Gust Westerlund, W. L. Dobson, Mrs. James Gilbertson, T. M. Dennestorn, Lee Neilson, and Lanis Karel. The members of this board met at the close of the meeting to discuss plans for the installation of Rev. Glenn Atcheson who has accepted the call as pastor of the congregation.

Frosts Increased the Forest Fire Dangers

Killing frosts along the northern boundary counties and spotty frosts all over the northern forest area have hit the summer vegetation and created the usual fall forest fire hazards, Don Wilson, forester in charge of fire control, division of forestry, reported today.

The dead dry vegetation is fuel for running fires and when coupled with low air humidity and winds, the conditions are ripe for fires to start easily and run rapidly.

After a rather serious fire condition this spring, timely rainfalls reduced the chances of fire during the summer and early fall. The 14,000 acre Badoura fire in early May was the most disastrous in many years and is the bad example of what "can happen here" when all the factors of a fire hazard are high at the same time.



Field and forest conditions have been checked by rain this fall, but from experience, foresters know that conditions change very fast and will not consider the fire danger over until snow covers the ground. For such reasons the forestry supervisors are asking all persons in the forest area to be careful with all fire and contact the forestry offices when there is need of any burning.

SPEAKER at special services being conducted at the Covenant Church at Viking, commemorating the congregation's seventieth anniversary, will be Rev. Arthur Fretheim of the Brookdale Covenent church. A series of meetings are scheduled for the end of this week, Thursday through Sunday, October 1 to 4.

GROWING WITH YOUR CHILD

Institute of Child Welfare
University of Minnesota

One of the signs of youthfulness is impatience. This is about as true of nations as of individuals and our country is no exception. We are a people in a hurry. But some things just won't be hurried. Try as we may there are still a few things which we must wait for with patience.

Study of the growth and development of children gives us a few examples of things which can't be hurried. Rome wasn't built in a day, and a child does not become a "grown-up" overnight. And yet is is so easy to be impatient with the gradual growth process, the seemingly endless period of helpless dependence upon us as parents. Research evidence which indicates that we Americans are mighty eager to have little folks become independent as soon as possible has been accumulating for some time now.

Most parents of older children know how the picture changes as the child grows older. Some weeks ago we talked about how hard it is for some parents to accept the developing independence of their adolescent youngsters. In part, this resistance results from the realization that there is still so much we want to teach them and help them with before they take off on their own. How different from the impatient pushing and prodding of preschool children by young beginning parents. How much more serene it would be around their home, how much easier would be their task of child rearing if they accepted the fact that certain things simply can't be hurried.

Quite a number of studies have been undertaken to see whether early extra practice in block-building, stair-climbing, buttoning, and paper cutting would speed the day that a youngster could perform these acts easily and well. The results generally indicated that the extra effort just wasn't worth it. It appears that the individual child's rate of maturation must be understood and respected. Normal children do "grow up" to perform most normal skills and activities in their own good time. Pushing, prodding, and practicing before they are really ready may create a further problem involving fear of the activity and failure in general, as well as distrust of those who make these demands upon them. Maturation is a gradual process and we had better make up our minds to wait and trust the developmental process.

PLANTING SPRING FLOWERING BULBS

Now is the time to plant spring flowering bulbs. Plant the smaller bulbs as quickly as possible. Plant such bulbs as crocus, snowdrop, grape hyacinth, squill and, other of this type during September so they will be properly rooted before freezing temperatures occur. Other bulbs such as tulips, hyacinth and daffodils should be planted during October so they also will be properly rooted before freezing temperatures occur.

* * *

Proper soil preparation is as important for bulbs as for other perennials. Prepare the soil by adding organic matter such as compost, well-rotted manures, commercial peat-and-leaf-mold. Add fertilizer at the rate of approximately 4-5 pounds per 100 square feet. A good analysis for bulbs would be a 10-10-10.

* * *

The bulbs can be grown in full sun or in partial shade. Don't plant bulbs too close to the foundation line—especially on the south side of a house. If you are planting bulbs on the south side of the house, plant them about three feet from the foundation.

* * *

Not all bulbs are planted the same depth. The hyacinth, tulip and daffodil bulbs are planted from a depth of three to four inches.

* * *

Generally speaking, the bulbs are planted in a clump-like circle rather than in a row. This would be up to the individual gardener. Where a clump-like planting is made, it is best to dig out the hole to about two feet in circumference. Then set the bulbs at equal distances in the hole and carefully cover the hole. Be sure the pointed end of the bulb is up.

After completing the planting, water the bulbs well so they are off to a good start.

QUESTIONS answered for VETERANS

Q—I have a GI home loan I have have been paying on for a year. I just heard that the maximum allowable GI interest rate has gone up. Does this mean I have to pay my lender more?

A—It definitely does not. Loans closed before July 2 are in no way affected by the new rate. Only loans made on or after that date can be charged the new 5¼ per cent rate.

Q—I want to go to school under the Korean GI Bill in the fall. How soon after starting school can I expect my first GI allowance check?

A—In about two months. Under the law, VA allowance checks are payable only after completion of each month of training, and the law allows VA 20 extra days to process checks. So be prepared for a two-month wait before your first check comes.

Q—I am going to have to take a physical examination to reinstate my lapsed GI insurance policy. Who mails my medical application for reinstatement to the VA—me or my physician?

A—Your examining physician should mail it to the VA as soon as your examination is completed.

Q—If I decide to convert my term insurance to a permanent plan, must I convert it all at once, or can I convert a part at a time?

A—You may convert a part of your term insurance to permanent insurance, but the minimum amount that may be converted is $1,000. After that, conversion must be in multiples of $500.

Grand Forks Golfer Is 'Snowball Special' Winner Here Sunday

Martin (Duke) Evenson of Grand Forks, shooting a sub-par 35 on his third and last round overhauled Bemidji's Glenn Fleisch to win the 27-hole medal play championship flight honors in the "Snowball Special" golf tournament played here Sunday.

Fleisch, one of Bemidji's top-ranked golfers, and a winner here last season, put together a pair of 38's to hold a two-stroke lead as the championship flight golfers began their final nine holes of play. The Bemidji golfer was troubled by poor putting during his final round, and finished the last three holes with a bogey, a double bogey, and a par, to card a 40.

Evenson started his final nine with a five on the first hole, then scored a pair of three's and a birdie deuce to take a one-stroke lead. Evenson's fours on the 7th and 8th holes boosted his lead to three strokes.

The tournament was saddened by the untimely death of Hawley's Don Cameron, who collapsed and died of a heart attack during his first round match in the fifth flight competition. Cameron, forty-four years old, was playing young Curt Johnson of the local club, and he had just completed his second shot on the first fairway and was walking toward the green when he was stricken. Vint and George McDonald, who were competing in the championship flight competition, and LeRoy Downer, playing in the fifth flight, all of Hawley, and travelling companions of Cameron, withdrew from the tournament.

The cards of the first, second, and third place winners in the championship flight play:

Northrop Winner of Grade School Football Opener

Indians Score 28 to 0 Victory over Washington Eleven Last Wednesday

Grade School Football League

	Won	Lost	Pct.
Northrop	1	0	1.000
Knox	0	0	.000
Washington	0	1	.000

Results of last week's game: Northrop, 28, vs. Washington, 0.

This week's schedule: Wednesday, Sept. 30— Northrop vs. Knox

The grade school football season was opened last Wednesday afternoon on the Lincoln high school field, and coach Phil Beadle's powerful Northrop Indians scored a decisive 28 to 0 win over coach George Schlieff's Washington team.

This week's game, to be played on Wednesday afternoon, with the kickoff slated for 4:15 P.M., will find Northrop meeting the highly-rated Knox Tigers, coached by Roger Dorn. Knox had been scheduled to meet Washington on this date, but as the Washington team has come under the direction of a new coach (Schlieff has replaced Frank Hamerlinck as coach of the Washington squad) it was decided to give Washington an open date and an opportunity to become acquainted with their new coach.

In last week's tilt, Northrop moved into a 7 to 0 first period lead when fullback John Olson, on a ten-yard run, scored a touchdown, and Bill Weigelt added the conversion point on a plunge.

Held to a 7 to 0 lead at the intermission, the Indians tallied two touchdowns in the third period. Quarterback Tom Cummings, on a nine-yard gainer, scored a TD, and Larry Bjerken, on a run, added the point. A short while later, Olson, on a fifteen-yard run, scored his second touchdown of the game, and Weigelt, on a plunge, added the point, giving Northrop a 21 to 0 lead.

Olson's eighteen-yard run marked up a touchdown in the fourth period, and Weigelt's sneak through center added the extra point to boost the Indians' margin of victory to 28 to 0.

1960 Oldsmobiles to be Displayed Thursday

Kelly of The Northern Chevrolet, Inc. announced today that the 1960 Oldsmobiles will go on display in their showroom on Thursday, October 1.

New crisply-tailored styling and a balance of design are teamed with further advances in economy of operation in the 17 new Oldsmobile models for 1960, according to Jack F. Wolfram, general manager of Oldsmobile.

Wolfram stated that the 1960 Oldsmobile features a redesigned Rocket engine in the Dynamic "88" series for use with lower cost regular grade gasoline.

"This engine," said Wolfram, "will give our customers an improvement of 15 per cent in miles per dollar—maintaining excellent performance."

In all series there are new rear axle ratios and many other engineering advancements. Two three-seat Fiestas have been added to Oldsmobile's station wagon line.

"From the trim curved grille to the clean-sweep of the rear deck, the 1960 Oldsmobile is the finest automobile we have ever built," Wolfram said.

"The balanced design of the car is new from every view—front, side and rear. We believe the new Oldsmobile has the styling our customers want, the full-family spaciousness they need and the luxurious interiors they asked," he said.

One species of caddis-fly, using fine sand grains and its own open silk builds a house in the exact shape of a snail shell. The replica is so perfect that specimens have deceived the most experienced shell collectors.

Mr. and Mrs. Vernon Finstad and Linda of Corvallis, Ore., visited Tuesday evening at the Carl Alberg home. Other visitors during the week were Mr. and Mrs. Olaf Snetting and Mr. and Mrs. Norman Nelson and family.

Mrs. Olaf Snetting entertained at supper in honor of Mr. Snetting's birthday anniversary a week ago Thursday evening. Guests were Mr. and Mrs. Leslie Snetting and girls, Mrs. John Helle, Don and Alice, all of Thief River Falls.

1960 Olds Has Fresh, Smooth Look

Designed for the start of a dynamic new decade is this 1960 Oldsmobile "98" Holiday SceniCoupe. The low, level hood treatment affords maximum visibility through the Vista-Panoramic windshield. This smooth look is carried through on rear fenders and the expansive rear deck. Heat-resistant glass is standard in the spacious rear window of all SceniCoupe models. Adding smart accents to the front end styling are the horizontal grille louvers. The parking lights are safely recessed in the wrap-around section of the bumper where they can be easily seen from the front or side. The Holiday SceniCoupe body style is available in all Oldsmobile series for 1960.

We'll Pick the Dodgers

And so it's to be a best-of-three series between the Milwaukee Braves and the Los Angeles Dodgers to determine the National league's champions, and the opponents of the American league's Chicago White Sox in the World's Series.

Winning their schedule-ending games on Sunday, against Philadelphia and Chicago, respectively, the Braves and the Dodgers ended their season in a first place tie.

The playoffs will open today with a game at Milwaukee, and we'll pick the Dodgers to win the series. It may take three games to decide the winner, but the Dodgers appear to have a bit more desire than the Braves. And the bonanza that will accrue to the Dodger players if they gain the World's Series, with the vast seating capacity of the Los Angeles Coliseum, will have its effect. The Dodgers are old pro's and they will react, favorably we hope, to the pay day that such a World's Series will provide.

And not only do we pick the Dodgers to win the National league playoffs, but we will also string along with manager Walt Alston's team to defeat the White Sox in the World's Series. Rog Tunberg gave us a briefing on the capabilities of the Sox, and why they should be rated as favorites. In spite of Roger's logic and reasoning we believe that the Dodgers have the type and style of game to blunt the go-go-go game of the White Sox. And what would the hitless wonders of the White Sox do against the side-arming slants of the Dodgers' Don Drysdale? Or Sandy Koufax? Or Johnny Podres?

They Deserve a Playing Field

The East Grand Forks Little Green Wave football team is an "orphan" as far as having a home playing field is concerned. Last Friday night's game with the Prowlers, and the East Siders were very fortunate to gain a 7-all tie, was played on the North Dakota University field in Grand Forks.

The East Grand Forks school officials have a rental agreement with North Dakota whereby, at about one hundred dollars a game, they can rent the Memorial stadium field. That the Sioux athletic officials are not happy with the arrangement can be judged by the fact that they wanted to have the Prowlers vs. East Grand Forks game on Friday postponed.

Heavy rain, and the prospect of more rain, posed the threat that the two high school teams would churn up the field. And that was true enough, for the boys did dig up the turf. On Saturday night, the North Dakota Sioux played Morningside in a conference game, and we can imagine that the field showed evidences of Friday night's Prowlers vs. East Side tussle.

East Grand Forks, over the years, has always produced a strong football team, and we believe that the boys over there deserve a first-rate playing field of their own. They did have a field some years ago, but that playing field area is now the site of a new school.

And speaking of Friday night's game. The Prowlers were disappointed by the result, and rightly, for they felt that they were the better team. And, too, the injury suffered by popular Dale Wennberg had a depressing effect on the players. The Prowler linemen, though, must derive some satisfaction out of the fact that they were able to stop the rushes of East Grand Forks' Lowell Innes, particularly during that sequence of downs late in the third period when, on a fourth down situation on the Prowler 35-yard line and with one yard to go, the locals held Innes without a gain as he hit Wes Halvorson and Jim Wegge bulwarking the center of the Prowler line. So effective were the Prowler forwards in halting the rushes of Innes in the second half that they forced the East Grand Forks board of strategy to send the power-running fullback on end sweeps. That was quite a concession.

Camels are an economic mainstay in parts of the Middle East. From the ungainly beasts, Arabs get transportation, hair for cloth, milk for drinking. The skin makes tough leather, the bones substitute for ivory. The animal does not carry water in its hump, which is a mass of fat. It simply conserves water in its flesh and wastes none in sweating.

Slow Start on Grouse Season

With rainy and misty weather the sharptailed grouse hunting season which opened Saturday, Sept. 19, got off to a slow start. Section of game field personnel checked 245 hunters in good sharptailed grouse range in northwestern Minnesota. In this area hunters took one bird per hunter on the average on the opening weekend. It took the hunter about 3.7 hours to bag one bird. Forty-seven hunting parties reported seeing an average of 17 sharptails per party.

The birds which were checked for age indicated that 75 per cent were young. This is excellent reproduction and much better than last year when only 55.8 per cent of the birds taken were young of the year. The hatch this year was later as evidenced by more younger birds in the bag.

Although the opening weekend did not measure up to last year, hunters should be able to expect better hunting as the season progresses, David Vesall, game chief, predicted.

WARDEN TRANSFERRED TO DETROIT LAKES

Game Warden Ted Abrahamson, who has been with the division of game and fish since 1948, has been transferred from the Montrose warden district to Detroit Lakes. Ted is a veteran of World War II where he served in the Southwest Pacific Theater. He was previously stationed at Warroad and Cook before transferring to Montrose.

And these injuries are usually serious enough to bring heavy expense and costly loss of work time. Falls occur especially in barns and other buildings and barnyards, from hay racks, ladders, roofs, and trees.

Outplay East Side but Prowlers Get Only Tie

Out-gained by many yards from scrimmage, and out-first-downed by a sixteen to five margin, coach Harold Sullivan's East Grand Forks team took advantage of the recovery of a Prowler fumble to score a touchdown and, on a neatly-executed play, added the conversion point to tie coach Joe Mrkonich's Prowlers, 7 to 7, in a Northwest conference football game played on a rain-soaked Memorial stadium field in Grand Forks on Friday night.

The Prowlers will continue in Northwest conference competition this week when, on Friday night, they travel to Roseau for a game against the powerful Rams. Roseau, on Friday night, scored their second conference win (they lead the conference with two wins and no losses) when they trounced the Crookston Pirates, 27 to 7, at Roseau.

It's probable that the Prowlers will be without the services of quarterback Dale Wennberg on Friday. Dale, who turned in a fine all-around game against East Grand Forks, injured his right knee during a defensive play on East Grand Forks hard-running Lowell Innes in the fourth period. While X-ray examination of the knee has not disclosed any broken bones, the seriousness of Wennberg's injury will not be known until he has undergone further examination.

The scoring of Friday night's rugged tilt in Grand Forks was concentrated in the first period, during which the rains fell, the lightning flashed, and the thunder rolled. East Grand Forks, choosing to defend the south goal and receiving the benefit of a strong south-east wind, kicked off to the Prowlers, with the kick going out-of-bounds.

The Prowlers put the ball in play on their 40-yard line, and in eight plays and four first downs they moved to the East Grand Forks' 13-yard line. Fullback Pete Iverson and halfbacks Gary Klungness and Lloyd Ranum were ripping the sturdy East Side line for consistent gains, and Wennberg chipped in with a seven-yard gainer.

From the 13-yard line, Klungness picked up a yard, Iverson hit left tackle for four yards, Klungness drove to the four-yard line, and then Wennberg came out, around right end for the touchdown. Klungness added the conversion on a sweep around right end, giving the Prowlers a 7 to 0 lead.

That lead was short-lived. East Grand Forks accepted the kick-off, with Todd Goschen returning the ball from the 24-yard line to the East Grand Forks' 41-yard line. Three plays picked up but four yards, and big Ray Gibbons kicked out-of-bounds on the Prowler 17-yard line on fourth down. Iverson tried left tackle for no gain, East Grand Forks' center Pat Sullivan, son of the East Side coach, recovered a Prowler fumble on the locals' 17-yard line.

From the 17-yard line, the East Siders, using Innes at fullback, drove to the 7-yard line for a first down. Innes picked up a yard at left tackle; Jerry Werness, taking a pitch-out, moved around right end to the 2-yard line. Innes piled over right tackle for the TD, and when Werness scampered unmolested around left end for the extra point, the game was deadlocked, 7 to 7.

The second half was confined to bitter give-and-take football in midfield, although the Prowlers, after Jack Goulet had recovered an East Side fumble on the East Siders' 36-yard line, did move for a first down on the East Grand Forks' 26-yard line late in the fourth period. East Grand Forks recovered a fumbled lateral pass to halt the threat.

Prowler Golfers Win 31st District Golf Championship

Warren Ponies Second in Tournament Played on TRF Course Saturday

Coach Jack Boyer's Prowler golf squad won the 31st district high school golf championship, with a three-player score of 257, in the tournament played over the local course on Saturday. The Warren Ponies marked up a 284 for second place; the Crookston Pirates had a 295 aggregate for third place; and the Red Lake Falls Eagles totaled a 333.

In addition to winning the district team title, the Prowlers placed four players — Ron Solheim, Bob Brown, Ron Kvikstad, and Curt Johnson — in the Region Eight tourney to be played here on Thursday, Oct. 1. Other district players gaining the regional tourney were Chuck Hiller of Crookston, who carded a pair of 44's for an 88; and Warren's Steve Nelson, who gained a berth after an extra-hole playoff against Bill Gilbert and Tom Magoris.

The Prowlers' Solheim won the district medalist honors, having a 42-40 for an 82. Brown carded a 43-42 for an 85, to be runner-up. Kvikstad notched a 48-42 for a 90; and Curt Johnson scored a 44-47 for a 91.

The Region Eight tourney is slated to tee off at 10 a.m. on Thursday.

Prowlers Edged by Detroit Lakes in Cross-country

In a season-opening cross-country match held at Detroit Lakes on Friday afternoon, coach Rod Max's Prowlers dropped a one-point decision to the Lakers, 30 to 29.

On Wednesday, Sept. 30, the Prowler cross-country squad will travel to Fargo for a dual meet against the Oak Grove squad.

The individual scoring for last Friday's meet at Detroit Lakes, and which was run over a 1.8 mile course, was as follows: 1, Jim Stanhope, DL; 2, Ed Schmidt, DL; 3, Dave Hauswirth, TRF; 4, Bruce Carlson, DL; 5, Jim Ewing, TRF; 6, LeRoy Udstrand, TRF; 7, Jack Houfek, TRF; 8, Ross Moga, TRF; 9, Dave Engum, DL; 10, Mike Aune, TRF; 11, Jim Hageman, TRF; 12, Don Ranstrom, TRF; 13, Dave Jones, TRF; and 14, Ralph Olson, DL.

State Map Showing Public Hunting Areas is Now Available

A new map which shows the location of state-owned wildlife management areas and public hunting grounds is now available to Minnesota hunters. In making this announcement David B. Vesall, game section chief, said that this 19" x 24" map is put out annually under the direction of his section's Lands Project Leader Stephen Sokolik. "The map helps direct hunters to public hunting areas. The locations of the individual units are shown in red on the front of the map. The county, name of the unit, distance and direction from the nearest town, size of area, and the state game warden in charge are listed on the back.

The wildlife management areas which are listed are largely wetlands projects acquired and developed under the "Save Minnesota's Wetlands" program. When hunters locate these areas in the field they will see boundary signs which read "Wildlife Management Area, Minnesota Conservation Department, Division of Game and Fish". These areas are all opened to public hunting. Parts of 13 of the larger units have plainly marked refuges within their boundaries where hunting is prohibited as a game management measure and signs which indicate the public hunting grounds.

In the very few cases where public access is still in the process of being acquired, it is the responsibility of the hunter to obtain permission from adjacent landowners to cross their land.

Copies of the new map can be obtained upon request writing to the Minnesota Department of Conservation, Bureau of Information, State Office Building, St. Paul 1, Minnesota and enclosing a stamped self-addressed large envelope.

59,136 ACRES IN WETLANDS PROGRAM

A statistical report covering wetlands acquisition in 67 Minnesota counties was released today by David B. Vesall, supervisor of the bureau of game. To date 788 tracts have been optioned and purchased at an average cost per acre of $31.54. According to the report, tracts purchased and optioned average about 86 acres per tract. Acres purchased total 59,136, acres optioned 8,614, costing a total of $2,136,778 the report reveals.

1960 Pontiac Model of Display at Wiener's Thursday

PONTIAC'S NEW APPROACH to styling is pronounced by the Bonneville convertible and the Ventura sport coupe, only two in a parade of 16 beautiful models introduced by Pontiac for 1960. Priced just above the Catalina series, the Ventura features special interior appointments, including seats trimmed entirely in Jewel-tone Morrokide. The Ventura is also available in a four-door hardtop Vista model.

Soil Testing Can Boost Yields, Save Money too

Orson and Dillon Hempstead, Houston, Minn. farmers, this year paid $9 to have soil from 87 acres of their farm tested—and saved $286 by fertilizing according to soil test recommendations.

"Before we sampled our soil and had it tested, Dad and I guessed how much fertilizer those eighty-seven acres should have—using past experience as our only guide," says Dillon, son in the father-son 296-acre operation. Then Harlie Larson, Houston county soils agent, helped us sample our soil and worked out fertilizer recommendations after the University of Minnesota had tested the nine samples. If we had fertilized by guess—rather than by test — we would have applied phosphoric acid unnecessarily. In other words, we saved the equivalent of five tons of fertilizer."

Hempsteads got their first soil test eye-opener about seven years ago when son John, now studying agriculture at the University of Minnesota, tested two samples of soil as part of a high school vocational agriculture project. Test results showed that the fields John had sampled needed about 150 pounds of potash per acre. Hempsteads had been using lots of fertilizer before that time and frankly admit that they "didn't believe the results of John's soil test." In fact, they asked Victor Johnson, former county soils agent, to re-run the test. Sure enough, the soil was deficient in potash.

"To correct the deficiency, we applied about 250 pounds of 0-0-60 per acre," says Orson. "And we switched from the 1-6-3 ratio fertilizer we had been using up to that time, to fertilizers with a ratio of 1-4-4."

Today, as a result of that switch in fertilizers, Hempsteads seldom find potash-deficient soils on their farm.

Vets Plan Program to Reduce Rabies Hazard

The animal rabies problem in Minnesota is a matter of growing concern to farmers, health authorities, citizens with children, and the veterinary profession. But, authorities emphasize that a common sense program of alertness, together with known measures of protection for both people and animals can aid in bringing rabies under control just as other animal diseases dangerous to man have been brought under control.

This is the opinion expressed by representatives of state and national organizations collaborating in a program to reduce the hazard of animal rabies in Minnesota. These authorities emphasize that the control of rabies is a matter of public education and a cooperative program utilizing all available technical resources at state and local level, including wildlife investigation and control projects, animal quarantine and vaccination, stray animal control, and accurate reporting.

During 1957 and 1958, rabies in animals showed an alarming increase in Minnesota with 366 cases reported in 1957 and 461 cases reported in 1958—the second highest state total in the nation. Fortunately, however, it appears that the number of reported cases of animal rabies will be lower in 1959 since a 33 reduction has been noted in the first half of this year. This is good news for people in the state since this may reduce the danger of being bitten by an infected animal.

Skunk Is the Real Villain

The primary carrier of rabies in Minnesota appears to be the skunk. Skunks accounted for more than half of the total animal rabies cases in Minnesota last year, and it has been found that most of the dog cases started from contact with an infected skunk. Other wildlife such as foxes, bats, badgers, coyotes, mink, squirrels and weasels may be infected and transmit the disease.

In rural areas, the threat to livestock by this nearby wildlife source of infection is always present. According to figures released by the Minnesota Livestock Sanitary Board, more than $100,000 worth of cattle were lost because of rabies during the last 8 years.

Camp Ripley Open for Bow & Arrow Deer Hunters

James W. Kimball, director of division of game and fish announced today that through an agreement with the military authorities a bow and arrow deer season at Camp Ripley has been set between October 1 through October 31 inclusive.

All archers are required to enter and leave by the main gate at Camp Ripley and will be permitted in the reservation from 30 minutes before sunrise until 60 minutes after sunset.

Research personnel from the division of game and fish may operate checking stations at the main gate for the purpose of obtaining biological data.

Colonel Dean K. Torney, state quartermaster at Camp Ripley, advised all hunters to avoid impact areas which are shown on refuge maps available at the main gate.

According to Colonel Torney the impact areas are dangerous and should be avoided by all hunters.

"It is better to have a world united than a world divided. But it is also better to have a world divided than a world destroyed." —Winston Churchill

Time Is On Our Side

Premier Nikita Khrushchev started his return flight home on schedule last night and many Americans sighed with relief when they were assured that he was safely out of our country. And now that he is safely out of our country, most Americans, we think, will agree that his visit is likely to contribute toward the stability of the world and improve the chances for an era of peace with security.

Such a conclusion may be justified without any change in the opinion that Mr. Khrushchev is a dangerous and tricky opponent. Such a conclusion may be justified by the commitments he made at his press conference yesterday, statements that were heard throughout the world, including those parts of the world that he rules as well as those that now are neutral.

Having expressed his belief that the American people are sincere in their desire for peace, it will be more difficult for him at some future time to convince his people and the rest of the world that we are a nation of imperialists who seek to impose our system of capitalism upon the world by force. His [illegible] in line with President Eisenhower [illegible] the feeling of [illegible] and hopeful [illegible] was most encouraging [illegible] the fact that there was no [illegible] in the comparisons he made between the economic systems of the two countries.

Mr. Khrushchev's conduct during the last days of his visit indicated that he is returning to his country with a new conception of American strength and American unity. His more subdued statements at the time of his departure would mean that he is not now so sure that Communism is going to bury Capitalism and that his system will bring higher standards of living to the world. There seems to be no question in his mind about the futility of a war that could result only in destruction, and from which neither side would emerge a victor.

One of the most important lessons Khrushchev learned while with us probably was the one taught to him in a brutally frank manner by the leaders of American labor with whom he met in San Francisco. He may have come here in the belief that American workers are virtual slaves and would look upon him and his predecessors as liberators of mankind. That meeting must have been a rude awakening for him.

Now that he has gone, we join with those who are glad he came and are hopeful that his visit will prove to be a long step forward in the approach to better international relationships and an end to the cold war.

Mr. Khrushchev's words have been reassuring, and that is good. Few Americans will be satisfied with words alone however. It will take deeds, and a lot of good deeds, to prove the sincerity of the words. But let's not write off the value of the words. Our hope for peace with Russia rests today upon our relations with the man who now rules Russia, but as time goes on, the people of Russia are going to become a more important factor in determining these matters for themselves.

The people of Russia now are getting a taste of liberty, and they are not going to be satisfied with just a taste. A little liberty whets the appetite for more, and they are not going to be content for long with a dictatorship. Time is on our side and that is the main reason why talks are important even though they produce only words. Good words and promises are better than bad words and threats. We may hope that Khrushchev's good words may lead us to the good will and good deeds that can be based only on understanding.

No Tax-Free Utopia

Most of the radio and TV time allotted to him for his farewell address was used by Premier Khrushchev to explain and justify the Soviet system of government. It was an interesting talk and probably will provoke many interesting discussions on the relative merits of Communism and the free enterprise system.

In telling the story he of course presented his government in the most favorable light, which is understandable. On several points, however, he did not confine himself to the facts.

He referred to democratic processes in the election of government officials. There are no democratic processes in Russia as we understand them. The Soviet government is ruled by the Communist party and only party members vote. The Communist party is a minority group, estimated in 1956 to have a membership of not more than 15 million. Membership in the party is strictly controlled by the party itself, so actually the masses of Russian people have no voice in their own government.

In defense of that government it may be said that it is probably a much better government than that of the Czars. But the people of Russia have not been permitted contacts with the rest of the world, and until recently their only sources of information were their government-controlled news agencies. It may be said in Khrushchev's favor that, under his administration, the bars have been lowered, and the people now are getting more liberty and more idea of life beyond the Russian border. It is significant, for instance, that Vice President Nixon was permitted to get his message to the people. But the government of the Soviet Union is still a dictatorship and in no way is it democratic or republican.

Another interesting point raised by [illegible] his statement that all taxes in the Soviet Union would soon be abolished. The only direct tax now being paid by the Russian people is a small levy on incomes and presumably this is the tax that would be abolished. He apparently wanted to give the impression that the cost of government in Russia was no burden on the people.

The opposite is true. The cost of government in Russia is a very heavy burden on the people and the revenue to support that government comes largely from the workers through their purchases of necessities. Few luxuries are available to them.

In Russia, as in our country, there are three levels of government; the federal, the state and the local. The federal government operates the heavy industries and the larger units of production. The cost of the federal government is added to the cost of such operations. The states, or Republics, are in the business of production and distribution in a similar way but on a smaller scale. Local government is supported largely by the operation of stores.

That is why goods are so costly in relation to a worker's earnings. The worker gets free medicine, low rent, free education for his children and some other fringe benefits, but he must work more than two months to earn enough rubles to buy a suit of clothes.

When Khrushchev said taxes would soon be abolished he no doubt wanted to give the impression that the people would soon be getting their government, federal, state and local, at no cost. But let no one get the idea that Russia is going to become a tax-free Utopia.

We Have An Indirect Interest

Not being a wool grower or a potato planter or the owner of a dairy cow we have no direct interest in the activities of the dairymen or the potato planters or the wool growers. But we do have a very real indirect interest in the things these people do individually and collectively in the conduct of their business.

If we have difficulty in making both ends meet in our efforts to operate a small town print shop and community newspaper, that is of no great concern to them. Our failure or success is not going to affect the market value of lambs, spuds or butterfat.

We are concerned about the market value of butterfat, lambs and potatoes because, if the producers of these products do not do well, we will not do well. We, therefore, have a selfish interest in their interest.

The wool growers are now voting on the question of whether or not they should contribute, as growers, to the cost of a publicity campaign set up to sell more lamb. If the wool growers, who are the farmers who raise sheep, give their approval, then a small part of their market returns will be deducted from their checks and made available for the advertising of lamb as a food and wool as a fabric. Wednesday, the last day of the month, is the deadline for votes.

Because our favorite meat is leg-o-lamb, and because we know that too many of our people are prejudiced against lamb because they do not know the difference between lamb and mutton, we think the wool growers have much to gain by spending a few of their pennies in telling the public about the merits of lamb roasts and lamb chops. And the potato growers and the dairymen would be very shortsighted if they did not continue their good publicity campaigns, bringing to the consumers factual information about the merits of their products.

Advertising is an important factor in the business of selling. And the wool growers and the potato planters and the dairymen have a big selling job ahead of them.

Lower Premiums for Careful Drivers

(Kansas City Star)

The principle of basing motor car insurance premiums on the driving record of the policyholder makes sense. The accident-free motorist should pay less. The accident-prone bender of fenders should pay more.

A bureau-association plan will work this way: A household that has gone three years without a chargeable accident and without a conviction for a moving traffic violation can get a 20 per cent discount on the basic policy rate. If there is only one moving violation on the record, a 10 per cent discount would be allowed. A chargeable accident or two moving violations would continue the regular rate.

A bad record—several accidents, moving violations, or a serious conviction such as for drunk driving—moves the percentages to the other side of the ledger. Based on a point system, the careless driver would pay from 20 to 100 per cent above the basic rate. One plan would allow discounts up to 30 per cent based on a 5-year record.

We can't predict the effect on revenue but the method offers an added incentive for careful driving. The cost of insurance is based on the average of accident experience. But the carelessness of some drivers contributes heavily to the generally high rates that all must pay. Certainly the public can see the fairness of the plan.

Borrowed Nonsense . . .

The common cold still defies medical research. Suffering from a severe cold, the patient begged the doctor to cure it for him quickly. But the doctor had only one suggestion. He told the man to go out into a cold rain with inadequate clothes and allow himself to be soaked through.

"But doctor," exclaimed the puzzled patient. "That would give me pneumonia, wouldn't it?"

"Exactly," answered the doctor. "We can cure pneumonia with penicillin in no time, but for a cold—nothing!"

RASH OF ACCIDENTS AT MAHNOMEN

(Mahnomen Pioneer)

Several county farmers were injured in the past week in a rash of farm accidents, most of them involving power corn harvesting equipment. Most seriously injured was Howard Steinmetz, 20, rural Mahnomen, who lost his right hand as the result of injuries.

Others injured included Harvey Welle, 38, Waubun, who suffered a badly lacerated right hand in a corn harvesting accident Wednesday. The following day, Lindy Walz, 43, rural Mahnomen, suffered the loss of the right little finger and bad laceration of another when his hand caught in a chain.

On Saturday, Carl Monson, 54, Fertile, suffered a fractured right arm and severe lacerations of the arm when it became caught in a silage cutter. He was injured on the Obert Dahl farm, near Bejou.

GONVICK STREETS TO BE IMPROVED

(Gonvick Leader-Record)

Surfaced streets were assured people of Gonvick by action taken by the village council Wednesday night following a public hearing. Thirteen blocks are included in the project which takes in practically all of the business section.

Final approval was given to the Blacktop Surfacing company of Detroit Lakes which was the low bidder on the project at $28,588.30, to go ahead with the work. According to a spokesman for the company, work will begin within two weeks.

MAHNOMEN BUSINESS BOOSTERS ORGANIZE

(Mahnomen Pioneer)

As the culmination of six months of research work and study by a temporary organization, action was taken at a meeting Tuesday evening to formally organize an industrial development group at Mahnomen. The non-profit organization, which will concern itself with promoting industrial development to provide employment will be known as "Mahnomen Development, Inc."

SOO LINE WORKER DISAPPEARS

(Gonvick Leader-Record)

Mystery shrouds the disappearance of Ronald Frazer, a member of a Soo Line "extra" crew, who was working on the track repairs east of Clearbrook.

Frazer, described as a shy person, is from McIntosh. He was working with a section crew out of Trail.

Other crew members who reported the disappearance said Frazer laid down his shovel and walked into the woods along the tracks at about 4 o'clock. When he didn't return as it was getting near quitting time, they looked for him in the area where he was last seen. They could find no trace of the man. They then reported the incident to Sheriff Bustad early in the evening.

As the Leader-Record goes to press searchers directed by Sheriff Bustad are combing the area.

CALL FOR BIDS FOR FIREHALL

(Middle River Record)

A much needed improvement for Middle River draws closer to becoming a reality with the asking for bids on the new firehall building.

Bids will be received by the Middle River village council on Friday, Oct. 2, and will be publicly opened and read.

The work includes general construction work, heating, and electrical work.

SATELLITE TRACKING STATION AT E. G. FORKS

(Warren Sheaf)

Arrangements have been made by the nation's civilian space agency to purchase a 40-acre tract of land 6½ miles northeast of East Grand Forks to establish a satellite-tracking station—the first such station in the Midwest.

Satellite tracking stations are located in various parts of the country and the extent of the installation on the 40-acre site will be announced later. This station is to be the first of an undisclosed number of additional tracking stations being planned in various areas of the country for the space program.

LET CONTRACTS FOR KENNEDY GYM

(Kittson County Enterprise)

Contracts to reconstruct the school's gymnasium-auditorium here were let recently by the board of education, with bids on all work beneath original estimates.

The terms of the general construction contract called for completion of the reconstruction project within 120 days and delivery of structural steel to the site within 45 days.

The general contract went to the Adamsen Construction Co. of Grafton, N. D., on a bid of $41,850.

Lawrence W. Best and Co. of Thief River Falls was given the electrical contract for $2,089.

WILL BUILD THREE DIAL

(Karlstad Advocate)

Bids were let here September 10 for the building of the dial buildings for the Wikstrom Telephone Co., Inc. The new buildings will be constructed in Hallma, Greenbush and Viking where the Wikstrom company will convert the present phone systems into dial systems. Receiving the bid for the construction of the three buildings was Palmer Nelson of Mahnomen. The amount was not disclosed.

HUNTER SHOT AT BAUDETTE

(Baudette Region)

Joe Belter, 28, of rural Brainerd was seriously wounded Saturday afternoon by a life-long companion with whom he was hunting sharptail grouse south of Baudette along the Carp road.

County sheriff Emett Chilgren told the Region that Belter was shot in the right side of the head when William Bernhagen, 28, of St. Cloud, fired at flushing birds.

"THE SULKY PLOW"

In 1861 John Deere came out with the first plow ever to have a seat. It began to appear on the scene about 1885 and was called the "Gilpin Sulky." This first riding plow sold for about $50 an was pulled by two or three horses.

The plow illustrated above is an 1890 version of the "Sulky" plow and was drawn by four horses. When a second mouldboard was added it became a riding gang plow and took six horses to pull it on hills and four on level land — but a good man could then plow six acres per day.

Clarence Haugen Succumbs

The community was shocked and saddened at the sudden passing of Clarence Haugen last Monday morning when he passed away at a doctor's office in Thief River Falls. Mr. Haugen had lived all his life in Marshall county, coming to the Thief Lake community in 1912. At the time of his death he was past 60 years of age. Mr. and Mrs. Haugen, the former Edna Anderson, have operated a farm at Thief Lake township since their marriage in 1939.

Not feeling as spry as usual they sold all their milk cows recently intending to take life a little easier. He was at the doctor's office for a checkup when he was stricken and died instantly. Funeral services were held for Clarence Haugen at Our Savior's Lutheran church at Thief Lake Thursday, Sept. 24 at 2 p.m. with Pastor Duane Thompson officiating. Interment was made in the church cemetery. The Collins Funeral Home of Middle River was in charge of arrangements. A complete obituary will be published.

Visit Your Soil This Fall

Are you sure the fertilizer you are now using is the one you need most? A soil test would give that answer.

The farmers of the area will have a special opportunity to get their soil tested this fall. Fall soil testing offers many advantages. First there is no rush to get out into the field like there is in the spring. With the avalanche of sampling in the spring the University laboratory gets overloaded. Sampling of soil in the fall permits better distribution of work at the laboratory with less inconveniencing the farmer.

Another big advantage to the farmer is the purchase of fertilizer. When a cow is sick we don't just load it up with expensive medicine without knowing what ails it. A soil test permits fertilizer application to your land according to a prescription. We know our soils need phosphate and nitrogen. Some need potash. By shortchanging one of these we limit crop production and the money spent on nitrogen would maybe be better used on phosphate or potash. Perhaps the potash money would have bought nitrogen or stayed in the pocket. There is no way of knowing unless the soil test is taken.

Your fertilizer used wisely on the average returns three dollars for every dollar spent to buy it. But shotgun application of any analysis at any rate could also be a waste of good dollars. So unless you have some bad money you don't need, take a soils test and be sure of the right amount and the right kind of fertilizer is applied on the different soils.

Use Systemics This Fall to Control Grubs

Cattle grub control has changed to a fall job—for farmers using systemic insecticides.

There are two different chemicals available. "Co-Ral," used as a spray, is one. The other is ronnel (sold as "Trolene") which is given orally as a bolus.

Both materials are all right, and either one should be used before the end of November.

Systemic insecticides kill the young grubs before they reach the backs of the cattle and before they have a chance to ruin the flesh and hides.

If you use Co-Ral, mix the spray at 16 pounds of the 25 per cent wettable powder in 100 gallons of water. Apply the spray thoroughly. Use enough pressure so the animal's skin is wet.

For Trolene, give one bolus for each 300 pounds of body weight. Administer it carefully with a standard balling gun.

With either Co-Ral or Trolene, treat the animal only once and at least 60 days before slaughter. Also, neither chemical should be used on producing milk cows.

Outlook Brighter for Lamb Feeding

With lighter and lower-priced feeder lambs available, lamb feeding should be a more profitable business during the coming year. And there won't be much change in the picture for farm flock owners.

So say three University of Minnesota extension men.

The 1959 lamb crop was only 2 per cent larger than last year. So slaughter lamb prices may, at best, equal those of a year earlier until October. After that, there shouldn't be as much of a November-December decline as there was in 1958.

During the past winter, profits from feeding lambs were the lowest in many years. Slaughter prices started to drop as soon as most feeder lambs were bought, hitting a low of around $19 in January.

Feeder lamb prices should stay below last fall, because of more lambs available, poorer range conditions than 1958, and because lamb feeders are more cautious after an unprofitable feeding year. Good and choice feeder lambs at Omaha are now $3 to $4 under last year.

As for the farm flock the specialists expect only a gradual further increase in sheep production. They base the prediction on regional inventory trends, range conditions, and the fact that lamb prices haven't gone up as much as cattle prices have. Therefore, lamb prices should remain fairly steady over the next few years.

On January 1, 1959, there were four per cent more stock sheep on farms compared to a year earlier, for an increase of about a million head. More than half this increase was in ewes a year old and older, and about a third was ewe lambs. Total numbers, though, are still far below World War II levels.

Government incentive payments on wool will continue for at least another three years. The incentive price for 1959-60 marketing is staying at the 62-cent level. Rates in 1960 will be determined when the average price for wool marketed during the 1959-60 season becomes known.

The specialists tell flock owners that early lambing and early summer marketing of creep-fed lambs is an important key to success.

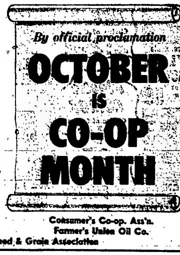
BEETLE BAILEY By Mort Walker

THE LONE RANGER By Fran Striker



In 7 great states, Governors have officially declared that October is to be Cooperative Month.

The purpose, as expressed in the proclamations, is to recognize the contributions which cooperatives have made to the economic life and development of these states.

The Governors point out the extent of cooperative business within their respective states, the benefits which people realize from cooperative participation, and the economic importance of cooperatives to the state as a whole.

During Cooperative Month we invite everyone to learn more about why cooperatives are an important part of the American economic system. You'll discover, among many other things, that cooperatives are the most democratic of all types of business, that anyone can belong, that everyone benefits from cooperatives whether they are members or not.

Cooperatives help more people share in America's progress

Feed value of corn silage can be preserved by using a self-unloading forage wagon teamed up with a blower to move silage into storage fast, reports New Holland's "Grassland News." The advantage of a self-unloading forage wagon is that it can be used to fill either upright or horizontal silos as fast as corn is chopped.

Why we built two cars for 1960 . . . as different as night and day!

On October 2—for the first time in Chevrolet's 49-year history—you will be able to walk into your dealer's showroom and see two totally different kinds of cars. ■ One is the conventional 1960 Chevrolet, brand new in appearance and more beautifully refined and luxurious than you can imagine. ■ The other is unlike any car we or anybody else ever built—the revolutionary Corvair, with the engine in the rear where it belongs in a compact car. ■ We'd like to tell you why we built two such different cars, how we built them—and for whom we built them.

Why two *kinds* of cars? Because America itself has been going through some big changes in the past few years. Our cities have been straining at their seams. Traffic is jam-packed. Parking space is at a premium.

And our suburbs have spread like wildfire. People are living farther from their work, driving more miles on crowded streets. There is new leisure time—but more things to do. There's a new standard of living—and more need for two cars in the family garage.

In short, America's automobile needs have become so complex that no one *kind* of car can satisfy them completely. That is why we at Chevrolet, keeping tab on these trends, have had a revolutionary *compact* car in the planning stages, for more than nine years undergoing revisions and refinements.

Consequently, when we decided three years ago to prepare for production of such a car we were ready to build it the way it should be built. There was no need for a hasty "crash" program that would create only a sawed-off version of a conventional-sized car.

That is why the two cars you will see in your dealer's showroom October 2 will be two entirely different kinds of cars—each one built the way it should be built, to best fill the needs it was meant to fill.

One is the conventional '60 Chevrolet—brand new in beauty, with new space inside, new spirit under the hood, a new feeling of sumptuousness and luxury never before attained by any car in its field. There is great V8 power, linked with new thrift, plus Chevrolet's superb (and America's most popular) 6-cylinder engine. It is a traditional car that comes even closer to perfection—in silence, in room, in ease of control, in velvety ride—than any car we have ever made.

The other is the Corvair, a compact car that is astonishingly different from anything ever built in this country. It has to be—because this is a *six-passenger* compact car, with a really remarkable performance . . . a car designed specifically to American standards of comfort, to American traffic needs.

The engine is in the rear. Among the basic advantages resulting from this engine location are better traction on a compact 108-inch wheelbase and a practically flat floor. But to be placed in the rear, the engine had to be ultra light and ultra short. So Corvair's engine is totally new—mostly aluminum and *air cooled;* it weighs about 40 per cent less than conventional engines. It is a "flat" horizontally opposed six—so it is only three cylinders long . . . and that leaves a lot more room for passengers.

Another weight saving: like modern airplanes, the Corvair has no frame; the body-shell supplies its great structural strength . . . it's a welded unit that is virtually squeak- and rattle-free.

The ride is fantastic. But to get it we had to design *independent suspension* at every wheel; conventional springing would give a compact car a choppy ride. Right now we'll make one prediction: the Corvair will be the only American compact car with this type of suspension system—the only one that rides so comfortably, holds the road so firmly and handles so beautifully.

Now there are two kinds of cars from Chevrolet—because it takes two kinds of cars to serve America's needs today. If you love luxury—the utmost in luxury—and if you want generous interior space, breath-taking performance, automatic drives and power assists—then the conventional '60 Chevrolet may be your choice.

If easy parking, traffic agility and utmost economy are high on your list—then you should seriously consider the Corvair. But the best thing to do is to look these two new cars over at your Chevrolet dealer's . . . take them out for a drive. It may be that the only logical choice for your family between two cars like this is—both. They make a perfect pair.

CHEVROLET

CHEVY MOUNTS THE ENGINE TO MATCH THE CAR

The front-mounted engine provides most efficient weight distribution in a conventional-sized Chevrolet, splitting the load almost evenly between front and rear wheels. Since a 4-door Chevy sedan weighs 3,550 lbs., this design puts adequate weight in the rear for sure-footed traction and road-grip while giving a solid, consistently balanced big-car ride.

A rear-mounted engine gives the best weight distribution for a lighter, compact car like the 2,340-lb. Corvair. This design puts some 60% of the weight on the rear wheels for extra traction in cornering and driving on ice, mud or snow. Corvair, by avoiding nose-heaviness of front-engine compact cars, also gives you better riding, handling and braking characteristics.

Chauffeur's Licenses Will Be Issued by Deputy Registrars

Joseph L. Donovan, secretary of state, has announced that beginning October 1, persons desiring to take examinations for chauffeur's or school bus driver's license will apply at the office of Mrs. Marjorie Hanson, deputy registrar of motor vehicles, in Thief River Falls, instead of to the drivers license examiners of the highway department as heretofore. Examinations may also be taken at any deputy registrar's office throughout the state or at the main office in St. Paul.

Prior to July 1, 1955, the deputy registrars examined all applicants but on that date the chauffeur's license division was officially transferred to the highway department as provided in the Reorganization Act of 1955. However, the Supreme Court later ruled the entire Reorganization Act invalid and the secretary of state was required to resume administration of the chauffeur's division in late 1955.

Arrangements were made at that time for the examinations to be continued under the supervision of the driver's license examiners on a reimbursement basis. Mr. Donovan stated that the resumption of examining by the deputy registrars was made necessary because of legislative direction in the appropriation of funds given to operate the chauffeur's division.

Under the new arrangement, written and vision tests will be given by the deputy registrars and if it is determined that a performance test (behind the wheel) is necessary, the applicants will be required to report to the driver's license examiner for such an examination.

Examinations will be given by Mrs. Marjorie Hanson each day, Monday through Friday, from 9 a.m. to 5:30 p.m. The office is located at basement, Union State Bank Bldg.

The examination fee for a new chauffeur or school bus driver's license is $3.00. If an applicant fails to pass the first test he can take a second examination without additional charge within 3 months after failing the first one. If he fails the second time, a fee of $3.00 must be paid before he can take the examination again.

Orville Hanson is elected Director of Bankers Ass'n.

Orville M. Hanson, cashier of the Northern State Bank of Thief River Falls, has been elected Pennington county director for District 9 of the Minnesota Bankers association at a meeting held in Bemidji, Tuesday, Sept. 22. The meeting was attended by 175 bankers from this district which includes 15 counties in northwestern Minnesota.

Marshall Corns, management consultant and advisor to banks from Evanston, Ill., was the featured speaker on the afternoon program on a subject covering cost factors in bank operations.

The after dinner speaker was nationally known humorist and lecturer, Edward McFaul of Chicago. Baudette banker, Harold L. Hanson, president of the Minnesota Bankers association, presided over the meeting.

Egg Production Tests Released

Farmers interested in steadily improving their egg production or modern agressive competitive market conditions can now learn the results of the latest research conducted by the Poultry Industries Division of the state department of agriculture.

The second 500 day random sample chicken test results are being released and will be in the mail September 29, stated Byron G. Allen, commissioner. This is an evaluation test of commercial stock sold by the nation's leading breeders conducted under the same feed management and environment.

Chicken raisers who keep accurate cost records will be interested in comparing their results with those determined in this test. The final report indicates that the average pounds of feed per dozen eggs, so important to every egg producer, was 4.4 pounds. Average livibility for all entries as 89.2 per cent. Average egg production per bird housed was 223 eggs as compared with the state average of 212. In 1939, 20 years ago, the average was 133.

Farm Loan Company Name to Be Changed

The Northwest National Farm Loan Association owned by 775 farmers in Marshall, Kittson, Pennington, Red Lake and Roseau counties will be renamed the Federal Land Bank association of Warren under provisions of the Farm Credit Act of 1959, according to Harold Sorenson, secretary-treasurer, of the Northwest National Farm Loan association. The bill signed by the President August 18, 1959 becomes effective January 1, 1960.

"The name, Federal Land Bank Association, more clearly reflects the functions of the association which are to initiate and service Federal Land Bank loans for the Federal Land Bank of Saint Paul," Sorenson commented.

The Federal Land Bank, through the local association, has been making long-term real estate loans to farmers for more than 42 years, he added.

The association initiates land bank loans for purchases of land, farm and home improvements, buildings, live stock, equipment and other needs of the owner of the farm to be mortgaged.

During the past six months, over $567,000.00 in new Land Bank loans have been made in the territory served by the Northwest National Farm Loan Association and the volume of loans outstanding in the association's territory now exceeds 2¾ million dollars.

1960 Pontiac at Wiener Top & Body Oct. 1

Dramatic new design concepts distinguish Pontiac exterior styling in 1960. Sixteen new body styles feature long flowing lines gracefully complemented by soft curves and sculptured highlights. The new 1960 Pontiac will be on display at the Wiener Top & Body Works on Thursday, Oct. 1.

A spectacular V-shaped front end is formed by a classic grille of seven horizontal chromed bars topped by a stylish hood of airfoil design. Twin headlamps, flanked on the inside by parking and signal lamps, are mounted at each end of the grille. In the center of the hood is a long, slender blade moulding dividing a sculptured channel which flares outward from the cowl to the "Pontiac" block letters above the grille. An impressive one-piece wrap-around bumper of contoured design projects forward to continue the new "V" styling theme.

Breath-taking jet age design characterizes new Pontiac rear styling. Twin trailing nacelles, decking the fenders, extend rearward from the back window to house dual tail lamps encircled in chrome. The tail lamps and an imposing deck lid top artistic sculpturing flowing downward from arrow shaped backup ports to the massive wrap-around bumper. Decorating the lower deck panel are block letters denoting Bonneville or Ventura series, and spelling "Pontiac" for Star Chief and Catalina models. An oval-shaped fuel filler door, centered below the lettering, mounts an ornamental gold and white Pontiac medallion which also serves as a handle.

Safari station wagon rear styling is distinguished by single tail lamps, the Safari name in script, and an extension of the backup port trim moulding across the tail gate to form a narrow rectangle around the Bonneville or Pontiac name. The fuel filler door is on the side of the left rear fender.

Jamestown to Observe "Hour of Awakening"

"The Hour of Awakening," a radio program that has been heard over station KTRF, Thief River Falls, at 1:45 every Sunday, now is also heard over KSJB, 600, Jamestown, N.D. every Sunday at 9:30 a.m.

It is sponsored by the "Lutheran Fellowship League" of northern Minnesota. This organization has existed for 25 years for the purpose of promoting evangelism. It is made of pastors and laymen of the Augustana Lutheran church, the Lutheran Free church and the Evangelical church. The speaker and the director of the program is Rev. Jacob Andreasen, pastor of the ELC parish of Roseau, Minn.

Quality Runs High in Cattle Sale Oct. 15th

23 Dairymen Offer Top Dairy Animals in Top of Nation Sale

Twenty-three dairymen from Northwest No. 1, Northwest No. 2 and Red Lake-Pennington cow testing associations have consigned some of their best cattle to the "Top of the Nation" sale to be held in the fairgrounds livestock pavilion at Thief River Falls Thursday, Oct. 15.

All cattle entered have met the rigid production requirements of 450 lbs. fat if purebred, 400 lbs. fat if grade, and first calf heifers must be from dams with these minimum requirements.

How does the production from these cows compare with the average Minnesota herd? The average herd in the state, says County Agent Paul Stelmaschuk, produces 245 lbs. of fat and this means that each such cow will yield about $32 for labor return. This is after all other costs of feed, equipment and housing is paid for. A 400 lb. producing cow will pay the farmer $132 for his labor. This is four times the average Minnesota cow. This means a farmer can make the same income with one-fourth as much work by going from a 245 lb. herd to a 400 lb. herd; or he could make four times the income by keeping the same number of cows if they produced 400 lbs. of B.F. instead of 245 lbs.

All industry in this country must strive for improvement, said Stelmaschuk. This applies as much to food production and cows as it does to farm or industrial machinery. A poor cow, producing 200 pounds of fat will make no more money than a walking plow will in the present age. Every dairyman knows he has to secure cows with over 400 lbs. of fat, like those coming into the Thief River Falls sale, if he is to make money. The three-point dairy program of good feeding management and breeding pays off only when the right kind of breeding is used as a foundation. Some animals just can't produce enough milk and then good care and feeding doesn't make any difference.

Trying to make money with 200 lbs. producers, the county agent said, is like squeezing blood out of turnips. Squeezing enough milk out of some cows is equally difficult. Having high producing cows in the herd is the first requisite to profit making. Good feeding and care will do the rest.

Many animals consigned in the dairy sale are bred heifers which will calve in October, November and December, and will fit into production pattern on most area dairy farms.

ss Judy Wold Tells ons about Summer ojourn in Sweden

FILES Milton Reierson, 117 Kneale ave. S., secretary-treasurer of the First Federal Savings & Loan association, filed Tuesday, Sept. 29 for the post of alderman from the new Fifth ward on the east side. Previously, Aldermen A. J. Rau and E. B. Benson had filed for re-election. Closing date for filing is Oct. 19.

Miss Judy Wold, Lincoln high school senior who recently returned from Sweden, where she had spent the summer months under the sponsorship of the local chapter of the American Field Service, was the guest speaker at Wednesday's meeting of the Lions club, giving an interesting account of her experiences.

Miss Wold, daughter of Mr. and Mrs. John Wold, said that during part of the summer she lived with a family including a daughter of about her own age in a 100-year-old house on a 22-acre farm. She observed that family life seemed to be closer-knit in Sweden than in this country, and learned that there are very few extra-curricular activities in the schools over there.

During her stay, Judy was taken on several trips, including one to the east coast of Sweden, and before returning home she spent several days in Stockholm. She voiced the opinion that the student exchange plan is of great benefit to international relations, and she thanked the Lions club for its assistance in making her trip possible.

In a brief business session, Phil Kays, chairman of the committee in charge of the Lions slave sale, reported that a total of $1,098 was realized from the sale.

Soil Test Project to Be Conducted in City October 15-16

Area Farmers Urged to Bring in Soil Samples During Fall Festival

Farmers are urged to take soil samples as soon as possible, and bring them to Thief River Falls, October 15 and 16. These soil samples will be tested without cost to the farmers. All of the fertilizer dealers in Pennington county are cooperating in putting on this soil testing promotion. The date to bring in the soil samples is Thursday and Friday, October 15 and 16.

The cost of the soil testing which is $1 per sample will be paid by the farmer. The fertilizer dealers then subtract the amount paid by the farmer from the fertilizer when it's purchased so that there is no cost to the farmer. All farmers in the area in East Marshall, Pennington and Red Lake counties and adjoining areas are urged to bring in the soil samples.

A trailer provided by Borchert Trailers will be parked by the Post Office where the farmers can leave their samples. This can be done any time from 9 a.m. to 9 p.m. on Thursday, Oct. 15 and Friday, Oct. 16.

Soil samples boxes and information sheets are available at the banks, fertilizer dealers, and the Chamber of Commerce office. Also samples may be brought in any other containers and they will be packaged at the trailer.

The soil samples will be taken to the University of Minnesota soil testing laboratory. Fall testing will permit better fertilizer selection and those wishing to make fall applications may have an opportunity to do so if the snowman cooperates and stays away.

All farmers in Red Lake, East Marshall and Pennington counties are urged to participate in this soil testing promotion and to bring their samples to Thief River Falls on Thursday or Friday, Oct. 15 and 16.

St. Paul Group to Initiate Saturday at Masonic Lodge

Ceremony to Be Preceded by 6 p.m. Dinner in Lincoln High School Cafeteria

Northern Masonic lodge will stage an unusual initiation ceremony in the lodge rooms Saturday evening, Oct. 3 at 8 o'clock when the Master Mason degree will be exemplified by officers of Braden lodge of St. Paul.

Heading the delegation of 25 or more St. Paul Masons coming to this city is Hans Holmgren, worshipful master, a former resident of Thief River Falls. He was graduated from Lincoln high school about 20 years ago, and is now associated with the St. Paul Pioneer Press.

Preceding the evening meeting, a dinner will be served at 6 p.m. in the Lincoln high school cafeteria. Clarence Peterson of Goodridge, master of the local lodge, and C. E. Hellquist, secretary, joined in urging all local Masons to attend the dinner and meeting.

Mr. and Mrs. Art Gobel and Mr. and Mrs. Lon Gobel of Duluth spent the weekend at the home of Mrs. Hilda Sagmoen and Dr. and Mrs. W. P. Kaisler. Mrs. Sagmoen returned with them Sunday to spend a few days in Duluth.

Mack Draper Files for Council Post from Fifth Ward

A second filing for the new post of alderman of the fifth ward was made Wednesday afternoon, Sept. 30, when Venoy M. (Mack) Draper, 244 Kneale ave. N., threw his hat in the ring. Milton Reierson filed earlier for the post.

Draper, advertising salesman for the Times, is chairman of the airport commission and has lived in Thief River Falls since March, 1956.

October 19 is the closing date for filing for the November election. To date, four persons have filed for the race.

Spot Rierson of Fosston New Head 9th District DFL

Unanimously Elected Chairman at Meeting in Mahnomen Sunday

The Ninth district DFL organization unanimously elected Spot Reierson of Fosston as district chairman at a special meeting held Sunday in Mahnomen. Mrs. Kay Peterson of Karlstad, district chairwoman, declined to serve as chairman following the resignation of John Michols of Breckenridge as district chairman. Ted Jansen, Kittson county chairman, was elected first vice chairman.

Reierson announced the appointment of a committee to draft a new Ninth district DFL constitution. Committee members include the following: Bob Irvine, Detroit Lakes, chairman; John Adams, Waubun; Frank Gerke, Dilworth; Al Gerner, Blackduck; Alfred Johnson, Thief River Falls; Everette Holstetter, Roosevelt; Helmer Larson, Roseau; L. J. Lee, Bagley; Oliver Lee, Perley; Arlie Niemela, New York Mills, were also named.

Reierson said at the conclusion of the meeting, "I am extremely pleased by the very sincere desire of all our district people to begin a campaign immediately to return a Democrat to Congress from the Ninth district."

Ray Hemenway, state DFL chairman, said he was very encouraged by the enthusiastic response the people of Minnesota have given Governor Freeman and other DFL office holders in appearances they have made in various parts of the state.

More Rain Falls Monday, Tuesday

.14 Inch Brings Total for September to 2.74 In

Rain in the amount of .10 inch Monday and .04 Tuesday brought September's total up to 2.74 inches and put the moisture content of the soil into excellent condition, according to farm experts.

Temperatures during the daytime this week have ranged from a high of 58 Sunday to a low of 42 Wednesday and night time readings have ranged from 33 Wednesday to a high of 42 Sunday, according to the KTRF weather station.

The weatherman is both evasive and contradictory in his forecast for today. He calls for continued cloudy and cool today, tonight and tomorrow, but not quite so cool tonight.

The lows tonight are expected to be in the lower-30's and the highs today from 42 to 48.

Valley Medical Group Hears Talk on Anesthesia

Dr. John Gordon of the department of anesthesiology, University of Minnesota, was guest speaker at the meeting of the Red River Valley Medical Society which was held Monday evening at Crookston. His talk was based on problems in anesthesia. Attending the meeting from Thief River Falls were Dr. Dan Greene, Dr. M. A. Mochal, Dr. L. O. Herber and Dr. Erick Reiber.

Delegates from Homemaker Groups to Meet October 8

Clothing Accessories to Be Discussion Topic at Court House Thursday

Pennington county homemakers will meet for their first lesson of the winter series next Thursday, Oct. 8. Delegates from all of the groups are urged to attend. The meeting will start at 1 p.m. in the court house meeting room.

The lesson topic is "Clothing Accessories for Women." Shirley Erickson, extension clothing specialist from the University of Minnesota will be on hand to present the lesson. The group delegates will later present the same material to their homemaking groups.

Delegates are reminded to bring the following:

1. Two or three of their most usable accessories such as hat, gloves, purse, shoes or scarf.
2. One or two pieces of jewelry.
3. Brown paper or newspaper for patterns, pencil, ruler, and scissors.
4. Anypieces of fabric on hand that would be suitable for either collars or scarves. These pieces of fabric need to be at least ½-yard and are more usable if they are closer to 1-yard in size. White pique or percale, colored or print polished cotton, taffeta, silk, rayon, etc, are all suitable for different types of collars and scarves.

Shirley Erickson, who will present the lesson, is the daughter of Andy Erickson of the Roseau community and who recently graduated from the University of Minnesota.

Items Taken from K. Kemnitz Car

A sales representative for a local jobbing concern, Kermit Kemnitz, reported about noon Wednesday a box of candy bars and two flashlights had been taken from his station wagon sometime Tuesday evening or early Wednesday morning as it was parked near his home in the 1000 block of North Arnold.

Police said the theft is still under investigation.

Pfc Charles A. Booren left recently for Fort Dix, New Jersey, from where he will go to Wertheim, Germany. He visited at the home of his parents, Mr. and Mrs. C. A. Booren and sister, Lynda, and also with his sister, Mrs. Eric Hoard, and grandmother, Mrs. G. W. Booren, all of this city.

Only 47 Pct. of Ballots Cast in ASC Election

Tabulation Board to Report Results of Election Shortly

Patrick W. Culkins, manager of the Pennington county Agricultural Stabilization and Conservation office, announced today that 47.15% of the ballots sent to eligible voters in the county had been returned to the county ASC office as of September 30, the final date.

The tabulation board, which consists of William Palmquist, St. Hilaire; Clarence L. Peterson, Route 4, Thief River Falls; and Marvin Mehrkens, Route 5, Thief River Falls, will meet on Friday, October 2, for the final canvassing of the ballots. Results of the election will be announced as soon as possible after the tabulation board has made its final determinations.

Listed below is the percentage of ballos returned by the voters in the various communities: Black River-River Falls, 44.5%; Bray-Polk Centre, 49.2%; Cloverleaf-Goodridge, 43.1%; Deer Park-Hickory, 40.4%; Highlanding, 55.3%; Kratka, 60.5%; Numedal-Norden, 40.7%; North, 39.7%; Reiner-Star, 62.4%; Rockbury, 41.7%; Sanders, 46.2%; Silverton, 46.0%; Smiley, 49.4%; and Mayfield-Wyandotte, 48.8%.

Night Classes at Vocational School to Open

Classes in Variety of Subjects Set to Start Week of Oct. 5

The fall sessions of area vocational school evening classes will begin during the week of October 5, according to Stan Nelson, director of the school.

The various fields of interest covered by the sessions include agriculture, business and distributive education, homemaking, trades and industrial courses as well as a large number of general interest classes.

The majority of courses are 20 hours in length and meet one night each week at a cost of $8 for the series. The fee for most homemaking classes is $3.

All registrations must be made in advance by mailing the registration blank found in the bulletin or by calling the area vocational school office, MU 1-4588.

Interested persons who have not received a bulletin may obtain one by writing or calling the school office.

Welfare Department Officials to Attend Conference Oct. 8th

"Aging" is the theme of the Region III meeting of the Minnesota Welfare conference to be held at the municipal auditorium in Roseau on October 8, beginning at 10 a.m., Ralph T. Hunt, Pennington county welfare director, announced today.

Featured speakers will be Bernard Nash, special consultant on aging to the department of public welfare, and Miss Amelia Wahl of Kansas City who is regional representative for the President's White House conference on Aging to be held in 1961. Miss Wahl will speak on the highlights of the 1961 conference.

Also to be heard will be Ken Carpenter, supervisor at the reception center of the Red Wing training school, who will speak on the international conference on social work which was recently held in Japan.

Participants in the meeting are expected from Kittson, Marshall, Polk, Norman, Mahnomen, Clay, Becker, Red Lake, Pennington and Roseau counties.

The board and staff members of the Pennington county welfare department will be attending, and the public is invited to attend. Anyone who wishes to go to the conference and needs a ride to Roseau is asked to contact the welfare office which is located in the courthouse and arrangements will be made for transportation.

TRINITY LUTHER LEAGUE PLANS CAMPFIRE SUNDAY

The Senior Luther League of Trinity church will hold a campfire meeting in Riverside park next Sunday, October 4, at 6:30 p.m. In the event of unfavorable weather, the meeting will be held in the church. Each member is asked to bring 25 cents for food.

FIRST CHECK C. T. Thompson, left, of rt. 3, Thief River Falls, holder of contract number 1 in the Pennington county soil bank program, today received the first soil bank payment check issued from Patrick Culkins, manager of the county office of the Agricultural Stabilization and Conservation service. The payment of $330 was for 33 acres of Thompson's 40-acre farm. Culkins reported that a total of 922 checks totaling $896,000 will be paid for the 96,724 acres put into the soil bank in the county. Culkins urged farmers not to come in for their checks until they are notified that the payment statements are prepared and checks are ready to be issue.

Business Women's Week to Be Noted

Proclamation by Mayor Opens Observance Oct. 4

With the signing by Mayor O. D. Beich of the proclamation setting Oct. 4 thru Oct. 10 as Business Women's week, the Thief River Falls club joins with clubs all over the country in celebrating National Business Women's week.

The theme for this, the 31st observance is "A right Turn to a Confident Future." The purpose of the week is to draw attention to the role of women who work and show that every field of endeavor is now open to women compared to the few that were open 31 years ago.

The B. P. W. club is international as well as national and is the largest organization devoted entirely to the interests of employed women and is the recognized spokesman for employed women in this country.

Mrs. Ruth Wilson is the president of the local club, and Mrs. Lucille Hulbert is chairman for Business Women's week here.

Arnold Larson Is Acting Principal

Following the recent resignation of Miles Nelson, Lincoln senior high school principal, Supt. Irwin Mickelson announced that Arnold Larson, junior high principal, has been appointed to succeed Nelson on a temporary basis. He will be assisted in his duties by Frank Hamerlinck.

'Suicide Pact' Takes Life of Erskine Youth

Maurice Hoffos, 15, Dies; Girl Companion Is Hospitalized

An apparent suicide pact between a 15-year-old Erskine high school junior student and his 16-year-old girl friend ended in death for the boy Wednesday and the hospitalization of his companion.

H. E. Nelson, Polk county coroner, ruled the death of Maurice (Skippy) Hoffos was a suicide caused by carbon monoxide poisoning.

The girl, Margie Dounley, was found dazed in the back seat of a car which was parked at an abandoned farm place about a half mile west of Erskine along Lake Cameron. A piece of flexible tubing had been run from the auto's exhaust through a rear window.

Hoffos and the Dounley girl were reported to have gone roller skating Tuesday night. When they failed to return home, the youth's mother, Mrs. Maurice Hoffos, called the sheriff's office and a search was started. The car was discovered at 11:45 a.m. Wednesday by Gehardt Strand, Erskine filling station operator.

Although the pipe carrying exhaust fumes into the car was run through a rear window, it was pointing toward the front seat in which Hoffos was sitting and he received a greater concentration of the exhaust than did Miss Dounley. She told sheriff's officers that she awoke early Wednesday morning and, although groggy, turned off the ignition switch.

The couple had been sweethearts for several years and friends said they had planned to be married. Their action is believed to have been caused by the recent transfer of Hoffos' father, a railroad employe, to Marshfield, Wis., a few weeks ago and the imminent moving of the family to Wisconsin.

Coroner Nelson stated that the case "has all the appearances of a suicide arrangement." Sheriff Carl Knutson said that notes were found in the nearby house but declined to reveal their contents or to disclose to whom they were addressed.

Miss Dounley was taken to a Crookston hospital for treatment where she was reported to be in a case of serious shock and suffering from the carbon monoxide poisoning. Her condition is reported as "fair" and she is expected to recover.

School Students to Enjoy Holiday October 15 and 16

Teachers Will Attend Bemidji Convention of Education Association

Pupils in the Thief River Falls public schools will enjoy a two-day holiday Thursday and Friday, October 15 and 16, when local teachers will attend the biennial convention of the Northern Minnesota Education association at Bemidji.

Frank Hamerlinck, president of the TRF Education association, gave details of the program to be presented in Bemidji, opening with an address Thursday morning by Congressman Walter Judd, followed by a concert by the Bemidji college choir.

Dr. Ralph Corey of Los Angeles, executive secretary of the California Teachers association, will speak in the afternoon on federal legislation and control of teacher registration in California. Werner Von Braun, authority in the field of atomic energy, will address the group Thursday evening.

The Bagley high school band will give a concert Friday morning, followed by a talk by the Rev. Bob Richards, former champion pole vaulter, now on the staff of General Mills. Friday afternoon will be devoted to sectional meetings.

Clifford Zaffke, cashier of the Polk County State bank of Crookston, and formerly of Thief River Falls, was elected director in West Polk county for District 9 of the Minnesota Bankers association at a recent meeting held in Bemidji.

Virginia Finstad Tells of '59 Conservation Camp

4-H Conservation Camp is held annually at Itasca park. The most outstanding boy or girl in conservation project work is chosen from each county to attend the camp sponsored by the Federal Cartridge Corporation. Classes are taught by the University of Minnesota extension personnel and state 4-H leaders are in charge of other activities.

The Pennington county representative was Virginia Finstad of the Rocksbury 4-H club. Her report follows:

* * *

On Thursday about 1 o'clock we left Thief River Falls for the 1959 session of 4-H conservation camp at the University of Minnesota station in Itasca state park.

We got down there at 3:00, viewed the museum and checked in about 4:00. After we got settled in our cabins we had a "cook-out" supper, which was chicken broiled over an open fire.

Everyone was given a tag with their name and county on it, to put around their necks so other people would know who they were. The color of the string said what tribe you were in. I belonged to the Kakota tribe. There were 21 in the tribe.

After every meal one tribe had a skit to present for after-dinner enjoyment. We had a style revue of people past and future.

Lights were supposed to be out at 10:45. We had to get up at 6:45 in the morning.

The first night when we had our assembly we got in groups and sang songs, played games, and had a contest to see who was to wake the others. Everyone had to see who could crow the most and loudest like a rooster. Whoever won in the finals had to get up every morning and go to all cabins and crow to wake them. We had the "high cockelorum," as the rooster was known, in our cabin.

In the mornings we had interesting classes, and in the afternoon we played kittenball, had a treasure hunt, and a park tour. For the treasure hunt we had to find 65 different kinds of leaves. I'm sure there are only 58 because that's all our tribe could find.

On our park tour we saw the mouth of the Mississippi, and walked across it on stones, the Indian mounds, Preachers Grove, visited Douglas Lodge and climbed the lookout tower of the forestry division.

There was one person from every county in Minnesota. There were about 86 4-H'ers plus home agents, county agents and teachers. There is also a leader from one club from one county who has done the most outstanding work in conservation in the state. She wins a trip to Conservation Camp.

Saturday night we had a banquet and a dance afterwards. The decorations for the banquet were autumn leaves hanging from the windows. Pine needles and cones with three candles in the middle of the table for the centerpiece, and squirrels made of construction paper for nut cups. We also had a delicious supper served by the home and county agents. After the dance that followed the banquet, we had a candle lighting service, which was very pretty.

Sunday morning, we had services and started for home. I got home about 11:00. I enjoyed this camp very much, and encourage 4-H'ers to work for this trip. It's well worth the effort.

I would like to thank Mr. Horn, who sponsors the camp, and the state, district and county extension agents who make the camp such a success.

Albert Engelstad, Brother of Three Gatzke Men, Dies

Albert M. Englestad, 67, of Grand Forks and at one time of Gatzke, died unexpectedly Sunday morning at Detroit Lakes.

Mr. Englestad was born in Fertile, Minn., on Sept. 8, 1892, the son of Mr. and Mrs. Chris Englestad. He was raised and educated in Fertile and Gatzke.

He came to Grand Forks in 1919, after serving in France and Germany with the Army during World War I. He was employed by the Great Northern Railway for 40 years. For the last 25 years he had been a conductor with the railway.

He married the former Rose McLaughlin in 1934. He retired in June of this year.

Mr. Englestad was a member of the Brotherhood of Railroad Trainmen and served as secretary and treasurer of local 463 for 15 years. He was a member of the American Legion, the Elks Lodge, the Masonic Lodge and the Lutheran Brotherhood.

Surviving in addition to his wife, are three brothers, Clifford, Edward, and Arnold, all of Gatzke; four sisters, Mrs. Oscar (Clara) Orwald, Grand Forks; Mrs. Ed (Jean) Snodgrass, Brainerd, Minn.; Mrs. Floyd (Mae) Tucker, Grand Forks; and Mrs. Arthur (Esther) Shipley, Bismarck, N. D.

County 4-H'ers to Go to Jr. Livestock Show in So. St. Paul Oct. 5-8

Four Pennington county 4-H livestock winner will compete in the 41st annual Junior Livestock show in South St. Paul, Oct. 5-8.

LaVerne Hamre of the Mavie club and Leslie Nelson of the Silverton club will exhibit wethers; Harold Myers of Silverton will exhibit a steer, and Gerald Morris of St. Hilaire will show a barrow.

Approximately 700 Minnesota 4-H'ers will show livestock in this year's event. Livestock exhibits will include 310 beef steers, 200 market lambs, 15 trios of lambs and 175 market barrows.

Entry day is Monday, Oct. 5. Livestock judging will begin on Tuesday for swine and sheep and continue through Wednesday for beef.

Tours of various St. Paul industries will be conducted for 4-H'ers on the days they do not exhibit.

The 4-H'ers will be guests of the South St. Paul Civic and Commerce association at the Hollywood Theatre party Monday night and a 4-H roundup program at the South St. Paul high school Tuesday night.

High point of the week will be the presentation of winners' awards at the Wednesday evening banquet at the Hotel Lowry. Banquet hosts are the St. Paul Chamber of Commerce and Junior Chamber of Commerce.

At the annual sale, starting at 1:15 p.m., Thursday, Oct. 8, 70 top beeves, 50 top lambs, 30 top barrows and 2 top trios of lambs will be sold publicly. Twin Cities and state businessmen support the 4-H sale.

Any local business people wishing to contribute to the promotion of livestock locally can do so by purchasing one or more animals during the junior livestock show. Anyone wishing to purchase animals should call the extension office in the court house and designate the animal (sheep, hog or steer) that they want purchased. The Union State Bank at Thief River Falls has already offered to purchase an animal if it makes the sale. Purple ribbon animals are auctioned during the sale.

Animals not sold at the public auction will be sold by commission companies to packers. 4-H owners will have the opportunity to observe this market practice.

The Junior Livestock show is sponsored by the University of Minnesota agricultural extension service and the Minnesota Livestock Breeders' Association. The South St. Paul Civic and Commerce association, the St. Paul and Minneapolis Chambers of Commerce and the St. Paul and South St. Paul Junior Chambers of Commerce support the event.

Young Livestock Raisers of Area Honored Oct. 10th

Youths from Six Counties to Share in Farmers Union Awards Program in Roseau

The first annual Northern Minnesota livestock roundup award program and banquet will be held Saturday, Oct. 10, at Roseau.

Three youths from each of six counties in this area will be selected by county agents and 4-H leaders to receive award trophies at the program. The counties include Roseau, Marshall, Kittson, Lake of the Woods, Pennington and Red Lake. A representative from each county will be chosen for beef, sheep and hogs.

The award program will begin at 7 p.m. in the Roseau high school auditorium with a band concert. The concert will be followed by a vocal trio and presentation of awards, and will be concluded by a talk by Carl T. Rowan, Minneapolis Tribune staff writer. Thirty minutes of Mr. Rowan's talk will be broadcast over KTRF radio, Thief River Falls, 8:30 until 9 o'clock. The public is invited.

Prior to the evening program a banquet supper will be served to the youngsters in the school cafeteria at 6:15, and Mayor Carl Jackson of Roseau will welcome the group.

This first, of what is hoped to continue as an annual event, is sponsored by the Farmers Union Marketing and Shipping associations. Purpose of the event is to give recognition to young livestock growers in northern Minnesota.

District Hospital Auxiliary Formed

Organization Meeting in Crookston Tuesday

Delegates from Warren, Moorhead, Detroit Lakes, Red Lake Falls, Hallock, Bemidji, Thief River Falls, Ada and Mahnomen joined with women from Crookston Tuesday in an organization meeting for district one of the Minnesota Hospital Auxiliary association with 123 guests seated for a noon day luncheon which was a highlight of the day's schedule.

Morning convention sessions, held at Bethesda hospital, were opened with a welcoming address by Mrs. Russell Maves, district chairman, following an informal coffee hour, and brought to the delegates two guest speakers, Mrs. C. L. Oppegaard of Crookston, and Mrs. Robert LaBree of Duluth, chairman of the second district.

Mrs. L. B. Hartz, president of the Northwestern hospital auxiliary in Thief River Falls, reported on activities of that group.

Highway Director of Programming Named for State

State Highway Commissioner L. P. Zimmerman Monday announced the appointment of Paul R. Staffeld as director of the programming division of the highway department.

Staffeld, who has been with the department for 27 years, was appointed from civil service listings. The position he will now hold had been vacant since early August.

As head of the programming division, he will be responsible for programming all state trunk highway construction, including interstate routes, on the basis of present and future traffic needs, economic prospects and anticipated revenues for the department. He will direct research regarding state traffic trends and all other factors relating to highway needs.

Staffeld is a graduate civil engineer of the University of Minnesota, class of 1931. He started with the department in 1932 and worked up through the ranks.

Covenant Church Sets Rally Sunday for Sunday School

The theme this year for the entire denomination of the Mission Covenant church is "A Family Rule: Go to Sunday School". The Mission Covenant church of this city has begun an all-out effort to encourage all children, together with their parents, to attend Sunday school regularly.

Rev. Eldor Langager, pastor, announces Sunday, Oct. 4, at 10:30 a.m. as Sunday School Rally Day, with united Sunday school and morning worship service. This is also the first Sunday of a six-week contest, which involves the entire Sunday school enrollment.

The Rally Day speaker is Rev. *James Schrieber of Oak Hills* Fellowship of Bemidji, who has an unusual attraction for young people and children, as well as for adults. The public is invited to attend this Rally Day service.

Ends Saturday!

8 Persons Penalized in Municipal Court

Eight persons appeared in municipal court here this week, on a wide variety of charges. Fines and jail sentences were handed down by Judge H. O. Chommie, who presided.

Three cases were brought by the highway patrol. Daniel R. [illegible], St. Hilaire, pleaded guilty to speeding charge and was fined $15 plus $4 costs, of which $5 was suspended.

Delmar L. Bruggeman, rt. 3, who pleaded guilty to speeding and was fined $30 plus $4 costs, of which $10 was suspended.

In a trial, Herbert L. Nelson, rt. 2, was found guilty of driving with illegal brakes and was fined $10, suspended, $4 costs paid.

Sheriff Chas. Richards brought [illegible] Johnson, rt. 4, on charges of furnishing liquor to a [illegible]-year-old minor and of being drunk and disorderly. On the first charge of furnishing liquor he pleaded guilty and was sentenced to 30 days in jail. On the drunk and disorderly charge he also pleaded guilty and was fined $15 plus $5.50 costs or 15 days, to be served consecutively if the fine and costs are not paid.

Brought in for trial by the sheriff was Marvin W. Freeman, [illegible]. Freeman was found guilty of leaving the scene of an accident and fined $75 and $14 costs.

In a hearing held Wednesday morning, Joseph [illegible], city, pleaded guilty to disorderly conduct and was sentenced to 30 days in jail. The sentence was suspended on condition [illegible] the judge.

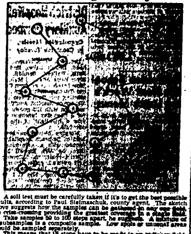
The remaining two cases were brought Monday by city police. James J. Rice, [illegible], city, and Victor E. Hesse, [illegible], were both charged with [illegible] to minors. Rice pleaded guilty and was fined $35 plus $5 costs, while Hesse's guilty plea resulted in a $25 fine and $4 costs. $25 of Rice's fine was suspended and $15 of Hesse's suspended on conditions that each pay his share of damage caused to a cabin in which the two were involved in an altercation, along with three other persons, two of whom were juveniles.

Kern Olson Will Compete in State Tennis Tourney

Kern Olson of the Prowler tennis squad gained a berth in state high school tennis tournament, which will be played at the University of Minnesota courts in Minneapolis on Friday, Oct. 9.

Playing in the Region Eight tennis tourney at Bemidji on Monday, Olson scored a 6-2 and 6-1 win over his opponent from Ada in the singles. In a three-set match against the Bemidji singles winner, which was to determine the "seeding" into the state meet, Olson dropped a 6-2, 2-6, and 5-7 decision to the Lumberjack.

John Johnson is the Prowler tennis coach.



Bischel Finishes Term as Head of Rural Carriers

Lyle V. Olimb of Oslo was elected president of the Ninth District Rural Letter Carriers' association at the annual meeting held Saturday evening at Gary. He succeeds Leon Bischel of Thief River Falls as head of the organization.

Other officers elected were Raynold Erickson, Fertile, vice president; and Russell McDougall, Hitterdahl, secretary-treasurer. Gordon Blume, president of the state organization, installed the new officers.

Mr. Bischel presided as toastmaster for the evening and introduced Mr. Blume and Harley Karvonen, state secretary, who gave a few remarks.

Here's How to Take Soil Testing Samples

A soil test must be carefully taken if it's to get the best possible results, according to Paul Stelmaschuk, county agent. The sketch above suggests how the samples can be gathered in any one field, the criss-crossing providing the greatest coverage in a single field.

Take samples 50 to 100 steps apart, he suggests. A mixture of 15 subsamples is a composite sample. Low spots or unusual areas should be sampled separately.

This means that 15 stops have to be made in an ordinary field. Take one tablespoon of earth from the bottom of the spade and one from the top. Dig down only to plow level, first removing any stubble from the soil.

A soil testing sample depot will be maintained in Thief River Falls October 15 and 16, the samples being trucked to the University at no additional cost to the farmer.

Regulations for Marshall Co. Soil Bank for '60 Cited

Strandquist Reports Changes Have Been Made In Rules for Next Year

Changes have been made in the regulations governing soil bank rates for 1960, according to A. E. Strandquist, office manager of the Marshall county ASC.

Average production figures for the past five years had originally been used to determine the rate which will be paid for soil bank acres in 1960. This method of determining the amount offered has now been discarded, and the rates established for 1959 will now be used.

Farmers who wish to put land in soil bank in 1960 must offer their land at a rate lower than that established by the Marshall county committee for the 1959 soil bank.

Due to the state regulations governing soil bank, a maximum of 26,000 acres can be accepted for 1960 in Marshall county. Offers will be accepted only from townships having less than 25% of their cropland in soil bank at present.

All bids will be considered primarily on the basis of the percentage of the established rate requested, and preference will be shown where whole farms are offered.

The closing date for filing requests for farm rates has been extended to October 9. The closing date for applications for contracts remains October 16. A request for rate and application for contract may be filed at the same time.

Argyle Youth Shot on Bird Hunt Dies

Larry Myrfield, 16, Shot Sunday by Hunting Pal

Larry Myrfield, 16, son of Mr. and Mrs. Adolph Myrfield of Argyle, died Sunday at a Warren hospital of a wound suffered when he was shot accidentally by a companion.

The Myrfield boy and two others, 14 and 13, were in the woods Sunday shooting at birds.

Myrfield rose up after all three shots had fired at a covey and was struck by a .22 caliber bullet fired by one of the others. He died in a Warren hospital without regaining consciousness.

Dr. E. E. Pumala, Marshall county coroner, ruled the shooting an accident and said there would be no inquest.

The Myrfield boy is survived by his parents and two sisters, Joan and Judy, at home. He was a junior in Argyle high school.

Funeral services were held Tuesday at St. Rose of Lima Catholic church in Argyle.

Crookston Elks will play host Saturday to the Northern Minnesota District conference of the lodge. In addition to the Crookston lodge, delegations from Bemidji, Hibbing, International Falls, Virginia, Duluth, Thief River Falls and Eveleth will be present.

Among distinguished guests at the meeting, which is scheduled to start at 2 p.m., will be J. A. Rose, district deputy grand exalted ruler of Minnesota North, and Chet Nelson, president of Minnesota Elks.

A turkey dinner will be served from 7 to 9 p.m., followed by a dance.

Former Interim Pastor at Trinity Honored Oct. 11th

Pastor J. J. Jacobson, who served as interim pastor in Trinity church here several years ago, will be honored Sunday, Oct. 11, from 3 o'clock to 5 o'clock at reception and open house at Trinity Lutheran church in Crookston. He is the visitation pastor at that church. The occasion is in honor of his golden anniversary of his ordination into the ministry. All friends are extended an invitation to attend.

Vangi Thorkelson Student Teacher

Vangi Thorkelson, a senior at Hamline university, daughter of Mr. and Mrs. Robert Thorkelson, Thief River Falls, is one of the 56 Hamline university students engaged in student teaching in the public school system of Minnesota this month. She is majoring in American studies at Hamline and is teaching at St. Paul Highland Park junior high school.

First-hand experience in the classroom is gained by students taking Hamline's course work in the department of education. The upper-classmen first observe, then conduct their own classes.

Party for Mrs. John Stenseth

The Kratka Homemakers honored Mrs. John Stenseth, a recent bride, at the J. C. Lendobeja home on Thursday evening. She was presented with a corsage and a gift from the group. Martha Johnson was united in marriage to John Stenseth, June 8, in Fargo at the home of the Jennings Jensens in the presence of Mr. and Mrs. Jennings Jensen with Pastor Arthur M. Lang officiating. After a months vacationing at the West coast, they are now making their home in Silverton. The honor guest and other guests enjoyed a dessert luncheon prepared by the hostesses, Mrs. Alvin Burstad, Mrs. Ted Lendobeja and Mrs. J. C. Lendobeja. The guest list included, honor guest, Mrs. John Stenseth, Mrs. Ruvella Magnon, Mrs. Orin Anenson, Mrs. A. Edwin Koglin, Mrs. Wallace Tieman, Mrs. Sidney Wilson, Mrs. Warren Wilson, Mrs. Henry Anenson and Mrs. Gunder Olson.

Kratka 4-H Club Meets

The September meeting of the Kratka 4-H club was held at the town hall Wednesday evening. The meeting was presided over by John Erickson in the absence of president Bernard Wilson. The following new officers were elected: president, Richard Parnow; vice president, John Erickson; secretary, Stanley Olson; treasurer, Richard Johnson; reporter, Mary Ann Lendobeja. New leaders are Mr. and Mrs. Julian C. Lendobeja and A. Edwin Koglin. The following committee was appointed for the October party: Mrs. Ted Lendobeja, Mary Ann Lendobeja and Mavis Anenson. Reports on the state fair were given by Stanley Olson, Richard Parnow and Mary Ann Lendobeja. Lunch was served by the committee.

Wednesday breakfast guests at the J. C. Lendobeja home were Mrs. Henry Olson, Mrs. Cy Gla[illegible] and Mrs. William LaFave all of Thief River Falls.

Mr. and Mrs. Gunder Olson and Olaf Olson made a business trip to Oklee Saturday.

Wednesday afternoon, Mrs. R. Magnon, Mrs. J. C. Lendobeja and Mrs. Floryan Szymanski attended church circle at the Ray Schindler home.

Thursday forenoon, Mrs. Peter Westergard of Devils Lake, and Susan Benson of Thief River Falls called at the J. C. Lendobeja home.

AUTO AD DOLLARS

Newspapers get more than 50 cents out of every automotive ad dollars says Edward E. Rothman, Ford g.m. of advertising and sales promotion, who comments: "That is good and I hope it will increase."

St. Paul Markets

South St. Paul Livestock Market Report — Monday

Steers and Heifers: A price range of $24-26.50 covered bulk sales Good and Choice slaughter steers. Those at $26.50 were usually well into the Choice grade. High-Choice 1,097, 1,111, 1,16[illegible] and 1,268 lb. weights brought $27.00,—while high-Choice and Prime 1,352 lb. offerings also realized $27.00. Standard steers had a range of $20-23.50, Canner, Cutter and Utility grades $15-19.00. High-Choice and Prime 1,017 lb. heifers from a feedlot with a good reputation for high grade and yield cashed at $26.25, and several loads average to high Choice heifers moved at $25.50-25.75. Bulk Good and Choice cleared at $23.50-25.25, Standard $20-23.00, and Canner, Cutter and Utility grades $15-19.00.

Cows and Bulls: Some high Commercial cows were taken at $17.00, bulk Utility and Commercial grades $15-16.50. Canners and Cutters sold largely at $12.50-14.50. Lightweight Canners frequently went at $11.00-12.00. Cutter and Utility bulls had a spread of $20-22.50, Commercial and Good $20-21.50 and Canners $16-19.00.

Vealers and Calves: The decline on vealers was largely on Cull and Utility grades. Good and Choice bulked at $27-31.00, high-Choice and Prime $32.00. Standard grade sold at $22-26.00, Cull and Utility $15-21.00. Good and Choice slaughter calves cleared at $24-27.00, Utility and Standard $16-23.00, and Culls $13-15.00.

COUNTY BOARD PROCEEDINGS

OFFICIAL PROCEEDINGS, BOARD OF COUNTY COMMISSIONERS PENNINGTON COUNTY, MINN.

September 29, 1959

The Board of County Commissioners met in Special Session in the Office of the County Auditor at 11:45 A.M. September 29, 1959.

All members of the County Board waived the 10 day Statutory notice required for a Special meeting.

Members present: Hanson, Olson, Anderson, Lindberg and Tate. All present.

Commissioner Hanson introduced the following resolution and moved its adoption:

WHEREAS, It has come to the attention of the Pennington County Board that there is a grave possibility that Federal Aid Secondary (F.A.S.) Funds to Counties may be substantially cut by the State Highway Commissioner, and

WHEREAS, Various proposals have been suggested with the State retaining from one-third to one-half of the money allocated by the Federal Bureau of Public Roads, and

WHEREAS, This Board feels that if even a part of this money is taken this year it could be a beginning of a trend that would make the continuance of the practice easy and would place local highway control and construction in serious jeopardy and that any inroads on this money that has previously been marked for County use would be in violation of publicly indicated desires at the time of the passage of Amendment No. 2 for allocation of Highway Funds.

NOW, THEREFORE, BE IT RESOLVED, That with full realization that the State Highway Department may need additional finances, indication of this need should be placed before the State Legislature and sold to them and let needed corrections be made by that body and the Pennington County Board strongly objects to any change in the percentage allocation made in previous years, and

BE IT FURTHER RESOLVED, That Minnesota Highway Commissioner Zimmerman be petitioned to continue the present percentage allocation of Federal Aid Secondary Funds and that copies of this resolution be forwarded to Commissioner Zimmerman, to Governor Freeman, Senator Roy Wiseth and Representatives Ben Wichterman and Walter E. Day.

The foregoing resolution was duly seconded by Commissioner Olson and upon a vote being taken was declared carried.

CARL A. ANDERSON, Chairman, Pennington County Board.

C. W. Rodekuhr, County Auditor & ex-officio, Clerk of the Board.

Leaders Emerge in Northern Lights Football League

Lancaster Takes Lead in Conference West Half and Detroit in East

The Northern Lights eight-man football conference in its third week of play on the gridirons, finally had league leaders emerge in each half of the conference standings.

In the west half, Lancaster, defeating Argyle 12 to 6 last week, has a two win, one game and no loss record. Argyle, Grygla, Warren, Stephen and Fertile will be competing for team and individual titles.

The Roseau Rams and the Detroit Lakers are the contenders for the eastern conference crown. There is some doubt, however, as to whether or not the Roseau Rams will compete in the meet. Four of the Roseau backfield, Dave Barklund, Jerry Hovda, Don Hovda and Jerry Lee, are members of the Warroad Warriors football team, and with the Rams slated to meet the Pirates at Roseau on Friday night in a Northwest conference game there is the possibility that these players will be ineligible for the Rams' playing role on Thursday night football on Friday.

The Pirates' quarterback, Ron Sorbaim, Bob Brown, Ron Kvistad and Carl Johnson are undefeated in district and inter-school competition. Coach Jack Sayler's squad should score well.

Nine Schools Competing Today for Individual and Team Golfing Honors

The Region Eight high school golf tournament will be played at Thief River Falls Country club this morning at 10 a.m.

Thief River Falls, coached by Jim Smith, Thief River Falls, Roseau, Warroad, Bemidji, Crookston, Warren, Stephen and Fertile will be competing for team and individual titles.

The Roseau Rams and the Warroad Warriors are co-favorites to win the team competition. There is some doubt, however, as to whether or not the Roseau Rams will compete in the meet. Four of the Roseau backfield, Dave Barklund, Jerry Hovda, Don Hovda and Jerry Lee, are members of the Warroad Warriors football team, and with the Rams slated to meet the Pirates at Roseau on Friday night in a Northwest conference game there is the possibility that these players will be ineligible for the Rams' playing role on Thursday night football on Friday.

The Pirates' co-pilot, Ron Sorbaim, Bob Brown, Ron Kvistad and Carl Johnson are undefeated in district and inter-school competition. Coach Jack Sayler's squad should score well.

Partridge Season to Open Saturday

The Minnesota ruffed grouse and partridge hunting season for 1959 will open on Saturday, Oct. 10, at noon, and will continue on a statewide basis until Nov. 15.

The shooting hours, except for the opening day, will be from 9 a.m. to sunset. And the bag limits will be four grouse and four pheasants in possession.

Karlstad Plays at Newfolden Friday

Nordics Score Shutout Against Silver Lake

The Newfolden Nordics will engage in what shapes up to be a crucial conference game with the Karlstad Warriors on Friday, Oct. 2, they meet the Karlstad Four of the Roseau Newfolden field. The kickoff is slated for 1:30 p.m.

Coach Ted Karlstad team, which has won two and lost one, will be seeking its third win in a row. The Warroad Warriors have a three-win and no-loss record in conference competition, and a win on Friday would put the Warriors in the driver's seat in the conference race. The Pirates will enter the game with a one-win and one-loss conference record.

In addition to being a game between two traditional rivals, the game will be a benefit for Karlstad Warriors. The Warriors' football uniforms were destroyed in the International Falls "B" team bus fire a year ago, and suffered injured spleen. After being in a critical condition for several days, several days, Jeff responded to treatment and is reported to be improving. Is on the road to recovery. Which is good news.

Adolf Ahlquist plans for Friday night's game will be one filled, and the proceeds will be given to the Vezina family.

Coach Ted Karlstad is hoping Friday night's game scores about two touchdowns. And, the records of the Nordics would indicate that the installing of the Rams as the favorites by a two-touchdown margin. Roseau has scored consistently in the first quarter of its games, and Crookston in the second. While the Pirates have a 7-7 tie with Grand Forks for the conference lead.

The Nordics have a weight advantage of 10 pounds to the man, and posted. Both extra-point plays failed in last week's game, missing the first try on a plunge, and the pass from Vesa Hoglund to Ahlquist on the second conversion try.

Prowler-Bemidji 'B' Game Oct. 17

The Prowler 'B' team for football will play Bemidji here Saturday morning, Oct. 17. The Lumberjacks 'B' squad had difficulty in obtaining transportation for this game and requested a postponement.

The Prowler 'B' team will play the Roseau Rams 'B' squad here on Tuesday night, Oct. 6. The kickoff is slated for 7:30 p.m.

Drivers Advised to Alter Habits in Fall

"There's going to be a change in the weather, and that means there had better be a change in how you drive."

Harry A. Stehen, highway safety director, started motorists thinking about change in weather is a sign that motorists should begin to change driving habits to enjoy accident-free driving.

"Advance driving precautions don't cause accidents," he explained. "They are a form of adjust to those conditions do cause accidents. Fall driving is the fall when motorists forget all the added hazards of rain, snow and ice.

Stehen offered these driving tips to make the coming season a safe one:

If drivers practice smooth driving all year round, they'll have the habit of driving smoothly when streets and roads are slick.

Keep one's eyes peering ahead constantly for road conditions and have it "written" before one's vehicle gets to it.

Be prepared for poor traction. Keep windows clear of frost. Watch out for fallen leaves, especially when they are wet. For emergency conditions a set of tire chains is always handy.

Driving slowly, cautiously, and with extra care when approaching frosted or scattered windshields. It will make it difficult to see. Be sure windows are clean and your windshield wiper blades don't freeze.

Watch the "feel" of the road when starting a trip. For one's own safety, it is wise to test brakes occasionally while driving slowly.

Drive well back of the car ahead so there is plenty of room to stop in case of emergency.

Be courteous to other drivers. Let other drivers a chance to get into the traffic line.

"It is up to the driver to keep the hazards of bad weather from getting started," Stehen said. "Make no quick and sharp, it makes accident driving to avoid accidents."

1960 Chevrolet to Make Bow Friday

Line Features Corvair, Revolutionary Car

The revolutionary Corvair, long a target of speculation in the automobile world, makes its debut this week along with the rest of the 1960 Chevrolet passenger car line.

On display in the Northern Chevrolet Co. showroom for the first time Friday, Oct. 2, the complete presentation offers the public, ranging from the compact Corvair to the luxurious Impala and Impala convertible as the most luxurious ever introduced in the low-priced field.

The Corvair, product of a nine-year research and development program, offers a conventional rear-engine, rear-drive concept combined with outstanding economies in the front and rear seats. Passenger space is provided for more comfortable and richly fitted interiors. Trunk space is among classic innovations that promise greater durability and satisfaction.

The Corvair will be offered in each Project of Columbia University. The project, under the direction of Dr. Charles Dollard, has been in operation for four years, and was president of the North American Foundation. He frequently served as speaker at church services and meetings in northwestern Minnesota.

Board of Winter Shows Picks Site

Favors New Location on N.W. School Land

The Red River Valley Winter Shows Board of Managers, Inc., met Thursday for a special all-day policy-making meeting. Of principal importance was the selection of a site for the permanent building urgently needed buildings for the Red River Valley Winter Shows.

The board adopted a resolution selecting a 20 to 30 acre site just north of the Northwest School, on the west side of Highway 59 North.

The board authorized Dr. Dollard to proceed with negotiations for the site, and to enter into negotiations with the regents of the university.

Consideration was given the possibility of the board's forming organizations to become active members of the winter shows association, the board of managers.

The board accepted favors in the expressed interest in broadening the scope of participation in the shows by surrounding towns and businessmen.

State Medics Warn of Tranquilizers

Public Advised Against Using Pills as 'Candy'

"Come on—get happy" with pills and tranquilizers, is the popular philosophy of the day which is causing increased interests to many physicians.

Dr. Harold Brunn, state health commissioner, said in a statement that he is "shocking reports" of increasing prescriptions for tranquilizers. It has been estimated that in 1957, Americans consumed 1,250,000,000 tranquilizing pills, and that the number of prescriptions for sleeping pills and tranquilizers. It has been estimated that in 1957, Americans consumed 1,250,000,000 tranquilizing pills, and that the number of prescriptions for sleeping pills and tranquilizers is presently increasing. Other medicines have been prescribed for its addiction to the tranquilizer.

Driver Behavior Study Being Made
Project under Way at Columbia University
Does "punishment" of driving violators actually reduce unsafe driving practices? Or does it merely teach motorists to be on their good behavior while being observed, etc.?

Fred spends about 1,000 hours each year in school. When he graduates from high school he will have sat in classrooms for 12,000 hours.

Plus homework Miss Harkins assigned nine pages of science today. Mr. Brent expects a book report tomorrow. And so it goes every school day—every year.

Don't let Fred's *crowded school roster* worry you. He is getting an education—the fine education every American child is entitled to. Let Fred's *empty spiritual roster* worry you. He is spending ZERO hours in Church School. He is getting NO religious education. And his tragedy is shared by MILLIONS OF AMERICAN YOUTH.

A new kind of homework is needed. By friendly encouragement, by sincere interest, by the example of our own families in faithful church life—we must inspire the Freds and their parents to take advantage of the spiritual opportunities that America's churches offer.

THE CHURCH FOR ALL . . . ALL FOR THE CHURCH

The Church is the greatest factor on earth for the building of character and good citizenship. It is a storehouse of spiritual values. Without a strong Church, neither democracy nor civilization can survive. There are four sound reasons why every person should attend services regularly and support the Church. They are: (1) For his own sake. (2) For his children's sake. (3) For the sake of his community and nation. (4) For the sake of the Church itself, which needs his moral and material support. Plan to go to church regularly and read your Bible daily.

A Wonderful New World of Fords for 1960

A new world of style! A new world of savings! A new world of performance! A new world of built-for-people comfort! A new world of station wagon living!

On October 8, for the first time, there will be not one, not two, but *three* completely new kinds of Ford cars designed and priced for nine out of ten Americans:

The 1960 Fords—The Finest Fords of a Lifetime, beautiful from any Point of View, worth more from every Point of Value!

The 1960 Falcon—The New-size Ford, the world's most experienced new car, and the easiest car in the world to own!

The 1960 Thunderbird—The World's Most Wanted Car!

FORD—*The Finest Fords of a Lifetime*

Here are 15 new models! Economy-minded Fairlanes. Big-value Fairlane 500's. Elegant Galaxies. Five beautifully husky new station wagons. A sleek new Sunliner convertible and a brand-new hardtop model, the Starliner.

A wonderful new world of style. Ford's beautiful new proportions flow smoothly through an elegant Thunderbird-inspired roof to swift rear-quarter lines.

A wonderful new world of performance. For action, there are new Thunderbird V-8's that blend blazing power and acceleration with kid-glove smoothness.

A wonderful new world of ride. With Ford's new Wide-Tread Design, wheels are spread farther apart for a *full 5-foot tread*. It handles and rides like the Thunderbird!

A wonderful new world of economy. Ford's Mileage Maker Six and Thunderbird 292 V-8 and 352 V-8 all travel beautifully on *regular* gas at savings up to a dollar a tankful. And go 4,000 miles between oil changes.

A wonderful new world of built-for-people comfort. Six big people—including the man-in-the-middle—ride in greater comfort than ever. The new Fords give you as much as 4 inches more shoulder room, more knee room, more hip room. You relax on chair-high seats.

A wonderful new world of safety. Ford's big safety news for 1960 includes new *Truck-Size Brakes* with brake linings 35% bigger. Ford's new *Safety-Girder Frame* is 25% stronger than ever before. Better visibility, too.

FALCON—*The New-Size Ford*

Here is the welcome news Americans have been waiting for . . . the *Falcon*, a product of Dearborn, Michigan, automotive capital of the world, *was expressly designed for American needs on the American road.* It's the one economy car without the economy-car look.

Averages up to 30 miles per gallon. Experience Run, U.S.A., *proved* it! Oil savings? Ford's *standard* Full-Flow Oil Filter stretched oil changes 4,000 miles apart.

The engine's up front for greater safety and stability. Built brand-new for the Falcon, the short-stroke Falcon Six was developed, and mounted up front, according to long-proved, thoroughly accepted engineering principles.

1960 Falcon seats six with ease. Six fit comfortably into the Falcon—and it swallows luggage for six in the big rear trunk that holds 23 cu. ft. Compare this with others!

Easiest car in the world to own. A Falcon is so easy on the wallet that it's easier than ever to be a 2-Ford family!

THUNDERBIRD—*The World's Most Wanted Car*

For 1960, the Ford Thunderbird is distinctively new—without basically disturbing the famous profile that has made it America's new fine-car favorite. It's the most wanted car of all!

No matter who you are . . . or what your tastes and needs . . . there's an exciting 1960 Ford styled, sized and priced for you. See your Ford Dealer October 8!

Unendurable Laws

"Laws," according to Lexington Noah Webster, "are the rules of conduct ordained by a controlling authority; also any similar rule of conduct or action."

In the chambers of our legislature be they local, state or federal — a multitude of persons are joyfully busy drawing up additional rules for the conduct of the people of the United States.

Such a passion is justified by the violators who state that the laws are "no good and should never have been put on the books." Others, more outspoken, themselves bluntly burdened with a complex of rules to enforce, often profess to look back up the decisions of the legislators and rest up by ignoring, or at least making only a token effort, to live by the rules.

Regarding a local example in the few, let us consider the "five cent beer" law. Now on our books for some time, it appears that that all who must be kept in restraint by the law are not. Every year, for the benefit of a large number of the residents of the state.

To back up the ordinance one of the "dry" laws, the legislature has set up a police department to see to it that the kindreds of dope in the state are likewise restrained and otherwise the fine responsibility to the law put on the books. It goes without saying that the department has its hands full and rather than see them with more hard to train, cannot control the situation.

This is only one of many laws which have been passed from a little or no thought given to enforcement. Many of the laws are copied and given still more book although they no longer apply to modern living, and we have an impossible set of rules by which to live.

What is even worse is the lesson which younger people learn from the fact that many of the rules of conduct of society are set forth in the ponderous and time-honored laws of the land.

If new laws are necessary to make society safe and sane, let us pray for a little more thought on the part of those who decide how they expect to make these rules of conduct workable.

Our City Decies

In a few brief weeks, voters in the city will go to the polls to elect a mayor and a number of aldermen. All but one of the needed charging for many years. Under the law, the mayor and all the aldermen hold office for two years, with none up for election in any one year.

It is entirely possible that an entire council might be changed at one time by an election of this nature, but it is unlikely that might be changed resulting in a complete change in the personnel of the city government.

Wiener's to Show 60 Cadillac Friday

Shows Many Styling and Mechanical Advances

In announcing the 1960 Cadillac, which goes on public display Friday, Nicholas E. Wiener, Cadillac-Oldsmobile-Buick zone president of General Motors Corporation, said that the 1960 Cadillac is emphasized by its handsome lines and elegant simplicity of design.

Special attention to the styling additions and appointments of the cars is the mechanical operations, including a further progress in achievement of smoothness and quietness of performance and significant developments in the braking system.

The 1960 Cadillac line consists of 13 models in three standard series, plus one custom model, the Eldorado Brougham. All models have been completely redesigned. Numerous new features mark the 1960 Cadillac.

Wiener's dealership is at 315 Elm avenue.

Union Chief Named Regent of 'U' of M.

Robert Hess of White Bear Lake, vice president of the Minnesota AFL-CIO, Thursday was named a regent of the University of Minnesota Board of Regents.

Hess, 41, fills the vacancy created by the death last week of George Lawson of St. Paul. Lawson was a long-time labor leader and former president of the state federation of labor.

Hess is employed by the Minnesota Federation of Labor for many years.

Hess will serve out Lawson's seven-year term and the Legislature will appoint a successor to serve for a full six-year term.

Hess, St. Paul and graduate of Johnson high school, first served in the Navy as a chief petty officer in World War II. He is married and has a child.

Bagley Principal Seeks Education Group Presidency

Phillip C. Stolnenberg, Bagley high school principal, has announced his candidacy for the presidency of the Minnesota Education Association, a group sponsored by the Bagley Education Association for president of the M.E.A. Election of officers of the M.E.A. will be held during the 1960 convention in Minneapolis.

Stolnenberg is a graduate of the University of Minnesota, where he received his master's degree in the class in classroom teaching. He has been a teacher for the last 11 years.

He served with the U. S. Air Force during World War II, and is now a captain in the active USAF reserve. He is married and has three children.

'Employ Physically Handicapped' Week to Be Observed Oct. 4-10

Throughout the nation "National Employ the Physically Handicapped Week" for 1959 will be observed during the week October 4 through 10, it was announced by Governor Orville L. Freeman.

Governor Freeman said that employers and the general public of the value of hiring handicapped workers will display by that they are valuable employees and that they are given the opportunity to show their skills and abilities.

Handicapped workers do not want, nor expect, special privileges on the job. They only desire equal consideration with other applicants with regard to the ability necessary to perform the job. They want only the opportunity, encouragement, and cooperation of employers, unions and private industries have proven.

1. The handicapped worker's productive rate is as good or better than that of able-bodied workers.

2. Handicapped workers have a better than average safety record.

3. The absenteeism rate of the disabled worker is about the same as that of the able-bodied, though even here they have a lower rate for taking injuries than the impaired worker.

4. Handicapped workers absenteeism records compare favorably with that of the unimpaired worker.

State and federal government agencies are providing services which help the handicapped worker medical treatment for disabling injuries requiring medical attention to adjust the handicap; rehabilitation training to prepare the handicapped person to perform a different job; vocational training to prepare persons for jobs in which the handicapped person can make a contribute to the economic well-being of this country and not a burden to the working population by continuing as a relief rolls.

The department of employment security through its 22 field offices in Minnesota assist in job development and perform placement assistance to those physically handicapped persons who are ready for employment. The Veteran's Administration, whose primary interest is the handicapped veterans, aid the division of vocational rehabilitation in the assistance to the handicapped individual by measuring the applicants remaining abilities, job retraining where necessary and placement in gainful employment.

Handicapped individuals who are seeking full time employment, who are not now listed with the employment service are invited to contact the nearest employment office at once for placement assistance. In Thief River Falls the local employment office address is 216 Main, office hours are 8:00 to 4:30 day through Friday, 8 a.m. to noon Saturday.

Employers who have job openings for which a handicapped worker might qualify are invited to call MU 1-3100, Thief River Falls, and ask for the employment office. The employment representative will be glad to assist in locating a suitable applicant for your job opening. This free service is available throughout the year.

Rep. Fitzsimons on Interim Group

Secretary of Group to Meet Friday

Representative Alvin O. Hoffstad, Madison, is the new chairman of the state legislative interim commission on agricultural problems, with Senator P. J. Holmquist, Argyle, as vice chairman and Representative Robert W. Fitzsimons, Angle, secretary. These three officers compose the executive committee.

Chairman Hoffstad of the 10-man study group said the commission's executive committee: Harold S. Nelson, Crookston; John L. Olson, Worthington; Raphael F. Salmon, Hallock; Agriculture Secretary Orville Freeman; Secretary of State Joseph Donovan; and Governor Elmer L. Andersen.

During the present biennium the commission will study agricultural laws for the purpose of drafting clarifying and codifying the statutes. It will also study the effect of federal legislation on some of the various agricultural agencies operating in the state, with a view toward coordinating the licensing, regulatory services, administration, cost, both state and federal agencies in the field.

Related to space and speed looks—the new COMPACT CORVAIR and CHEVROLET

A classy family resemblance between the all-new Chevrolet and the Corvair is evident in the newest cars for 1960 to be introduced to the public Oct. 15. GM Fisher, however, the Corvair is a compact and the Chevrolet is not. Both cars are shown above in the Corvair Monza Coupe and Chevrolet Impala Sport Sedan with which it appears.

Engineers and chassis subassembly specialists from Chevrolet, Pontiac, Oldsmobile and Buick, the Corvair Division at Lordstown, Ohio, and Fisher Body Division have collaborated on the design of the new Chevrolet and Corvair. "They that can give up essential liberty to obtain a little temporary safety deserve neither liberty nor safety."
—Benjamin Franklin

That Extra Cent

Starting today, the cost of gasoline goes up a cent; the result of a tax increase by the federal government in that amount. The tax was approved as an emergency measure. The authorization is limited to a certain period of time and at the end of that allotted time this additional tax will be discontinued under the provisions of the present law.

But we know from experience that such an increase is likely to be permanent. The pressure group that maneuvered us into this emergency will be just as successful in proving that there is a continuing need for the tax at the time the present law expires.

The one encouraging thing about this situation is the fact that those who proposed borrowing as a means of meeting the present need were not successful. The promise that the federal road program would be a cash-on-the-barrelhead operation was kept, and that is important. *As long as we can restrain those who advocate the borrow-and-spend method of paying for current needs there is hope for us.*

Road building is one form of public improvement and maintenance that will be with us forever. Over a period of time the pay-as-you-go method of building roads will get us more roads for the dollars we spend.

Food Stamps Again?

Congress authorized a food stamp plan on an experimental basis in extending for another two years the present program of selling and giving away farm surplus commodities to overseas countries. President Eisenhower indicated however that the experiment would not be made, and that is good.

No additional experience with a food stamp plan for feeding needy people is required to prove its lack of merit. Those of us who have memories of past noble experiments with stamps will agree that they may serve a useful purpose in providing a more equitable distribution of scarce commodities under emergency conditions. But even for such purposes their use was of doubtful value and probably did not justify the cost of administration.

To use them as a means of distributing surplus commodities borders on the ridiculous. The cost of administering such a program could not be justified. We know from past experience that a large portion of the commodities distributed in this manner would become trading stock for other commodities more in demand, and the resulting reduction of surpluses would be negligible.

Will They "Bury Us"?

The New York Times, in a recent issue, looking forward to the coming of Premier Khrushchev, presented several interesting charts comparing the 1958 production of our country with that of the Soviet Union. In that year the Soviets had a total labor force of 98 million, compared to our 73.8 million. In our country the agricultural employment was 6.8 million and 60.8 million non-agricultural workers. The Soviet figures were 45 million employed in agriculture and 47 million in non-agricultural work.

The figures are interesting. About one-tenth of our workers are producing more farm products than we are able to consume. In the Soviet Union nearly half of the workers are employed in the operation of farms, and they apparently are not producing a surplus.

Production per worker on the farms in our country has increased steadily over a period of many years since the invention of the mechanical reaper. In recent years that trend has been stimulated by the more widespread use of fertilizers and generally improved production practices.

It is reasonable to assume that the trend in agricultural productivity, that has been so sensational in our country, will be duplicated in Russia, and, with our example to serve as a guide, the rate of acceleration in that country probably will be even more rapid. That is to be expected. And as the use of machinery becomes more widespread, fewer farm workers will be required and more workers will be available for non-agricultural employment.

We can see nothing in this probable development that is alarming, nor would it necessarily be bad if at some future time the Soviet Union should exceed us in production. If that production were achieved in a proper way it would not necessarily affect us adversely. It should result in a higher living standard for the people of Russia and Asia and in other countries that now are classified as backward.

There could be adverse effects and danger if such increased productivity were used, as Khrushchev put it, to "bury us." Our economy could be seriously crippled if a nation so great in productivity decided to use its production to destroy us. World markets are important to us and our economy is enriched by trade with foreign countries.

But by the time the Soviet Union achieves production on the scale that Khrushchev looks forward to, Khrushchev himself will have been a long time dead, and it will be up to a new crop of leaders to decide whether or not the energy of the nation should be geared to a program of destroying our country.

We will add that problem to the list of things we will not worry about this year. *But we are satisfied that we have reason to* be concerned about our own capacity to remain competitive in a world that now is using the mass production methods that made us industrially great. There are times when we wonder if we have passed our peak, and that other nations, now having possession of equally good tools, and more willing to work, may surpass us. It has been observed before that our danger is not from foreign enemies. When we crumble it probably will be because of internal decay.

Self-Criticism is Good

It is interesting to note that newspapers have been critical of the conduct of newspapermen who covered the Khrushchev visit to the Garst farm at Coon Rapids in Iowa. Joining in the chorus of condemnation, the St. Paul Pioneer Press had this to say about the reporters:

"The conduct of some radio, television and newspapermen at the Roswell Garst farm during the Khrushchev visit Wednesday was outrageous and should be condemned.

"The right of freedom of the press so jealously guarded by newsmen is in no measure served by the jostling, pushing, screaming mob tactics witnessed at the Coon Rapids farm. The state department, perhaps, should have demonstrated more discretion and courage by limiting the number of newsmen covering the event. But this failure in no way excuses any of the reporters and photographers present—from all media—for forgetting that members of the Fourth Estate are also supposed to be "gentlemen" of the press.

"It is quite understandable that most newsmen who conducted themselves with dignity and common sense at the farm were, after the performance of some of their compatriots, ashamed to be wearing "press" badges."

Reporters probably will hear more about this incident as press associations meet throughout the winter. Most representatives of the press do conduct themselves properly and all newspapermen know that if they do not police themselves, their activities will be restricted by other agencies, with the support of public opinion.

Self-criticism, fortunately, indicates a healthy state of mind.

TOPICS OF THE TIMES
— By — H. A. H.

Having just returned from a 5,000-mile vacation trip to points south and east, we will take the easy way out and devote this week's column to some of the highlights of our journey. Many of our readers no doubt have covered the route ahead of us.

—O—

Starting out from Minneapolis in company with the wife's sister and brother-in-law, our first stop was at Springfield, Illinois, where we viewed the tomb of Abraham Lincoln and the house in which he lived from 1844 until becoming president in 1861. His well preserved home was much more imposing than we had expected.

After passing thru the blue grass country and Cumberland mountains in Kentucky, we made an overnight stop at Gatlinburg, Tennessee, entrance to the scenic Great Smokies national park, with mountains up to 6,000 feet in height, all covered with trees.

We traveled down the Florida west coast as far as Dade City in the St. Petersburg area, and then went across the state thru numerous orange and grapefruit groves loaded with green fruit. We spent some time at Silver Springs, where a huge river of crystal-clear water emerges from underground caverns, and then went on to St. Augustine. We took a surrey ride thru the narrow streets of the city with their moss-draped liveoaks, and visited a mission dating back to 1565, just short of 400 years old.

Traveling north near the coast, we had our first look at the harvesting of cotton, tobacco and peanuts. In sharp contrast to the shanties occupied by Negro families were the stately homes near Charleston, South Carolina.

After going thru a tunnel under Hampton Roads estuary in Virginia, we spent some time on a tour of historic Williamsburg, restored to its original condition with funds provided by John D. Rockefeller Jr. Of particular interest was the impressive governor's palace with its beautiful gardens.

We then went on to the Washington area, where we made an eight-hour tour of the city, including the capitol building, the White House, the government printing office where we saw millions of dollars in currency come off the presses, and scores of huge structures housing government functionaries, which gave us a clue as to where some of our tax money goes. We also inspected Mount Vernon, and watched the impressive ceremony of the changing of the guard at the tomb of the unknown soldier at Arlington national cemetery.

Several hours were devoted to a guided tour of the Civil War battlefield at Gettysburg, Penn., and we noted with pride the monument to the Minnesota soldiers who gave their lives there. Next stop was in the Camden-Philadelphia area, where we visited relatives after emulating George Washington by crossing the Delaware river near Trenton, N. J., only we rode on a car ferry.

On our trip home we traveled on the Pennsylvania, Ohio, Indiana and Illinois turnpikes, which enabled us to maintain a steady pace of around 65 miles per hour without a crossroad to look out for in about 800 miles.

Our last stop was at the quaint town of Galena, Illinois, former lead-mining center and home of President U. S. Grant, whose house is maintained in its original status by the state government. The terrain there is exceedingly hilly, and the ladies of our party counted 180 steps leading up from the main street to the high school.

We'll end our little Odyssey by saying that in all the 5,000 miles we covered we didn't see a town that looked as good to us as Thief River Falls.

REPORT from the GOVERNOR
by Orville L. Freeman

A superintendent of schools recently contacted our office to inquire whether we could help him in his search for steel beams, needed to complete a school building under construction. The shortage resulting from the steel strike was affecting the availability of classrooms for children living far from the homes of any steel workers or steel mills.

Few Gain

There are very few who gain from a prolonged strike in this basic industry. But millions are hurt by its continued duration. This is why it was so seriously disappointing when the steel industry rejected the White House offer to appoint a fact-finding board with power to recommend terms of settlement.

Workers Hurt First

The first to feel the effects were, of course, the workers in mills and mines. In Minnesota alone more than 26,000 workers are affected, 19,490 on strike and 6,749 laidoff because their jobs depend on operation of the mines.

Factories Slow Down

As steel supplies run out, factories begin to slow down and lay off employees. Generally it is the smaller industries that are hurt the most, since the big ones found it easier to stockpile material in anticipation of the strike.

Retail Business Hurt

Other business is hurt, more and more as the strike continued. Retailers in iron range cities report sales down from 10 to 25 per cent, and such a drop in sales can well make the difference between profit and loss. Scattered lay-offs of employees in retail stores have become necessary. One bank reported more than a million dollar decline in savings accounts.

Every Minnesotan Affected

The prolongation of the strike, in Minnesota alone, has brought about serious consequences that are affecting increasing numbers every day. In fact, everyone living Minnesota must now face its effects.

Minnesota Loses $5,000,000

Last June steel company officials provided the Minnesota legislature with revised estimates indicating greatly increased ore shipments over the estimates they had made in January, even though they knew a strike was iminent. The legislature based its revenue program on the assumption that these estimates would be realized. Already the shipments lost during the strike thus far have cost us $5,000,000 in tax revenue.

Greater Losses Possible

If the strike lasts through October, and shipments are then resumed immediately and continue until freeze-up, Minnesota will lose more than $14,000,000. And if it lasts so long that no more shipments can be made this year we stand to lose over $22,000,000.

Services Threatened

Minnesota's budget is too tight to be able to take this kind of loss without serious consequences. Services and programs authorized by the legislature cannot be carried out as planned with a loss of $5,000,000—to say nothing of consequences that could result if the losses reach $14 million or $22 million.

Minnesota citizens must therefore face the possibility of serious effects on every one of us that will increase with each day of delay in arriving at a settlement that will allow the resumption of the shipment of iron ore. Even if you know no one who works in a mine, even if you own no stock in the United States Steel corporation, you will be affected. The situation is a pointed illustration of how closely Minnesota's economy and the welfare of all our people are tied to the national economy and events and situations far beyond our borders.

Mr. and Mrs. Venus Dau Celebrate Anniversary

Mr. and Mrs. Venus Dau were honored on their silver wedding anniversary Friday evening, September 25, at the Mission Covenant church by friends and relatives who gathered to make it a happy occasion. The church was adorned with baskets of white daisies, pink petunias and assorted chrysanthemums. Miss Hilma Drotts, organist, played "Sweeter as the Year Go By," as the bridal couple was escorted in. The bride was attired in a green cotton and rayon dress with black accessories. Rev. W. Blackwood, pastor of the church, served as master of ceremonies at the program which opened with a hymn by the audience. Percey Stokke led in prayer. Mrs. Paul Flodstrom, president of the Ladies Aid, gave a greeting and best wishes and presented a corsage of carnations and rosebuds to Mrs. Dau and a white boutonniere to Mr. Dau. Greeting from the Sunday school by Supt. Ione Gustafson and from the Young People's society by the vice president, Larry Gustafson. Instrumental number, "Comforter Abides With Me," by Mr. and Mrs. Ed Hanson and Mrs. James Tostrup. Clarence Tangquist, chairman of the church, gave a greeting from the congregation and presented them with a purse of money from the community folks and many cards and other gifts. Two poems were read by Mrs. Halward Anderson, entitled, "Twenty-fifth," and "A Greeting." Mr. and Mrs. Virgil Hjelle sang a duet, "He Leadeth Me." Rev. Blackwood gave a short talk, congratulating the honored guests on the special day. Janice Dau spoke on behalf of the children, extending congratulations and well wishes to their parents. The program concluded with another instrumental number, "My God and I." Immediately following the program a reception was held in the church parlors. Decorations were carried out in pink and white streamers and garden flowers. The bridal table was adorned with pink and silver tapers centered with a three tiered anniversary cake, topped with a miniature bride and bridegroom. Mrs. Paul Flodstrom cut and served the cake, Mrs. Frank Anderson poured coffee and Mrs. Clarence Gustafson was in charge of the guest book. Ushers were Larry Gustafson, Bob Blackwood and Paul Tangquist. During the reception, Clarence Tangquist acted as toast master. Out-of-town guests were Mrs. Lillian Hoff, Miss Thelma Hoff and Carl Hoff of Newfolden and Mr. and Mrs. Norman Ringdahl and Ricky of Bemidji. All the children were present except Pfc Clarence Dau, who is in the armed services in Washington. Congratulations are extended on reaching this milestone of life.

Here Friday from Chevrolet . . .

Elegant Impala 4-Door Sport Sedan—one of 18 spanking new Chevrolets you can choose from.

THE SUPERLATIVE '60 CHEVY

This is the one that says '60 like no other car. From its clean-thrusting grille to its dapper rear deck, there's so much that's new and different about this superlative Chevrolet it stands out from the rest like a fresh-minted coin. And you'll be just as wide-eyed over what's inside—the relaxing roominess, tasteful trim, hushed elegance of its new Body by Fisher, all comfortably cradled by Full Coil springs at all four wheels. Yet, sumptuous as this new Chevy is, it's got all the thrifty virtues that make it unmistakably a Chevrolet—with new economy of operation, new dependability, new longer life. Here, then, we're confident both you and your budget will joyously agree, is the nearest to perfection a low-priced car ever came!

Here's the car that introduces a whole new decade of design—with so much that's new and different the others can only hope to come close.

It's the superlative '60 Chevrolet—with new space inside, new spirit under the hood, new splendor in every clean-etched line.

Freshly shaped contours rake back from the unified new grille to the jaunty rear deck, fitted with craftsmanship you'd expect only on the most expensive makes. Inside, the solidly built new Body by Fisher surrounds you with finely tailored fabrics and spacious elegance. There's room to sprawl in, room to sit tall in—generously provided by Chevy's sofa-wide seats and extra margin of hat space. And there's even more leg room for the man in the middle—thanks to the way Chevrolet engineers have shaved down the transmission tunnel.

Out on the road, as Chevy's Full Coil ride will persuade you most gently, there's not a car near the price that comes close to the hushed comfort of this one. Adding to your sense of silence and solidity are thicker, newly designed rubber body mounts that do an even more efficient job of isolating road shock and noise.

Quiet, quick-responding power is provided by a choice of two standard engines—Chevy's famed Hi-Thrift 6 and a new Economy Turbo-Fire V8 that gets up to 10% more miles out of a gallon of regular while delivering greater engine torque at normal speeds. There's also a choice of five other V8's and five transmissions, to assure the exact power combination to satisfy the itch in your driving foot. Chevy's accent on comfort and convenience even extends back to its easier-to-load luggage compartment. You'll also find a convenient new parking brake that automatically returns to normal height after application, a new clutch linkage that filters out engine impulses more effectively than ever and new two-toning motif available on all 16 fresh-minted models.

But, impressive as all this may look in print, there's really only one way to tell how near to perfection this superlative '60 Chevrolet actually comes . . . and that's to drop in on your dealer and drive one!

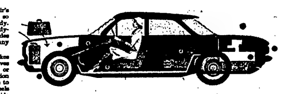
THE REVOLUTIONARY **Corvair** BY CHEVROLET

There's nothing like a new car—and no compact car like this de luxe Corvair 700.

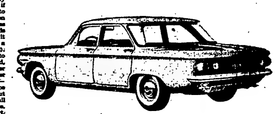
Here's the car created to conquer a new field—Chevrolet's low-priced compact Corvair.

The product of nine years of research and development, it's America's first truly compact car that retains the ride and 6-passenger comfort you're used to in a big one.



The key to this small miracle: America's only rear-mounted aluminum engine—a lightweight 6 that's so revolutionary it can be packaged with the transmission and drive gears as one compact unit.

With the engine in the rear, the Corvair's floor is virtually flat, front and rear, so there's plenty of foot room for everybody. Combined with Corvair's unique body-frame construction by Fisher, this provides interior spaciousness comparable to many postwar conventional-sized cars.



Shifting engine weight to the rear also makes for easier compact car handling and gives glued-to-the-road traction on ice, mud or snow. And with independent suspension at all 4 wheels—an advance comparable to the independent suspension of front wheels years ago—you get a poised, unruffled ride that rivals even the costliest cars.

These are all things no front-engine compact car can give you. And with them you get outstanding economy and practicality that would never have been possible if Chevrolet engineers had been content to make the Corvair merely a sawed-off version of a big car. Corvair's size—some 5 inches lower, 2½ feet shorter and 1,300 pounds lighter than conventional sedans—makes it a joy to jockey through busy streets, a pleasure to park (no need for power assists). Its revolutionary Turbo-Air 6 gets up to 30% more miles on a gallon of regular. And, because the engine's air cooled, you never have to fuss with antifreeze, you get quicker warmup (even heat for passengers comes—almost instantly—from an airplane-type heater*). Wonderfully practical, yes. But you'll find the most practical thing of all about Corvair is its remarkably low price. Your dealer's the man to see for all the short, sweet details.

America's only car with an airplane type horizontal engine!
America's only car with independent suspension at all 4 wheels!
America's only car with an air-cooled aluminum engine!

The engine's in the rear where it belongs in a compact car!

You have your choice of two Corvairs—this one's the standard model.

1. REVOLUTIONARY TURBO-AIR 6 — Gets up to 30% more miles on a gallon; needs no antifreeze, provides quicker warmup with less wear on parts. It's the world's first production 6 with the ultra-smooth, space-saving power of horizontally opposed (not vertical or V-stroke) pistons.
2. ONE-PACKAGE POWER TEAM — Wraps rear engine, transmission and differential into one compact unit. Takes less room, leaves you more.
3. STYLING—PURE AND SIMPLE — Clean, uncluttered lines shape both 4-door models—the de luxe Corvair 700 and the standard Corvair. Each has its own distinctive trim, and you get more visibility area than in many full-sized cars.
4. FOLD-DOWN REAR SEAT* — Works instantly, adding to Corvair's versatility by enlarging rear seat cargo space to 17.6 cu. ft.
5. FLAT FLOOR — Corvair is America's only compact car with a practically flat floor, the only one with the kind of relaxing room that U.S. motorists are used to.
6. UNISTRUT BODY BY FISHER — Does away with conventional frame, incorporating all structure into a rigid body-frame unit that gives you more inside room with less weight.
7. UNDER-HOOD LUGGAGE COMPARTMENT — Trunk's up front (like an elephant's) where it's convenient for groceries, shopping bags, luggage.
8. 4-WHEEL INDEPENDENT SUSPENSION — There's no conventional axle—front or rear. Wheels, cushioned by coil springs, take bumps independently of each other, for smooth, road-hugging ride.

*Optional at extra cost.

New! For a limited time only! If you are 65 or older Blue Shield offers you the

Senior Citizen Plan

to help prepay Medical-Surgical Care for only $2.95 a month!

There is a vital need for low cost medical-surgical care for Minnesota citizens who are 65 years of age and older. Your Minnesota Doctors of Medicine, after thorough study of this problem, have recommended and approved through the House of Delegates of the Minnesota State Medical Association the *Senior Citizen Plan*. Now, Minnesota Blue Shield offers this important service to all senior citizens of Minnesota—the prepaid medical-surgical care you need, at a cost you can afford.

THE BLUE SHIELD SENIOR CITIZEN PLAN WILL PROVIDE ALLOWANCES FOR THESE ESSENTIAL SERVICES RENDERED BY DOCTORS OF MEDICINE.

Surgical Care. There are allowances for almost every known surgical operation or procedure . . . whether the surgery is performed at home, in the hospital or at the doctor's office.

Medical (non-surgical) Care. The Senior Citizen Plan provides benefits for up to 120 days of in-hospital medical care for each unrelated non-surgical illness during any 12 consecutive months. Among such illnesses are pneumonia, coronary heart disease and other medical conditions not requiring surgical care. While a bed patient in the hospital, medical care allowances are provided—up to $6 for the first day of the doctor's service, $4 the second day and $3 each additional day.

Electroshock Therapy. Benefits are provided for electroshock treatments for nervous and mental conditions.

Diagnostic X-ray and Laboratory Benefits. Coverage will be provided for out-of-hospital diagnostic X-ray services and diagnostic laboratory services necessary in the diagnosis of, or treatment of, a sickness or injury when rendered by or under the supervision of a doctor of medicine who customarily bills for his services. Allowances will be provided to a maximum of $30 for diagnostic X-ray services and $30 for diagnostic laboratory services per subscriber in each period of 12 consecutive months.

X-ray Treatments. There will be Blue Shield allowances under this Senior Citizen contract for X-ray treatment and isotope therapy when used for certain specific conditions such as proved malignancy and hyperthyroidism (goiter).

Additional Benefits. Certain anesthesia services and endoscopic examinations.

ARE YOU ELIGIBLE FOR THE SENIOR CITIZEN PLAN?

Any legal resident of the State of Minnesota who meets all of the following requirements is eligible:

1. Is actually residing in the state;
2. Is 65 years of age or over, as of November 1, 1959;
3. Is not a member in any other Minnesota Blue Shield Health Plan.

VITAL MEDICAL-SURGICAL CARE FOR THIS LOW, LOW COST!

$2.95 per month for each subscriber payable quarterly. (You can put your Senior Citizen medical-surgical coverage into effect by November 1st . . . if you send in as little as $2.95 immediately!)

APPLY FOR YOUR SENIOR CITIZEN CONTRACT NOW . . . APPLICATIONS MUST BE MAILED ON OR BEFORE OCTOBER 31, 1959.

Minnesota Blue Shield is offering this Senior Citizen Plan for a limited time only. All applications must be postmarked *not later* than midnight Saturday, October 31, 1959. *No physical examination required.*

YOUR COVERAGE BEGINS NOVEMBER 1st.

If your application is mailed by October 31, 1959, and you are qualified, membership in the Senior Citizen Plan becomes effective on Sunday, November 1, 1959. There is a six months waiting period, however, before benefits may be received for any pre-existing conditions, which known or unknown to the subscriber, may be considered from a medical standpoint to have been in existence in any form on November 1, 1959.

WILL BENEFITS OR RATES BE CHANGED OR TERMINATED?

There will be no termination or revision in terms or in rates of any individual member's protection unless all members of the plan are subject to the same changes or termination.

DOES THE MEMBER PAY ANY ADDITIONAL CHARGES FOR DOCTOR'S SERVICES?

More than 3,000 participating physicians in Minnesota have agreed to accept the Blue Shield payment as full payment for the services provided under the Senior Citizen contract where the unmarried subscriber has an annual income of less than $2,400, and a net worth of less than $20,000, or where the subscriber and spouse have an annual income of less than $3,600 and net worth of less than $30,000. If you are entitled to receive benefits from another source for the same or similar services, the doctor does not necessarily agree to accept the Blue Shield payment as payment in full.

YOUR BLUE SHIELD SENIOR CITIZEN PLAN PROVIDES YOU WITH:

- a contract and literature detailing the plan's provisions.
- an identification card to be presented to the doctor when his services are required.
- PLUS . . . Blue Shield pays your doctor directly for all the services covered by your Senior Citizen contract.

THE SENIOR CITIZEN PLAN DOES NOT COVER:

Medical services (as distinguished from surgical services) when rendered to other than a bed patient hospitalized in a licensed hospital. Medical care is not covered when provided in a rest home, state or federal hospital, sanatoriums or similar institutions.

Hospital services, nursing services, dentistry, except for certain specified procedures, medicine, drugs, appliances, materials, supplies, radium, radon, or the services of any intern or resident physician.

Services for which the patient is entitled to benefits under any state or federal law such as Workmen's Compensation or Veterans Administration benefits.

Repetitive procedures such as injections or sclerosing therapy of varicose veins and hemorrhoids, etc.

Services by one other than a doctor of medicine.

Diagnostic X-ray services and diagnostic laboratory services if performed in connection with care of teeth, routine physical examinations, or any examination not necessary to the diagnosis of or treatment of a sickness or injury or examinations for which payments are claimed by hospitals, laboratories or other institutions, or when the services are covered to any extent by a non-profit hospital service plan.

You are not eligible for the Senior Citizen Plan if you hold membership in any other Blue Shield health plan.

THREE IMPORTANT REMINDERS:

1. Mail your application and first payment for the Senior Citizen Plan immediately! Applications must be postmarked *not later* than midnight Saturday, October 31, 1959. APPLICATIONS MUST BE ACCOMPANIED WITH FIRST PAYMENT. You will be billed on a quarterly basis thereafter.
2. The Senior Citizen Plan does not cover charges made by hospitals or nurses, or the cost of drugs.
3. *If you are under 65*, you may apply for individual or family plan membership by contacting the Minnesota Blue Shield office.

Here is an application for you and your spouse, a friend, or any member of your family who is eligible.
Please mail applications with first payment for each applicant to: Dept: SCP, Minnesota Medical Service Inc. (Blue Shield) 2610 University Avenue, St. Paul 14, Minnesota.

fresh point of view...from Pontiac!

The car craftsmen who developed Wide-Track Wheels, the innovation that brought a new standard of roadability to the American passenger car, present another fresh original for 1960!

With clean, crisp lines they've composed a delightful rightness of form with unity and rhythm.

Into the proved principle of Wide-Track (wheels farther apart for a steadier stance) they've engineered an ingeniously improved suspension system. This combination of a firm foundation and supple suspension gives you flawless control, more skill in the fine art of driving, smooth stability, bump-yielding softness.

The power plant is typically Pontiac. A wide range of restless, ground-gaining power packages to choose from. All are husky V-8's, ranging from the frugal 425E economy engine that prefers regular grade gasoline to the fiery Tempest 425.

Haven't you been an admiring spectator of Pontiacs long enough? Isn't this you r to become a participant in Pontiac pleasure, to move up t tiac ownership, where the enjoyment is the fullest, where the po. f view is the freshest?

Another fresh one from Pontiac!
The inspired beauty of perfect proportion!
The precision control of Wide-Track Wheel Design!
The softer ride of supple suspension!
The wide choice of vigorous Tempest V-8 Engines tailored to economy or high performance!

Wide-Track Wheels give you swayless stability, solid comfort. You maneuver with skillful sureness, accurate control. It's the sweetest, most precise, most rewarding driving you've ever felt.

Three and One-half Acre Plot Across from Armory Chosen

A site for the future home of Valley Christian Home Society has now been purchased, according to an announcement made last week by L. B. Hartz, general chairman of the building committee, and George Belto, chairman of the finance committee. The new home will be located on a three and one-half acre tract across the highway from the Armory.

Waldie Christensen, who has been active in the solicitation of funds for the project, states that pledges have now passed the $80,000 mark. The solicitation of employees has been completed, he reports, and the results have been very satisfactory. The solicitation of employers and the self-employed has not been completed and Mr. Christensen is hopeful that in the home-stretch drive it now will be possible to achieve the $125,000 objective which will make it posssible to proceed with the construction.

The site that has been acquired extends over an area 680 feet wide and approximately 680 feet in depth, providing ample room for expansion. This property connects with the highway on an angle and extends eastward south of the high school athletic field. Its accessibility to the city and also to the Armory park makes this site desireable.

The building committee has in mind a 60-bed one-story unit, and will be designed with future expansion in mind.

Wannaska Man Is Killed Saturday as Car Rolls over

A Wannaska man was killed in a one-car accident Saturday near Roseau, when his car struck a pile of gravel on the road in a construction zone.

Frank Olson, about 30, was travelling on highway 89 about five miles south of Roseau when his car struck the gravel pile, which caused the car to go out of control and roll over about 8 p.m. Saturday.

Details concerning the death were not available.

Austin Appointed Drivers License Exam Supervisor

To Serve Northeastern Minnesota from Office in Grand Rapids, Minn.

Stephen A. Austin, drivers license examiner in Thief River Falls for the past four and one-half years and active in community affairs, has been promoted to the post of examiner supervisor for Northeastern Minnesota, and will leave Wednesday for Grand Rapids, Minnesota, where he will maintain his headquarters. He will serve as one of six supervisors in the state.

Austin, whose family will remain here until living quarters have been arranged for in Grand Rapids, has been a local resident since shortly after returning from three and one-half years service with the U.S. Marines in World War II.

Previous to entering on his work, he was associated with the Triangle and Northwest Trails bus lines and with Custom Motors.

He is a past commander of the local American Legion post, and is currently president of the Lincoln high school PTA unit. He also is a former chairman of the Pennington safety safety council, member of the local selective service board, and a member of the Trinity parish board of education.

Rep. Langen Opens District Office

Located in Postoffice Building at Crookston

Congressman Odin Langen this week opened his district office in the post office building in Crookston. This office will serve as the Ninth district Congressman's headquarters during the interim period between sessions of Congress, and will be staffed by three of Langen's assistants. Two staff members have been left in charge of the Washington office.

In addition, Langen stated, certain days during the interim have been set aside as "office days" in Moorhead, Fergus Falls, Detroit Lakes, Bemidji, and Thief River Falls. These communities will be notified of the exact times and places through their local newspapers and radio stations, he said.

"With the district office now set up," Langen concluded, "we are ready to serve the people of the Ninth district both here and in Washington during the interim. I hope, in addition, that the days we have scheduled in the five other communities will prove beneficial to the residents of those areas, and that I will have the opportunity to visit as many other of our towns as possible."

Co-op Group Meets in City Thursday

G. Skomedal Reelected District Director MAC

An attendance of 65 or more persons was registered at a regional meeting of the Minnesota Association of Cooperatives last Thursday evening in the municipal Auditorium. Delegates were present from co-op groups in six Northwest counties.

Gunsten Skomedal of Thief River Falls, District 7 director, presided over the program, which included talks on association activities by Brynolf C. Peterson of Aitkin, president, and Edward E. Slettom of St. Paul, executive secretary.

Mr. Skomedal was reelected to his present post as district director.

Set Objective of Community Chest $12,700

Decision Pending on Using Payroll Deduction Plan

A tentative goal of $12,700 for the Pennington county Community Chest was set at the group's meeting Thursday, Oct. 1. The campaign will get under way later this month.

No definite decision was made at the meeting in regard to the system of payroll deductions and it is expected that an announcement will be made at the next meeting.

George Hale and Jarvis Pritchard, co-chairmen of the Community Chest, presided over the meeting. Preliminary plans have been completed for the drive in the downtown district, according to Bob Baker, commercial chairman, and Dr. Ed Gilbert, residential drive chairman, reported that plans had also been completed for that part of the solicitation.

The rural drive in Pennington county will be headed this year by Pat Culkins and Silas Hanson.

Weekend Weather Is Termed Ideal

Mercury Hits High 60s Saturday and Sunday

Northwestern Minnesota was blessed with weather last weekend which couldn't have been nicer.

Saturday, the mercury rose to 68 under cloudless skies and was followed Sunday with a carbon copy which varied only in that the top reading was 67.

With the exception of Sunday night when the reading was 43, every night this month has been in the 30's. Daytime readings have ranged from a low of 44 on the 1st to 68 on the 3rd.

The KTRF forecast is for partly cloudy and cooler today with highs from 50 to 60. Mostly cloudy skies are expected tonite and tomorrow with scattered light rain tomorrow, possibly beginning late tonight. Little temperature change is expected tonight but cooler weather is predicted for tomorrow.

The low temperature tonight is expected to be from 38 to 45.

4 Area Men Joined Navy Last Month

Four men from this area enlisted in the Navy during the month of September, according to Doug Richardson, Navy recruiter in Thief River Falls. They are Richard Nelson, Argyle; Richard Clay, Hallock; David Rice, Roseau; and Ervin Sargent of Warroad. All men were assigned to a training station of their choice. Richard Nelson chose Great Lakes training center in Illinois, and the others picked the training center in San Diego, Calif.

CANDIDATES One of these three Lincoln school seniors will be selected queen of the 1959 Homecoming Friday afternoon, Oct. 9, at 2 p.m. during a program in the school auditorium. From left to right, they are Diane Storhaug, Mary Lou Fisher and Gail Lindberg. Following the coronation of the queen by Dale Wennberg and Peter Iverson, football co-captains, the queen will ride in the parade through the downtown district and will preside during the football game that evening when the Prowlers of Lincoln meet the Lakers of Detroit Lakes.

Board Objects to Cutting FAS Funds

Commissioners Oppose Reduction in Road Funds

The Pennington county board, at a special session last Tuesday, September 29, adopted a resolution objecting strongly to any change in the present percentage allocation of federal aid secondary road funds.

The action was taken after the board had been warned by the Minnesota Association of County Commissioners, which had heard reports that State Highway Commissioner L. P. Zimmerman was considering a reduction of about 20 per cent in FAS allotments to counties.

The resolution recognized that the highway department may need additional funds, but suggested that this need be placed before the state legislature.

Local Youngsters to Be Guests Oct. 10

Dance and Program Are Slated in Auditorium

Youngsters of the area will find a full evening of entertainment Saturday night, Oct. 10, when the Arlene and Berks Baker show troop and the Jack Parkins quintette orchestra will appear at the city Auditorium.

The dance and show will feature the same entertainers who will appear at the annual Policemen's ball the preceding evening and is sponsored by the city police association.

Tickets are now on sale by the Girl Scouts of the city for 60c. Both groups of entertainers are from Winnipeg. The show troop is a top rated pantomime group and the orchestra will play plenty of rock and roll for the young dancers from 8:30 until 11:30.

2 Cars Wrecked in Separate Mishaps

Drivers Escape Injury as Two Cars Roll over

A one car mishap at 2:30 a.m. today left the car's driver uninjured but the car was demolished, according to the sheriff's office.

Gerald W. Wayne, Goodridge, was the owner of the car driven west on a county road in Bray township approximately 14 miles west of St. Hilaire, by Frank L. Donarski, Jr., of Crookston.

Donarski told officers he went to sleep at the wheel. As a result, the car went into the ditch on the left side of the road and overturned. Donarski escaped injury but the car was almost a total loss.

An odd twist to the story is that the car first ran off the road in Pennington county but came to rest in Polk county.

A similar mishap at 10 p.m. last Thursday also left the driver of an older model car unscathed but demolished the car, Sheriff Charles Richards said.

Raymond S. Olson, rt. 1, reported he was driving west about a half-mile west of Joppru's, northwest of the city, when he hit loose gravel, lost control and rolled over. Olson escaped injury.

Farmers Requested to Bring in Samples of Soil October 15-16

A special incentive for local farmers to take soil tests is provided by fertilizer dealers this fall. All dealers in Pennington county will discount the fertilizer price by the amount paid by the farmer, for soil testing. If for instance, farmer X brings in five soil samples he will pay five dollars. This five dollars, or one dollar per sample, will be returned to him when he buys fertilizer.

All the dealers will discount their fertilizer when the farmer presents a receipt he will get on Thursday, October 15, or Friday, October 16. These are the dates that the soil samples must come in to get this special discount from the fertilizer dealers.

Why is the soil test necessary? County Agent Paul Stelmaschuk explains it this way. A soil test is a measure of nutrient levels so that a farmer knows how much of what kind of fertilizer to use on a field.

Why can't general recommendations be made? Because soils vary greatly in ability to supply plant food to crops. Soils also differ in their origin, in their development, and the crops which have been grown on them. So these soils will differ in their fertilizer needs.

Soils vary from field to field and even from place to place in the same field. This is why it's very important to take a soil sample properly. "A lump of dirt out of one spot in the field used as sample can do more harm than good since it can be misleading," Stelmaschuk stated. "It's necessary to make about fifteen stops in the field and to take about a tablespoon full of soil from the surface and from about 4 inches below the surface. A spade works well in getting a slice of soil for this purpose."

After the fifteen stops the soil should be mixed well and a composite sample of it brought to Thief River Falls on Thursday and Friday, October 15 and 16. A trailer will be set up along the north side of the post office to receive the samples all day Thursday and Friday from 9 a.m. to 9 p.m.

R. A. Wegner Files for Council Post

To Seek Election Nov. 3 as 2d Ward Alderman

Ralph A. Wegner, 707 Knight ave. N., a traveling salesman for Swift & Co., filed Friday, Oct. 2, for election as alderman of the second ward.

Wegner becomes the fifth candidate to register for the election. In addition to Alderman E. B. Benson, who is seeking reelection from the first ward, A. J. Rau had filed previously for reelection as alderman at large and Milton Relerson and Mack Draper had filed from the newly-formed fifth ward.

Filings will cease on Monday, Oct. 19, and the election will be held Tuesday, Nov. 3.

Storm Sewer Dist. Three Assessment Hearing Tonight

Property Owners to Be Given Opportunity to Offer Any Objections

Residents who live in storm sewer District three and adjoining areas affected by the construction of the new storm sewer construction, will have an opportunity this evening, Monday, Oct. 5, to present written and oral objections to their assessments.

The meeting, scheduled to begin at 8 p.m., will be on the first floor of the City auditorium.

The construction, which is well under way, will cost a total of $254,000 of which $133,000 is assessable to the benefited property owners. Owners of a standard 50 by 140-foot lot would be assessed $252.70 and those who reside north of Sixth st. would pay $12.67, according to the schedule presented at the last city council meeting.

$4,000 Blaze Hits Goodridge Farm

J. P. Kulseth Granary and Machine Shed Razed Sunday

An estimated $4,000 damage was caused at the J. P. Kulseth farm one mile south of the Goodridge corner and ½ mile east Sunday night, Oct. 4, when a granary and machine shed were burned.

According to Kulseth, all tools and a 1953 car in the machine shed were destroyed by the fire, whose origin had not been determined Monday morning. The loss was partly covered by insurance.

Firemen of the Goodridge fire department brought small equipment to keep the blaze in check but, under a ruling of the fire underwriters, were unable to use the Goodridge fire truck.

Goodridge PTA to Meet Wednesday

The Goodridge PTA will meet in the school auditorium Wednesday evening, Oct. 7, for its first session of the school year.

Mrs. James Wells, district president of the PTA, will speak on district work.

Mrs. Koglin will report on a convention held at Moorhead.

Mr. Towne represented Goodridge at the district PTA convention held at Red Lake Falls and will give a summary of the program.

An election of a new vice president will also take place to succeed Mr. Boeckman.

There will be introduction of new and old teachers. Everyone is urged to attend.

Lincoln School Homecoming Is Set for Friday

Queen to Be Chosen; Prowlers Will Play Detroit Lakes Team

Homecoming festivities at Lincoln high school will open Thursday evening, Oct. 8, when a snake dance from the school through the business district will terminate at the fairgrounds.

Judy Wold and Don Stewart, co-chairmen of Homecoming, announced that the Thursday evening events will be climaxed with a bonfire and pep rally to which everyone is invited.

The selection of a Homecoming queen to reign over the celebration will be announced Friday afternoon, Oct. 9, at 2 o'clock at a program in the school auditorium. Candidates for the honor are Gail Lindberg, Mary Lou Fisher and Diane Storhaug.

Four attendants have been chosen by their classes to make up the queen's court. Connie Ekeren and Karon Mittelstadt will represent the junior class and Carol Rolland and Susan Ballingrud will represent the sophomores.

Dale Wennberg and Peter Iverson, co-captains of the Lincoln high school football team, will crown the queen.

Wes Halvorson and Clyde Trickle will act as masters of ceremonies for the event which will be followed at 3:15 by a parade through the downtown business district.

Work on parade floats has already begun and members of sponsoring organizations will be devoting many hours over the weekend to the construction of their displays.

The highlight of Homecoming will be the football game Friday night, Oct. 9, beginning at 8 o'clock when the Prowlers meet the Detroit Lakes "Lakers." The game will be followed by a dance in the high school cafeteria.

Jr. Chamber Makes Further Plans for Fall Celebration

Group Discusses Role in '30 Years of Progress' Fete October 15 to 17

Game Warden Carl Sundstrom was guest speaker at a meeting of the Junior Chamber of Commerce Thursday evening in the Elks club rooms. He discussed hunting laws and regulations governing the fall open seasons.

Reports were made on Jaycee participation in the "Thirty Years of Progress" celebration to be staged in Thief River Falls October 15-17. Events sponsored by the group include a free dance in the Auditorium Friday evening, October 16, while scheduled for the 17th are safe tractor driving and pie eating contests and a tug-of-war between the City Slickers and the Country Boys. It was announced that Jim Parkins will head the city team and that he is seeking the services of a group of husky men.

Chairman Elsbrener of the membership committee announced that a campaign for new members of the chapter, and urged that each Jaycee sign up a member. He added that men signing up will be guests at a special meeting late this month.

Arrangements were completed for the annual Jaycee Halloween party to be held at the Thief River Golf club Saturday evening, October 24, with wives and other invited guests.

A delegation of ten local Jaycees, headed by President Bruce Hall and Glenn Peterson, regional vice president, attended a regional conference in Bemidji last Wednesday evening.

Helene Bertsch, Jack Bartlett Wed in St. Paul

Nuptial vows were exchanged recently by Helene V. Bertsch, daughter of Mr. and Mrs. Fred J. Bertsch of Gully and Jack J. Bartlett, son of Mr. and Mrs. Ora Bartlett of Minneapolis, in St. Mark's Catholic church in St. Paul.

Rev. Michael Jakobic officiated at the double ring ceremony, with Roger Berg of St. Paul at the organ. Soloist was Joseph Yancher.

The bride, given in marriage by her father, wore a white intermission length gown of nylon organza, featuring a sabrina neckline, short sleeves, and a chapel length train. Her shoulder length veil was held in place by a petite crown of tiny pearls and sequins. She carried a cascade bouquet of white roses and tiny hyacinth florets, dark leaves and white ribbons. Her pearl earrings were a gift of the bridegroom.

Miss Sandra Wright of Minneapolis served as maid of honor, followed by Jacqueline Wright of St. Paul and Doris Danielson of Fosston. Connie Bertsch, sister of the bride, was junior bridesmaid.

The attendants were attired in aqua blue street length dresses of nylon organza, fashioned with a rounded neckline which dipped to a V in the back. Their accessories were white picture hats, white gloves and pearl earrings, gifts of the bride. Their bouquets were of monochromatic shades of pink roses.

Louis Ferrare of Minneapolis, friend of the bridegroom, was best man with Frank Whitney and Larry Hartstrom of Minneapolis as groomsmen. Ushers were George Bartlett, brother of the bridegroom, Robert Baset, Ted Capes and Joseph Neser, cousins of the bridegroom, all of Minneapolis.

For her daughter's wedding, Mrs. Bertsch chose a toast brown sheath dress with white accessories. The bridegroom's mother wore a black sheath trimmed in white, with white accessories. Both mothers had corsages of pink baby tea roses.

Following the ceremony a dinner was served at the American Legion Valldin Post in Minneapolis, for immediate relatives and friends. Approximately 130 guests attended the 5 o'clock reception that evening. A four tiered wedding cake, topped with a miniature bride and bridegroom, centered the serving table. Mrs. Michael Jager of Des Moines, Iowa, aunt and godmother of the bride, cut and served the cake while Mrs. George Rice and Mrs. Emmet Faacks, sister of the bridegroom poured. Miss Doreen Roberts was at the guest book with Mrs. Wynne Kolaski and Mrs. Robert Bray at the gift table.

Following a honeymoon trip to Wisconsin, for which the bride chose a black sheath dress and white accessories, Mr. and Mrs. Bartlett will make their home in Fort Bliss, Texas, where the bridegroom is stationed.

WED IN ST. PAUL Mr. and Mrs. Jack Bartlett, nee Helene Bertsch of Gully, were united in marriage recently in the St. Mark's Catholic church in St. Paul. They are making their home in Fort Bliss, Texas, where the bridegroom is stationed.

Betty Halverson and Dudley Mason Are Wed Sept. 26

Miss Betty Jean Halverson, daughter of Mr. and Mrs. Lorman Halverson of Red Lake Falls, became the bride of Dudley W. Mason, Jr., son of Mrs. Dudley Mason, Sr., of Memphis, Tenn., Saturday, Sept. 26 at the First Presbyterian church in Red Lake Falls. Officiating at the ceremony was Rev. Glenn Aitchison.

The bride, given in marriage by her father, chose a waltz length gown of nylon and acetate lace and a fingertip veil of illusion net. She carried a corsage of pink carnations and white mums.

Attending the bride was Bonnie Slagel, of Siren, Wis. and Ellen Armstrong of Euclid. Little Mary Johnson of Osnabrock, N. D. was flower girl. Best man was Staff Sgt. Kenneth Foss of Grand Forks with Staff Sgt. Henry Robertson, also of Grand Forks, as groomsman. Ushers were Vern Askegaard of Grand Forks and Charles Slagel, of Siren, Wis., both cousins of the bride. Jeffrey Radeke of Red Lake Falls was ring bearer.

Approximately 150 relatives and friends attended the reception held in the church parlors following the ceremony. That evening a dinner was served by the VFW Auxiliary for the out of town relatives.

Upon returning from their honeymoon Mr. and Mrs. Mason will make their home in Grand Forks, where the bridegroom is stationed with the air force. The bride is a graduate of Lafayette high school at Red Lake Falls.

Shirley Ann Casavan Wed to Ted Prochnick

Rev. L. E. Proulx performed the double ring ceremony, recently which united Shirley Ann Casavan and Ted Prochnick at St. Anthony's Catholic church in Terrebonne.

The bride is the daughter of Mr. and Mrs. Leonard O. Casavan of rural Red Lake Falls and the bridegroom's parents are Mr. and Mrs. George Prochnick of Oakes, N. Dakota.

Entering in on the arm of her father, the bride wore a floor length gown of embroidered schiffle tulle over taffeta with a cascade of backruffles drifting into a chapel train. The sabrina neckline was graced on a fitted lace bodice, touched with glitter, and long sleeves. Her fingertip veil of silk illusion fell from a semi-crown and she carried a white prayer book, topped with a bouquet of red roses.

Maid of honor was Darlene Casavan, sister of the bride with Modora Delorme, cousin of the bride and Beverly Audette as bridesmaids. Junior bridesmaid was Marilyn Leigh Casavan, sister of the bride. All were attired in ballerina length gowns of blue velveteen with matching hats and white gloves and they carried bouquets of white carnations.

Little Jeannie Marie Prochnick of Fargo, niece of the bridegroom, was flower girl, wearing a dress similar to that of the bride, and carrying carnations.

John Prochnick of Sioux Falls, S. D. served as best man with Darrell Casavan, brother of the bride and Edward Hodgson, nephew of the bridegroom, as groomsmen.

Following the ceremony a reception was held in the church parlors with Mrs. Clifford Corbin, aunt of the bride, of Crookston, and Mrs. Ed Morgan, sister of the bridegroom of Brainerd, pouring. Mrs. Harvey Casavan, aunt of the bride and Mrs. Howard Jeffrey, sister of the bridegroom of Fairmont, cut and served the wedding cake. Mrs. Leonard Gagen, Mrs. Eldrick Audette served as hostesses. The wedding dinner was served at the M and L Chicken House near Terrebonne, by Mr. and Mrs. Leo Kalinoski.

Following a honeymoon trip to Lake Okaboji, Iowa, Mr. and Mrs. Prochnick will make their home in Crookston. For going away the bride chose a blue sheath dress with matching accessories and a pink corsage.

The bride is a graduate of Lafayette high school in Red Lake Falls and is presently employed at the Northwestern Clinic in Crookston. The bridegroom graduated from Oakes high school and Manhattan School of Printing and is now employed with the Crookston Daily Times.

Relatives and friends from Brainerd, St. Paul, California, Fargo, Fairmont, Sioux Falls and Arthur, N. D. attended the wedding.

Mr. and Mrs. Anton Carlson arrived home Wednesday from Virginia, Minn., where they visited at the home of Mr. and Mrs. Albert Carlson and Ole Johnson and at Duluth where they visited with Mrs. Frank Hoppe and Richard Hoppe.

Members of the Sow and Hoe Garden club will meet Tuesday, Oct. 6, at the J. P. Rosengren home. The meeting is slated to begin at 8 p.m. and everyone is requested to be present.

Dr. and Mrs. J. W. Ewing spent the weekend in Minneapolis, Saturday they attended "Parent's Day" at Hamline University, where their daughter, Carol, is a student.

Women Invited to Attend Club Meeting Wednesday

Mrs. Leonard Hanson, newly-elected president of the Thief River Falls Women's club, today issued an invitation to any woman in Pennington county to join the club which is of international scope, the international organization having a membership of 11 million, of which five million are in the United States.

The objectives of the organization are varied, such as taking a stand on juvenile delinquency, federal aid to education, water supply and flood control, mediocrity of TV and radio, pure food and drug administration, voluntary health agencies, unwholesome emphasis on feminine appeal, non-citizenship status of adopted foreign children and many other problems.

Information to acquaint clubwomen on any of these subjects is available at Federation headquarters.

The theme of the Minnesota Women's Clubs is: To improve ourselves by awareness, by study, by action, and being Federation minded.

Two subjects which the general Federation is stressing at this time are distribution of obscene literature and the world refugee problem. All clubwomen are to fight against the spread of obscene and salacious materials, both through the mails and on the news stands.

Clubwomen can serve in the problem of world refugees by acquainting themselves with the situation and what needs to be done through available literature and material.

The local Women's club consists of a general group and its subordinates, which offer women opportunities to pursue their favorite studies.

The Allegro group studies music and has added much to the cultural aspects of the club. Mrs. Marlos Hanson is chairman.

Current Events study local, state, national and international news and its effects on our country with Mrs. J. A. Wassgren as chairman.

Decor group enjoys arts and crafts with Miss Betsy Legvold, chairman.

The Laurel group, with Mrs. Leonard Hanson, as chairman, Zehlian group with Mrs. Rudolph Sagmoen, chairman; Thor group, with Mrs. D. E. Laurence, chairman, study art in its various media such as oil, China painting and water colors. The Drama group, with Mrs. Roy Oen as chairman, studies literature, plays, etc.

All the above chairmen and other officers will be happy to welcome all former, present and prospective members at the general meeting at the American Legion rooms at a smorgasbord Wednesday, Oct. 7, at 6:30 p.m. A program of interest will follow the business session.

How to Figure Profit on '60 Feeder Cattle

How much can Pennington county beef men pay for feeder cattle this fall and still come out ahead?

That's a tough question, no doubt about it, but the above chart from County Agent Paul Stelmaschuk will help give you an idea.

Here's how to use it: Let's say you're wondering whether to pay $35 per hundred pounds for feeder calves this fall. Look down the left hand column on the chart above until you come to $35. Then read across the same row to the figure under the middle arrow. This figure is $26, the price those cattle will have to bring when fat to return you $1.50 per hour for your labor—above all costs. That, normally, is a good profit. But the catch is clear: You still have to go on your own estimate of what the selling price will be next fall for feeders you're getting now.

This chart is based on average *cost-and-return figures on beef cattle*, as summarized in a publication, "Planning Your Cattle Feeding Program," by Hal Routhe, extension farm economist at the University of Minnesota. The figures are for 600 pounds of gain on feeder cattle bought as calves, and 500 pounds of gain on yearlings. The publication is available in the county extension office.

Naturally, there will be some variation according to grade and performance in the feed lot. The above figures are for the average. Changes in feed prices could make a difference, too. Routhe figured corn at $1.05 per bushel and current prices for protein supplement.

The outlook is for fat cattle to bring somewhat lower prices next fall. So keep that in mind when buying feeders this year. Then plan your feeding program to get each pound of gain as cheaply as possible. The man who buys carefully, keeps costs low and *markets effectively will have the best chance for profit in 1960.*

QUESTIONS answered for VETERANS

Additional information or assistance on veterans benefits may be obtained by writing or visiting the VA Contact representatives at the Grand Forks VA offices.

Q—When I come out of service next month I will be eligible as a Korea veteran for a GI home loan. Will I lose this eligibility if I sign up for re-enlistment?

A—No. You would not lose eligibility for a GI home loan by re-enlisting. However, you would be bound by the deadline for February 1, 1965, like any Korea veteran.

Q—If I should add the total disability income rider to my World War Two GI-insurance policy, and become disabled, would the amount my beneficiaries would receive from the policy in case of my death be reduced in any way?

A—No. Disability payments made under the rider in no way decrease payments made to beneficiaries of your GI insurance policy.

Q—Is a "peacetime" veteran with a disability rated 50-percent entitled to more compensation for dependents?

A—Yes. Peacetime veterans rated 50-percent or more disabled may be entitled to additional compensation for a wife, minor children, or dependent parents.

Q—I was in a Japanese prison camp during the fighting in Korea. I have a dental condition traceable to my service, but for which I do not receive compensation from VA. Is there a deadline in my case for applying for VA out-patient dental treatment?

A—No. You may apply at any time, and receive as many treatments as needed.

What Should You Do In an Emergency?

By Martha Johnson
Dodge Safety Consultant

It doesn't matter whether you are driving to the corner drug store or taking a long trip, there's always a chance you may be faced with an emergency.

Because feminine drivers often don't know what to do when an unusual situation arises, many panic. This isn't necessary, however, if you remember these few simple hints.

IF YOU HAVE A BLOW-OUT ... Let your car coast to a stop. Don't brake hard. Move to the edge of the road.

IF YOUR BRAKES FAIL ... Use the hand brake. Steer into the curb if necessary.

IF YOU GET OFF ON THE SHOULDER ... Hold steering wheel firmly. Let the car slow down; then turn the wheels back onto the road.

IF YOU START TO SKID ... Turn the wheels in the direction of the skid. Don't set your brakes.

IF YOU ARE CAUGHT BY A LIGHT CHANGE ... At an intersection, continue at safe speed. Approaching an intersection, stop safely if you can. But don't slam on the brakes.

Elaine Sorenson Reports on State 4-H Health Camp

4-H Health Camp is held annually at Itasca Park, and the most outstanding boy or girl in health project work is chosen from each county to attend the camp. Classes are taught by University of Minnesota extension personnel and state 4-H leaders are in charge of other activities.

The Pennington county representative was Elaine Sorenson of the City View 4-H club. Her report follows:

—o—

The State 4-H health camp was held at the University of Minnesota Forestry and Biological station in Itasca State Park September 20 thru 23. There were 83 Minnesota 4-H'ers, all health achievement champions in their counties. I was chosen to represent Pennington county. We had three I.F.Y.E. students which came from Iran, Costa Rica and Mexico.

This is the seventh year that the camp has been sponsored by the University of Minnesota Agricultural Extension Service in cooperation with the Minnesota Tuberculosis and Health association and the Minnesota department of health. The Folger Coffee company provides the camp funds.

This year's state health achievement champion was Ronald Kelsey from Lewisville, Minnesota, Watonwan county.

I left Thief River Falls about 3:30 Sunday afternoon with the Roseau county agent, Bill Provance. There were three other girls along with him. When we arrived at camp we had a cookout, with smoked chicken as the main item. Our program that night consisted of getting acquainted and two talks. One was on "Am I My Brother's Keeper" by Glenn Prickett and the other "The History of Itasca State Park by Leonard Harkness. We closed our meeting with a marshmallow roast.

We were up with the sun the next morning at 6:45 sharp. Although when it came to the breakfast table, none of us appeared too sharp. We had morning assemblies every day with a lecture or two along with group singing. On Tuesday and Wednesday at 9:30 and 10:45 we had two workshop sessions. The four sessions attended were "Grooming for Good Health" by Mrs. Dorothy Berg, health education director for Minnesota's TB and Health association, "Do People Like You" by Charles Martin, family life specialist at the University of Minnesota. The other two were: "Home Sanitation for Healthful Living" by Myhren Peterson, supervisor, district sanitation activities, Minnesota department of health and "Teeth Are to Keep" by Dr. Wm. Jordan, chief, section of dental health, department of health.

On Tuesday things were going in full swing. That evening our banquet was held. The food was delicious, the entertainment was superb and so were the speakers. At the close of the evening we had our candlelighting service which was very beautiful.

Wednesday morning was a last minute hurry-up day. But through all the hustle of packing suitcases, getting addresses and autographs and taking pictures there was time for a few good-byes and sighs. I know I learned a lot from Health camp that I didn't know before which will be helpful to me in the future. The friends I made and met will not soon be forgotten. I am very glad that I was chosen to represent Pennington county and I am sure that next year's delegate will appreciate and enjoy it as much as I did.

Navy Sets Dec. 12 for NROTC Examinations

V. Adm. H. P. Smith, chief of naval personnel, announced today that the 14th annual national competitive examinations for the regular Naval Reserve Officers Training Corps will be given to eligible high school seniors and graduates on December 12. Application forms are now available and must be received before November 14.

Designed to supplement the officer output of the Naval Academy, the NROTC program makes it possible for a young man to earn a regular commission while studying at the civilian college of his choice which has an NROTC unit. All tuition, fees and books are furnished by the Navy, and the student goes on training cruises as a midshipman. After completing the usual four year college course, he is commissioned in the regular Navy or Marine Corps and goes on active duty as a prospective career officer with the Navy's fleets. For those who apply and qualify, immediate shipment to flight training will open new careers in naval aviation.

High school seniors and graduates who have reached the 17th anniversary of birth and have not reached the 21st anniversary on July 1, 1960, may apply for the NROTC test. Those who make a qualifying score will be given a rigid physical exam early in 1960. From the pool of qualified young men remaining in competition, approximately 1600 will be selected to begin their naval careers next September.

The NROTC college training program is also open to enlisted men on active duty with the Navy, and Marines. Separate quotas are established for applicants within these services.

Application forms are available at high schools, colleges and Navy recruiting stations.

Jury Awards $600 to Alvin Nordvick in Marshall Case

A verdict of $600 plus interest of $26.60 was awarded by the petit jury in Warren to the appellent, Alvin Nordvick, in the only action tried before a jury in the September term of district court in Marshall county.

Nordvick had appealed from the award of the commissioners in the condemnation of less than three acres of land needed by the state of Minnesota for highway right of way on T. H. 89. The jury award was identical to the award by the commissioner with interest added, said Edwin K. Rokke, clerk of district court.

Judge J. H. Sylvestre, Crookston, presided over the lone case requiring jury action.

Final Rites for Ole O. Bakke Set for Wednesday

Funeral services will be held Wednesday, Oct. 7, at 2 p.m. at the Nazareth church at Oklee for Ole O. Bakke, who died Thursday, Oct. 1, at the age of 81. Officiating at the rites will be Rev. Wilhelm Peterson, with interment to be in the Nazareth cemetery.

The body will lie in state at the Sinding-Gulbranson funeral home from tonight, Monday, until 11 a.m. Wednesday, and at the church one hour before time of services.

Mr. Bakke was born in Skjaak, Gudbrandsdalen, Norway, Oct. 7, 1877. He came to the United States in 1900 and settled in Fosston, then moved to Polk county, Johnson township, where he homesteaded until 1934, when he settled in Highlanding township. He was married in 1904 to Gena Audelid. He was a member of the school board in Johnson township and a long time member of the Nazareth church.

Surviving are one daughter, Mala, Mrs. W. N. Ydstie; three sons, Hans of Fergus Falls, Otto and John of Highlanding; one sister, Mrs. Guttorm Dalemo of Canada; one brother, Lars O. Bakke of Gonvick; two grandchildren and two great-grandchildren.

He was preceded in death by his wife, one son, six sisters and five brothers.

Thomas Senum Is Interred In Michigan

Thomas Senum of Pontiac, Mich., former resident of this city, died Thursday, Oct. 1, at his home at the age of 62.

Funeral services were held today, Monday, Oct. 5, at the Voorhees-Siple funeral chapel in Pontiac with Rev. Arvid Anderson officiating. Interment was in the White Chapel Memorial cemetery.

Mr. Senum was born Feb. 8, 1897, in Fosston, and also lived in Thief River Falls before moving to Pontiac, where he was employed by the General Motors Truck and Coach division. He was united in marriage Sept. 23, 1923, to Gladys Hagen in Minneapolis. He was a member of St. John's Lutheran church of Pontiac.

Survivors are his wife; three sisters and two brothers; Ole Senum of Minneapolis, Miss Ann Senum of San Francisco, Mrs. Harry Elzon of San Bruno, Calif., Gunder Senum of Thief River Falls, and Mrs. Martha Groven of Thief River Falls.

Lane Infant Is Interred Oct. 3

Dana Mark Lane, infant son of Mr. and Mrs. Russell Lane, died Friday, Oct. 2, five hours after birth, at Northwestern hospital.

Last rites were held Saturday, Oct. 3, at 2 p.m. at the Landstad cemetery with Rev. Marvin O. Carlson officiating. Sinding-Gulbranson Funeral Home was in charge of arrangements.

Surviving are the parents, grandparents, Mr. and Mrs. George Lindblom and Mr. and Mrs. Eckhard Lane of Thief River Falls. He was preceded in death by a baby sister.

Halvor Odellen Succumbs; Rites Set For Tuesday

Halvor Odellen, a lifelong resident of Thief River Falls and community, died Friday morning at Northwestern hospital at the age of 77.

Funeral services will be held Tuesday, Oct. 6, at 2:30 p.m. in the Green funeral chapel. Rev. Eldor Langager will officiate with interment to be in Greenwood cemetery. The body will lie in state at the Green funeral home from this evening, Monday, until the time of services Tuesday.

Mr. Odellen was born Aug. 26, 1882, in Sanders township, Pennington county, where he was baptized, confirmed, attended school and grew to manhood. In 1900 he moved to Thief River Falls, where he has since resided. He was united in marriage to Tillie Knutson at Grand Forks, Oct. 28, 1912, and they continued to make their home here. Mr. Odellen was employed by various stores as a sales clerk for many years.

Surviving are his wife, Tillie, one sister, Oline Odellen of Thief River Falls; seven cousins, Mrs. Henry Carlson, Mrs. Pete Mellem, Albert, Clarence, Henry and Otto Lappegaard, all of Thief River Falls; and Edwin Lappegaard of Illinois. He was preceded in death by one sister and one brother.

GROWING WITH YOUR CHILD

Institute of Child Welfare University of Minnesota

New Models Every So Often

This is the time of the year that the car dealers in town unveil the new models. We expect changes in design and color and performance, but we know that in time we will get more used to new styles and shapes, and we also know that next year will see a new model. Maybe it will be more to our liking.

Those of us who live with children learn to expect changes too. They may not be as drastic as those coming off Detroit assembly lines, but they do occur *regularly and, in time, our growing* youngsters are very different than they were. The changes in our children's behavior do not occur annually, but every so often, if we step back and take a good look, get out some old pictures, or recall some earlier episode, we see quite a "new model" before us.

Those of us who study the development of children call this process the developmental revision of habits. By this we mean that many of the earlier cruder ways of behaving which are typical of the younger child disappear almost entirely as a result of growth and experience. When a child creeps at nine months or uses "baby talk" at two years this does not mean that he will creep through life or say "dada" at 15.

It's easy to forget this, however, especially when we come face to face with annoying or unpleasant habits. We are quick to warn, "You better not do that when you're older," or "People won't stand for that when you're grown-up." The truth is, of course, that we are worried that this unkempt and slightly dirty ten-year-old will remain unkempt and slightly dirty at 18, and yet most parents of 18-year-olds can tell you that nothing could be farther from the truth.

Actually, change is basic to growth. It is true, of course, that changes may not always go in the direction we might have hoped they would, but we have our chances to direct some of these changes, too. The secret seems to be learning to trust in growth and change while guiding and directing the youngster toward the most proper goals.

The Navy's military sea transportation service was activated on Oct. 1, 1949, thereby combining the services of both Army and Navy transports ferrying troops and supplies throughout the world.

SECOND CHANCE

By Orlan Jones

"I HOPE you won't be mad about this," Grady said when Helen came to the door.

She was a wonderfully pretty wisp of a girl. And as she stepped out onto the porch, Grady made note of the fact that she looked especially good at seven-thirty in the morning.

"I didn't believe it," she said, "when mother told me Grady Yates was at the front door. Isn't this the day you were supposed to leave for the army?"

"Yeh. They made us all report down there at the Federal Building at six-thirty, and then when we got there they told us that we were on our own until ten o'clock on account of the train schedule is fouled up."

"Oh," she said.

"I coulda gone back home, I guess."

She looked up quickly. "I'm glad you came," she said.

Then they stood looking at each other for a minute. Finally, he spoke.

"How soon do you have to go to work?"

"Ten 'til. But I'm all ready."

Grady took off his coat and put it around her. He said, "Helen, I'm glad the trains were fouled up this morning. It's sorta like gettin' a second chance, I shouldn't have tried to go without saying anything to you."

"You didn't call or anything for two weeks."

"I know. I shouldn't have."

"Why did you, Grady? Why did you?" she asked.

"You were gettin' to mean too much to me. I knew I was goin' to be drafted. I just didn't want to let you get under my skin."

"You should have told me," she said.

He clutched her to him for just a brief second, and then he looked down at her and said, "I wasn't sure you felt the same way."

"You could have asked, silly."

Then he pushed her to the end of his arms, and his tone changed.

"Helen, I'm only nineteen. I'm leaving for the army today. I got no future that I know about. If I get back at all, I don't know what I'll do. I worked for Mr. Griffin at the Implement Company, but I didn't get to stay long enough to learn a trade."

"What are you trying to say?" she asked.

"It's just that I haven't got the right to ask you to marry me, or even to wait for me, I have nothin' to offer."

"Oh, Grady," she said, leaning against him again. "Do you think you have to ask me to wait?"

"Do you mean that?"

"Certainly."

"I haven't even got the price of an engagement ring. I can't make any promises."

"Don't talk about it now," she said. "We can work those things out in our letters."

Their kiss was warm and lingering. They clung to each other impetuously for many seconds and then they broke apart.

"I'll go on now," he said. "I don't want to make you late to work. It's better this way."

He looked back at her when he reached the street, and then he turned and walked briskly away. When he rounded the corner and was out of sight, he leaped up and hit the side of a building with his hand and said, "Hot dog."

Then he looked at his watch.

It was ten minutes to eight. Without a moment's hesitation, he broke into a run.

He didn't stop for four blocks. Then he raced up on the front porch of a large white house and knocked on the door. His watch showed five minutes to eight. When the door opened, he looked into the face of a beautiful young girl and said:

"I hope you won't be mad about this, Blanche."

Regents Asked to Set up Four-year Branch of 'U' at Crookston

Last year, 1,554 Minnesota residents attended colleges in North Dakota, while only 312 North Dakotans came to Minnesota for college. University of Minnesota regents were told today.

Herman Natwick, Ada, Minn., farmer, urged the regents to establish a four-year college at the *University Agricultural* school in Crookston.

He was one of several spokesmen for the Northwest Educational Improvement association. His group and another from Morris, Minn., outlined their needs for college facilities in western Minnesota.

To discourage the flock of Minnesota students attending North Dakota colleges Natwick said, the past two sessions of that state's legislature have doubled state college tuition rates for non-residents.

Marvin Campbell, Crookston, said that the nation's 90 agricultural schools of 1915 have dwindled to 37—and only nine of these continue as agricultural schools. The others have become colleges.

Four of the nine are in Minnesota.

"It is questionable," Campbell commented, "if the money spent (on these schools) is well spent."

C. P. Mickelson, Crookston superintendent of schools, told regents, "It's difficult to hire teachers for schools in an area without a college.

"The ball has been tossed to you as regents. This not a pork barrel type of thing . . . We ask you what can we do to help the university extend the facilities of the university to our part of the state?"

Regent A. J. Olson, Renville, introduced the Morris delegation by commenting, "We can't just let it (the Morris Agricultural school) stand and rot away, we've got to use it."

September Mercury Ranged from 24 to 85

The defrosting period for northwestern Minnesota has definitely ended for another year and freezing temperatures have returned.

The first below-freezing temperature of the year was recorded the evening of Sept. 14 when a 29 was recorded. It was followed the next night by a similar reading and by a 24 the night of Sept. 16.

Pointing out the sudden drop in temperatures, here is a comparison of average highs and lows for the past three months:

	High	Low
July	79.9	56.7
Aug.	79.6	56.6
Sept.	64.9	44.3

Looking backward to October, 1958, the average high for the month was 56.4 and the average low was 31.8. The total precipitation for the month last year was 1.84 inches. The high temperature was a 74 and the low was 23.

The warmest temperature during the past month was 85 recorded during the daylight hours of the 8th and the coldest was 24 the night of the 16th. Readings were in the 80's three days, in the 70's eight days, 10 days in the 60's, seven days in the 50's and two days in the 40's.

Here is a summary of the weather during September:

State Breweries Paid $36 Million in Taxes in 1958

Minnesota breweries paid a total of more than 36 million dollars in state and federal malt beverage taxes during 1958, reports the Minnesota Brewers' association.

Figures for the past year show that 3,991,628 barrels of beer and ale were produced by Minnesota breweries. This compares with a 1957 total of 3,764,277 barrels.

Federal taxes on Minnesota-made beer amounted to $33,830,000 in 1958. At the same time, the breweries paid an additional sum of $2,864,000 in taxes and various fees on distribution and sales of beer in the state of Minnesota for a total of $36,694,000 in taxes paid to the state and federal governments during 1958.

... turally, is American cheese. It accounts for more than two-thirds of the total cheese consumption, reports the National Dairy Council, in commenting on record breaking over-all consumption in 1958.

Roseau Rams Defeat TRF Prowlers Friday 25 to 12

The Roseau Rams held a slim 13 to 12 lead after three periods of rugged play in their Northwest conference football game with the Prowlers at Roseau on Friday night, but in the fourth period the conference-leading Rams erupted for two touchdowns to register a 25 to 12 win over coach Joe Mrkonich's locals. It was the third successive conference win for Roseau, and clinched at least a tie for the league title for the Rams. The Prowlers have a tie and a loss in their town conference tilts, with Bemidji and Crookston remaining on the schedule.

The Prowlers will celebrate Homecoming on Friday night when they play the Detroit Lakes Lakers on the Lincoln high field. Kickoff is slated for 8:00 P.M.

On Friday night at Roseau, the Prowlers won the toss and elected to receive, with the Rams electing to defend the south goal and getting the benefit of a crisp southwest breeze. Gary Klungness gathered in Don Ross' kickoff on the Prowler 15-yard line and sprinted to the Roseau 49-yard line before being shoved out of bounds. Pete Iverson hit right tackle for six yards; Klungness added a pair at tackle, and Steve Embury carried for a first down on the 35-yard line. A roll-out last ten yards, and after a pair of running plays had picked up ten yards, and incomplete pass on fourth down gave Roseau possession on their own 35-yard line.

Two running plays and a pass play, Dave Backlund to Larry Stordahl, gave the Rams a first down on the 49-yard line. Dave Peterson, on a reverse, gained two yards, and then Dick Roth sped out around left end for a 49-yard touchdown sprint. A lateral pass play, with Dave Peterson circling right end, gave the Rams the conversion point, and Roseau held a 7 to 0 lead.

Roseau, on a drive from their own 22-yard line, scored their second touchdown early in the second period, with Roth again sweeping out around left end for the TD, making a 12-yard scoring run. Roth's try for the point, on a run, failed.

The Prowlers bounced back with a four-first-down march that netted a six-pointer. From the Prowler 36-yard line, Klungness broke through center to the Roseau 29-yard line; Klungness on two plays carried to the 18-yard line. A 12-yard gain by Klungness then sliced through left tackle for the touchdown.

Midway through the third period, Jeff Haltje recovered a Roseau fumble on the Prowlers' 29-yard line, halting a Roseau scoring threat. The Prowlers, with fullback Iverson plunging the line for consistent gains moved, on three first downs, to the Roseau 3-yard line. Klungness carried the ball to the one-foot line, and then Steve Embury shoved over center for the touchdown. The try for the important conversion point was muffed on a fumble, and Roseau led, 13 to 12.

Recovering a Prowler fumble on the Rams' 37-yard line, Roseau unloosed a running attack that carried to the Prowler 20-yard line in five plays; and from the 29, Doug Vacura circled right end for a touchdown. The conversion attempt, on a pass, was incomplete.

The Rams secured an "insurance" touchdown a few moments later when, after Vacura, on a sweep of right end for forty yards, had moved the ball to the Prowler 4-yard line, fullback Merle Weilen high right tackle for a touchdown. The Rams failed to add the conversion point, a pass being incomplete, and Roseau held a 25 to 12 lead.

Change Is Made in Deer License Law

No Licenses to Be Issued After 1st Day of Season

No license to shoot deer will be issued this year after the first day of the regular rifle season which opens November 7, County Auditor C. W. Rodekuhr announced after receiving instructions from Larry Brown, license supervisor with the Minnesota department of conservation.

Brown stated that the law, which formerly provided that licenses could be issued until the third day of the season, was amended by the state legislature in its 1959 session.

All license agents will be required in the future to return stubs and unsold license blanks to the county auditor on the second day of the season.

Tunberg Shows '60 Ford, Falcon Oct. 8

New Falcon to Compete in Small Car Market

The 1960 line of Ford cars, including the new smaller Falcon, will go on display Thursday, October 8, in the showrooms of the Tunberg Motor Company.

The keynote of the Falcon will be economy of operation and maintenance, and smaller exterior dimensions with ruggedness, "big-car" roadability and passenger space comparable to that of standard cars.

Its wheelbase is 8½ inches shorter and its over-all length 27 inches shorter than a 1959 Fairlane, yet it is a full six-passenger car with interior roominess approximating that of standard models.

J. O. Wright, Ford division general manager, said the 1960 line was redesigned from bumper to bumper because "we wanted to increase passenger space and comfort and improve the roadability and handling ease and performance."

"One of the most important features of the new Ford," Mr. Wright said, "is that there is substantially more hip room, shoulder room, leg room and head room than there was in the 1959 model."

The 1960 Ford line includes 15 models. At the low end of the line is the Fairlane series, which includes a two- and four-door sedan and a business Tudor. In the Fairlane 500 series are two models, a two- and four-door sedan. The popular Galaxie series, with its own Thunderbird-styled roof, includes a two- and four-door sedan, plus a four-door hardtop called the Town Victoria.

Northrop Indians Score 2d Victory; Defeat Knox 32 to 0

Coach Phil Beadle's Team Scores Five Touchdowns in Game Last Wednesday

Grade School Football League

	W.	L.	Pct.
Northrop	2	0	1.000
Knox	0	1	.000
Washington	0	1	.000

Results of last week's game:
Northrop 32, vs. Knox, 0.
This week's schedule:
Wednesday, Oct. 7—
Knox vs. Washington

Coach Phil Beadle's powerful Northrop Indians racked up their second successive win in grade school league football play when on the Lincoln high school field, they defeated Roger Dorn's Knox Tigers, 32 to 0, on Wednesday afternoon. Northrop holds a commanding lead in the league standings, and will have an open date this week as coach George Schlieff's Washington eleven takes on the Knox squad at the Lincoln field Wednesday.

In Wednesday's game, Knox received the game-opening kickoff and moved the ball to the Northrop 20-yard line on a series of play that garnered a pair of first downs. The Indians, with Dennis Hanson and Jeff Noel playing strong defensive games, held for downs and gained possession of the ball.

The first touchdown came in the opening minutes of the second period when Northrop quarterback, Tom Cummings, from the Indian's 40-yard line, shook off a pair of tacklers and crossed the north goal-line for a TD. Moments later, Cummings, pulling in a Knox kick in midfield, sprinted along the east side-lines for a touchdown. Bill Weigelt added the point on a plunge, and Northrop held a 13 to 0 first half lead.

In the third period, Northrop notched a touchdown when fullback John Olson slanted off tackle for a ten-yard scoring run.

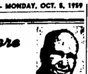
In the fourth period, Northrop uncorked the game's most exciting play when Weigelt tossed a short pass to Hanson. Hanson picked up good yardage as he came upfield, and just as he was about to be tackled he flipped a lateral pass to Olson, who continued on for a touchdown. The play covered sixty yards. Weigelt added the conversion, and the Indians held a 26 to 0 lead.

A recovered fumble gave the Northrop Indians the opportunity to tally their final touchdown, with fullback Olson scoring on a ten-yard run.

The Knox Tigers made a bid to mark up a score in the final minutes of play when quarterback Phil Kankel put together a pair of ten-yard runs, but game-time expired before the Tigers could score.

Washington will play Knox in this week's Wednesday afternoon grade school game.

Pipeline Company Plans Expansion



International Pipe Line Company will make capital expenditures in 1960 amounting to approximately $9,300,000, R. E. Trammell, general manager, announced today. Plans call for the construction of four new pumping stations, two in Canada and two in the United States, as well as installation of additional horsepower at several of the existing stations.

At least three of the new pump stations will be electrically remotely controlled, generally similar to those built by the firm in recent years.

All construction work is expected to start next spring and to be completed by the end of 1960 to provide additional pipe line capacity to meet the estimated 1961 crude oil demand. Funds for the work will be derived from the company's cash resources.

Fire claimed an average of 11,602 lives each year during the past eight years. Estimated fire fatalities in that period reached a high of 12,100 in 1954 and a low of 10,000 in 1956.

Keeping Score with "Huck" Olson

The Conference Champions

We hope that we are one of the first to congratulate coach Ray Kavanaugh and his Roseau Rams on winning the Northwest conference football championship. It's true that the Rams have one conference game remaining, that being contest with the dangerous East Grand Forks Green Wave, and which will be played at Grand Forks. Even though the Rams should lose that tilt, and it's not likely, Roseau would have a three wins and one loss mark. That's the best that Bemidji can do if the Jacks win their remaining conference games.

We doubt if the East Grand Forks team, with its attack centered on the fullback rushes of Lowell Innes, will be successful against the veteran Roseau line. With Don Ross at center, Keith Brandt and Kenny Rygh at the guards, and Bert Waag and Al Carlson at the tackles, the Rams have splendid interior line strength. And Larry Stordahl and Dennis Andol are a pair of sturdy flankmen who are difficult to turn.

The Prowlers turned in a creditable performance against the favored Rams on Friday night and, excepting the long gainers when Dick Roth and Doug Vacura came out around the ends, the game could have ended in a draw. On first downs, Roseau held a slight edge, having seventeen first downs to the Prowlers fourteen.

The Rams did have a marked advantage by passing, completing six of nine attempts, and one interception. The Prowlers, in seven tries, had two completions and one interception. The Roseau quarterback, Dave Backland, a southpaw, was particularly effective in finding his left end, Larry Stordahl, as a target. Stordahl, and all-state hockey tournament selection last season, pulled in three of Backlund's tosses.

It Will Be Interesting

On Tuesday night, with the kickoff slated for 7:30 P.M., the Roseau Rams 'B' team will play coach Chuck Decoursey's Prowler 'B' team on the Lincoln high field.

The game should be exciting and interesting, and it should give an indication of Roseau's varsity football prospects for next season. The Rams, through graduation, will lose such backfielders as Dick Roth, Merle Weilen, Doug Vacura, and John Wahlberg, and such linemen as Don Ross, Larry Stordahl, Bert Waag, Keith Brandt, Gerry Hovda, Kenny Rygh, and others. A major rebuilding process will be facing coach Ray Kavanagh and assistant coach Frank Macioch next season.

And while it will be interesting to watch the Roseau prospects in action it will be more interesting to watch the future Prowlers' play. There are some good ones coming up. That Prowler 'B' team backfield with Johnny Aune at quarterback, Don Nicholson at left halfback (and is he the image of his older brother Lynn!), Paul Klungness (Gary's kid brother) at right halfback, and hard-running Jim Weckwerth at fullback could become a dandy. And watch rangy Elton Hornseth at the tackle position. He may develop into another Earl (Beast) Bessler, and in Prowler football annals he was one of the best tackles.

A Prediction

We don't have to be tinged with genius to predict that the Walker high school golf team will be a factor in district 29 and Region Eight play the next four years.

The Walker trio that played here last week, in the regional tournament, was composed of Ed and Ray Sauer (twins), and Joe Aitken. The Sauers are eighth graders, and Aitken is a seventh grader.

In the regional competition, Ed Sauer shot a 40-38 to win the medal honors. Ray Sauer came in with a 41-43, while Aitken posted a 48-42. The team posted a fine 252-stroke total, just five strokes off the 247 low score posted by Jack Boyer's Prowlers. Remember those names, Ed and Ray Sauer, and Joe Aitken.

Prowler Golf Team Wins Region Title

Walker Team Runnerup in Tourney Here Thursday

Coach Jack Boyer's Prowler golf squad—Rollin Solheim, Ron Kvikstad, and Curt Johnson—posted a total of 247 to win the Region Eight golf team title in the tournament played over the local course on Thursday. The Walker team of Ed and Ray Sauer and Joe Aitken, the district 29 representatives, gained runner-up honors with a 252. The Mahnomen squad from district 30, scored a 295 for third place. The Roseau Rams, winners of the district 32 title, and with five golfers eligible for the regional tourney, did not participate in the tournament.

In the individual medal play competition, Walker's young Ed Sauer, an eighth grader, won the low medal, having a 40-38 for a 78. The Prowlers' Solheim was second, with a 79; while Douglas Bakke of Karlstad notched an 80 for the third place medal.

Five golfers gained berths in the state high school golf tournament to be played in Minneapolis. Ed Sauer, Walker, 78; Rollin Solheim, TRF, 79; Douglas Bakke, Karlstad, 80; John Griffin, Bemidji, 81; and Don Kvikstad, TRF, 81.

Water Safety Is Big State Problem

Governor Reports 103 Drownings This Summer

Gov. Orville Freeman said Wednesday night that water safety is "fast becoming as major a safety problem in Minnesota as highway traffic safety."

The governor spoke at a water safety banquet in Wayzata honoring the Lake Minnetonka water safety patrol. He said drownings for June, July and August totaled 103 as compared with 143 traffic fatalities for the same summer months.

Of the 125 drowning deaths recorded as of Sept. 15, Freeman said, swimming with 52 deaths is the most hazardous water activity while boating with 35 deaths is second. Child play in or near water claimed 20 lives. The remainder came from falls from docks, banks or through the ice, skin diving and other miscellaneous causes.

The governor said that of the 35 boating fatalities 18 are related to motor boat accidents and the rest from other boating. Water skiing accounted for eight motorboat accidents in which seven persons were killed.

Some 45 years ago there were about three million automobiles. In 1959 there were an estimated 57 million. There is one car for every 8.4 persons — or one for each family in the U.S. World motor vehicle registration is estimated at 108 million.

Duck and Goose Hunt to Start Wednesday

The 1959 duck and goose hunting season will open on Wednesday, Oct. 7, at 12 o'clock noon. The season will continue through Wednesday, Nov. 24, on ducks, and until Tuesday, Dec. 15, on geese.

The migratory bird regulations specify that it is unlawful for any person who has attained the age of sixteen (16) years of age to take a migratory waterfowl without having on his person an unexpired Migratory Bird Hunting Stamp validated by writing his signature in ink across the face of it. These stamps, which cost three dollars, may be purchased at post offices and at points convenient to waterfowl centers. In addition, the hunter must have a Minnesota small game hunting license.

The use of automatic loading or repeating shotguns capable of holding more than three shells is prohibited. Plugs in such shotguns must be incapable of being removed without disassembling the gun.

It is unlawful to place decoys or erect blinds in public waters more than one hour before the open season for waterfowl, or to place decoys in any public waters more than one hour before sunrise or to reserve or preempt a shooting location in public waters, or to so attempt, by the device of leaving decoys, or a boat, unattended in public waters between sunset and one hour before sunrise.

The daily bag for ducks is three per day and six possession; and this daily bag limit and possession limit on ducks may include not more than one canvasback, or one redhead, or one ruddy duck, or one wood duck. The goose limit, which is five per day and five in possession, restricts the limit to not more than two Canada geese or its subspecies, or two white-fronted geese, or one of each.

According to the reports from this area, there are concentrations of ducks on Mud lake and Thief lake, with mallards being the predominant species, and the vast Roseau bog area is reported to be receiving an influx of flight ducks from Manitoba. With colder weather being forecast, the prospects for the opening week-end of hunting are rated as good.

Bemidji College Sets Homecoming

Mankato College to Be Football Foe Saturday

Plans for a gigantic Bemidji State college homecoming for alumni has been planned for Saturday, Oct. 10, with an open house and smorgasbord highlighting the affair according to Alden Kittleson, alumni president.

Kittleson and his committee are planning to welcome more than a thousand old grads back to the campus starting at noon October 10 when a coffee hour will be held at Birch Hall.

Students have shown promise of organizing the best homecoming parade in the history of the college for 1:30 p.m. and the headliner of the day will be Mankato Indian-Beaver football game scheduled for 3 p.m.

After the game alumni will be guests at an open house at Birch Hall and local alumni will be glad to take their visiting former classmates on a tour of the growing campus.

Alumni business will be discussed at a meeting following the smorgasbord at the American Legion club rooms from 6 p.m. to 8 p.m. This will be followed by the annual homecoming dance at 9 p.m. at the college gymnasium.

Alumni who have not been contacted by the association are urged by Kittleson to make reservation by contacting the college field service office.

Pharmacy Week Being Observed

The week of October 4-10 has been proclaimed Pharmacy Week throughout the state by Governor Orville L. Freeman. These dates coincide with National Pharmacy Week, sponsored by the American Pharmaceutical Association.

"I urge all residents to observe during this week the vital role of the pharmacist, upon whose skill and training the health and well-being of us all so largely depends," the Governor's proclamation said.

GRANDMOTHER to many high producing cows in Northwestern Minnesota is Amrelle Julia Baroness of the Trappist Monastery herd in Manitoba. Now in her sixteenth year and still in production, she has a record that is truly great. As a 2-year old she produced 656 pounds of fat; as a 3-year old 759 pounds; as 5-year old 896 pounds; at 6, 833 pounds and at 7, 826 pounds. The blood of this great cow figures prominently in the background of some of the animals being offered in the "Top of the Nation" dairy sale to be held here October 15. Some are carrying the services of her grandson and many are bred to the son of a full sister.

Her own dam had a record of more than 1,000 pounds of fat.

Unit Makes Study of Highway Dept.

Legislative Commission Making Investigation

The legislative commission on highways last week in St. Paul began its inquiry into department organization with a review of recent changes by Deputy Commissioner Frank Marzitelli. Since 1956, the deputy stated, the department has been reorganized into four major divisions: programming, engineering, administration, and safety. Decentralization of these functions with a broader delegation of responsibility is the objective, according to Mr. Marzitelli.

Budgetary control was pursued by commission members and the department reported that presently, although the legislature does not budget and currently appropriate for the department, the commissioner of administration has control and veto power over the highway budget.

Inquiries into employee morale indicated that future meetings may delve further into this problem. The members expressed concern over the reasons for the resignation of Clinton H. Burnes as chief of programming and planning, and also the procedure followed in hiring Eugene B. Smith as head of administration services.

In 1958, production per cow hit an all time high, even though cow population dropped to a record low of 19.8 million head. National Dairy Council reports dairy herds are smaller than at any time during the last 30 years.

UND Enrollment to Hit New Peak

Enrollment at the University of North Dakota has passed the 3,800 mark and is headed for an all-time record, according to Miss Ruby McKenzie, registrar.

Figures through Sept. 26 showed a total of 3,817 sudents registered, represcenting a rise of 104 over the 3,713 enrolled at the same time a year ago. Registration at UND continues this week and the total enrollment will be "well above" last year's figure, Miss McKenzie said. The final total for the first semester of 1958-59 was 3,832, an all-time UND record. The percentage of women in the total enrollment has increased this year. Of the 3,817 students registered at this point, 2,727 are men and 1,090 are women.

Thirty Years of Progress

Now that Nina and Nikita are safely back home and among friends, and there appears to be no imminent danger of global catastrophe that will demand our personal attention, we are going to depart from the scene of this generation's problems for a few weeks to take a look at a part of the past that is going to get considerable attention hereabouts as the community celebrates "Thirty Years of Progress."

Just why this 30 years of progress is a good question. Why not 20 years, or 40 or ten? Is any special period of time needed to justify a fall celebration? Maybe not.

A fall celebration is always in order, and especially so when the summer has been good. This is the season of the end of the harvest, and the harvest, this year, has been above average. We have had better years. But we have had years too, when the results have not been nearly so favorable. This year, averaging things out, our area has reason to be thankful, and cheerful.

We have been cautioned about the danger of looking back. Those who look back, we have it on good authority, are turned into pillars of salt. And that probably serves them right, especially those who insist on living in the past. The forward look is necessary to progress.

In self-defense, therefore, may we say that we are not looking back with the intention of living again in the past. We would not be like the Wak Wak bird that flies backwards because he does not care where he is going and his sole interest is in seeing where he has been. But looking back now and then does have its good points, mainly because the past is a very dependable guide in helping us direct our future course. So it is in this spirit that we are going to take a look-see at what was going on hereabouts that made this 30-years deal so important.

Thirty years takes us back to the '20's, a decade of bank failures and mortgage foreclosures that many old-timers would just as soon forget.

The '20's were rough on the people of northwestern Minnesota, and on most other areas of the country in which agriculture was the main source of income. In these farming communities the market values of farm products had continued fairly high after the end of World War I. They started tumbling at a disastrous rate in the late months of 1920.

The big drop in the market value of farm products found most farmers heavily in debt. There had been much buying of land at inflated prices. The home farm had been mortgaged to raise the down-payment on the adjoining quarter. There had been heavy borrowing for improvements and machinery. As crops lost value farmers were unable to meet their obligations. Farmers, businessmen, bankers, with few exceptions everybody, lost.

The '20's were tragic, and turbulent. Now, 30 years later, we can look back and view the tragedy of the decade objectively, and when we examine the records in this spirit, we can derive considerable satisfaction from the fact that, as a community, and as an area, we have survived, and made progress.

From the depths of discouragement and despair of the tragic '20's, as a community we have recovered and moved forward. The facts are interesting and certainly they justify a community-wide and an area-wide celebration of 30 years of recovery and progress.

Thief River Falls was a confident community in 1920. The city itself was prosperous. During 1919 the Commercial Club had backed a paving project for the business section of the city. All agreed that paving was a must and when the snow melted that spring in 1920 the plans for an extensive paving program were well advanced.

At a public hearing called by the council there had been some objections as to the advisability of letting so extensive a program at one time. There were doubts as to the wisdom of paving immediately after the streets had been torn up by the storm sewer construction and the making of so many sewer and water connections. The doubters were outnumbered, however, and the council decided to call for bids, to be opened May 4. The decision whether to pave or not to pave would depend on the cost.

On May 4 the bids were opened and the paving contract was awarded tentatively to a Canadian bidder. According to the Times there were no objectors present.

There was some question as to whether a bond issue, to be paid by direct assessments, would have to be approved by the voters of the city. A group of five property owners asked for a court decision and were granted a temporary restraining order on the letting of the contract. At that time another similar case was pending in the Supreme Court and Judge Grindeland delayed his opinion until the Supreme Court handed down a decision. But when the Supreme Court made its decision it limited its findings to cities that were governed by home rule charters. The July 15 issue of the Times reported that Judge Grindeland had set aside the temporary restraining order, thus permitting the city to proceed with the paving.

The next hurdle was the problem of selling the bonds. What would the bond buyers' attitude be on an issue not approved by the voters. H. A. Brumund, president of the Council, and H. O. Chommie, city attorney, journeyed to St. Paul to confer with brokers on this point. There was further delay, but on September 2, another Supreme Court decision was handed down that seemed to remove all doubt about the legality of such an issue.

But then the company that had agreed to buy the city's certificates of indebtedness in the sum of $300,000, changed its mind. The Council decided it was too late to start the project at that late date and further action was put off for the time being. There was more wrangling throughout the winter and spring. By that time another factor had to be taken into consideration, the slump in the market value of farm products and the depression that was being felt throughout the area. More property owners in the proposed paving district lost interest in the development, and the opposition gathered strength.

There were more appeals and more court decisions, but the project finally got under way late in the summer of 1921. Some revisions in the original plans were ordered. The streets were made narrower on North Main, South LaBree and South Horace. But the job was completed that fall and the first block of the new pavement to be completed, on Main between 5th and 6th, was tested by a mass demonstration in October. Mayor John Bratrud told the assembled citizens that Thief River Falls would be a city of 10,000 population by 1925, as the Times reported it, and everyone seemed to be happy.

The council was vindicated at the city election just a few days later. All of the members, including the mayor, were re-elected by big majorities.

And so Thief River Falls became a city of paved streets, a great improvement to the business section. The cost to the property owners was $411.26 for a 25 ft. lot on the wide streets. On the narrower streets the cost was as low as $218.69 for 25 feet, not a great burden in terms of our present dollars but a heavy extra load at that time. The city's share of the total cost was $52,000.

In terms of the long range interests of the city and the community, the paving of the business section probably was good. The pavement undoubtedly was a factor in the recovery of the city and the development that came in the late years of the '20's. But the pavement, which cost $261,305, was also one of the straws that broke the backs of a few good citizens who were unable to pay their taxes and special assessments and so lost their property.

Those of us who have survived have benefited by the sacrifice of those for whom the burden became too heavy.

Next: In 1920 Pennington county had ten banks.

For several weeks headlines in our daily newspapers and programs on radio and TV have featured the visit of the Russian dictator to our country. At a time when attention has been thus focused on the problem of world affairs it is perhaps in order to give some special attention to the United States as an organization that was officially set up to further peace and international cooperation.

U. S. Leadership

The United Nations was created at the end of World War II under bipartisan American leadership. It is one of the avenues through which we carry out our foreign policy. As such it is of importance to all Americans.

United Nations Day

This week United Nations Day is being observed throughout the nation, primarily for the purpose of developing among the American people a clearer understanding of what the United Nations is and what the United States is helping to accomplish through the U.N. Its activities, and those of the many related specialized agencies, usually get public attention only when something startling or dramatic or controversial is concerned. Constructive, day by day achievements are not widely publicized.

World Health

Last year, when the assembly of the World Health Organization met in Minnesota, we learned a little of the work of one of the specialized agencies. As a result of WHO's activities several major diseases, including malaria and tuberculosis are in retreat throughout the world, and we all have better protection from epidemics than ever before. Standards for drugs and therapeutic materials have been established. Health statistics are now more accurate.

The United States contributes about one third of the budget of the World Health Organization, a sum that amounts to about two cents a year per capita. Problems relating to health and disease are so universal that the United States is now considering an expanded program for international cooperation in research to combat major illnesses such as heart disease and cancer.

Food

Another specialized agency in which the United States has a deep interest is the Food and Agriculture Organization. Many of us hope that through international cooperation we can work out a sound and effective program whereby America's great supply of food can be used where it is most needed as a weapon for peace, and under which American farmers can be better off than ever before.

Science and the Arts

International cooperation in scientific research is likewise promoted by United Nations agencies. Efforts are made to preserve the great artistic treasures of the world. A universal copyright convention has been ratified. Refugees are given new homes, new hope and new opportunity.

Toward Peace

All of these efforts are directed toward international good will and understanding. They all contribute to an atmosphere that will further the cause of peace. Within the United Nations Assembly and the Security Council international disputes that could lead to war are discussed, and measures are sought to produce a peaceful solution.

During the past few weeks we have heard repeated comments to the effect that it is better to talk than to fight. Certainly this testified to the value of a world-wide forum, such as the United Nations, where representatives of disputing nations can publicly press their claims.

REAL EFFICIENCY IN 1900

Real progress was made in 1880 when the first check wire planter was introduced. With the check-wire, one man was eliminated on the planter and more accurate spacing was possible. This type of complanter came into general use in the 1890's and 1900's.

Good farmers took pride in planting straight rows and in obtaining a perfect "check" for cross-cultivation and neighbors passing along the road always cast a critical eye at the fields to see if their friends got "a good check."

Tractor drawn two-row and four-row planters replaced the horsedrawn models in the early 1940's.

Presenting the Magnificent Nineteen-Sixty Cadillac

THE FLEETWOOD SIXTY SPECIAL

Creating a New Era of Elegance!

The motor cars represented here will soon introduce a new era of elegance to the world's highways.

They are the Cadillac cars of 1960—and, from every standpoint, they represent the Cadillac tradition in its finest hour.

In appearance, they are regal and majestic as never before—a brilliant symphony of line and contour from the sparkling new front grille to the graceful flow of the rear fenders.

In interior decor, they are truly magnificent—featuring luxurious new fabrics and leathers—new convenience and excellence of appointments.

And in the way they drive and handle, they are perfection on wheels. There is a greatly refined engine and transmission that provide even finer performance . . . a ride of unbelievable smoothness and quiet . . . and notable advancements in power steering and braking.

These new Cadillac virtues have been interpreted in thirteen distinctive body styles. Every motorist owes himself an hour at the wheel.

The 1960 Cadillac is waiting for you now at your authorized Cadillac dealer's—and your dealer himself is waiting to introduce you to this magnificent new Standard of the World!

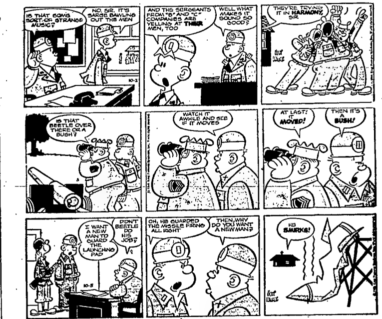
MOON SHOT . . . A Finnish observatory photo shows the moon at the exact instant the Russian rocket hit its surface, Sept. 13.

An insight into the rising role of research and development as a driving force in the American economy is provided by the U.S. Department of Commerce in an analysis of a large number of industries and products and their growth performance over recent years.

The study tabulates about 300 items, many of which are either new products or improved versions of older ones. More than half of the products listed by the Commerce Department show a rate of growth greater than the economy's long-term expansion trend, with gains in a number of cases running to 40 per cent or more annually. Prominent among the fast growers are drugs and chemicals, electronic products, air travel and aluminum.

Behind this record of achievement is the great increase in research and development spending in recent years, particularly by private industry. The growth here has been especially pronounced in the last few years, and total research expenditures, Government and private combined, are now estimated at $10 billions or more a year, over three times the comparable figure at the beginning of the current decade.



The growth of research and development expenditures likewise points up the problem of the adequacy of personal savings in relation to the capital investment needs of an expanding economy. Research and development spending has a double impact on the capital market, through increased capital budgets for such outlays and in enlarged plant and equipment expenditures as new products are developed or old ones are improved. As a result, rising research outlays have contributed significantly to the pressure on the capital market and on the people's-thrift institutions for capital and investment funds.

Figures published show how research and development spending has expanded in the postwar period. The total of public and private expenditures of this type added up to $1½ billions, and by 1957 had jumped to $8.2 billions. Particularly significant in this record is the accelerated growth of research and development spending by private industry in the last few years, with the total exceeding the Government's outlay in this field for the first time in 1956 and widening the margin in 1957.

One of the major results of the trend has been a marked increase in job opportunities in the scientific and technical fields, in production as well as laboratory.

Mr. and Mrs. Ervin Engevik and Kathy, Diane Engevik and Naomi and Mary Engevik were Thief River Falls visitors Thursday. Mrs. Engevik consulted a doctor.

Mrs. Olaf Aune and children visited at the Floyd Jesme home at Thief Lake Tuesday evening. Mavis Aune remained at the Jesme home while Floyd is employed at Halma.

Mrs. Bennie Hanson of Middle River and Mrs. John Loven visited at the Mrs. Effie Scramstad home Wednesday evening.

David Nelson visited last week end with Mrs. Nelson and Deanne in Thief River Falls.

The pupils of the Gatzke school had their pictures taken Tuesday morning.

Mr. and Mrs. Roy Anderson and children and Mrs. Ida Anderson were business callers in Crookston Tuesday.

Mr. and Mrs. Dwayne Nelson visited Tuesday evening at the Elvon Hamilton home and made the acquaintance of little Evon Lee.

Monday evening visitors at the Robert Olson home at Holt were Mr. and Mrs. Curtiss Thompson and Robbin and Joe Larson.

Mr. and Mrs. Ervin Engevik and Mrs. Elena Skoglund attended funeral services for Mrs. Engevik's aunt, Mrs. Clarence Boardson, at Warren Monday afternoon. Enroute there, they visited Mr. and Mrs. Joe Weber, Sr. at Newfolden.

Tuesday evening, Mr. and Mrs. Curtiss Thompson and Robbin visited at the Campbell Thompson home at Greenbush. They were accompanied home by Junice Thompson, who will assist at the Thompson home for a few weeks.

Anita Aase Honored with Prenuptial Shower

Anita Aase was the honored guest at a prenuptial shower held in the church basement Friday evening. Hostesses were Mrs. Martin Abrahamson, Mrs. Pauline Dahl and Janet and Mrs. Aksel Gormsen. The ladies enjoyed various games and contests and Mrs. Duane Thompson sang, "A Happy Home." After viewing all the lovely and useful gifts, Anita responded with thanks. Table grace was sung and a pot luck lunch was served. Those from a distance attending were Mrs. Dan Greene and Susan, Mrs. Amond Aase and Mrs. Amos Aase from Thief River Falls, Mrs. Nels Nelson, Mrs. Ervin Peterson, Mr. and Mrs. Ernest Berg and Earl, Mrs. Hjalmer Hanson, Mr. and Mrs. Art Berg and Arlene, Mrs. Effie Scramstad and Jean Ann and Mrs. Floyd Jesme and Debbie.

Wednesday evening, Mr. and Mrs. Curtis Thompson and Robbin and Mr. and Mrs. Clarence Skyberg were visitors at the Floyd Nelson home at Newfolden. Mr. and Mrs. Curtiss Thompson were sponsors at the baptism of Randy Clarence Nelson.

DISPLAYING CONTINUING INTEREST in Masonic Memorial Hospital on the University of Minnesota campus, Masons of Minnesota recently, among other gifts, donated this electrocardiogram machine to the institution. Shown here discussing the progress of the hospital, which celebrates its first anniversary this month, are, from left, Dr. B. J. Questions Answered on Savings Bonds

The savings bond division of the U. S. Treasury department supplies the following answers to questions concerning the effect of recent legislation on old and new Series E Savings bonds:

Q—What rate of interest do the new Series E bonds pay?

A—They pay 3¾%, compounded semi-annually, if held to maturity.

Q—When did they start paying this new rate?

A—Although the bill has just been passed by congress and signed by the President, it was made retroactive to June 1, 1959. This means all savings bonds purchased since June 1 earn the new 3¾% rate.

Q—What needs to be done with Series E bonds purchased since June 1, 1959, which show the old rate, in order to receive the increase?

A—Nothing. They will automatically carry the new rate.

Q—How long does it take the new Series E bonds to mature?

A—They mature in 7 years 9 months. You still pay $75 for the new $100 bond, but it matures 1 year 2 months earlier than the old 3¼% bonds.

Q—Will these bonds be extended so they can be held beyond maturity?

A—Yes. A 10-year extension will be provided. Interest rate and other terms will be announced as the bonds approach maturity.

Q—Were any of the basic features of the Series E bond changed?

A—No. All the other basic features remained unchanged. For example (1) Any investor, other than commercial banks, can purchase an annual limit (maturity value) of $10,000. There is no limit on Series E bonds obtained in exchange for matured Series F and G savings bonds. (2) Series E bonds can be cashed any time after two months from issue date. (3) If lost, stolen or destroyed, they will be replaced free of charge by the Treasury department with bonds bearing the original issue dates.

The Old Series E Bonds

Q—Was anything done to increase the earnings on the old Series E bonds?

A—Yes. All Series E bonds which have not been cashed will earn at least ½ of 1 per cent more interest starting with the first interest accrual period on or afer June 1, 1959, if held to full maturity. All Series E bonds now earning 3% or 3¼% will be increased ½ of 1% and those earning 2 9/10% will be increased 6/10 of 1%, if held to full maturity.

Q—Will the Series E bonds purchased in 1941, which mature for the second time in 1961, be extended again; and if so, what rate will they pay?

A—All Series E bonds issued from May 1941 through 1949 will carry a second 10-year extension. The rate of interest and other terms of the extension will be announced later.

Q—Would it be advantageous to me to cash my old bonds and reinvest in new ones?

A—Generally, no. In a majority of cases, teh interest accumulation from now until they mature is equal to or greater than the average percentage paid on the new Series E bonds. For example: Suppose you have a $100 Series E bond issued June 1, 1952. This bond was seven years old on June 1, 1959, and will mature in 2 years and 8 months. During the first seven years the interest accumulated amounted to $15.60 for an average yield of 2.72 per cent. During the last 2 years months it will accumulate $10.72 in interest for an average yield of 4.24%.

Q—I was in the Army during the Korea War, and have just recently been discharged. What is my deadline for starting training under the Korean GI Bill?

A—You must begin your training within three years from the date of your discharge or separation.

Q—Who is supposed to apply for War Orphans schooling, the prospective student or his living parent?

A—If the prospective student is under legal age, his parent or guardian must apply in his behalf. If he is of age, and has no known legal disability, he may apply on his own.

Q—I will be taking on-the-job training under the Korean GI Bill this fall. Is there any limit on my training wages?

A—There is no limit on how much you may earn. However, when your earnings plus your GI allowance exceed $310 a month, VA is required by law to scale down your training allowance to bring the total within the $310 ceiling.

Q—A friend of mine tells me that on his private company life insurance policy changing beneficiaries may require the consent of a person already named as beneficiary. Is that necessary with GI insurance?

A—No. If you wish to change the beneficiaries of your GI insurance policy, the present beneficiaries need not be notified.

Storing Vegetables

If you have proper storage conditions, you can assure yourself a winter supply of garden produce — in addition to what you have frozen or canned.

• • •

Mature vegetables and fruits are still alive after they're harvested. To keep them living as long as possible, regulate the temperature and humidity in the room where they're stored. By doing so you will slow down the growth processes and maintain the edible quality of the stored products.

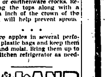
• • •

Many of our garden products like apples, carrots, beets, rutabagas and potatoes require moist, cool conditions for storage. These may be placed in a room built in a corner of the basement where the temperature can be kept between 32 and 40 degrees F. A ventilator shaft connected to a window will provide ample ventilation and proper room temperature.

• • •

Onions require cool, dry conditions. They may be stored in mesh bags and hung from the ceiling of the storage room where the air is dry but cool.

• • •



Store pumpkins and squash in a warm, dry place such as a furnace room. Cure them first, however, by keeping them at 85-90 degrees F., for a few weeks to harden the shell.

• • •

The secret to successful carrot storage is a temperature of 32-40 degrees F. Clean the roots and dry them before placing them in boxes or earthenware crocks. Removing the tops along with a fourth inch of the crown of the carrot will help prevent sprouting.

• • •

Place apples in several perforated plastic bags and keep them cool and moist. Bring them up to the kitchen refrigerator as needed.

Soil testing—like you can do this fall — is good fertilizer investment insurance, in the view of many farmers. Charles Witte, 12 miles west of Duluth, tested his soil to help find the answer to lower crop yields, poor milk production. Then he put on fertilizer and lime, using test results as a guide. He's no longer short on hay or silage; instead, he needs more room to store his hay and needs more cattle to eat it, according to Richard Herman, South St. Louis county agent.

• • •

The Soil Bank gives farmers a real "in" for establishing windbreaks. In Sherburne county, four soil conservation district cooperators—Clarion Olsen, S. M. Burnap, Keith Cox and Jack Benson —have planted about 30 miles of windbreaks. Half of the trees are already in the ground, according to Henry Wilson, SCS technician in the county.

• • •

How does a new freeway affect soil conservation and land use? A new "Highway 35 Farm Committee" in Chisago county soil and water conservation district is coming to grips with that question. What the committee plans to do: encourage farmers to plan ahead to reduce their drainage and water disposal problems once the freeway is built. And they advise farmers to contact highway engineers before doing any new building.

• • •

Cutting oats for silage does a good turn for alfalfa seeded in the same field, Ronald McCamus, Kandiyohi county agent, says. Earl Bosch at Atwater had oats so rank last year that the new alfalfa seedlings were thinning out. Some were completely dead. So Bosch cut enough oats from the field to fill his silo and combined the rest. Where oats went for silage, there were a third more bales of alfalfa per acre in the first cutting this summer. Bosch is a believer in oats silage now.

The United States ranks 15th among all countries in use of dairy products. According to the Foreign Agricultural service of the U.S.D.A., the people of Ireland, New Zealand and Finland use the most milk and other dairy products. The typical Finn drinks over 300 quarts of milk each year or nearly one quart per day. Americans drink only one pint per day. New Zealanders eat the most butter, and the Swiss eat most cheese.

Tiny Gets His "Licks"

Our Police Chief, Tiny Fields, started an "anti-jay-walking" drive for the kids on Monday. It ended the same day.

Tiny's idea was basically good. He got a few dozen green lollipops and stood on the corner, across the street from the grade school. As the kids came out and crossed the street with the green light, he'd give each a green lollipop.

Trouble was, when the kids spotted the candy, they made a beeline for Tiny, ignoring the light . . . running helter-skelter across the street. Tiny quickly had to abandon his project.

From where I sit, we can all profit from Tiny's experience: "Think through" your good intentions before you "follow through" with them. But don't let that stop you from giving really good intentions, like tolerance, the "green light." Respect all the rights of a neighbor . . . even his right to enjoy his favorite beverage. Whether a man chooses beer or milk—it's his choice to make, and our job to respect it.

Says State Citizens Pay Heavier Taxes

Members of the Minnesota Tax Reform Committee were told today that the average Minnesotan carries a heavier load of state and local taxes—and has less income with which to pay them—than does the average citizen in most other states.

In a report to committee members throughout the state, Don Brown, Waseca publisher, chairman, cited figures from U. S Census Bureau Report G-CGA No 8 on per capita state and local taxes and incomes for 1957. The report, most recent complete analysis issued by the federal government, shows that Minnesota's average tax burden was $179.71 compared to the national average of $169.14.

Only 12 states topped Minnesota's per-person load of state and local taxes, and in each of these the average individual's income was higher. In Minnesota per capita incomes averaged $1,850, while the national average was $2,027.

"The government report reveals the sad plight of Minnesota citizens taxwise, and it underscores the drastic need for industrial development here that can expand payrolls and improve the incomes of our people," Brown said.

"The government figures, relating to the year 1957, of course do not reflect the upward spiral of state and local property tax mill rates since then, nor the substantial additional state tax burdens imposed by the 1957 and 1959 legislatures.

"Recent claims by Minnesota public officials that our state and local taxes have increased less than the national average from 1953 to 1957 cannot hide the fact that we have the dubious distinction of being a lower income, higher taxing state, according to official reports of the United States government.

"More jobs and higher incomes for Minnesotans can come only through the development and expansion of industry, business and agriculture, and that is dependent on a sound, progressive tax climate. Improvement of Minnesota's tax structure is the goal toward which the Tax Reform Committee will work in the months ahead."

Pork a Good Buy for Home Freezer

Shoppers Given Advice by 'U' Marketing Agent

Plentiful supplies of pork on markets this fall make this meat a good buy for the home freezer, according to Mrs. Eleanor Loomis, extension consumer marketing agent at the University of Minnesota.

She suggests that consumers watch for weekend specials on whole loins, then have the loin cut into chops and roasts for the freezer. Shoulder roasts are also good buys for the freezer, she says. The shoulder cut is sometimes called the butt or Boston butt.

Wrapping the pork well in good packaging material is one of the steps to success in freezing pork, according to University of Minnesota frozen foods experts J. D. Winter and Shirley Trantanella. Tests in the University food processing laboratory show that the best wrapping materials for pork are aluminum foil, a laminated wrap or some of the plastic-coated wrappings. Waxed locker paper and polyethylene bags are not satisfactory packaging materials for pork.

To prevent the fat from turning rancid, packages of pork must be wrapped so they are airtight.

Trim off excess fat from the meat before freezing it. Then package the meat in meal-sized portions.

Rapid freezing at 0-degrees F., or lower is recommended for pork, followed by storage at 0-degrees F., or lower.

Avoid keeping pork in the freezer too long. Since pork has a relatively short storage life, it should not be kept in the freezer more than about four months, say Winter and Miss Trantanella.

Macalester Chief Installed Friday

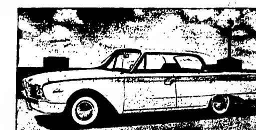
Dr. H. M. Rice Proposes 3-Semester School Year

A three-semester a year system of college was proposed today by Dr. Harvey M. Rice, now president of Macalester college, in his address at inaugural ceremonies for Dr. Rice Friday, Oct. 2, in the Macalester field house.

Dr. Rice spoke at his formal induction as tenth president of Macalester.

325 delegates from as many colleges around the nation were in attendance.

Regarding the three-semester a year system, Dr. Rice said:



"Why has it been assumed that young adults between the ages of 18 and 22 cannot pursue intellectual activities effectively and profitably more than 30 to 32 weeks of each year?

"Why have we assumed that the reality of life and of the steady commitment of oneself to effective living must not begin until a person is beyond 21 years of age?

"Why should not Macalester explore the possibilities of three semesters in one year instead of two? Why could we not start one semester following Labor Day, complete it by Christmas, begin another in January, complete it by the first week of April, begin another the middle of April to complete it in July? This would not be a quarter system.

"It would be a trimester system rather than a semester system. By means of it a student could complete the present eight semesters in two years and seven months of trimesters, instead of the present three years and nine months of semesters.

"To be sure, there would be problems to be solved and many objections to be overcome, but the end result would be more than worth the effort."

Turkey Day Held at Crookston Friday

Extension Poultryman Reports on Research

Turkey breeding research now underway should result in more economical turkey production in the future, a University of Minnesota extension poultryman said Friday.

Robert Berg told a Turkey Day audience at the University's Northwest Experiment station at Crookston that several commercial breeders are developing strains of small turkey hens which will be extremely good layers.

These strains, in turn, will be mated with toms (male turkeys) from a heavy strain, to produce a good commercial cross. The aim, Berg said, is to get hens that average near 70 per cent egg production during the laying period. Average now is between 50 and 55 per cent.

Better egg laying would mean a big reduction in a turkey grower's production costs, just as bigger pig litters lowers costs for the hog farmer.

It may take five years or more to complete this breeding research, said Berg, but he added that such work is one of the best answers to lower turkey prices and sliding profits for growers.

Berg also explained why there is frequently wide variations in turkey weights, particularly among birds of certain breeds. The variation is due to the complexities of the breeding process, he said. Inherited characteristics in birds are carried by genes, some of which are dominant, and some of which aren't.

For a single characteristic with two genes involved, Berg said it's possible to get nine different kinds of offspring from a single mating. This means it takes several years of breeding to separate out the birds with the exact characteristics the breeder is looking for.

Also, said Berg, important as breeding is, final results depend on feeding, managing and disease prevention. "If a tom turkey has the ability to gain a pound a week but is only fed to gain 3/4 of a pound, that's all he will do."

Council May Submit Water Tank to Vote

$220,000 Project Discussed Monday; Decision Deferred

Thief River Falls voters will probably be called upon to vote on a $220,000 addition to the city water system at the Nov. 3 election, according to the city council discussion during an adjourned meeting Monday evening, Oct. 5.

The need for additional ground storage capacity and a new elevated tank, which have frequently been the subject of council discussions in the past, was cited by Alderman E. B. Benson who pointed out that the present tank and storage facility were put into use in 1904 when the city population was 1,800.

No formal action was taken at the Oct. 5 meeting but a resolution will be presented at a special meeting in the near future.

Tentative plans call for the construction of a 250,000 gallon elevated tank to be located on city-owned property south and east of the Nora st.-Merriam ave. intersection on the east side of the city; a one-million gallon ground storage tank which possibly could be built on property now owned by the Soo Line immediately north of the water treatment plant and the piping necessary to put the new facilities into operation. Cost of the tanks and piping has been estimated at $190,000.

The present elevated water tank has a 75,000 gallon capacity and the underground tank has a 440,00 gallon capacity.

Kendall Gustafson, 705 Knight ave. N., was named by the council as civil defense director to serve on a part time basis for $75 a month. Gustafson, who has worked in civil defense in the city on a volunteer basis and who has recently been working with the state civil defense organization, replaces Bruce Reski, who recently resigned to join the state organization.

The director serves both Pennington county and Thief River Falls and the program is supported by both the city and county on a 50-50 basis.

The matter of Walter Larson's dog, which was picked up by Officer Donald Myers, city dog catcher, and which later died in the dog pound, was again discussed when it was learned that the insurance policy which the city has does not cover such a situation.

Larson had previously asked the city to pay $500 for the loss of his dog claiming that the animal had not been properly cared for in the pound. A suit for $1,500 has been filed against the city, Officer Myers and Carl Johnson, superintendent of the city dump, where the remains of the dog were disposed of and where the pound is located.

The adjourned meeting followed the hearing on the special

BUILDING a float for the Lincoln high school Homecoming parade Friday afternoon, Oct. 9, calls for many willing hands and much hard work. Enjoying the construction of the high school chorus float are, from left to right; Merle Barstad, Connie Ekeren, Marji Race, Larry Anderson, Eugene Bergh, Rob Mickelson and Don Stewart. When completed the float will be a dragline to "drag" the Lakers of Detroit Lakes to defeat.

Ask Farmers to Bring in Samples of Soil for Testing Oct. 15 and 16

A soils testing promotion, which is part of a "Thirty Years of Progress" festival, will be held in Thief River Falls Thursday and Friday, October 15 and 16. Farmers are urged to get a soil sample this fall since the University laboratory is not as rushed during the winter and farmers have more time to buy the fertilizer they really need. The cost of testing the soil samples brought in on October 15 and 16 will be borne by the fertilizer dealers at Thief River Falls, St. Hilaire and Goodridge.

The farmer will pay the dollar charge, per sample, on the soil samples. This amount will be discounted from the price of the fertilizer by any Pennington county fertilizer dealer when the farmer buys the fertilizer, explained Arnt Aune, chairman of the agriculture committee of the Chamber of Commerce.

A trailer to receive the soil samples will be placed on the street just north of the post office. The soil samples can be brought to the trailer all day Thursday and Friday, Oct. 15-16, from 9 a.m. to 9 p.m.

Soils boxes and sheets describing how to take a soils test can be picked up at any fertilizer dealer, bank, chamber of commerce or the extension office. Or, a farmer may bring in the sample jar, coffee can, or other container on October 15 or 16 and it will be packaged for him.

The information the farmer gets will be useful in four ways according to county agent Paul Stelmaschuk:

1. Fertilizer amounts and anal-

Two Youths Jailed on Beer Charges in Municipal Court

Two 18-year-olds Plead Guilty to Charges of Supplying Beer to Minors

Six persons appeared in Monday's municipal court session to face a variety of charges, while three persons forfeited bond. Judge H. O. Chommie presided.

Wendell H. Long, Detroit Lakes, was found guilty, after trial, of speeding, following his arrest by the highway patrol. He was fined $12.50 plus $4.50 costs.

Herbert D. Peterson, International Falls, forfeited $15 bond after arrest on charges of driving over the center line. On the additional charge of driving after license revocation he forfeited $30 bond.

Sheriff Chas. Richards brought Robert H. Anenson, Goodridge, and Vincent Hesse, rt. 2, into court; Anenson on charges of furnishing 3.2 beer to a minor of 17, and Hesse on charges of furnishing strong beer to a minor girl of 13. Both pleaded guilty.

Anenson drew a 10-day jail sentence and Hesse was given 30 days, with sentences to run concurrently with those sentences imposed as the result of pleading guilty to city police charges against them, of possession of beer as minors. Both are 18 years old.

Dairy Cattle Auction Slated Here Oct. 15th

Fifty Purebred and Top Grade Animals Included in Sale

Fifty cows and heifers of outstanding breeding, both purebred and grade animals, will be offered at auction in the "Top of the Nation" sale to be held in the livestock pavilion on the Pennington county fair grounds in Thief River Falls next Thursday afternoon, October 15, starting at 1:30.

A total of 23 dairymen affiliated with three cow testing associations in this area have consigned animals to the sale. Martin Carrico of the Hartwood Farms at Hallock will serve as sales manager and auctioneer.

Five springing heifers all out of dams that have produced over 500 lbs.fat are bred to the "Rockwood Anthony Robaron B" bull who is classified excellent, and whose dam "Anna Rockette" produced 24,131 lb. milk and 896 lb. fat as a two-year-old, the third highest record for both milk and fat ever produced in Canada.

The champion two-year-old 4-H heifer at the 1958 state fair, and who was this year's grand champion at the Roseau county fair, sells with her baby son, and yearling daughter. This cow is sired by Sky Lord Rockwood, whose full sister is classified excellent and sold in the 1957 "Sale of Stars" in Toronto, Canada, for $4,000. Sky Lord Rockwood was recently purchased by the Consolidated Breeders at Anoka, Minn. Many in the sale carry his services.

The blood of Rockwood Butter Baron (H40) who is also at Consolidated Breeders is well represented in the sale. He is the highest classified bull in Minnesota, and his dam has 874 lbs. fat as a two-year-old, and his grand-dam, 1259 lbs. fat, with two other records over 1,000 lbs. fat. Many in the sale are bred to this outstanding sire.

Offices Close All Day Next Monday

In observance of Columbus Day, October 12, a state holiday, the Pennington county court house and city offices will remain closed next Monday, it was announced today. As a result, no drivers license examinations will be held Monday. The post-office and local banks, however, will be open for business as usual, and also the ASC and FHA offices in the courthouse.

Thirty Years Progress Fete to Open Oct. 15th

Three-day Festival to Note Advances Made in T. R. Falls

Residents of the Thief River Falls community will join next Thursday, Friday and Saturday, October 15-17, in celebrating 30 years of substantial progress in the community. Many local firms will hold open house during the weekend, and there will be registration for hundreds of turkeys and other valuable prizes.

Scheduled for all three days is an automobile show in the arena, in which 1960 models of 18 makes of cars will be on display, in addition to a big array of household appliances shown by ten local firms. Admission will be free, and attendance prizes will be awarded.

A fall style show will be presented in the municipal Auditorium Thursday and Friday afternoons at 2 o'clock. Professor Cyrus Running of Concordia college, Moorhead, will offer a piano-monologue recital as an added feature of the Thursday show, while on Friday the team of Warren and Shorty will supply songs to the accompaniment of an accordion and bass viol. A small admission fee will be charged for the benefit of Northwestern Hospital.

On Thursday evening a banquet will be held at 6:30 in the local Armory, with Land O'Lakes officials and representatives of area creameries as special guests. The affair will recognize the 30th anniversary of the founding of the Thief River Falls branch of Land O'Lakes Creameries.

Another event Thursday will be the "Top of the Nation" dairy cattle sale to be held at 1:30 in the livestock pavilion on the Pennington county fair grounds.

Friday, October 16, will be observed as Turkey Day, and during the afternoon the L.O'L. turkey processing plant will be open for public inspection. The automobile and appliance show will continue during the afternoon and evening, and the local Jaycee chapter will sponsor a free dance in the city Auditorium, at which merchandise prizes will be awarded.

The Jaycees also are sponsoring several street activities for Saturday, October 17, including a pie eating contest, a safe tractor driving contest and a tug-of-war between the City Slickers and the Country Boys.

Mary Rustad Reaches Semifinals in Merit Scholarship Contest

Mary Lee Rustad, the daughter of Mr. and Mrs. Loyd Rustad, 219 Markley ave. N., has been named one of the semifinalists in the 1959-60 National Merit Scholarship competition, it was announced today by Arnold Larson, acting principal of Lincoln high school.

Miss Rustad is one of about 200 students in Minnesota who were the highest scorers in the scholarship qualifying test, the nationwide test of educational development given in over 14,500 high schools last spring. Of all those who took the test, 10,000 have been selected for semifinal competition from a field of 550,000.

Semifinalists now face another three-hour examination, the scholastic aptitude test of the college entrance examination board, which will be given in testing centers throughout the nation Dec. 5. Those who repeat their high scores on this second test will become finalists in the competition.

As finalists, students will be eligible for scholarship awards sponsored by about 100 business and industrial organizations, professional societies, foundations, individuals and the scholarship corporation itself.

In the final phase of the competition, high school grades, extra-curricular activities and leadership qualities of the students will be evaluated along with the scores on the tests.

Names of Merit scholars will be announced about May 1, 1960; finalists will receive certificates of merit attesting to their high ability, and all colleges and universities will be notified, enabling these students to be considered for a wide range of other awards.

Colleges chosen by Merit scholars in most instances receive cost-of-education grants ranging to $500 a year to help defray the actual costs of educating the students.

NEW CHURCH One of the new churches built in Thief River Falls during the past few years is the Mission Covenant church on the Third st. E. parkway. Of contemporary low-roof brick construction, the church has a main sanctuary with seating space for 325 worshipers. The ceiling is finished in natural wood and the walls are of way-lite block. An office and nursery are provided on the main floor and a full auditorium and Sunday school rooms are in the basement. The congregation moved into the new church in April from their previous location at Markley ave. S. and First st. E. and the official dedication was April 26. The Rev. Eldor E. Langager has been pastor of the church for the past two years.

PROGRESS in Thief River Falls during the past 30 years has not been confined to material things. The Zion Lutheran church at 505 Main ave. N. is typical of the fine houses of worship provided in the city. Built in 1949 of Lannon stone, the church is of Transition Gothic design and provides permanent seating space for 650 worshippers in the main sanctuary. The parish hall at left has a Sunday school wing and administrative offices. Unique in the structure are the art glass windows which were created from handblown European glass by the internationally-famous designer Eugene Margroff. Dr. Walter M. Pedersen has been pastor of the church for the past 15 years and Harold A. Johnson is the director of parish education.

Linda Iverson and Elmer Kolseth Wed at Plummer

Rev. Norman Madson performed the double ring ceremony Saturday, Sept. 26, at the Clearwater Lutheran church of Plummer, which united Linda Lou Carolyn Iverson and Elmer C. Kolseth in holy matrimony.

The bride is a daughter of Mr. and Mrs. Bertal Iverson of Plummer and the bridegroom is the son of Mrs. Sarah Kolseth, also of Plummer.

The altar of the church was graced with baskets of yellow gladioli, bronze mums and carnations with candelabra, for the 8 p.m. ceremony. Mrs. Norman Madson was at the organ, playing the nuptial music and accompanying the soloist, Rev. [illegible], as he sang "The Lord Is My Shepherd." The congregation also sang "In House and Home Where Man and Wife."

The bride, given in marriage by her father, wore a floor-length gown of French imported rose [illegible] lace over bridal satin, featuring a four-tiered, full hooped, [illegible] skirt, accented with [illegible] nylon tulle fans. The fitted bodice was fashioned with a sweetheart neckline, edged with seed pearls, long sleeves which came to a point at the hand. The gown was designed and made by the bride.

Her [illegible] veil of imported [illegible] illusion, edged in Chantilly lace, fell from a pearl crown and she carried a white Bible, gift of the bridegroom's mother, topped with a lavender orchid and white [illegible]. Her pearl earrings and necklace were a gift of the bridegroom. The traditional, old, new, borrowed and blue was carried out.

Miss Betty Hanson of Crookston, friend of the bride, was maid of honor with Miss Audrey Asselin of Oklee as bridesmaid. They wore identical ballerina length gowns of yellow nylon tulle chiffon over taffeta, with floating panels. Their attire was accented by brown hats, gloves and shoes and they carried bouquets of yellow roses and bronze mums. Their earrings were a gift of the bride.

The bridegroom was attended by his brother, Carl Kolseth, as best man, with Daniel Helle of Thief River Falls, friend of the couple, as groomsman. Ushers were Leslie Snetting and Mervin Prestebak of Thief River Falls. The gentlemen of the bridal party were dressed in black trousers, white dinner jackets and yellow carnation boutonnieres.

For her daughter's wedding, Mrs. Iverson chose a royal blue dress with a matching hat and black accessories. The bridegroom's mother wore a light blue dress with matching hat and black accessories. Their corsages were of yellow roses and white carnations.

Following the ceremony a reception was held at the Clara Lutheran church parlors for 110 relatives and friends. A three-tiered cake, topped with a miniature bride and bridegroom, centered the bridal table. Mrs. Earl Peterson served as hostess, while Mrs. Nels Stalimo of Thief River Falls, aunt of the bride, and Mrs. Oscar Mossestad cut and served the cake. Mrs. Theodore Haugen of Duluth, friend of the couple, poured. Mrs. Mervin Prestebak had charge of the punch bowl, and Mrs. Myrl Vettleson and Mrs. Theodore Johnson assisted in the kitchen.

Mrs. Leonard Hill of Thief River Falls, cousin of the bride, was in charge of the guest book, with Miss Joann Hanson and Miss Veronica Asselin of Oklee at the gift table. Waitresses were Beverly Mattison, Sharon Mossestad, Sandra Schelfert and Annette Asselin.

For their honeymoon trip to Montana and other points, the bride chose a gray sheath dress with sapphire blue accessories and the orchid from her bridal bouquet. Upon their return, Mr. and Mrs. Kolseth will make their home near Plummer, where the bridegroom is engaged in farming.

Guests attended the wedding from Cloquet, Thief River Falls, Minneapolis, Red Lake Falls, Oklee, Duluth, St. Hilaire, Trail, Crookston, Warren and Grand Forks, N. D.

Questionnaires for Agriculture Census Are Mailed

Will Reach Farmers a Week Before Census Taker Calls at Farm

Questionnaires for the 1959 Census of Agriculture are now in the mail and will be in the hands of local farmers within a few days, it was announced today by Field Director Guy A. Lutz of the Census Bureau's regional office at St. Paul.

The farm census questionnaires are being mailed from Chicago, Illinois with the distribution timed so that the report forms will reach farmers about a week ahead of the date when census takers will begin the field canvass.

The advance mailing is for the purpose of giving farm operators time to consult their records before filling in the answers required by the questionnaires and getting them ready for the census takers to pick up. This procedure is designed to insure greater accuracy of reporting and to save time for the farmer and the census taker when the latter calls at the farm.

The 1959 census of agriculture questionnaire is designed to provide information on the number and size of farms, acreage and harvest of crops, livestock production and inventories, selected farm facilities and equipment, selected farm expenditures, farm values, and mortgage debt. On the average, each farmer is asked about 100 questions, many of which can be answered by simply checking "yes" or "no."

Crookston Woman Is Suicide Victim

Threw Self Monday in Front of Train Engine

The death of Mrs. Marie Duden, 52, of Crookston, who was struck and killed by a southbound Northern Pacific passenger train at a crossing one and one-half miles north of Crookston Monday afternoon, was ruled a suicide by Dr. H. E. Nelson, Polk county coroner.

Nelson ascribed the death to despondency and said there will be no inquest.

According to the engineer of the train, he saw Mrs. Duden come out of a ditch and walk along the track, moving closer as the train approached.

He said he kept blowing the whistle, but Mrs. Duden walked onto the main track. The engineer said he applied emergency brakes but was unable to stop before hitting her. Mrs. Duden's body, thrown about 300 feet, was badly mangled.

Mrs. Duden was born Dec. 30, 1906, at Euclid and lived in that area until about four years ago when her husband, William, died. At that time she moved to Crookston.

Survivors include two sons, Maurice and William at Watertown, Wis.; two brothers, Ben and William Strickler of Euclid; and a sister, Mrs. Nellie Masters of Oakland, Calif.

Truck Sustains $500 Damage in Blaze on Monday

A 1953 Dodge truck owned by Duane Jensen was damaged to the extent of about $500 when it caught fire Monday at 6 p.m. while parked near the Western Oil & Fuel Co. on Atlantic av. N. The fire department was summoned to put out the blaze.

A bed in the Earl Melvie home at 613 LaBree av. N. was completely destroyed by fire last Saturday. The blaze was believed to have been started by a child while playing with matches.

Firemen were called out Tuesday evening at 9:30 when an oil burner in one of the D & G cabins on West Sixth st. became flooded. No damage resulted.

Flower Lovers to Aid Congress in Picking U. S. National Flower

The most unusual election in the town's history is taking place throughout the month of October.

The political campaigns do not involve a single speech and there are absolutely no party platforms. All the candidates are beautiful. They are all flowers.

Every local citizen is empowered to cast his ballot for the posy of his choice in the unique national flower election taking place throughout the United States during October.

The election, conducted by the 11,000 members of Florists' Telegraph Delivery Association, will register the floral preferences of the American public for guidance of Congress in their consideration of an official U.S. flower. Polling places have been set up at every FTD florist's shop with ballots and ballot boxes available to receive the votes of the nation.

Ballots will be forwarded to a central clearing house and tabulated by independent accountants. The results of the national posy picking will be passed on to appropriate congressional committees now dealing with the choice of an official national flower.

All flowers proposed in Washington by congressmen are included in the FTD ballot. They include: black-eyed susan, corn tassel, carnation, daffodil, grass, marigold, mountain laurel, rose and Shasta daisy.

Other popular flowers listed on the ballot are camellia, chrysanthemum, geranium, gladiolus, goldenrod, lily-of-the-valley, magnolia, orchid, peony, rhododendron and tulip.

A blank space permits the voter to "write-in" the name of any other flower which suits his floral fancy.

assessment roll for storm sewer district three.

Of the 15 persons who attended the meeting, only a few asked questions in regard to their own assessment.

As expected, opposition to some of the assessments was voiced on the grounds that no benefit would be derived by certain properties from the construction and that the law did not allow such assessments unless a benefit to property owners could be shown.

In answer to a question as to when the assessments would be due, Robert Wurst, city attorney, stated that they could be made without paying interest any time within 30 days after the council adopts the roll and that payments with interest first become due Jan. 1 of the following year to be included in taxes June 1 and Nov. 1.

In the absence of Alderman A. J. Rau, the meeting was adjourned until the regular October meeting.

Jewel Box to Open Friday on E. 3d st.

Attractive Quarters Are Completely Remodeled

A completely remodeled store will greet customers of the Jewel Box when it opens Friday, Oct. 9, in its new location at 105 Third st. E.

Urges Effort to Get Duck Cripples

Wildlife Field Man Asks Hunters to Avoid Waste

Cripple loss is one of the most wasteful aspects of waterfowl shooting. By concentrating on bagging each bird that is hit by shot, hunters could make a sizeable contribution to the commercial welfare of the continent's ducks and geese. The implications of this are revealed in the following item, prepared by Philip Barske, Wildlife Management Institute field representative who has been leading a campaign to minimize cripple loss of waterfowl for several years.

"This year, every single duck is an important duck. By simply cutting down on cripple loss each waterfowler can bag a limit of birds and still save at least one duck per hunt. Each year cripple loss runs into the millions, and it is conservatively figured that 5 to 6 ducks are down to fill a bag of four birds. Multiply this waste by the army of waterfowl hunters and we arrive at a crippling loss of staggering proportions.

"We have heard of the problems on the major waterfowl breeding grounds and the 1959 duck crop is mighty poor. This is the year then for you and for me to make an all-out effort to help save ducks.

"Cutting the cripple loss by 10 per cent can send a couple of million more ducks back to the nesting grounds next spring.

"Every cripple we fail to retrieve usually means another duck knocked down to take its place. It's sheer waste to kill 5 to 6 birds merely to take 4 home."

Policemen's Dance to Be Friday Night

Entertainment by Two Groups Added to Program

Local residents may expect plenty of fun and entertainment when they attend the annual policemen's dance at the Eagles hall Friday evening, according to the program committee.

The festivities will get under way at 9 p.m. with entertainment by the Arlene and Berks Baker show troupe and the Jack Parkins quintette orchestra, all of Winnipeg.

The Baker and Parkins groups specialize in mimicry and all who have seen them perform in the past say their acts are well worth the nominal admission fee.

Following the entertainment program the rest of the evening will be spent dancing. An advance ticket sale is under way, and tickets will also be on sale at the door.

Phone Co. Driving Club in Minnesota Wins U. S. Award

Bell Telephone Women's Defensive Driving Club to Get National Honors

The Bell Telephone Women's Defensive Driving Club of Minnesota, composed of 40 supervisory employees throughout the state, won 1st place in the statewide category of the 1959 Carol Lane traffic safety awards, the National Safety Council announced Wednesday in Chicago.

The organization disseminated the driver know-how they had learned in Bell's standard driving course to women's groups outside the organization. Some 581 drivers from 52 clubs in Minnesota, including Thief River Falls, were trained this way.

For their role as the nucleus of this campaign, the driving club will receive a $1,000 U. S. Savings Bond and a bronze statuette symbolizing "woman's protective instinct."

The Carol Lane Awards, named for the women's travel director of Shell Oil Company and administered by the National Safety Council through a Shell grant, will be presented Oct. 22 at the Council's annual convention, the 47th National Safety Congress.

Miss Marjorie Schlaeger will accept the award for the Minnesota group and will attend the Chicago convention as the guest of Shell.

Rotarians Get Story of Judy Wold's Visit in Sweden in Summer

Judy Wold, who was a visitor in Sweden during the past summer under the American Field Service program, told Rotarians of her experiences abroad during the club's meeting Monday.

Her talk was prefaced by an explanation by Joseph Iverson, director of secondary education, that the AFS program consists of three parts: the "Americans Abroad" program in which Miss Wold took part, the Foreign Student program in which foreign students come to the United States to study and the "Americans Abroad" foreign study program in which students from this country study in foreign lands.

He emphasized that students who wish to apply for next year's program must be selected by November 1 of this year.

Miss Wold told of her trip with 794 other students 16 and 17 years old. Classes in language and customs of the countries to be visited were conducted during the nine-day boat trip which ended at LeHavre, France.

From that port, the local student traveled to Rotterdam, Copenhagen and then to Sweden.

Her Swedish "family" consisted of the farm couple and a 17-year-old daughter. Only the daughter spoke English and Miss Wold's conversation to the mother and father during the summer were through the translations of their daughter.

The farm on which the Lincoln senior stayed during the summer was only 22 acres in size and was located near a city of 1,000. Despite the size of the farm, the family lived quite comfortably.

Miss Wold prefaced her talk with the explanation that her observations were not of the entire country and all its people but only of that small part she visited.

She told the Rotarians about Swedish customs, foods which they served and the educational customs with which she came into contact.

Schools in Sweden operate under an examination system whereby students who wish to continue their education are examined as to proficiency in subject matter already taken. Examinations are conducted at 12, 16 and 19 years of age, according to the local girl.

The Swedish people are not church goers, she said. No church organizations are formed for mothers and children and only 10 to 15 persons, all of them older, attended churches she saw.

Relations between Scandinavian countries are very good, Miss Wold said, and people travel between them without passports.

In Sweden as in other foreign countries, people feel that American tourists act as though they were better than others. There is some resentment about this, and also a feeling that foreign countries are behind the United States in development.

Family life in Sweden is much closer than life in the United States and this was credited to the lack of television, to the fact that youngsters cannot drive automobiles until they are 18 and depend on their families for transportation and the fact that schools do not supply social life as they do in this country.

The news that visits were to be exchanged between Eisenhower and Khrushchev made the Swedish people happy, for they felt that it would ease world tensions.

Miss Wold concluded her talk with the observation that many foreign students who return to their own countries are dissatisfied with their home lands after visiting in the United States, but she felt that the exchanges were of definite value in creating better understanding between nations.

Snow Is Forecast Here Late Today

Much Lower Temperatures Predicted for Friday

One to three inches of snow may accumulate in extreme northwest Minnesota this afternoon before ending tonight and it will be much colder tonight, according to the KTRF forecast. A drizzling rain was falling this morning.

The weatherman predicts much colder weather spreading east over the area today with temperatures falling to the 30's tonight. Rain this morning is expected to turn to snow this afternoon and the change to snow may be accompanied by a brief period of freezing rain and sleet in the northwest area.

Tomorrow, the skies are expected to be mostly cloudy and the temperatures unseasonably cold.

Moderate to strong shifting winds are expected to become westerly to northeasterly by this evening but should decrease tomorrow.

Highs today are expected to be in the 50's.

A CLOSE RELATIVE of many of the calves that will be born to cows being offered at the "Top of the Nation" Dairy Sale at the Fair Grounds pavilion next week is Rockwood Lady Rochette pictured above. Lady Rochette sold for $4,000 at the "Sale of Stars" at Toronto, Canada and her yearling daughter sold at the Rockwood sale for $3,700.

Many animals being offered in next week's sale are bred to Rockwood Skylord, a full brother of Lady Rochette, and a daughter of this sire, who was grand champion 4-H two-year old at the Minnesota State Fair in 1958 and this year's grand champion at the Roseau county fair, has been consigned for the "Top of the Nation" sale.

Rockwood Skylord was one of the sires transferred from the Northwest Breeders to Consolidated Breeders when the two organizations were merged.

Erskine Girl Sent to State Hospital

Was Involved in Suicide Pact Taking Friend's Life

A 16-year-old Erskine girl who survived in a suicide attempt which killed her 15-year-old boy companion Sept. 30 has been committed to the Fergus Falls state hospital.

Margie Dounley was taken to the hospital for observation and treatment after a hearing before juvenile judge Philip Anderson in Crookston.

The Dounley girl and Maurice (Skippy) Hoffos, Jr., also of Erskine, were found Sept. 30 in a car filled with carbon monoxide fumes.

Miss Dounley was quoted by Carl Knutson, Polk county sheriff, as saying that she helped Hoffos install a tube from the car's exhaust pipe through a rear window to bring fumes into the car. The concentration of fumes was stronger in the front seat where Hoffos was found dead.

The girl was also quoted by Knutson at the hearing as saying she woke twice during the night, and turned off the car's ignition the first time but turned it on again when she saw that Hoffos was dead, and turned it off a second time later when she awoke with a headache.

The girl said that she and Hoffos became despondent and decided to take their lives when they learned that the boy's family planned to move to Wisconsin.

Meeting of Thief River Watershed Assn. Is Planned

Directors of the Thief River Watershed Development association met at Mud Lake Thursday evening for the purpose of arranging for the organization's annual meeting. It was decided that the meeting should be held in mid-November and the executive committee was directed to make definite arrangements for the time and place and the program.

President Julian Rodahl read a letter from Senator Don Sinclair of Stephen stating that he had discussed the program with officers of the U.S. Engineers in St. Paul.

They informed him, the letter stated, that their survey of the main stem of the river had been largely completed and that they are waiting for reports from other agencies covering the needs of the land areas of the watershed with recommendations as to their best use.

Fire Sirens Mean Pull over and Stop

Public Reminded of Rules in Fire Prevention Week

Fire Prevention Week brought a reminder from Harry A. Sieben, state highway safety director, that traffic rules cover fire emergencies at all times.

"Our fire fighters have important jobs," Sieben said, "in protecting life and property and endanger themselves very often in their work. We should not do anything which would interfere with them at any time."

Sieben listed the following as rules to follow which are part of the Minnesota traffic code and included in many local ordinances:

"Upon the immediate approach of an authorized emergency vehicle (which includes fire engines) equipped with red lights and giving audible signals by siren, the driver of each other vehicle shall yield the right-of-way and shall immediately drive as close as possible to the right-hand edge or curb of the highway and shall stop and remain in this position until the authorized emergency vehicle has passed.

The driver of any vehicle other than one on official business shall not follow any fire apparatus traveling in response to a fire alarm closer than 500 feet, or drive into or park such vehicle within the block where fire apparatus has stopped in answer to a fire alarm.

No vehicle shall be driven over any unprotected hose of a fire department when laid down on any street, private driveway or street car track, to be used at any fire or alarm of fire, without the consent of the fire department official in command.

Mantoux Tests Given in East Marshall Co., Goodridge Next Week

Mantoux tests will be given in schools in Eastern Marshall county and Goodridge, Pennington county, according to the following schedule:

Monday, Oct. 12: Middle River, 9:00 a.m.; Gatzke, 10:00; Grygla, 11:00; and Goodridge, 12:30.

Monday, Oct. 19: Holt, 9:00 a.m.; Newfolden, 9:45; Strandquist, 10:45; and Viking, 11:30.

Grades included in the testing are 1, 4, 7, 9 and 12 and all personnel. Rural schools may participate at any of the centers nearest them. Parents of children and any other persons in the community who desire to be tested may also be included.

Request forms will be given to students in advance, and these must be returned to the school with the parent's signature before the test can be given. Tests will be given by Dr. L. H. Flancher, M.D., Sunnyrest sanatorium, Crookston, assisted by Mrs. Mary Vattendahl, the sanatorium field nurse. They will be read on the Wednesday following the testing.

The Mantoux (or tuberculin) test, said Dr. Flancher, is a simple means of discovering if you have been exposed to tuberculosis and if you have become infected by the germ which causes tuberculosis.

It is made by injecting a small amount of germ-free liquid called tuberculin, between the layers of the skin on the forearm. The doctor examines this area after 48 hours and if there is no reaction, the test is negative, usually meaning there are no TB germs in the body. A red, raised area, on the other hand, indicates a positive reaction which means that infection has likely occurred. Such a reaction should be followed by a chest X-ray to learn whether the lungs have been damaged.

Most positive reactors are strong enough to resist the initial dose of the germs, therefore, their X-rays show no damage to the chest. All positive reactors should have a chest X-ray at least once a year. If TB should develop, a periodic X-ray would find it in the early stage, even before symptoms develop and before it has become contagious. Treatment of TB in this early stage would result in a quicker and more certain recovery.

Patients are urged to avail themselves of this opportunity to have their children tested as a routine, precautionary measure.

There is no charge for the test. X-rays of school children are paid for by the County Christmas Seal organization which supports the program through arrangement with the schools' superintendents.

Citizens and Taxpayers of Thief River Falls!

Here Is My Answer to Mayor Beich's Unwarranted Charges Made Against Me At The September 15, 1959, Meeting of the City Council

Unethical Practices?

THE CHARGE Mayor Beich at the Sept. 15 meeting of the city council accused me of unethical practices for not consulting with other members of the street committee of which I am chairman but of trying to make the street committee a "one man show".

THE TRUTH When the 1959 budget for the street department was to be made up, I personally asked Bob Carlson, another member of the committee to attend. The superintendent of the street department and I waited 1½ hours and Mr. Carlson never showed up or notified me that he could not attend. The superintendent and I made up a tentative work plan for the year and what this work would cost. On many occasions, I have tried to contact Carlson at his office and have never been able to reach him. Calls to his home have also been fruitless and, although I left my name and telephone number and requests that he call me back, he has never done so.

Mr. Olaf Dahlen, the other member of the street committee, took office Apr. 1, 1959. I was out of the city during April. Mr. Dahlen was out of the city from June 13 to July 17 on personal business and was in the hospital from August 5 to 17.

It has been impossible to get the street committee together under these conditions. Rather than let another season go by without some constructive street work, I have asked Alderman E. B. Benson to accompany me on the inspection of streets before work was begun and to inspect completed work.

Alderman Benson and I have also inspected our two gravel pits to determine the quality of the material used on our streets and inspected the asphalt hot mix plant which the council purchased for street department use.

From time to time, I have given the council a full report of the plans for work and work being done and at no time has there ever been a dissenting voice against the work the street department has been doing.

There have been no unethical practices in connection with the street department affairs or any irregularities or dishonesty to my knowledge. If there had been, I would have been the first to divulge it.

Illegal Purchases?

THE CHARGE At the Sept. 15 meeting of the city council, Mayor Beich charged that I had made illegal oil purchases for the street department—that individual purchases were for over $500 and should have been put up for bid.

THE TRUTH First of all, I as chairman of the street committee, do not make any purchases for the street department. They are all placed by the superintendent of the department through regular purchasing channels.

During the past year, we have purchased six carloads of oil. In each instance, the cost of the oil was less than $500 a car. The shipping costs are a separate item and are chargeable as such. Here is a typical example of the "illegal" purchases of which Mayor Beich spoke without first checking to find the truth:

One carload of oil containing 7,437 gallons at 6.6c cost $490.84. In placing the order, it was optional with the street department superintendent whether to order the carload with freight charges collect or to prepay the charges.

He placed the order with the charges prepaid, therefore we paid two bills in one. The whole council approved the payment of this bill and I am certain that if there had been any irregularity, they would not have approved payment.

STREET WORK Fulfilling Mayor Beich's request (a fact which has been verified) to have Mussey st. beside his home (in the background) repaired, workmen of the city street department are shown as they did the work. Residents on this street are very happy with this improvement. (Note: no curb or gutter is in place on this street by the mayor's house despite his claim that streets cannot be built without curbs or gutters.)

Where Was the Oil Used?

THE CHARGE Mayor Beich, in his accusations, asked the question, "Where was this oil used?"

THE TRUTH During this year, 43 blocks of streets in this city were blacktopped. This does not include work done on surfacing the basketball court on the First st. playground or surfacing the Fourth st. parking lot.

Doing this work, the street department has used 44,773 gallons of road oil to get Thief River Falls out of the mud and 7,000 gallons have been used to control the dust which has plagued home owners of the city for many years. We now have 6,000 gallons of oil in storage tanks for future use.

I have no apologies to offer the citizens of Thief River Falls for the fine work the street department has done in our city. Anyone who wishes a detailed list of street work done during the past year can call the superintendent of the department and can also examine the work done to see how much has been accomplished.

How Do We Pay For It?

THE CHARGE Mayor Beich, at the Sept. 15 meeting asked, "How is all this work to be paid for?"

THE TRUTH The city council approved the street department's budget for 1959 which included $6,000 for road oil. The six carloads purchased, including the freight, cost less than this amount. The money has already been appropriated.

During 1958, only a few blocks of streets were blacktopped in Thief River Falls although you as taxpayers paid much more. You just didn't get what you paid for.

This year, I have been condemned openly in a council meeting for trying to use the money you have paid in taxes for the purpose for which you were taxed. Of this I am guilty.

Perhaps these streets are not up to the "engineering standards" set forth by Mayor Beich but, to come up to his standards (curbs, gutters, etc.) would put surfaced streets beyond the means of a good many residents.

Are we to stay in the mud until Beich's standards are met?

The Mayor stated at the Sept. 15 Council meeting that he was a politician. This is the only thing with which I agree with him. But I don't believe that there's any place in our City Government for Politics or a Politician.

I assure you Residents and Taxpayers of the City of Thief River Falls that there have been no unethical practices or irregularities in the conduct of the Street Department. There have been too many "Next Years" in the street work of our city — Too many years of bickering and indecision. Am I to be condemned for getting tired of all this stalling?

Archery Hunting of Deer Now Open

Statewide archery hunting for deer opened at sunrise, October 1, and will continue through October 31. Resident bow and arrow deer licenses cost $3.50, while non-resident archery licenses are $10.25. Licenses may be obtained from the county auditors or their agents. A license to hunt deer is required regardless of age.

Persons taking deer by bow and arrow must, within 24 hours after taking, contact a game warden who, after inspection of the carcass, will place a special tag on it, and no part of the carcass, except entrails, shall be removed until such tag has been affixed.

Mahatma Gandhi once said, "A born democrat is a born disciplinarian. Democracy comes naturally to him who is habituated normally to yield willing obedience to all laws human or divine . . . a democrat must be utterly selfless. He must think and dream not in terms of self or party but of democracy."

Prowler 'B's Defeat Roseau 'B's 27 to 12

Coach Chuck Decoursey's Prowler 'B' team lifted their season's record to the .500 mark on Tuesday night when they scored a 27 to 12 win over the Roseau 'B' team in a football game played on the Lincoln field.

The Prowler 'B' will meet some strong opposition on Monday night, October 12, when they meet the Grand Forks Central 'B' squad on the Lincoln field. And on Saturday morning, October 17, the Bemidji Lumberjacks 'B' team will meet the Prowler 'B' team on the Lincoln field, with the kickoff slated for 10:30 a.m.

In Tuesday night's game, the Prowlers picked up a touchdown in the opening minutes of play. From the Prowler 40-yard line, after receiving the kickoff, John Aune completed a pass to end Roger DeaLp and which carried to the Roseau 20-yard stripe. Paul Klungness cut through right tackle for thirty yards and a touchdown. Don Nicholson circled right end for the conversion, giving the locals a 7 to 0 lead.

Moments later, with the Roseau 'B's deep in the end zone on fourth down, the Prowler forwards broke through to block a kick, and when the ball bounded into the arms of left end Karl Ekstrand, the Prowlers had a second touchdown. Aune added the point on a sweep of right end.

In the third period, fleet Arvid Lee intercepted a Roseau pass on the Prowler 47-yard line and sprinted fifty-three yards to cross the north goal for a touchdown. Jim Weckwerth's plunge gave the locals a 21 to 0 lead.

The Roseau team rebounded for a pair of touchdowns later in the period, with quarterback Paul Dorwart sneaking over center for a yard and a touchdown; and Jerry Swenson added a touchdown on a plunge of three yards.

The game's final TD was marked up in the fourth period when Aune hit center for a yard and a touchdown, giving the Prowlers a 27 to 12 win.

The summary:

Homecoming

The Detroit Lakes Lakers, under the guidance of a new coach, Haldo Norman, will provide the Prowlers with football opposition on the Lincoln high school athletic field on Friday night as the blue-and-gold celebrate Homecoming.

The Lakers vs. Prowlers game has been a fixture on the football schedule since 1952, and an interesting and worthwhile series it has been, too. A look at this season's Laker roster reveals that coach Norman, who succeeded Marlow (Red) Davidson as football mentor down there, is undertaking a rebuilding process in an effort to lift Detroit Lakes to the football heights they reached in 1952 and 1953.

In the seven games played between the two clubs, the Prowlers have won four, lost two, and tied one, that tie being 6-all draw in 1956. In the series opener in 1952, the Lakers scored a 34 to 6 win; and in 1953, when the Lakers, with fullback Rich Borstad leading the attack and with a team that was rated as the state's number two prep squad, trounced the Prowlers, 44 to 6. The Prowlers won in 1954, 27 to 19; and in 1955 by a 7 to 6 margin. Following the tie in 1956, the Prowlers came up with a 7 to 6 win in 1957, and a 26 to 0 triumph last season.

In spite of the loss of quarterback Dale Wennberg (and it's doubtful if Dale will return to action this season) and the below-par condition of righthalf Lloyd Ranum, who has missed several practice sessions because of illness, the Prowlers will be favored to mark up a win on Friday night.

Wennberg, who injured his right knee during the East Grand Forks game a couple of weeks ago, removed the bandage this week, but he continues to hobble about on crutches. Steve Embury, though, is developing into a capable replacement, and as he gains some experience he will become a first-rate quarterback. He's a fine passer, and his aerial tosses caused trouble for the Roseau Rams in the late stages of the game last Friday.

That's an attractive home schedule that is upcoming for the Prowler football fans. Following the Laker game here on Friday, the Prowlers will make the long jaunt to Moorhead for a game with the Spuds, and then will finish the season here with games against Bemidji and Crookston. The best football of the season is yet to come.

The Sentimental Favorites

There's not a doubt but that the Chicago White Sox will be the sentimental favorites of the fans when the World's Series resumes this afternoon in Comiskey Park in Chicago. A fair-minded analysis of the squad rosters of the two teams must give a playing edge to the Los Angeles Dodgers; but there is such a thing as team spirit and competitiveness, and which is an intangible that cannot be measured by statistics, and the White Sox are a spirited squad.

The fact that the Dodgers and their supporters have been down-grading and belittling the talents of the White Sox, hasn't endeared the Los Angeles club with the rank-and-file fan. We're for the Dodgers, but we aren't going to cry very much if Walter O'Malley's club loses the next two games and the Series.

Until Tuesday afternoon's game, the Series had provided some of the most ordinary play that we have witnessed in World's Series competition. It's an oddity, and perhaps an indication of the ordinary pitching that has been on exhibition, that in the five games not one pitcher has been able to go the route. The respective bull pens have been crowded by warm-up action.

Moose Story

The September issue of "Outdoor Life" contains an interesting story, embellished by color pictures, of a moose hunting trip into eastern Ontario. The story, titled "Special on Moose," was written by Jack Connor for Lee Kuluvar.

One of the featured performers in the story is Ben Thompson "a leather-faced bush veteran from Oscar Larsson's hunting camp on One-sided lake in Ontario." This Ben Thompson is a cousin of Mrs. Harold M. (Mae Roberts) Johnson of this city.

First Reports

According to the reports that were channeled in to us last night, and from personal observation yesterday afternoon, most of the action and excitement in the migratory waterfowl hunting season opener on Wednesday was caused by concentration of geese in this area.

Numerous flocks of geese were in the air all afternoon, and hunters situated in vantage spots, and with suitable set-ups, were getting some fine shooting.

Max Jensen reported in with a pair of Canada geese and a three-mallard limit of ducks. In all the years that he has hunted ducks and geese, Max said that he had never had the good fortune to meet up with geese in such numbers as he saw yesterday. "He "filled out" by 3:30 P.M.

There was plenty of activity on geese, along the boundary of the Mud Lake refuge, particulary along the west boundary and the southwest boundary. Clarence and Vern Forsberg and Junior Lendobeja were successful in bagging five geese, hunting the area southwest of Mud Lake.

We circled around Mud Lake, visiting with friends, and found that the duck hunting activity was centered in the area just off the northwest boundary of the refuge. Ducks, with mallards being in the majority, were being dropped with pleasing regularity.

The Karlstad Rabbits took another step toward the East half Northern Lights conference football title when they defeated the Newfolden Nordics, 27 to 18, at Newfolden on Friday afternoon. Coach Jack Junker's Newfolden squad held a 12 to 7 lead at the intermission, but Karlstad's splendid quarterback, Leon Olstad, tossed a pair of touchdown passes in the second half to spark the Rabbits to their win.

Lancaster, Hallock, and Drayton, N. D. are in a 3 way race for the West half title. Lancaster, with two wins and a tie, holds a slight lead over Drayton and Hallock. The Drayton squad has two wins and two ties, while Hallock has one win and two ties.

The winners of east and west half divisions in the Northern Lights conference will meet in a championship game on October 30, to determine the conference championship. The site of this year's game will be selected by the west half winner.

'60 Rambler Shown in TRF Next Week

C. Gustafson & Son to Show Improved Models

Featuring fresh styling and economy of operation, the 1960 line of Rambler Six and Rebel V-8 models will go on sale here October 14 at C. Gustafson & Son, local dealers.

The new models will be slightly shorter than comparable 1959 models but will have the same roomy interior dimensions, including five-foot-wide seats for six passengers. The more compact exteriors will permit even greater parking ease and maneuverability.

Horsepower of the Rambler Six will remain at 127, while the Rebel V-8 has been reduced to 200 horsepower for increased fuel economy. Optional power-packs will increase the Six to 138 h.p. and the Rebel V-8 to 215. A further fuel-cost saving is possible because regular grade gasoline is recommended for all models.

Slow Down and Live!

DETROIT, OCT. 5—The 1960 Dodge Dart station wagons are offered in 6-passenger and 9-passenger models, with a choice of 6 or 8-cylinder engines. *This 9-passenger Pioneer is equally at home on a drive to the corner store or a long vacation trip.*

State Sells $731,746 in Timber Products

A total of $731,746.36 for state of Minnesota revenue and trust fund accounts was realized for the fiscal year July 1, 1958 to June 30, 1959 from the sale of timber products harvested from state owned lands, E. L. Lawson, director of the division of forestry reported to George A. Selke, conservation commissioner.

The total harvest consisted of 10,312,00 board feet of logs, 199,00 cords of bolts, pulpwood and fuelwood cords, 477,500 poles and posts, 27,800 railroad ties and 1,062,500 Christmas trees. All products were cut from state land on auction bid sales, or small sales of less than $350 values.

Timber on state land is harvested under a long-range program of timber management for sustained yields, Lowen said.

The volume cut was 11 per cent less than last fiscal year and less than the record sales of 1957. However, the number of small sales increased from 2,398 in 1958 to 2,687 in 1959 and the number of 1959 small sales is exceeded only by the record year of 1957 when more than 3,000 were issued.

The bulk of the money income is transferred to state trust funds; $307,000 swamp land trust fund; $127,000 conservation area fund; $32,900 acquisition fund; $19,800 state forest fund; $9,000 general revenue funds; and $4,500 miscellaneous funds.

Five-state Parley on Aging to Be Held in Minneapolis

Conference on Problems Relating to Old Age Is Set for October 14 and 15

A five-state regional conference on aging will be held in Minneapolis October 14-15 in the Leamington Hotel. The two-day meeting will be sponsored by the American Medical Association's committee on aging and the state medical associations of Iowa, Wisconsin, North Dakota, South Dakota and Minnesota.

Members of agriculture, industry, health professions, churches, education, business, government, women's organizations, communications media and civic groups have been invited to attend the meeting.

President of the Minnesota AMA, Dr. Benjamin B. Souster, St. Paul, said in announcing plans for the conference, "We need to explore the opportunities for positive health and meaningful living among older people through exercise of individual, group and community initiative.

"With nine per cent of the nation's population now over 65 and the percentage increasing, it is important for every American to give thoughtful consideration to the aging process and its implications — to individuals and society alike."

According to Dr. Souster, specific objectives of the conference are:

To appraise the significance of the longer life span and its impact on individuals and society.

To analyze relationships between social, economic, psychological and physiological factors and the health of older persons.

To explore realistically the opportunities and needs created by a growing population of older persons.

To assess responsibilities of the individual and of both medical and non medical groups in dynamic approaches to the new era of aging.

A tree continues to grow until death. Some botanists believe trees die only from such causes as disease and injury.

Boom Turns to Gloom

There were ten banks in Pennington county at the dawn of 1920. Four of them were located in Thief River Falls, two in St. Hilaire, two in Goodridge, one in Hazel and one in Mavie. And what was true for Pennington county was true for neighboring counties, and for the entire area. Few of these banks were still operating in 1930.

At the national level the most disastrous period for banks was during the 'thirties ... Nationally, the 'twenties were fairly prosperous, the boom ending suddenly with the stock market crash of 1929. The bank holiday of 1933 put an end to a nation-wide run on banks by doubting depositors, and many great banking institutions failed to resume business when the holiday ended.

But in our area, and in the state, the era of bank failures had passed at the time of the bank holiday. We took our licking in the twenties.

The ten banks that were operating in the county in 1920 were doing well and there was no evidence of concern about the future. Market prices for farm products were not at their war-time peak but they were still strong. According to the Times market report, wheat was bringing $2.81 in July of that year. Flax was $4.14 barley $1.39, rye $1.66 and oats 89c. Butterfat was around ... the Times noted that there had been 34 creamery patrons whose cream brought them more than $50 during May. Hans An... was the top producer with a cream check of $300.07. Waldie Christensen was second with a total of $256.84. The community was bursting with optimism.

The city was going to get out of the mud with an extensive paving program. Voters had just approved the building of a new high school by authorizing a bond issue in the amount of $135,000. The proposal carried by a large majority. The board of the recently organized Red Lake Drainage and Conservancy District had held its first meeting and was going ahead hopefully with a plan to improve drainage in the eastern townships by dredging the channels of the Red Lake and Clearwater Rivers. Congressman Steenerson was getting legislation passed by Congress to authorize control works at the outlet of Red Lake and government financial assistance. It was in the bag.

At a Guernsey sale held here in the summer of 1920 the top cow brought $850, the animal being consigned by L. Jenson of Clearbrook and bought by a young Guernsey fancier of the Goodridge community. His name was Stuart McLeod.

In the late months of 1920 farm prices started to sag. Following are the prices of the leading products as reported by the Times.

	Sept. 9	Oct. 14	Nov. 11	Dec. 23
Wheat	$2.88	$1.93	$1.53	$1.39
Flax	3.01	2.67	1.99	1.67
Barley	.79	.65	.64	.47
Rye	1.71	1.49	1.32	1.25
Oats	[illegible]	.40	.35	.33

This general decline in the market value of farm products continued through 1921. The folks who, during the war years had said we would never see dollar wheat again proved to be wrong. These figures tell us why the number of banks in the county was reduced from ten to two.

But the pioneering spirit of the people still prevailed. The low market was a temporary thing. Next year would be better. In April of 1921 the county board sold a $115,000 bond issue for another ditch to cost $89,000, the rest of the money to be used for ditch repairs. The Sanatorium Board authorized a nurses home and administration building at Oakland Park at a cost of $45,000, and the contract was let for the new Knox school building. Across the river in the old mill yard, a three-hole golf course was started. Official census figures were announced, revealing the encouraging fact that the population of Thief River Falls had increased from 3,714 in 1910 to 4,685 in 1920, and in October of 1921 the mayor of Thief River Falls was sure the population would swing sharply upward to 25,000 by 1925.

In spite of adverse trends the people of the community, rural and urban, had remained hopeful. But there were straws in the wind that indicated growing concern. At a ditch hearing held late in 1921 the Times estimated that nine-tenths of the land owners present were opposed to a proposed improvement. Judicial Ditch No. 20 had served as the outlet for Ditch 18. A new ditch, taking the Ditch 18 water directly to Thief river, had been recommended as the proper solution, Ditch 20 having proved to be inadequate. The estimated cost was $100,000, and the land owners were already having difficulty in meeting their obligations. But the court ordered the contract to be let. Land owners now may look upon that direct outlet as a good thing. Many land owners who lost their farms in the years that followed because of their inability to pay their bills were understandably unhappy.

The concern about where the dollars were to come from did result in a substantial saving in the building of the Knox school. Before the start of the farm market slide, the city taxpayers had authorized a bond issue for the building of the school in the amount of $135,000. Bids were rejected at the later letting because the total cost of $104,800 was considered too high. At a second letting, in May of 1921, contracts for the 14 room building were let at a total cost of $71,455. The general contract was awarded to the Prichard Company of this city for $52,885.

In the fall of 1921 the city became aware of a serious unemployment problem. The Times appealed to its readers to make a special effort to create more jobs. "Too many men who are willing to work can find nothing to do," it said.

The December 9 issue of the Times reported that a Greenbush bank had "suspended business" for a period of 30 days "because of a failure on the part of farmers to liquidate their loans." The bank reopened on January 18. Late in October an attempt was made to organize the wheat farmers, and many refused to sell at prevailing prices. Wheat was then down to $1 and flax was selling at $1.46.

At a meeting held in Crookston an appeal was made to farmers to sell 15 per cent of their crops in order to liquidate debts.

And so the decade, that opened as an era of boom, lapsed into an era of gloom.

Toughest Driver in Town!
Careful Percy McFidget—who would believe that he's harder on his car than anybody in town? Why, he never goes over 35 or takes a trip over 10 miles!
Actually this kind of driving is very hard on a car engine because the engine seldom gets "warmed up" sufficiently. The oil tends to be sluggish. Sludge forms in the crankcase. The way is open for dangerous wear and corrosion.
But there's something you can do about this, to *protect* your motor. If you have to do a lot of start-and-stop driving at low speeds, as most of us do, use Trop-Artic* Motor Oil. It flows fast ... resists sludge formation ... helps your car run better, longer. Get Trop-Artic Motor Oil at any station where you see the Phillips 66 Shield.

COLD WEATHER COMING

"Flex-O-Glass has made our porch a year 'round, livable room. The children love it."
"Here's an inside view of our large screened porch. If you couldn't see the snow outside, you'd think it was taken in summer. What doesn't show is the crystal clear Flex-O-Glass tacked over our screens—an invisible barrier between our home and winter. This is the second year we have used the same Flex-O-Glass. We expect it to last at least two years more. That means it will cost us only about $15 a year to protect the rest of the house against drafts. We can leave our furniture on the porch the entire year and provide a warm, protected play area for the children. If you would like to use this letter to tell other home owners how much they're missing by not using your wonderful Flex-O-Glass to protect their homes against winter weather, you have my enthusiastic approval."

A car with major advances in transmission, suspension, brakes, and engines which are Buick's alone today.
A solid, substantial car • A car of superb comfort, quiet, reliability • A car you should drive soon

New comfort, quietness, and quality Doors that open wider — easier to get in and out. Family-size interior. Seats that are higher, more deeply cushioned, and repositioned to provide more room for feet and legs. Perhaps the quietest running car in America due to Buick's high use of insulation and torque-tube drive. Buick's quality control program comes to a peak in the Turbine Drive Buick '60.
New interior decor and convenience An entirely new "Mirromagic" instrument panel. It lets the driver see speed, gas gauge, and other necessary readings at a glance in a mirror he tilts to suit his own eye level. And a new exclusive safety option — the Twilight Sentinel*—that turns headlights *on automatically* at sunset . . . *off automatically* at sunrise. All-new colors and fabrics. Richer appointments. *At slight extra cost.
Outstanding performance with economy 1. Buick's Exclusive Turbine Drive Transmission† is jet-smooth, responds faster, more economically than ever. No gears ever shift while the car is in motion. 2. Buick's Exclusive Air-Flo Aluminum Drum Brakes—found on no other American car. Flo-cooled drums front and rear for faster cooling. Fast cooling means safer stopping, longer brake life.
Slotted wheels pass a current of air [illegible] under the car constantly over the brakes for added cooling efficiency. (Wheels are 15" size which gives you up to 1/3 [illegible] tire life.) 3. "Be a thrift-teener," says Pat Boone

"Thrift-teeners are teenagers who've learned the habit of saving some of their allowance or job money regularly. In my book it's a pretty good habit to have.

"It's the best way to get enough money for the *big* things you want. And a great place for teenagers to save is at an Insured Savings and Loan. There your money is safe and earns more money for you."

So be a thrift-teener. Start saving at our Association today. We'll be glad to see you and help you work out your savings plan.

Traffic Accidents in State Increase in '59 but Deaths Are Down

Traffic accidents reported in Minnesota during the first six months of 1959 jumped 2,279 over the same six months of 1958, according to a summary report issued by the Minnesota highway department.

During the 1959 period, 29,280 traffic accidents were reported compared to 27,051 in 1958.

In the 1959 accidents, 12,414 persons were injured—726 more than the 11,688 injured in 1958. However, the 273 fatalities during 1957 were 38 less than the 311 deaths recorded during the first six months of 1958.

Three-fourths of all accidents reported occurred in urban areas over 2,500 population, with 11,245 of the 22,365 urban accidents reported from the three cities of the first class, Minneapolis, St. Paul and Duluth.

In contrast, almost three-fourths of the fatalities occurred on rural trunk and non-trunk highways. The rural accidents accounted for 166 of the 227 deaths on those highways where speeds are higher.

An encouraging sign in the cold traffic statistics is the 16 per cent drop in the rate of fatalities per 100 million vehicle miles traveled. At the end of the six month period, the rate had dropped from 5.0 to 4.2, while the estimated motor vehicle miles traveled climbed five per cent to 6,578 millions of miles.

'60 Dodge and New Dart Shown Friday

Forkenbrock Motor Co. to Display New Models

Dodge has introduced two all-new lines of roomy, comfortable cars with outstanding roadability and ease of handling — the Matador and the Polara. They will be shown Friday at the Forkenbrock Motor Co. in this city.

"These low-medium priced cars will be offered in 11 sedan, hardtop, station wagon and convertible models featuring a combination of the most important engineering and styling changes that Dodge has ever made in a *single model year*," M. C. Patterson, Dodge general manager said.

"The new 'Unibody' construction of the 1960 Dodge Matador and Polara is the greatest step forward in automobile body building since Dodge introduced all steel bodies," he said.

Also to be shown Friday is the 1960 Dodge Dart, the first completely new full line of automobiles to enter the low-priced field since 1928.

The smaller Dodge Dart, designed to fit the family pocketbook as well as the family garage, will be offered in 20 sedan, station wagon, hardtop and convertible models.

"These economy cars are designed to compete in price and size, series for series, with the automobile industry's low-priced big three," said Patterson.

The 1960 models will be available in three series—the lowest-priced Seneca, the Pioneer and the top-series Phoenix.

American Motors Unveils 1960 Ramblers

Crisply sculptured lines which blend with each other to provide an overall "package" design highlight the Rambler line for 1960, which goes on sale October 14. An addition to the line is a new three-seat station wagon. Horsepower ratings are 127 for the Six and 200 for the Rebel V-8. Optional power packs are available. The newly designed interiors provide five-foot-wide seats for six passengers. The 1960 models have larger windows and increased entrance room. Shown is the Rambler Six Custom four-door sedan.

WILDLIFE in Minnesota

by JIM KIMBALL, Director of Game & Fish

No one in his right mind would predict the success of hunting seasons—so who wants to be in his right mind?

The 30-day sharptail grouse season with five weekends got started in a drizzling rain and was not too spectacular. However, sharptails do appear to be on the increase, at least the rate of producion is up. Last year the biologists found 55% of the sharptails bagged opening weekend were young birds. This year it is up to 75%. This increase in percentage of young in the population is always most encouraging. Last year, Minnesota hunters killed 66,000 sharptails, and we are guessing it may be a bit higher this year. At the time of this writing there is no information available on the ruffed grouse season which will have opened last Saturday, but we believe it will be as good, or a trifle better, than last year when we took over one-half million birds. I do wish sportsmen would learn that ruffed grouse hunting is seldom good at the opening and improves as the season progresses. With leaves on the trees and brush, it is difficult to see these partridge, to say nothing of trying to shoot them. Unfortunately, a lot of people go out on the opening, have poor luck, and decide there just aren't any grouse. A few weeks later the wardens are writing in asking why they don't have any grouse hunters when the shooting is good. Were it not for this problem, we might even open ruffed grouse a little earlier. It does give us an excuse for walking woods-roads when Minnesota is dressed in her gaudiest gown. We should go again later to get some grouse. With a 44 day season including seven weekends, we will have plenty of opportunity.

Thanks to liberalization of the law during the last session of the legislature, we now have a 90-day squirrel season opening Oct. 3 instead of Oct. 18 as last year. We may not have quite last year's bumper crop of squirrels, but they will be plentiful throughout much of the state. One-half million were taken last year.

The rabbit season is the longest of all, starting Oct 3 and running for five months. When a fisherman also happens to be a rabbit hunter, he is never home. Hunters took one-half million of these sporty animals last year, and there are many more to be had. October 3 is also the opening of the 'coon season, which should be good. We harvested 28,000 of these animals last year.

The next major opening will be October 7 for ducks, geese and snipe. The 50-day duck season with a daily bag limit of 3 and the mid-week opening represent a sincere effort to reduce the harvest of ducks. More than one million were taken last year. Because of duck depletion due to drouth in the prairies, we are obligated to cut this kill down, if possible. However, the prairie drouth has concentrated ducks in both Minnesota and Manitoba, so we are guessing there will be some good duck shooting this fall. Last year, Minnesota hunters killed over 11,000 geese, and I am hoping they will do at least that well with a 70-day season this year. The jacksnipe is another neglected species with excellent sporting qualities. Minnesota took only 8,000 last year.

Then, of course, comes the 30-day pheasant season on October 21 and the deer opener on November 7. Last year 197,000 big game hunters killed over 75,000 deer for a success ratio of close to 40 per cent. This is very good, and indications are that we might do as well, or better, his year. Fortunately, we have had a series of mild winters which held deer starvation losses to a minimum.

All in all, it looks as if Minnesota hunters will burn a lot of ammunition this fall, drag home a good many tons of meat and, most important of all, have a heap of fun doing it.

Hinckley Creamery Men Top Winners in Buttermaking

Archie Christianson of Rindal Named Winner in Region 1 Competition

A Hinckley craftsman is 1959 Minnesota state champion buttermaker it was announced Tuesday, and another worker in the same plant is runner-up for the coveted title.

Gerald J. Von Rueden, buttermaker at Hinckley Cooperative Creamery since 1939, won this year's title with an average score of 99.45 in the four annual statewide contests on which the championship is based. Reserve champion is Eldridge C. Gebhart with a 99.41 average score.

It is the first time in the 30-year history of the selection that the top two honors have been won by craftsmen in a single plant.

Winners were named at Tuesday's opening of the 66th annual two-day Minnesota Creamery Operators' and Managers' association convention attended by some 1,000 persons at the St. Paul hotel.

Minnesota's state champion buttermaker is determined by averaging scores in four separate contests sponsored by the Minnesota Department of Agriculture, the Minnesota State Fair, the Minnesota Dairy Industry committee and the Minnesota Creamery Operators' and Managers' association Standards, which are the same in all four contests, are recognized as the highest in the world.

Winners of American Dairy association regional trophies in the championship series included Region 1, Archie G. Christianson, Fertile (Rindal), 99.28.

IT'S A SMALL WORLD

Ever run into a friend in Tokyo, or meet one of your neighbors in Amsterdam? Maybe not—but such things are happening every day!

It makes you stop and think—the way this world is shrinking. It makes you wish that the men and women who live on opposite sides of the globe had more things in common.

There can be no more unifying force in the world than a common belief in God. And toward that ideal we are rapidly progressing: Christians the world over are feeling and expressing their unity of faith and purpose.

Sunday is World-Wide Communion Sunday. On that day, within the space of a few short hours, Christians in every land will reverently participate in the Lord's Supper which has been a mark of Christian faith for almost two thousand years.

Worship with the World in the Church of your choice!

THE CHURCH FOR ALL . . . ALL FOR THE CHURCH

The Church is the greatest factor on earth for the building of character and good citizenship. It is a storehouse of spiritual values. Without a strong Church, neither democracy nor civilization can survive. There are four sound reasons why every person should attend services regularly and support the Church. They are: (1) For his own sake. (2) For his children's sake. (3) For the sake of his community and nation. (4) For the sake of the Church itself, which needs his moral and material support. Plan to go to church regularly and read your Bible daily.

Strandquist . .

Mrs. Ed Stenson, Strandquist

Bob and Virgil Dahlin arrived from Minneapolis Saturday to get their dad, Fred Dahlin, who has spent some of the summer months on his farm. He will be a resident at a rest home in Minneapolis this winter.

Mr. and Mrs. Swan Lindstrom are now full fledged residents of our village, having moved in about ten days ago. They have lived on the Lindstrom home farm all their married life so the roots were pretty deep as Swan had grown up on the place.

Enjoys Birthday Surprise

Mr. Eckblad and daughter, Edith, and Mrs. Alma Strand drove out from Warren to the Sihlberg brothers farm last Sunday to surprise Sadie on her 81st birthday. A lovely birthday cake and lunch was served by the guests. It was belated as Sadie came out to be with her brothers the birthday week before but it was a special surprise to have Mr. Eckblad out as he will be 93 in January. Thanks to the Eckblads and Alma as we sure had a happy surprise.

Sunday, the Sihlberg brothers and Sadie were dinner guests at the P. E. Sihlbergs after the service and also called on Mr. and Mrs. Swan Lindstrom, who had just moved into their new home in Strandquist. May we wish them joy and God's blessing in their new home!

Mr. and Mrs. Alfred Carlson have come back from Frazee and Alfred is back at his old job at the Johnson Oil company.

Mr. and Mrs. Harvey Bakke and children of Rantoul, Ill., Mr. and Mrs. Wallace Paulson and Jacque of Minneapolis and Mr. and Mrs. Alton Henrickson and sons of Lankin, N. D. were weekend guests at the parental Otto Paulson home. They had attended funeral services in the Methodist church at Erskine Saturday for their nephew and grandson. Our sympathy to the Hoffus family and relatives.

Congratulations and best wishes are extended to Mr. and Mrs. Eddie Nelson who are now going to operate the Myszkowski store that Mathin has managed since he purchased it from Herb Johnson on April 1st, 1919. No wonder he wants to retire after 40 years of business cares! Mrs. John Berggren is assisting in taking inventory.

Hold Celebration Saturday

The weatherman favored the Strandquist celebration with a sunny day Saturday. A sale was held by the hall, although in these busy times not many articles had been brought in. Mr. Osborne of Viking amused young and old with two black bear cubs that rode around in a express wagon. They ate apples, pop corn or whatever people fed them. Elmer Peterson's Pony farm of Middle River brought a truckload of ponies for rides which the children kept busy all afternoon. The school band favored us with music while the band boosters club held a rummage sale in the hall. A parade of doll buggies, bicycles and tricycles kept the youngster busy all afternoon. The doll buggy winners were judged on originality, costumes, etc. First prize went to Lynnette Blaze, 2nd to Debbie Thun, 3rd was split to Susan Nelson and Susan Grembowski. The first prize of the bicycle riders was split by Arthur Johnson and Sharon Stallock as bride and groom, Sterling Haugard, second as a cowboy and third went to Mary Ellen Saten on her tricycle. There should have been a prize for all those youngsters! The foot races then were started by 1st and 2nd graders. Scott Thun, 1st, and Andy Boen, 2nd; 3rd and 4th grade, Renae Boen, 1st, Ricky Anderson, 2nd, Hugh Nelson, 3rd; 5th and 6th grades, Beverly Chwialkowski, 1st, Neil Anderson, 2nd; sack race, 1st and 2nd grade, Scott Thun, 1st, Tommy Blazejewski, 2nd, Andy Boen, 3rd; sack race, 3rd and 4th, Donald Larson, 1st, Renee Boen, 2nd; sack race, 5th and 6th, David Chwialkowski, 1st, Sharon Stallock, 2nd, Jimmy Larson, 3rd. Winners at the 5 p.m. drawing were Sam Dahl, 3 lbs. of butter from the Produce; Roy Duvos, 25 lbs. of grease from Haugard Imp. Co.; Gina Thrane, $2.00 from Dolpha Johnson; $3 from Ray Anderson to Mrs. Algon Lindgren; 1 case of beer or pop from Les and Tony to Wm. Haugen; 2 gallons anti-freeze from Johnson Oil Co. to Albin Lofquist; case of pop from Strandquist Shipping ass'n. to Mrs. Swan Lindstrom; 1 basket of groceries from Hansens to Mrs. Hilma Lofstrom; 1 gallon ice cream from Judy's Cafe to Herbert Johnson; 1 box apples from Martin Myszkowski to Mrs. John Waureznlak; 1 gallon ice cream from Carlson's Cafe to Frang Grochowski, $1.50 radio service to Mrs. Gerald Nelson; $2.00 Co-op elevator to Mrs. John M. Johnson; Myles Lundstrom was absent when his name was drawn for $40 in the evening, Mrs. Herman Nelson and Mrs. Sarah Wikstrom each received $5.00. Announcing!

A WONDERFUL NEW WORLD OF FORDS FOR 1960

FINEST FORDS OF A LIFETIME

This new Ford Galaxie, like all the new, beautifully proportioned 1960 Fords, is styled from a new viewpoint. Traditional automotive elegance combines with modern design in the style of a new decade!

In 1960, for the first time in history, your Ford Dealer presents not one, not two, but *three new lines* of Ford cars . . .

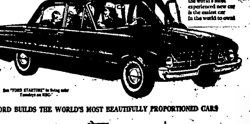
1. The 1960 Fords—The Finest Fords of a Lifetime, beautiful from any *Point of View*, worth more from every *Point of Value!*
2. The 1960 Falcon—The New-size Ford, the world's most *experienced* new car and the easiest car in the world to own!
3. The 1960 Thunderbird . . . The World's Most Wanted Car!

Now you can *see* them—the Finest Fords of a Lifetime! Economy-minded Fairlanes. Big-value Fairlane 500's. Elegant Galaxies. A breath-taking new Sunliner convertible and a brand-new hardtop model, the flashing Starliner. Then there's a whole new world of Station Wagon Living, too. It all adds up to 15 glittering variations of the world's newest, most elegant styling theme!

And Ford sets the new trend in power. Ford's Thunderbird 292 V-8 and 352 V-8, like the famous Mileage Maker Six, bring a new world of smoother, hotter performance—on *regular* gas. To top it all, the Finest Fords of a Lifetime are priced for savings. Ford is still priced to outvalue all comparable models of its major competitors.

Ford savings, however, only *begin* with a low price. You save still more with engines that thrive on regular gas and save up to a dollar on every tankful . . . a Full-Flow oil filter that lets you go 4,000 miles between oil changes . . . Diamond Lustre Finish that never needs waxing . . . aluminized mufflers that normally last twice as long as conventional types . . . new, safer, Truck-Size brakes that are the biggest ever in Ford's history . . . and new soft-tread, Tyrex cord tires that run quieter, last longer.

In every way these are the Finest Fords of your Lifetime! See them at your Ford Dealer's!



FORD DIVISION, Ford Motor Company

Introducing the New-Size Ford . . . the 1960 Ford *Falcon*

Meet the New-size Ford—the Falcon! Here's a car with plenty of room for *six* big adults and all their luggage. It's sized to handle and park like a "small" car . . . powered to pass and climb like a "big" car . . . and built like *no* other car for savings!

It gives you up to 30 miles per gallon on regular gas. Aluminized mufflers normally last twice as long as ordinary kinds. A Full-Flow oil filter lets you go 4,000 miles between oil changes. Even insurance can cost you less! And this Falcon is the world's most *experienced* new car. It was driven over every mile of numbered Federal Highway in EXPERIENCE RUN, U.S.A.—a grueling demonstration climaxing Ford's 3 years of development and testing.

The Falcon has the features that American car buyers *expect*. Its gearshift is on the steering column—*not on the floor*. Its engine is located *up front* for greater stability and safety. Best news of all is the Falcon's low, *low* price. See it at your Ford Dealer's . . . and see the *difference!*

THE FALCON FORDOR SEDAN the world's most experienced new car is the easiest car in the world to own!

Another fresh one...from Pontiac!

The 1960 Catalina Convertible

You find it attractive because of the simplicity of lines, the absence of over-design.

You're drawn to its crisp freedom, its perfect form, its exhilarating freshness.

You'll find it amiably obedient because of Wide-Track Wheels and a thoroughly new suspension system. Wide-Track firms the foundation, stabilizes, balances. A softer suspension makes it responsive, quick and easy to take direction.

Pontiac's Tempest engines for 1960 are more vigorous than ever. You have a wide choice of V-8 power packages, ranging from the high performance 425 to the economical 425E which prefers regular grade gasoline.

The car, the keys, the catalog, the courtesy—all await you at your Pontiac dealer.

Wide-Track Wheels give you swayless stability, solid comfort. You maneuver with skillful sureness, accurate control. It's the sweetest, most precise, most rewarding driving you've ever felt.

Farmers Urged to Bring Soil Samples to City Oct. 15-16

Soil Testing to Be Conducted When Supply of Fertilizer Is Bought

This is the week for all farmers to bring their soil samples to Thief River Falls. A complete soil testing promotion will be conducted in the city on October 15 and 16, it was announced by fertilizer dealers in Pennington county and by the cost of the soil tests during the two days.

A trailer provided by Samford Trailer company — or perhaps on the shop by the part of the city — will be stationed at the Red Owl store to collect soil and pay one dollar per soil sample. The money paid by the farmer will be subtracted from the fertilizer bill when the fertilizer is purchased.

All farmers in Pennington, Red Lake, Marshall and Red Lake counties are urged to attend. They are urged to bring their soil samples on October 15 and 16. The trailer will be open from 8 a.m. to 5 p.m. of each day. Fall is an excellent time to test soil since the University of Minnesota recommends applying fertilizer in the fall when there is time.

A small farm can be increased in size through proper fertilizer application, said County Agent Paul Stolmaszek. More can be produced on the land that is already now used. The type of fertilizer application needs to be based on laboratory analysis of what the soil needs, so soil testing is essential.

Community Chest Campaign to Open Monday, Oct. 19th

Businessmen Already Have Been Solicited by Mail, Says J. Pritchard

Details of the 1958 Pennington county Community Chest campaign have been completed and the—drive—will—officially—open Monday, Oct. 20, according to Gerald Pritchard, president.

Seven teams, with nine chairmen, and—four—all division chairmen have completed their solicitation work and are now assigning workers to the various teams.

Contributions were accepted by mail by staff and county officials were good, according to Pritchard. A reminder was emphasized by Robert Baier and J. J. Womack, co-chairmen of the industrial division, that the mail solicitation is separate and be confused with the campaign which will cover residential areas when the drive formally opens. Dr. Ed Gilbert, chairman of the residential area drive, is expected to announce the names of the complete coverage of the residential area later this week.

Shirley Hutchinson And Maurice Russell Are Wed

Rev. Marvin O. Carlson performed the double ring ceremony Saturday evening, Oct. 10, at the First Lutheran church, which united Shirley Ann Hutchinson and Maurice Allen Russell, both of Thief River Falls, in holy matrimony.

The bride is the daughter of Mr. and Mrs. Clyde Hutchinson of Goodridge, while the bridegroom's parents are Mr. and Mrs. [illegible] Russell of Thief River Falls.

The altar of the church was graced with floor baskets and bouquets of autumn flowers. Shirley Peterson was at the organ, playing the nuptial music and accompanying Deanna Homstad of Minneapolis, cousin of the bride, as she sang "I Love You Truly," "Because" and "The Lord's Prayer," as the couple knelt at the altar.

Entering in on the arm of her father, the bride was attired in a floor length gown of white Chantilly lace and net over pale blue taffeta. It featured a low scalloped neckline and long sleeves which came to a point at the hand. Her fingertip veil fell from a jeweled crown and she carried a crescent bouquet of autumn colored roses and feathered carnations.

Mrs. Bernard Wells of Goodridge, sister of the bride, was matron of honor, followed by Mrs. Bud Olson of Minneapolis, friend of the couple, and Mrs. Don Larson of Thief River Falls, sister of the bridegroom, as bridesmaids. They were attired in beige street length dresses accented with a lace bodice and [illegible] overskirt. Their bouquets were of autumn colored roses and [illegible] carnations, as were their headpieces.

Little Cindy Homstad, cousin of the bride of Hallock, who wore a floor length gown of white organdy over pale blue taffeta and carried a basket of fall flowers, was flower girl. Jeffrey Homstad of Hallock, cousin of the bride, was ring bearer.

The bridegroom was attended by Bernard Wells of Goodridge, brother-in-law of the bride, as best man, with Don Larson of Thief River Falls, his brother, and Bud Olson of Minneapolis, friend of the couple, as groomsmen. Ushers were Dale Grondahl, brother-in-law of the bridegroom and Don Myers, friend of the couple. All the gentlemen of the bridal party were dressed in white dinner jackets, black trousers and boutonnieres.

For her daughter's wedding, Mrs. Hutchinson chose a dark fall print dress with matching accessories, as did the bridegroom's mother. Their corsages were of fall flowers.

Approximately 200 relatives and friends attended the reception held following the ceremony in the church parlors. A three-tiered wedding cake topped with a miniature bride and bridegroom centered the serving table. Mrs. Del Seefeldt served as hostess, assisted by the Mary unit circle of the church.

Mrs. Christine Hallberg, aunt of the bride, and Mrs. George Poppenhagen, aunt of the bridegroom, poured, while Mrs. Gilbert Lange of Minneapolis, aunt of the bride, cut and served the cake. Mrs. Henry Panek of Goodridge, sister of the bridegroom, served the ice cream. At the guest book was Mrs. Stanley Olson of Forest Center, with Mrs. Dale Grondahl, sister of the bridegroom. Mrs. Emery Horlen and Mrs. Sy Torgerson at the gift table. Waitresses were Mrs. Kenneth Bickel and Mrs. Duane Peterson.

For their honeymoon trip to the New England states, Mrs. Russell chose a dark brown knit suit, with matching accessories and a fall corsage. Upon their return they will make their home at 112½ N. Horace in this city.

The bride is employed as bookkeeper at Western Oil & Fuel in this city, while the bridegroom, a graduate of Lincoln high school, is a yard clerk for the Soo Line.

Relatives and friends from Denver, Colo., Ft. Leonard Wood, Mo., Kenora, Can., Minneapolis, Hallock, Warroad and Goodridge attended the wedding.

Nuptial vows were exchanged Saturday, Oct. 3 by Miss Alice Marie Mathiason, daughter of Mr. and Mrs. Alvin Mathiason of Grygla, and Ralph Stinar, son of Mr. and Mrs. Andrew Stinar of Warren, at the Zion Lutheran church at Warren.

Officiating at the double ring ceremony at 2 p.m. was Rev. Roger Fischer with Mrs. Gordon Sommers of Warren at the organ.

Given in marriage by her father, the bride chose a white floor length gown of embroidered net over satain. It featured a lace bodice and sleeves and her fingertip veil fell from a pearl crown. She carried a colonial bouquet of sweetheart pink roses and white mums. Her pearl necklace and earrings were a gift of the bridegroom.

Matron of honor was Mrs. Myron Stinar, sister-in-law of the bridegroom. She was attired in a light blue lace over taffeta dress with black accessories and carried a bouquet of yellow and white mums. Her earrings and necklace was a gift of the bride.

Attending the bridegroom as best man was his brother, Myron Stinar of Warren.

For her daughter's wedding, Mrs. Mathison chose gray dress with black accessories while the bridegroom's mother wore a navy blue dress with black accessories. Their corsages were of yellow and white mums.

A reception was held following the ceremony at the Andrew Stinar home near Warren for immediate relatives and friends. Special guests were the bridegroom's maternal grandparents and uncle, Mr. and Mrs. K. O. Hegge and Glen of Oklee.

Following a short wedding trip Mr. and Mrs. Stinar are making their home in Warren. Mrs. Stinar is employed at the Warren hospital while the bridegroom is with Boardson's Super Fair in Warren.

Wool Promotion Fund Is Approved by Growers Here

County Men Vote 83 to 7 in Favor of Making 1-cent Deduction from Payments

Patrick W. Culkins, manager of the Pennington county Agricultural Stabilization and Conservation office, today announced the results of the wool referendum recently held in which producers made their decision as to whether or not they would sacrifice 1c per pound on all wool sold by them to be used for promotional purposes.

Of the 212 eligible voters in Pennington county, 83 cast their ballots in favor of the deduction, while 7 voted against the promotional fund.

Lastest information available indicates that approximately 77 per cent of the eligible voter over the nation favored the promotional fund deduction, which means that 1c per pound will be deducted from the incentive payment made to each producer on each pound of wool sold by them in 1959, 1960, and 1961.

TRF Creamery Gets Aluminum Churn

Other New Equipment Items Also Installed

A new aluminum churn is now in operation at the Thief River Creamery, replacing two wooden churns. Supplementing the churn is a computer gauge that will make possible a more accurate blending of ingredients necessary to the churning process which should result in a better texture and higher quality product, Paul Rossi, manager, states.

An open house Thursday afternoon will enable visitors to inspect this new equipment.

The churn has a capacity of 4,000 pounds of butter to a churning and Rossi states that it is capable of handling an annual volume of 3 million pounds of butterfat. It should mean greatly increased efficiency.

An additional holding tank was added to the creamery's equipment earlier this year, and the two 5,000 gallon tanks now extend outside the building. With the wooden churns out of the way the main operating room is no longer crowded.

These steps forward in the modernization process are desirable preliminaries to the adoption of bulk handling of milk which would reduce the cost of a pick-up service and should also result in a better quality product.

Electrical and Plumbing Men to Map Course Here

Electrical and plumbing contractors and all men working in these trades are invited to attend a meeting in the area vocational school at Thief River Falls on Tuesday evening, October 13 at 8 p.m.

The purpose of the meeting, Stan Nelson, director, stated, is to discuss the possibility of offering related evening training which will assist tradesmen in developing additional skills for advancement in their field of work.

Frank Musala, director, and Harold E. Warner, Field Representative, both of the division of apprenticeship, will be present at teh meeting to discuss the training program to be offered.

St. Cloud Man Is Speaker at Local K. of C. Meeting

Cyril Fischer of St. Cloud, state insurance representative for the Knights of Columbus, was the guest speaker at a meeting of the local K. C. council Thursday evening in St. Bernard's hall.

Members were invited to attend a communion breakfast in Brooks next Sunday morning, October 18, at the 8 a.m. mass. Fourth degree members of the Crookston council will be present.

December 6 has been set as the date for an initiation ceremony at St. Bernard's hall.

Warroad Youth Is Collision Victim in Roseau Co. Sunday

James Ulwelling Dies at Accident Scene; 3 Others Hospitalized

A two-car collision about 2 a.m. Sunday took the life of a rural Warroad youth and left three others hospitalized, according to a report by the Roseau county coroner's office.

James Ulwelling, about 19, died at the scene of the collision. He and three others, Floyd Sjostrand, Warroad, and Carrie Lovjoy and Lenny Dullin, Wannaska, were returning from Williams and were turning into a farm road when their car collided with one believed driven by Louis Knockenmus, Roseau.

Sjostrand and the two girls were hospitalized with multiple bruises and cuts, while Knockenmus and his three passengers, Sonya Bakken, Janice Larson and Carroll Knutson, were treated at Warroad and released.

Occupants of both cars ranged from 17 to 20 years of age. Apparently Knockenmus was traveling in the same direction as the car driven by Ulwelling when the crash occurred. The crash site is about 10 miles east of Warroad.

Farm Loan Group Meets Here Friday

N.W. National Assn. to Hear Speech on Russia

Plans and a speech on Russian agriculture by a Soviet farmer is on tap for the fall conference meeting of the Northwest National Farm Loan Association at Thief River Falls Friday, Oct. 16. The session will be held at the courthouse floor of the city Auditorium, it was said.

Ralph Atkinson of Kennedy, who toured Russia with a group of Midwest farmers on a "friendship" tour sponsored by WCCO-TV, will be the speaker, and will give his impressions of the Russian way of life and agricultural methods. His group, accompanied by Harry Sola, farm director for WCCO-TV, spent 17 days in Russia.

Upon completion of the business meeting, lunch will be provided and door prize awarded.

50,000 State Youths Enrolled in 4-H Work

Minnesota 4-H enrollment has reached an all-time high, Lenoir and Harkness, state 4-H club leader at the University of Minnesota, said today.

State enrollment has increased by over 2,000 this year to a total of more than 50,000.

Meeting goals of more than doubled its enrollment this year, Harkness said. Counties with the greatest increases are Dakota, Freeborn, Goodhue, Hennepin, Mower, Red Lake, Red River, St. Louis.

And it's not just enrollment figures that have gone up, but achievement as well, Harkness said. Many county club awards are up. Of the 704 awards given this year, more than 400 of them took part in the county 4-H fair or achievement program.

Nationally, enrollment has increased by 100,000 this year, the greatest increase since the urban areas. Fifty-four per cent more urban boys and girls are active in 4-H than five years ago. The second greatest increase has come in the rural non-farm areas, Lenoir said.

Minnesota has also increased its enrollment. Nearly 80 per cent of last year's enrollment returned this year. The state is also first in 12 states in membership and in the number of older club members.

Why the enrollment increase, Harkness says the varied program is probably the most major reason. A member may choose from among 19 projects and activities covering 44 different subjects.

During October, a concerted effort is made to bring new young people into the 4-H movement, Harkness says. Young people from 9 to 20 years of age are invited to becoming 4-H members should contact the 4-H club representative, office or a local leader.

Walther League Zone Meeting Set Here Next Sunday

The Red River Valley zone of the Young People's Walther League will meet at St. John's Lutheran church in Thief River Falls Sunday, October 25, according to Rev. Marvin O. Carlson, president of the local league. The zone rally meet will be served by St. John's ladies aid. Young people from the Thief River Falls and Crookston Circuits of the Lutheran Church-Missouri Synod will attend.

YEARS NEED NOT BE A HANDICAP

If he had any place special to go, Ralph Appleton, 90, would be the doubting sort to get his drivers license; but at 90 Mr. Appleton has decided to forget his auto driving . . . Mrs. D. C. Scott of Appleton has a new building swallowing of all kinds of fish. Mrs. Scott has been in bed for 20 years and has caught 25 first place and 29 second place ribbons to show for it . . . After 39 years as a director of the Northwest Building & Loan Association, Dewey Hall is still going strong . . . Ole Lee, 90, has been in white shirt and apron. Dave Leonard took his place behind the counter of the Plaintview Farmers Co-operative Creamery at Appleton and has been there for the past half a century ago is that Dave's first job as a grocery clerk was for someone 70 Mrs. Maude Anderson had her first train ride . . . After any from Westbrook to Chicago at 90.

OVER THE BACK FENCE

Nothing

In every campaign for public office, there is always a certain amount of discussion by candidates of their opponents' shortcomings. That has been a part of the game of "getting elected" that we take as a matter of course.

The city election, scheduled for Nov. 3, has, up to this point, produced a crop of hopefuls who have been negative in their approach because they have only been against what others have done or because they have been completely silent.

Not one person has been discussing what he can do or hopes to accomplish, only what others should have done.

Unless there is a change, this election will go down in the books as the selection of aldermen and a mayor on a popular personality basis. Such qualifications are not what thinking voters want or what they feel are necessary to the intelligent, harmonious and efficient conduct of our city government.

Disgusting Strike

The steel strike which, up to Oct. 10 was 87 days old, may seem a remote thing to many people in this area but it will have profound effects on every one of us.

It has been estimated that 28,000 persons have directly or indirectly become unemployed by the strike in Minnesota alone and that 2,000 to 2,000 skilled workers from the Iron Range have left the state to take other jobs.

Some firms on the Range estimate that their business had fallen off as much as 60%.

Nationwide, it has been estimated that steelworkers, who averaged $3.10 an hour, will have to work 10 to 31 days to make up for every day of pay they have lost during the strike. Even if they get the full 15c an hour increase in pay that they have asked, it will take an average worker 2½ years to regain lost earnings.

The result of the strike is, of course, already set. The odds are 100 to 1 that steelworkers will be given a raise, that this will be passed on, plus a little more, by management to the manufacturers who will also pass the increase, plus a little more, to all of us who buy anything made of steel. And that means all of us.

Such increases, of course, will be met with increased costs for nearly everything else. Farmers, already pinched between rising production costs and decreased prices for their products, will have to put off replacing machinery and other items. Salaried workers, caught between rising costs and fixed pay schedules, will also be caught "between the rock and the hard place." Pensioners and insurance holders, who put in "good" money for so many years and now find their investments are depleted by inflation, will be even harder pressed than before.

The steel strike was an unpopular one. Seldom, outside of the releases from the industry's management and from labor itself, did one ever hear of anyone in favor of the prolonged shutdown and the reasons for it.

Again, the blame for this expensive raid on the public's pocketbook must be laid on the doorstep of official Washington where no politically-minded lawmaker has ever had guts enough to speak out for the general public. Even the President delayed action until it is too late.

The steel strike, from the standpoint of the ordinary man on the street, was a disgusting affair.

NEW ALUMINUM CHURN recently installed at the Thief River Falls creamery is another important step forward in the modernization of the local plant. The churn is of the most modern design and is operated under a system of push-button controls. It has a capacity of 4,000 pounds and, according to Paul Rossi, manager, is capable of handling an annual production of 3 million pounds.

This new churn, which replaces two wooden churns, weighs 14,000 pounds when loaded. Mr. Rossi states that it will result in a more efficient operation and also improved quality. In the picture the buttermakers Eldon Larson and Ollie Ellingson.

THIS CHURNING COMPUTER is an important part of the buttermaking operation with the new aluminum churn at the Thief River Creamery. It is a reliable guide for determining the amount of ingredients to be added for a top-quality product according to the number of pounds of cream being churned and its fat content. In this picture buttermaker Eldon Johnson comes up with a quick answer for the mixing formula for 5,600 pounds of 35 test cream.

Inch of Snow Here Saturday Night

Heavy Snow Recorded in Western N. Dakota

A preview of winter was given northwestern Minnesota during the past weekend but, compared to other nearby areas, it was only a promise of things to come. Six inches or more of snow fell Thursday in the Minot, N. D., area.

Thursday, a heavy drizzle interspersed with showers dropped 1.32 inches of rain and the precipitation changed to the first snow of the year the following day. Unofficially, an inch of snow covered the ground Saturday night, but it disappeared quickly.

High temperatures over the weekend ranged from a low of 32 Sunday to a high of 42 Saturday with 33 recorded Friday. Low temperatures stair-stepped from 26 Thursday night to 29 Saturday night.

Mostly cloudy with little temperature change is predicted by the KTRF weather station for today, tonight and tomorrow. Occasional light snow is expected this afternoon and tomorrow.

The high expected today is from 28 to 40 and the low tonight from 28 to 34.

'Make It with Wool' Contest Entries Are Due Thursday

Dozen Entries Already Received by Mrs. Frank Heinze, County Director

With Thursday, October 15, the last day on which entries may be submitted in the "Make It Yourself with Wool" contest, Mrs. Frank Heinze, Pennington county director, stated late last week that a dozen entries had already been received from local women and girls.

District finals in the contest will be held at the city Auditorium in Thief River Falls on Saturday, November 7. Mrs. G. Milford Peterson of Crookston, director of the contest in this area invites all seamstresses age 13 and over to enter the contest. There are many valuable prizes such as scholarships, sewing machines, even two-week trips to Europe.

To enter, a girl or woman may make either an all wool dress, suit, coat or ensemble. Girls are judged in either of four divisions —Sub-Deb girls 13 to 16; Junior, for girls 14 to 17; Senior, for girls 18 to 22, and adults for girls and women over 22. Sub-Debs are judged in the district finals only. Junior, Senior and adults are judged in the district and state finals.

In Minnesota the contest is sponsored by the Minnesota Wool Growers association.

Full details on the contest and entry forms may be obtained by writing Mrs. Frank Heinze at Thief River Falls, Rte. 3.

Telephone MU 1-4150 with your news items for the Times.

No Damage in Two Blazes Saturday

The local fire department was called out twice Saturday. The first alarm came from the Dr. E. L. Gilbert residence at 325 N. Maple av., when grease from a goose being roasted in the oven caught fire. Damage was nominal.

The second call came from the Paul Couvrette home at 824 Main av. N., where a chimney blaze developed. There was no damage.

2D LT. JAMES ZAVORAL ENDS MISSILE COURSE

Army 2d Lt. James R. Zavoral, son of Mr. and Mrs. James A. Zavoral, Thief River Falls, completed the 16-week missile officer basic course Oct. 10 at the air defense school, Fort Bliss, Texas.

Lieutenant Zavoral is a 1954 graduate of Lincoln high school and a 1958 graduate of the University of North Dakota. He was employed by the U.S. Bureau of Public Roads in Washington, D.C., before entering the army.

Eight Cars of Soo Freight Derailed Near Adams, N. D.

Eight cars of eastbound Soo Line freight train 212 were derailed Saturday on the Wheat Line one-half mile west of Adams, N. D. Six cars loaded with grain and two empty refrigerator cars left the track. Ire Pederson of Thief River Falls was engineer on the train, with Connie Haugen, also of this city, as conductor.

Attorney Timm of Baudette Dies

Frank H. Timm, Baudette attorney and resident of that community since 1929, died in the Warroad hospital October 2 at the age of 72, his death following a paralytic stroke. He had served as Lake of the Woods county attorney from 1929 to 1934, and again from 1947 to 1951. Before coming to Baudette he had practiced law in St. Paul and Duluth. He is survived by two brothers and two sisters.

70 Firemen from 18 Towns Present at Bagley Session

Annual Fall Meeting of North Region Firemen's Assn. Was Held Thursday

The fall meeting of the Northern Region Firemen's association was held at Bagley Thursday evening.

Due to bad weather the attendance was smaller than usual. Seventy firemen from 18 towns registered. Dinner was served at the Legion clubrooms.

Fire chief Harvey Peterson of Bagley welcomed the visitors to Bagley and Ray Langevin of Thief River Falls gave the response.

Ed Johnson, commander of civil defense for area No. 3, spoke on radioactivity and explained the features of two fallout detectors that he had. Johnson stated that all fire departments in the near future will be called upon to be able to operate machines of this nature. Radioactive materials and fallout were discussed at some length.

Chief Herbert of Crookston spoke on ways and means of making inspections in commercial and industrial buildings.

Two films were shown. One was on the latest type of artificial resuscitation, and the other dealt with "using water wisely."

Halstad firemen asked for the spring meeting and their invitation was accepted.

Members of the Thief River Falls fire department attending the Bagley meeting included, in addition to Chief Langevin, Freeman Lanska, Lloyd Hogenson and Albert Lafrenz.

THE SCHOOL PLANT serving the Thief River Falls community has been greatly expanded since 1929. Old timers will recognize the old Washington school in this picture and that portion of Lincoln High that was in service 30 years ago. The new St. Bernard's school, the arena, auditorium and a part of the court house are also evidences of growth. The picture also shows the possibilities for further expansion of the arena, a much needed improvement if hockey is going to continue to be a major winter sport in the city.

U. S. Insurance on Crops Sets Record

Over $1,500,000 Claims Were Filed During 1959

Minnesota farmers will be paid more than $1,500,000 in damages to their 1959 crops by Federal Crop Insurance corporation. It was announced by Ralph Childs, Minnesota state director of the FCIC under the U.S. Department of Agriculture.

This is the biggest payment to the state's farmers in the history of federal crop insurance in Minnesota. The loss, due mainly to heavy drouth in 15 counties, is over double last year's payments, Childs said. Other important causes for 1959 crop losses in Minnesota were floods, frost, hail, insects, wind and all other unavoidable causes that Federal Crop Insurance covers.

The million and a half in payments will help the insured Minnesota farmers pay for the important investment they must make in next year's crops. Over 11,000 farmers in Minnesota last year insured their wheat, corn, soybeans, flax, barley or oats against losses.

Federal crop insurance is available in 18 counties in the state. Applications for this insurance for 1960 are now being written by agents in their counties. The agent in Pennington county is Wallace M. Nelsen of Thief River Falls.

Hamline Alumni to Meet in Fargo Tuesday, Oct. 20

Hamline university alumni and friends in the Fargo-Moorhead, Detroit Lakes-Fergus Falls clubs and in Thief River Falls are planning a joint informal get-together and dinner meeting Tuesday, Oct. 20, 6:30 p.m. in the Gold Room of the Graver Hotel in Fargo.

Hamline president, Dr. Paul H. Giddens, will be the featured speaker. A color slide program on Hamline progress will be presented by Ralph Henry, director of alumni relations.

Hamline graduates, former students, friends, their husbands and wives are cordially invited to attend.

USE OF EXTENSION PHONES SPREADS FAST

Minnesotan are talkin' folks. Sort of esthetic too. Northwestern Bell reports that in a scant three years since 1956 the number of Minnesota homes with extension telephones has doubled, now totaling 135,000 or better than 20 per cent of the 600,000 telephone homes in the state; counting business phones there are now more than 1,000,000 installation in Minnesota. Brightening this evidence of chatty neighborliness, increasing numbers of these instruments are in color. The number of color installations growing about 100 a day. In case you wonder where to put the telephone or the extension, NW Bell reports the kitchen the most popular spot, bedrooms a close second. The study or library and the basement seem likely spots, too—not to mention the popular bathroom installations in a large Minneapolis hotel.

About twenty years ago, a fifth suit was introduced by card manufacturers to the conventional spades, hearts, diamonds and club suits so familiar to card players. 9 ON NEWSPAPER STAFF 356 YEARS

Do Minnesotans stick to the last? Considerable evidence to that effect. Is newspaper work fascinating. Seems so. Little Falls Daily Transcript recently recounted a remarkable record—nine staff members with tenure of 30 years or more: The publisher, George L. Johnson, 37 years; Min Ferrell just retired after 52 years in plant and office; Titus Pietl, printer-operator 50 years; Gus Larson, shop and office 49 years; Carl Bern, shop 40 years; Merrle Cornwell, society writer 37 years; Math Teerl, Linotype 36 years; "LC" Savage, proof-reader and office 35 years; Fred Moeglein, now the shop foreman, 30 years. Ben Billstein started with the Transcript as a carrier boy in 1900, strayed into other fields, returned 1951 and is now circulation manager.

Weatherman Hampers Lincoln High School Homecoming Friday

The weatherman and a con, scientious project together were able to score a decisive victory as the annual Lincoln High School Homecoming was held during an assembly Friday after school activities took place as planned.

Over one and a third inches of rain fell Thursday night and Friday to make it a wet ground for the parade and Karen Strickland's float, entered by the junior class and Carol Rolland and Sharon Bishop, had to be withdrawn from the competition.

The ceremonies, however, were followed by a parade thru the business district led by the Lincoln band which was soaked out by the heavy rain.

Most attention went to the queen and her court who received a "swamped" Detroit Lakes car which had carried their football players.

Trophies were awarded to second place and a white box to Powder panther, and third place was given to the high school chorus "dingline" which dragged the Lakers of Detroit Lakes to defeat.

Floats were judged by a group of school instructors on the basis of workmanship and originality.

Celebrants ended their activities Friday night with a dance in the school cafeteria.

Income Tax Refund Checks Unclaimed

1,200 Checks Held up for Owners' Addresses

Believe it or not, this St. Paul office of the Internal Revenue Service has over 1,200 refund checks unclaimed beyond the mailing period.

The sum has $85.00 which rightfully belongs to taxpayers in the St. Paul district. George D. Sathen, Director of the St. Paul District, announced those figures today in a plea for "lost" taxpayers.

According to readers of the Times, he said, "If you are entitled to a refund check on the tax returns you filed this year and have not received it, or if you have moved since you filed your return, you should write us advising you that your address is being changed." He urged those who write to me at Room 833, New Post Office Building, St. Paul 1, Minnesota.

When writing or calling please state your name and address exactly as it appears on your return. Your social security number and amount of refund will also be helpful. Be sure to give us your new address."

Northrop	0	1	1

The Knox Tigers of coach Bog Ness and the Washington Wildcats of coach George Schlief battled to a scoreless tie in their city grade school football league game at the Lincoln field Thursday afternoon.

In the first period, Knox, on the able blocking of Mark Carl Champ, moved to the Washington 20 yard line. The second period saw the Tigers roll to the Wildcat 10 where first downs carried into Tiger territory, but were unable to push the scoring through.

Much of the second half of play was in Washington territory with the Wildcats unable to move across the middle stripe just as they had done.

With kickoff time at 4:30 P.M. the Northrop Indians, the league leaders, will meet Washington on the Lincoln field.

3 Minor Traffic Mishaps in City

Total Damage in Week-end Accidents Less Than $100

Only three minor traffic mishaps were investigated by police this weekend by local officers with the total damage in all three amounting to slightly over $100.

Paul B. Gran, city, was pulling out of a parking space in front of Lee's Cafe when his car was struck by a car driven by Mrs. Ralph Lahtinen of Fosston. Damage to Gran car was estimated at $65, according to police records. The mishap occurred at 2:30 P.M. Saturday.

About $25 damage to a car driven by Roland H. Hicks, New Brighton, occurred at 11 a.m. Saturday when it was struck in the rear by a car driven by Arthur H. Schmidt, Jr., Schmidt told police he was unable to stop in time to avoid the collision.

Approximately $25 damage was done to a car driven by Mrs. Ray Fredrickson of Red Lake Falls when it struck a parked car owned by Elmer Cotillo, who had parked in the Red Cot lot, rolled across the sidewalk, into the Bonfire Cafe.

The common man has an equal opportunity in this country to be uncommon.

Keeping Score with "Huck" Olson

B Flue Program

Football fans are missing some fine rare entertainment when they fail to attend the grade school football league games at the Lincoln field.

This year there has been an improvement in the style of play, and the coaches, Bog Ness, Knox and Washington — have all been outfitted with attractive uniforms including, etc., permitting block-and-tackle football. The boys have been playing the game seriously, and they behave like little gentlemen.

The rivalry is keen under the supervision of capable coaches, with Bog Ness handling the Tiger scrapping squad. Roger Dale the Knox team and George Schlief the Washington team. Phil and Bog-Ness, Knox and Washington — the Knox and Washington — have also his high school football at Rochester.

That zero to zero score posted by the Washington and Knox grade school teams last Wednesday afternoon was a surprise to the fans as both teams were scoreless since the 1953 season. In that 1953 game the Washington team handed Bob quarterback Ole Hanson a touchdown on a 4-yard run.

In the 1953 tussle the Northrop Indians and the Washington players who are now Steve Ellingson, Jerry Ness, Dennis Haney Ensbury, Larry Haugen, Bob Pearson and Ron Schlein; while the Washington Wildcats who won the grade school title that year were Jerry Ness, Dennis Haney Ensbury, Larry Haugen, Allen Bjelle, Archie Schneider, Bob Pearson and Ron Schlein. And it's a cinch that a number of the boys who are now participating in the grade school league fame will be playing for the Lincoln high school, and the Tiger city of schedule of games against our Northern Minnesota high school rivals to the Powder varsity football team.

The next game on the schedule will be played Wednesday afternoon with Northrop protecting the Washington Wildcats on the Lincoln field at the Northrop field. The kickoff will be at 4:30 p.m.

A week ago on Saturday, Oct. 3, Indian hunters were greeted, with shooting time for the season on ducks. Many hunters opened a few minutes after sunrise pointed hunters we were permitted to hunt ducks, geese and for partridge.

We have received a plausible explanation. It seems that the U.S. Fish and Wildlife Service would give hunters an October 3rd opening on waterfowl. Acting on that assumption, the state director, feeling that some state hunters would want to get in on the gunfest, waived the customary hunting hours on the season on ducks, rolled open the season concurrently. This explanation, of course, is strictly unofficial, but it does make sense.

So far the rolled goose opener, it is pretty generally conceded that the hunting was from poor to ordinary. Very few birds were in evidence, even on the Thief River Falls Wildlife Refuge. Even though, there is some dispute, Bill Fredrickson says that it wasn't a game bird that shot, it was a duck calling.

We were not amongst the hunters on Saturday and Sunday but you have our assurance that we will be amongst them on the opening days. We did not damage to the flight pattern of ducks, or geese.

Per capita consumption of butter in 1958 was 8.4 pounds, the lowest in 30 years. Per capita consumption of oleomargarine was 10.9 pounds, the highest ever recorded.

Except for the time-clock and wage-and-hour laws, who had to be at their jobs during the midweek, the duck and goose hunting season that opened last Wednesday noon, was one of the better openers in this area.

And the hunting has continued at an exceptional pace all week. Limit bags of mallards have been commonplace, and adding excitement to the hunting has been the ever-present sight of vast numbers of geese.

Many sportsmen in the local nimrod ranks were successful in bagging geese the past couple of days. Delores Lenny Hoffman, Charlie Smith, Russ Williams, Myk Mares, Pete Klungness, Wes Halverson, Walt Larson, Bill and Ray Fredrickson, Ole Hanson and Fred Mitterstadt, Jr. Fred's pal though, there is some dispute. Bill Fredrickson says that it wasn't a goose that Fred shot, it was a calling.

We were not amongst the hunters on Saturday and Sunday but you have our assurance that we will be amongst them on the opening days. We did no damage to the flight pattern of ducks, or geese.

Dr. W. P. Kaisler Heads Physical Fitness Council

Appointment Made by Governor; Other Members to Be Announced Later

Governor Orville L. Freeman announced late last week the appointment of Dr. W. P. Kaisler as chairman of the Thief River Falls physical fitness council.

The chairman, Dr. Kaisler will spearhead a coordinated drive for physical fitness for the youth of this community. The drive is part of a state-wide movement for youth fitness sponsored by the Governor's advisory physical fitness council headed by Wallace Wilkinson of Fort Mitchell. Mr. Freeman announced last week that he will confer with President Eisenhower's council on youth fitness in their annual meeting at the state action on the program.

The physical fitness program will be the first step in the Governor's committee's cooperative action on the part of all social agencies within each community toward a year-round plan of activity for youth.

Dr. Kaisler, who is a resident of Thief River Falls physical fitness council will be selected in the near future.

Procedure to Enter VA Hospital Outlined

The proper method to be followed in ordinary cases for admission to a VA hospital at Fargo, N. D.

Of course, this does not apply to an emergency when speed may well be essential, he said.

First, a veteran under doctor's care should ask the physician to help him gain admission.

Second, a veteran not under a doctor's care may apply for hospitalization is necessary may apply either at the nearest outpatient clinic or the admitting section of the nearest VA hospital.

Applications for admission to a hospital may be secured at any VA installation or from county service officers, state veterans affairs officers or from service officers of veterans organizations.

When the applicant actually reaches the hospital he claims there will be an examination to determine his need for hospitalization.

Veterans are admitted to VA hospitals in the following priority: First, veterans in need of hospital care for service-connected disabilities; second, veterans with service-connected disabilities receiving admission for some other unrelated illness or injury; third, non-service-connected veterans.

Annual Meeting Slated in Hotel Lenry, St. Paul

Cooperative leaders from 52 active firms—people will be the theme of the 44th annual meeting of the Minnesota Association of Cooperatives (MACA) and the fifth state Cooperative Youth Conference, October 26 and 27.

Edward E. Nielsen, MAC executive secretary, expects 600 representative from 300 Minnesota cooperatives and 300 youth representatives and 30 youth leaders from youth organizations — to attend the event at Hotel Lenry, St. Paul.

The cooperatives learn more about giving people useful and rewarding roles in their organizations, Nielsen said. The youth conference will do an even better job of serving people — both rural and urban — in the Farmers Union and Farmers Educational Cooperative Union, and William R. Pearson, Master, Minnesota Grange—will discuss the relationship between cooperatives and their organizations.

Steel Strike Hits Minnesota Hard

Nearly 28,000 in State Are Idled by Walkout

Nearly 28,000 persons in Minnesota, now are unemployed as a result of the steel strike, Commissioner Frank Stanley of the Employment Security Division reported to Gov. Freeman.

Stanley said that 18,000 persons in Minnesota were on strike in the mining and steel industry, with 9,982 now idled by layoffs stemming from the strike.

The unemployment will be between 1,200 and 2,000 Duluth and Superior workers, 1,000 in the Hibbing area and 1,000 in the Virginia employment clears.hre.

Stanley said that the volume of business on the range was down 50 per cent and that 90 per cent of the mines were closed.

Initial claims for unemployment benefits filed as a result of the strike now total 2,341. Claims come from persons who are on strike but laid off because of it.

Regional Parley of Eagles Set for Fargo October 31

Harry Hendrickson, Head of E. R. Falls Aerie, to Head Local Delegation

Fargo Eagles will be host at a North Central regional conference of the Fraternal Order of Eagles to be held at the Fargo Eagles Auditorium on Saturday, October 31, with registration set for around 250 leaders of the Eagles organization from North Dakota, Minnesota and Manitoba, it was announced today by MacArthur, Fargo, past regional president and past local president.

A delegation headed by Harry Hendrickson, county president, and R. M. Johnson, secretary, will represent Thief River Falls Aerie at the two-day conference. Also attending will be Gardner Hunt, state president, and club manager, and other state officials.

A special banquet for the wives of the visiting Eagles will be held that same night at the Eagles Auditorium. Mrs. Hendrickson will be in charge of the wives' activities.

Highlight of the conference will be national Eagle leaders, including Michael Goffney, Milwaukee, Wis., fraternal adviser; Art Ehrmann, Milwaukee, national Eagle publication adviser; and Harry Boots, St. Cloud, North Central regional president.

The conference will stress several national problems including the "Iron Alley Act" campaign of the Eagles to have the Iron Alley Eagle Home in Nanole, an Eagle CARE project setting up a vocational training center in Manila, P. I. The Eagles have other such youth centers in West Germany and Italy.

The Bottom Fell Out

It was the sharp decline in the market value of farm products in the fall of 1920 that led to the era of bank failures and mortgage foreclosures in the 'twenties. Here in Thief River Falls, during the last six months of that year, flax dropped from $4.14 to $1.67; wheat from $2.81 to $1.39; barley from $1.39 to 47c; and oats from 89c to 33c.

Hopes that this price drop was just a temporary adjustment and that there shortly would be a return to a more favorable level did not materialize. The market did strengthen in 1924 and 1925 but by December of 1928, wheat was down to 98c again. Flax held fairly steady at around $2.00.

The first bank failure in Thief River Falls occurred January 5, 1924, when the Citizens State was declared insolvent. By that time there had been many bank failures throughout the state and in this area. In some instances there were bank consolidations in an effort to survive, but the survival was only temporary. A few banks probably were saved by the state's venture in farm loans, which later proved to be very costly to the taxpayers.

A constitutional amendment permitting the state to loan money to farmers was adopted in the general election of 1922, and the legislature, shortly before it adjourned in 1923, passed the law creating the Department of Rural Credits. The department was authorized to loan up to $40 million, each loan was limited to $15,000 and not to exceed 50 per cent of the appraised value. The loans were to be repaid over a period of 35 years.

By June 21 of that year the new department had been organized and loan applications were invited. Loan application blanks were made available at county auditor offices. A few weeks later the Times complained bitterly because loans were not being made and asked, "Is the Rural Credit Law a Failure?"

But the loans were made, many of them. By the end of February of 1924, 158 loans had been made in Pennington county, for a total of $577,700. By July 3 all of the $40 million authorized by the legislature had been invested in first mortgages.

The legislature in 1925 did make an additional $30 million available but reduced the limit of loans to 50 per cent of the appraised value. Before acting, the legislature held an investigation here in Thief River Falls. Of the loans that had been made in the county, 80 were already delinquent. There were charges of irregularities and excessive appraisals, and a reorganization of the department followed.

The Rural Credit probably gave the area a temporary lift but experience proved that it was not the solution for the farm problem. The large number of farms acquired by the state through foreclosure contributed to a critical tax delinquency problem. These farms finally were sold for what they would bring in a liquidation program ably headed by George Jones, but the state has recovered little of its investment.

Another light that failed was the channel improvement program for the Red Lake and Clearwater rivers. The bad news came when the engineer's report revealed the cost figures of $570,000. The Indians objected to paying their share of the cost and opposition to the plan among landowners increased when they learned what their share of the cost would be. In March of 1928 it was admitted that the river plan was dead.

One of the greatest disappointments of the early part of the decade was the failure to get a sugar beet factory. The sugar industry had encouraged beet growing in the area with the assurance that when the acreage warranted it, a factory would be built. Thief River Falls had been mentioned as a likely location because of its water supply and its accessibility for rail shipments.

In 1922 there had been 164 acres in beets near Thief River Falls. One farmer had received $85 an acre for his crop. In January of 1923 the company offered an allotment of 1,500 acres for this area. There was much enthusiasm at the mass meeting but by March 15 only 800 acres had been signed up. To encourage greater effort the company offered to build a loading dump if the acreage exceeded 1,000. In July of 1923 a company official was quoted by the Times as saying that the beet factory would be built at Thief River Falls. But on August 23 the company announced that it had decided on the East Grand Forks location.

That fall there were 150 carloads of beets shipped from the Thief River Falls area and it was a good cash crop. Farmers in this area applied for 1,200 acres for the next year but in February of 1924 the beet allotment was reduced to 650 acres, with the understanding that more would be made available when the East Grand Forks plant was completed. The plant was ready for the 1926 crop but by that time there no longer was interest hereabouts in beets. In 1927 the loading dump was removed.

Nature added to the discouragement of that time by sending us the sow thistle, and this weed was a serious threat for a few years. It was looked upon with so much alarm that the Federal Land Bank withdrew loan privileges from four northwestern Minnesota counties, including Pennington.

By the end of 1926 Pennington county had ditch bonds outstanding in the amount of $577,500 and tax delinquency was a serious problem in 14 counties of northern Minnesota. In 1927 Pennington county sold a $100,000 bond issue to pick up outstanding warrants, and Marshall county sold an issue of $250,000 for the same purpose. The 1927 legislature recognized the problem by authorizing the payment of delinquent taxes in ten yearly installments. In 1929 the state started a program of aid for distressed counties by paying delinquent ditch assessments and taking title to such lands.

During the ten year period from 1920 to 1930 Thief River Falls lost population and there were many vacant homes. The official count went down from 4,685 in 1920 to 4,268 in 1930, a net loss of 417, but there was a period of several years when that loss must have been close to 1,000. By 1930 the city had made a good recovery and during the next ten years the population increased nearly 2,000. It is the recovery that started in the late 'twenties and that is still continuing that gives us a good excuse for celebrating 80 years of progress at this time.

The 'twenties were not all bad, and much that was bad proved also to be of some good. The low prices for grain encouraged livestock production. During the 'twenties there was a big increase in dairying and a good start was made in the growing of turkeys. Farmers and bankers and businessmen worked together in many promotions. In 1922 the First & Peoples bank shipped in a carload of high-grade Holsteins from Northfield, and C. L. Hansen of the First National offered interest-free cash for the buying of silos.

There were drives to build up interest in sheep and alfalfa.

In 1922 the stockholders of the Thief River Creamery voted in favor of a new building. The contract was let in 1924 and the new plant, declared to be one of the finest in the state, was dedicated in January of 1925.

In 1924 the city bought the dam and the American Legion secured the state convention to be held here the following August. In 1926 the Trinity congregation built its present church, "the city's first brick church," and it was dedicated on November 28 of that year. In 1927 the city decided to improve the dam and the power plant to the extent of $90,000 and to start the changeover from direct to alternating current.

The community had suffered many reverses during the 'twenties, but it had not lost its courage, and finally that courage paid off.

Eklund Ladies Aid Meets

The Eklund Ladies Aid was held Wednesday at the Eklund dining hall with president Mrs. J. Anderson presiding. Treasurer's and secretary's reports were given by Mrs. O. Hanson and Mrs. N. Kriel. The general clean-up day was set for Monday, Oct. 19. Mrs. E. Lovly was in charge of the program and evangelism. Bible study was given by Rev. Heltne. The following officers were elected for the new year: president, Mrs. Alvin Hyland; vice president, Mrs. Al Horning; secretary, Mrs. Harry Solberg, and treasurer, Mrs. Selmer Ramsey. Delegates chosen to go to W.M.F. convention at Middle River were Mrs. Harry Solberg and Mrs. Alvin Hyland. Hostess for lunch was Mrs. D. Marquis.

Mr. and Mrs. Jesse Anderson and Mr. and Mrs. Norman Anderson spent the weekend in Minneapolis a week ago. They visited Lorine Anderson at Gillette hospital and were house guests at the Lowell Anderson home.

Basket Social at Dist. 56

Mrs. Joe Schlofer and pupils of Dist. 56 will give a basket social Friday evening, Oct. 16. The evening will begin games, cake walk, fishing pond, lunch and baskets will be sold and a chenille bed spread is being sold.

Wayne Baird of Babbitt, who is employed in Grand Forks, enjoyed a few days of duck hunting in this area and was a house guest of Alvin Hylands.

Orvin Anderson and Alvin Hyland were Monday visitors at the Floyd Baird home at Cass Lake.

Mr. and Mrs. Jesse Anderson and Orvin Anderson transacted business at the Iron Range and also visited at the Ernie Walker home at Pengilly and enjoyed the acquaintance of Stephanie Ann, new daughter of the E. Walkers.

Tuesday afternoon guests of Jesse Andersons were Mr. and Mrs. Melvin Hovet of Chisholm.

Julie Anderson is spending some time with her sister and family, the Vernie Beckers.

ADGER . . .

Mrs. Molly Baker of Seattle, Wash., and Mr. and Mrs. George Baker of Silverton were visitors at the Pete Klungness home Friday evening. Guests there Saturday evening were Mr. and Mrs. Harold Rasmussen and Mrs. Leslie Robinson of Thief River Falls.

REPORT from the GOVERNOR

by Orville L. Freeman

Whenever people discuss agriculture and government, they usually talk about farm prices, surpluses, acreage allotments, parity or some other phase of the federal farm program. The discussions are often heated and arguments are cited pro and con. And while the debate continues, a group of dedicated men in the Minnesota Department of Agriculture go almost unnoticed as they quietly work to help both the producer and the consumer *of this state's agricultural abundance.*

Quality and Markets

The work of the state department of agriculture may not be as dramatic as farm policy on the national scene but it has made a real contribution in providing high quality products for Minnesota consumers while expanding the marketing opportunities for Minnesota farmers.

Minnesota Eggs—New Yorkers' Breakfast

Through an extensive program of inspection and education, the department has established uniform grading procedures for Minnesota eggs. As this program was in progress, other representatives of the department participated in promotional activities and sought new markets. The result has been that Minnesota eggs now appear on breakfast tables as far away as New York.

School Lunches

In cooperation with the department of education a program was launched to encourage the use of eggs as an important item in the four ounces of protein food which is supplied with daily school lunches. School officials were asked to obtain their eggs locally whenever possible. As a result of this effort some dealers reported their egg sales to schools had increased two to three times.

Mobile Dairy Laboratory

The same kind of activity is conducted by the department of agriculture with other commodities. A mobile dairy laboratory helps correct quality problems with milk and milk products. This not only assures wholesome milk for Minnesotans, but it also keeps Minnesota milk in a position to compete on the basis of quality with milk from any place in the United States.

Milk for Schools

As with eggs, department personnel assisted in promotion programs that would enhance the sale of milk, butter and cheese. At the same time the department worked to maintain a high level of fluid milk consumption in the schools under the National School Milk Program.

Producers Assisted

The potato growers in the Red River Valley received assistance from the Minnesota department of agriculture with their program to increase potato sales. Minnesota apple growers were also aided as were the honey producers, poultrymen, as well as those producing and marketing maple syrup, onions, sheep and wool, meat, timber products, wild rice, turkeys and hogs.

Data Distribution

The department surveys and field investigations to obtain data for preharvest forecast of yield and quality of Minnesota grains and to determine actual yield at harvest time are collected in document form to assist those concerned with production and marketing of crops.

New Markets Increase

In actual practice the department of agriculture labors diligently to improve the quality of all Minnesota farm produce and extend and expand marketing opportunities. As a result of their often unheralded efforts, Minnesota farm products are recognized nationally for uniform excellence and new markets have opened their doors to our high quality agricultural abundance.

QUESTIONS answered for VETERANS

Q—The VA is deducting my GI insurance premium payments out of the disability compensation payments I receive. I am moving and am sending a notice of my change of address to the office which forwards my compensation. Should I also notify the VA insurance office?

A—Yes. In case of change of address, where premiums are being deducted from compensation payments, veterans should notify both the office which sends the compensation checks and the one handling insurance.

Q—I closed my GI home loan with a lender in June of 1959, a month before the 5¼ interest rate become effective. Does the new rate affect me in any way?

A—No. The new law in no way affects veterans who closed their loans before July 2, 1959. You go on making your payments to your lender just as you have been . . . at the interest rate which applied when you closed your loan.

Q—I am a veteran of the Korean War who has been out of service two years. I have a disability I believe is service-connected. If the claim I intend filing with VA is approved, will I be entitled to compensation retroactive to my first day as a civilian?

A—No. Compensation may be made retroactive to a veteran's first day in civilian life only if he applied within one year from his discharge and VA finds the disability was compensable at that time. If a veteran fails to apply within a year from discharge, payments may date from the time of application only.

Q—Can a veteran with a service-connected hearing disability, who must wear a hearing aid, have it repaired or replaced at any time as a part of his VA benefits as long as there is medical need?

A—Yes. As long as the disability is service-connected, and there is medical need for repair or replacement of a prosthetic appliance, the repair or replacement will be made by VA.

HOME Garden TIPS

C. GUSTAV HARD
ORRIN C. TURNQUIST

Composting

Compost is a good source of garden nutrients and also serves to improve the soil structure. Often the value of leaves and other organic materials is lost through careless burning in the fall of the year. Composting is a method whereby all organic matter is salvaged for further use in the garden.

• • •

Most all organic material can be used in the compost pile. Take care, however, not to include weeds that have gone to seed or plant parts which are badly infested with disease and insects.

• • •

It's a good idea to locate the compost pile where it will not have to be moved or disturbed during the time the compost is being prepared. A temporary compost pile can be made in one section of the flower border and left over the winter.

• • •

The compost pile may be made by piling the organic material in a six-foot square. For each six-inch layer of leaves or other material, about a one-inch layer of soil should be added to the organic layer. Along with the soil, 4-5 pounds of a complete fertilizer should be added per layer. The soil and fertilizer provide the bacteria and food for the breakdown of the compost. It is a good idea to keep the center of the compost pile lower than the outer edges. This is to avoid runoff of water. Water is important for the composting process.

• • •

Usually, a good compost pile is ready to use the following spring. With ample water, with proper nutrients and the introduction of bacteria, compost will provide a good summer mulch as well as material for improving the soil in the flower border.

Our LAND

Appearing in newspapers of the Minnesota Editorial Association through the cooperation of the U.S. Soil Conservation Service and the University of Minnesota Institute of Agriculture.

Many farms in Waseca county might make a traveler think he's in Iowa. Field after field in some areas raise nothing but corn, year after year. The continuous corn idea is getting more popular, says Larry Christenson, farm and home development agent in the county. Two of his cooperators, Herman Meyer and his son Curtis, have all but 16 of their 200 acres in that crop. With good fertilization, level land, and weed spraying, they find it's a workable scheme.

• • •

Ben Olson in Pennington county did his cropland and wildlife a good turn at the same time. The soil conservation district cooperator, who lives near Trail, planned and constructed a surface water drainage system. Don Lawrence, SCS technician at Thief River Falls says it leaves water in the deepest potholes for use by waterfowl. At the same time, cropland nearby no longer floods.

• • •

Soil blowing away? Then take a tip from brothers Chester and Glen Risbrudt, from Dalton. According to Roger Harris, extension soil conservationist at the University of Minnesota, the Risbrudts planted a 4-row field windbreak back in 1912. Even though it was damaged by a grass fire in 1952, it's 20 feet tall now. New shoots came up thick, making the windbreak tight. It protects fields from drying, holds more snow, and prevents wind damage. And it doesn't hurt production near the trees a bit.

Don't overlook the "steak" in your pastures. University agronomist A. R. Schmid and soil scientist P. M. Burson found this true last year: Steers on renovated, fertilized and manured pasture returned $54.61 per acre above costs. But the management was important. Where there was no fertilizer, profits went down nearly $16 per acre.

Front-Wheel Drive

Moline came out with the Culti-Plow in 1917 and it had the drive wheels in front so that the rear part of the tractor could be attached right to the machinery as with horse-drawn equipment.

Developing 9 to 18 horsepower at 1800 rpm, this Moline tractor was the first on the market with electric lights, storage battery and electric starter as optional equipment. Speed was from three-fourths to three and one-half miles per hour.

Some of these tractors had a pair of lines instead of a steering wheel, so that farmers could drive them "just like a team of horses."

Public Opinion

International Falls, Minn.
Editor, Times
Dear Mr. Dahlquist,

This letter is not written in anger as it might well be. However, it is written in the spirit of criticism of your attitude and editorial comment which I feel serves a purpose but not often a good purpose.

I feel that your continued destructive criticism which is not answered is having the effect of causing a deterioration of morale among the teaching staff and administration staff in T.R.F. I read your editorial comment for three years and never once got the idea that schools in T.R.F. were doing any kind of job worthwhile and I know that they were and still are doing an excellent job.

The board with the leadership of Dr. Starekow spent money, yes, but only to lift education in T.R.F. from where it had slipped under the conservative even reactionary leadership of former years. It costs money to equip a school that has dropped twenty years behind. It costs money in salary to change class sizes from the extremely heavy loads to the present sensible ones.

In three short years the standards in every department at Lincoln have moved always upward. The administration that you have browbeaten continuously is a good sound set of educational thinkers. They really are not the dishonest set of villains that you picture to the public.

The taxpayers strike which you so gleefully informed us of, will, if continued, lose an excellent faculty for your town and school. It will lose for you some rather top notch administrators. None of these men care to live long in the atmosphere that you have attempted to develop. They may pretend to disregard it but they cannot do that completely.

I cannot see that it is your mind to destroy the educational system of T.R.F., even though it may cost some of your tax money. I don't really think you mean to take it back to what it was five years ago. No one can wish that.

Bill, do you realize that each editorial comes back to one thing, money? You know as does everyone else you cannot run anything without money. You must realize that costs of everything have risen, even the cost of your paper.

Wise up, Bill, get behind the school and help, not hinder, educational output. Yes, you are in favor of the area vocational school but only because it makes money. I personally doubt that any school can have the purpose of making money; education is always the aim I have been led to think.

I know that you hardly dare print this but perhaps it will make you think.

Sincerely,
Miles Nelson.

A Greeting from Norway

Nearly seven months have elapsed since we left Thief River Falls with Norway as our destination. After spending some time in New York we embarked April 10th on the liner "Bergensfjord". The first port was Christiansand, April 18th. The next day Copenhagen, Denmark. Here we had a quick tour of the city and saw many places of interest. Arrived in Oslo April 20th. In these cities the old and the new seem to clash. Too narrow streets for the growing automobile traffic. Old frescoed buildings and modern concrete glass blocks. There is much building activity—housing projects here as well as in America.

Our travel has taken us as far north as Narvik, which resembles our Duluth in miniature. It is the terminal of the Ofoten R.R. which carries iron ore from the mines in Sweden down to this harbor where it is loaded and shipped to other European countries.

Narvik was the "Pearl Harbor" of Norway April 9th, 1940, when a great many ships were sunk and the city burned. It is being rebuilt as a beautiful modern city. Another place of interest in northern Norway is the Lafoten Islands, noted for its codfish. Here thousands of fishing craft operate during the winter months. "Nordlendinger" who might read this, we can greet you from Svolveer and Kabelvaag.

On the Island "Dunna" we saw the old stone church and took part in a service there. Saw the home of Prof. Ole Rolvaag, author of "I De Dage" or "Giants in the Earth." Also the home of Bishop Bang, perhaps known to older Lutherans in America.

King Olav of Norway and his daughter, Her Royal Highness Princess Astrid covered northern Norway with an official visit in all key places this summer. At Vik Helgeland, my home town, we had the honor of shaking hands with them.

Now after spending four months in northern Norway, conducting services, we are back in Oslo and vicinity, visiting Mrs. Sande's relatives. We have our passage for USA booked Oct. 30th and expect to be back home the latter part of November.

Services on Sunday, Oct. 18, at 11:15 a.m. in the Reiner Lutheran church. Members of the Ladies Aid will serve lunch, following the services. Sunday school at 10.15.

Homemakers to Meet

The Reiner Homemakers will have their first meeting of the year at the Selmer Holen home on Thursday, Oct. 15 at 1:30 p.m. Lesson will be on "clothing accessories" and will be given by Mrs. Albin Dahl and Mrs. Edgar Miller. Officers elected for the coming year are as follows: Mrs. Morris Miller, counselor; Mrs. Ernest Race, secretary; Mrs. Rudolph Kusmak, treasurer; and Mrs. James Coan, chairman.

Mr. and Mrs. Otto Sigerud, Mr. and Mrs. Bernard Wells, Mr. and Mrs. James Wells, Mr. and Mrs. Maver Holen, Mr. and Mrs. James Coan, Mr. and Mrs. Selmer Holen all attended the wedding of Shirley Hutchinson to Maurice Russell at the First Lutheran church in Thief River Falls Saturday evening.

Mr. and Mrs. James Coan, Becky and Judy, were Tuesday evening supper guests at the Robert Stenvik home.

Mr. and Mrs. Edgar Miller and Mari Lou spent the weekend at the Arnold Keim home in Lakota, N. D.

Mrs. A. Marquis arrived last week from Minneapolis and is visiting here at the Earl Marquis home and with the Bennie Johnson and Dick Marquis families.

Mrs. Morris Miller was an overnight guest on Friday at the Mrs. Alma Mills home in Thief River Falls.

Mr. and Mrs. George E. Vraa, Mrs. Cora Vraa and Mrs. Liza Vraa visited with Mrs. Lloyd Tayler at a hospital in Grand Forks Thursday.

Becky Coan was a visitor at the James Wells home on Friday.

Mr. and Mrs. Edgar Miller were quite surprised on Friday on arriving near Lakota, N D to see about 5-6 inches of snow there, and it snowed that much more by Sunday. So cars were stalled along the roadside. Mr. and Mrs. Miller had visited with their sister and brother in law, Mr. and Mrs. Arnold Keim.

Mr. and Mrs. Robert Stenvik and family were Friday evening callers at the James Coan home.

Herb Kane of Minneapolis spent a few days duck hunting at the Earl Marquis home.

Mr. and Mrs. Leon Iverson, Norman and Richard Miller were Thursday evening callers at the Edgar Miller home.

The Rosendahl Ladies aid had their supper and sale on Friday evening at the church. Many attended.

Mari Lou Miller visited with her grandparents, Mr. and Mrs. Bert Coan on Wednesday.

Mr. and Mrs. Ben Mosher and daughter moved in to Thief River Falls last week and are presently staying at the Erma Mosher home. Mr. Mosher is employed at Land O'Lakes.

STILL EXPANDING is the L. B. Hartz wholesale grocery plant, a business that has contributed very substantially to the growth and commercial prestige of Thief River Falls during the Thirty Years of Progress being celebrated this week. Pictured above is the plant as it looks from above at the present time. In the foreground is the original building at the present location, erected in 1937. In 1954 th expansion across the street took place, more than doubling the available space. And, as the above picture indicates, the present expansion will double the total space available in 1954. The plant will be open for inspection Thursday afternoon. In the picture at the left is the new state highway department maintenance building which is also the headquarters for the highway patrol communication system for northwestern Minnesota. The base of the 300-foot radio tower is shown in the upper left. These activities have added substantially to local payrolls.

Soil Tests Increase In Minnesota in 1959

According to John Grava, supervisor of the University of Minnesota soil testing laboratory, about 25,000 samples have been tested so far this year, compared to less than 19,000 at the same time a year ago.

Also, more farmers are sending samples in for testing at this time of year—an encouraging trend, Grava says 3,980 samples were sent in during September, compared to 2,549 for that month in 1958. A statewide "Fall Soil Sample Roundup" campaign was launched early this month, specifically to promote fall testing.

Fall testing increased last year too, although the peak then did not come until late October.

How many samples will be sent in before year's end will depend mostly on the weather. The later it is before a hard freeze, the longer farmers will have to get samples taken. If last fall's weather should repeat, Grava believes 1959 soil testing will top 35,000 samples, compared 30,000 last year, and 23,500 in 1957.

County agents have boxes and complete information on taking soil samples. It costs $1 to have each sample tested by the University.

Grava lists these reasons for fall soil testing: First, sampling is easier now. Second, finding fertilizer needs now means you can buy now and maybe get a discount. Third, fall testing means you avoid the spring rush and, fourth, some fertilizing and liming can be done this fall. For example, if legumes are to be seeded on acid soil, the lime should be put on six months before seeding—meaning this fall.

ROYAL COURT A Thief River Falls coed attending Stout State College, Menomonie, Wis., Carol Bishop (third from left), is shown in the royal court which will reign over homecoming festivities on the Stout campus October 16-18. Included among the events will be the traditional victory fire, parade and open house at the new student social center. Wisconsin coeds in the court are (L-R) Mary Price, Eau Claire; Joanne Salm, Chilton; and Mary Metz, West Bend. On guard in the background is "Johnny Bluedevil," college mascot. Carol, daughter of Mr. and Mrs. O. M. Bishop, is a junior in the school of home economics at Stout.

NOTICE TO CUT WEEDS

Notice is hereby given that persons owning or occupying real estate in New Solum township are required to cut all weeds or grass growing upon town roads on or before October 20, 1959.

If weeds or grass is not cut before this date, the township board will hire the work done and charges assessed against taxes.

By order of Township Board of Supervisor of Town of New Solum, County of Marshall, State of Minnesota.

Dated this 1st day of October 1959.

State Librarians Told of Progress

Association Held Annual Conference October 1-2

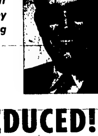
Some 68,000 rural Minnesotans are enjoying library service who never had it before.

This accomplishment was pointed out by Hannis S. Smith, director of the state library division, at the 64th annual conference of the Minnesota Library Association held October 1 and 2 at the Pick-Nicollet Hotel in Minneapolis.

In his report, Smith explained that Minnesota was of the first two states to qualify for aid under the Library Services Act. Since the act was passed in 1957, two new county libraries have been established in Anoka and Polk counties.

Two new regional libraries are serving five counties: one provides service in Dakota and Scott counties, the other in Isanti, Mille Lacs and Pine counties. Eight other county libraries have received grants. They are Blue Earth, Clay, Kandiyohi, Koochiching, Martin, Nobles, Stearns and Waseca.

As a result, 269,000 more rural Minnesotans have improved library services; 12 Minnesota counties now have 16mm. film service through county or regional libraries; the new county and regional libraries are circulating books at a rate of 350,000 a year; and $130,000 more a year is being spent on rural library services from county funds.



Mrs. Merle Lennartson, librarian at St. Cloud public library, was elected president of the association for 1959-60. First vice president and president elect is Robert H. Simonds, chief of processing, Minneapolis public library.

Community Chest to Open Drive Monday

Goal Set at $12,700; Seven Agencies to Share in Proceeds

The 1959 Pennington county Community Chest drive opens officially Monday with a target goal of $12,700 to be met by the end of October.

Chest president George Hale and drive chairman Jarvis Prichard today announced that from advance indications this year's drive may shape up to be one of the most successful.

Hale called attention to the fact that when residents contribute to the Community Chest, they are giving to the direct support of these seven organizations: Minnesota Assn. for Retarded Children, Sister Elizabeth Kenny Foundation, Arthritis and Rheumatism Foundation, American Cancer Society (American Division), Girl Scouts of America, Boy Scouts of America and the Salvation Army.

This year's drive will mark the first time for this county that some groups have decided to go along with a payroll deduction plan. This plan has met with outstanding success in other chapters where it has been used.

The first organization to approve the payroll deduction plan, according to Hale, was the Soo Line's large group of employes in Thief River Falls. Superintendent E. A. Hamerski stated that Soo Line employes will begin their campaign October 15, which coincides with their semi-monthly payday.

Each Soo Line employe will be contacted by a worker from his own department. They include Al Stenberg, engineers; Lloyd Quesnell, Robert Looker, H. Eide and Mel Carlson, trainmen; Palmer Lorenson, firemen; Russ Berger, telegraphers; Cecil Collins, railway clerks; Bill Reed, carmen; Ward Votava, roundhouse; Elnar Newman, maintenance of way; and Ray Hartley, superintendent's office.

Soo Line employes are reminded that it is not mandatory that they take the payroll deduction plan. The plan has been set up for their convenience, according to drive chairman Jarvis Prichard, and they may sign for the deduction or make a straight donation when their residence is solicited.

Dr. Ed Gilbert, chairman of the residential drive, plans for a residential coverage to begin Monday, Oct. 26. Dr. Gilbert said that the Thief River Falls Wo-

First Baptist to Hold Cornerstone Ceremony Sunday

New Sanctuary on Horace av. to Be Used for Morning and Evening Services

The First Baptist church will conduct a cornerstone ceremony for its new church edifice at 414 Horace av. N. Sunday, Oct. 18. The morning service at 11 a.m. will be planned especially for the occasion with the choir singing a suitable selection and the pastor speaking on the subject: "Christ as the Stone."

At 3 p.m. the cornerstone ceremony will take place. A box containing a Bible, church bulletin, certain historical data, and a copy of the Thief River Falls Times containing a description of the building project, will be placed behind the stone. Then Pastor Dalzell and a member of the building committee will cement the stone in place.

The evening service will center around the new baptistry, which is the only one of its kind in this area. Baptismal rites will be conducted during the service which will include a musical program and a message by the pastor, Rev. W. R. Dalzell, on the subject: "What the Bible Teaches About Baptism."

Sunday, for the first time, the new sanctuary will be used for morning and evening services. The building project is almost completed although new pews have not as yet arrived. The formal dedication of the church will be Sunday, Nov. 29, and details are now being planned.

City Finances Topic at Rotary on Monday; Two Aldermen Speak

SECY. Robert Kammerer of Hartford, Conn., last week assumed his new duties as executive secretary of the TRF Chamber of Commerce, succeeding J. M. Roche, now serving as superintendent of the Oakland Park rest home. Kammerer, a graduate of the University of Iowa, had been manager of the trade development department of the Hartford Chamber of Commerce.

City finances and the 1895 charter under which Thief River Falls operates were the subjects discussed by two aldermen at the October 12 meeting of the Rotary club.

Alderman E. B. Benson predicted that if the school district and county held the line on their budgets for next year, the 240.37 total levy will be the same next year. Of this total, the city gets 45 mills, the school district's portion is 107 mills, the county's share is 75 mills and the state gets 12 mills.

The city's present indebtedness in general obligation bonds is $919,655 of which $164,862 will be paid off this year, Benson said. General revenue bonds of $190,000, of which $25,000 will be paid off, are also a part of the indebtedness of the city.

Benson cited the increase in interest rates through the years by showing that the city had sold bonds at 2% in 1948 and in 1958 at 4.5%. Bond attorneys had advised against refunding over a 20 year basis pointing out that the increased rates today would cost the city an additional $256,000 in interest.

Alderman A. J. Rau stated that in his opinion, it was "high time to change the charter under which the city is operating." He pointed out that the charter of 1895 still in effect causes many difficulties in operations and that many activities in which the city is now engaged were not even thought of in 1895.

Rau called for action by some civic-minded individual or group to propose a charter change to the city council for action to begin. He pointed out that it was nearly impossible for any committee or chairman of the committee from the city council to devote the time required by necessary work. As examples, he stated that the sewage plant will only be adequate for another four or five years, the city dump will need to be replaced and that city parks and recreation facilities are continually facing problems.

Lions Community Halloween Party Scheduled Oct. 31

Ormond Johnson, General Chairman, Tells of Plans for This Year's Festival

Plans for the Lions club annual community Halloween festival were outlined by Ormond Johnson, general chairman, at the club's luncheon meeting Wednesday noon.

Due to the fact that Halloween this year falls on a Saturday, October 31, Johnson stated that changes have been made in the grade school pupils' portion of the program, which last year included movies shown in the schools.

Children of ages up to the sixth grade will be entertained at a costume party in the Auditorium from 3 to 5 p.m., a feature of which will be a drawing to determine the winner of a handsome Shetland pony donated by Stanley Ranum.

For junior high school students, plans are in the making for a costume roller skating party in the arena, with suitable prizes to be awarded.

Senior high school students will enjoy an evening dance in the Auditorium, at which prizes will be given.

Lay Cornerstone of Luth. Brethren Church Oct. 18th

A cornerstone laying ceremony will take place Sunday, Oct. 18, at 2:30 p.m. for the new Lutheran Brethren church edifice located on 6th St. and Dewey Ave. Rev. N. A. Langness is pastor.

Rev. J. A. Rangen, president of the North Central district of the Lutheran Brethren Church of America, will be the speaker for the occasion and a band of stringed instruments from the Triumph Lutheran Brethren church of Moorhead will render several musical numbers.

PROGRESS in other phases in Thief River Falls in recent years has been paralled with progress in communications. The Northwestern Bell Telephone company building was constructed in 1957 and the conversion to dial telephones was completed Sept. 8 of that year. In 1930 when Thief River Falls had a population of 4,268, there were 1,037 telpehones in use. Today, with a population of 8,200, the city is using 3,251 telephones.

Blue Barron Band Plays for Armory Dance October 25

Popular Blue Barron and his orchestra will supply music for a dance in the Thief River Falls Armory Sunday evening, Oct. 25, and preceding the dance will present a concert at 8 o'clock.

Ecklund-Holmstrom post of the American Legion is sponsoring the appearance of the Barron orchestra, with the proceeds to go to the support of the Boy Scout Oak Island wilderness camp.

Tickets will be sold in advance at reduced prices, it was announced.

Tractor Driving, Pie Eating Events Saturday at 1:30

Jaycees Are Sponsoring Contests to Be Held on Knight av., 1st to 2d st.

Two attractions of special interest to farmers of the area and the youngsters will be a part of the "Thirty Years of Progress" celebration in Thief River Falls October 15-17.

The events, arranged by local Jaycees, are scheduled to begin at 1:30 Saturday afternoon, and include a safe tractor driving contest and a pie eating contest which will be held on Knight av. between First and Second sts.

The tractor driving contest will be for two age groups, drivers from 14 to 18 years of age and for those 19 years of age or older. Three prizes of $10, $5 and $3 will be awarded the winners in each of the divisions. Those who would like to take part in the contests are urged to contact either Paul Stelmaschuk or Jon Metusalem.

Boys and girls up to the age of 14 years will be contesting for prizes of $5, $3 and $2 in a pie eating contest which will be held following the tractor contest. Contestants will register Saturday at the arena.

The rope pulling contest previously announced has been cancelled because of weather conditions.

Max Jensen Files for Council Post from Third Ward

Max Jensen, 121 LaBree ave. S., is the latest candidate to file for the Nov. 3 city election. He will oppose Olaf Dahlen, third ward alderman who filed earlier this month. Filing for city offices closes Monday, Oct. 19.

Association for Retarded to Meet

The Northwestern Minnesota Association for Retarded Children will meet tonight, Thursday, at 8 p.m. in the Woman's club room in the Auditorium.

Two films, "Almost Forgotten Children," and "The Twig is Bent" will be shown. Any interested persons are invited to attend.

Mr. and Mrs. Joel Hovden and daughter, JoAnn, returned to their home in Lubbock, Texas, Thursday after a two-week vacation with relatives and friends in Iowa, Hopkins and this city.

Salary Issues Occupy School Board Monday

Insurance Coverage on School Buses Is Increased by Board

Contracts and requests for wage readjustments occupied most of the time of the Thief River Falls school board during its meeting Monday, Oct. 12.

The board accepted the resignation of Miles Nelson as senior high school principal and approved the contract of Arnold Larson, former junior high school principal, to replace Nelson. The contract of Francis Hamerlinck as assistant senior high school principal, was also approved.

Contract modification forms were approved following additional educational degrees and other work by teachers. Nancy Lee Granger, Hazel Iverson, Laura Syvester and Christine Johnson earned B.A. degrees and an additional year of training was finished by Alice Vraa and Agnes Hanson. Richard Goldenstein earned his M.A. degree.

Ray Ulferts will teach mathematics and science in addition to his regular hours in general science. Charles DeCorsey will coach B squad football and Geo. Schlieff will coach Washington school football.

The contract of Senora Skay to teach half time at Northrop school was approved.

Although policies in regard to leaves of absence were discussed, no action was taken in the matter.

Contracts with rural districts 1548, 1556 and 1561 for the transportation of non-resident secondary pupils were approved. The contracts call for the payment of $9 per month per pupil.

Contracts were approved for instructional costs and transportation of Terry Cuppett who is attending a blind and sight-saving school in Fargo and the application for the homebound instruction of Barbara Stromberg was also approved.

The insurance certificate of G. S. Bruggeman for the transportation of kindergarten pupils was approved as was the increased liability coverage of school bus insurance from the present $100,000-$300,000 limit to $100,000-$500,000 at a premium increase of $14 a year.

The board turned down a request of secretaries in the elementary school for an increase in pay from the $1.00 an hour rate now in affect. The request called for an increase to $1.08 in one year, $1.16 the second year and $1.24 the third year.

A proposal for increased pay for secondary school substitute teachers was also rejected by the board. The proposal called for $17 the first day, $18 the second day, $19 the third day and $20 the fourth and fifth days. The present scale calls for $14.

W. E. Dahlquist, editor of the Times, appeared before the board to discuss the possibility of improved relationships between the newspaper and the school board. He asked that the official proceedings of the board be set up to follow the intent of the law. No official action was taken by the board but the matter will be taken up again at a meeting the evening of October 17.

Mercury Drops to 20 Monday Night

Snow Flurries Forecast for Today and Friday

The coldest temperature this season, 20 degrees Monday night, put a thin layer of ice on the river which disappeared the following day when a high of 41 was recorded.

With the exception of the 41 reached Wednesday, Oct. 14, temperatures during daylight hours have been in the 30's all this week and have varied at night from the low of 20 to a high of 34 recorded Wednesday. The skies have been cloudy every day with the exception of Monday morning.

Considerable cloudiness is expected today and tonight with occasional light snow, according to the KTRF weather station. Tomorrow, mostly cloudy and windy with occasional snow flurries and colder is predicted.

Winds today are expected from the southeast with velocities from 10 to 20 miles an hour. The high today will be from 38 to 45 and the low tonight in the 30's.

Progress Fete Gets under Way

CITY GROWS The above chart tells the story of Thief River Falls population growth dating back to 1890 when the inland settlement had an official population of 161. The Great Northern railroad extended its branch line from St. Hilaire in 1892 and from then until 1904, when the Soo Line built through to Winnipeg, Thief River Falls was the end of the line and became the trading point for a large area.

By the year 1900 the population had increased to 1,853. By 1905, as the division point of the Soo Line, the population had grown to 3,502 and by 1910 reached the 3,714 mark. From 1910 to 1920 another thousand had been added — and then came the decline of the twenties, when, for a few years, the population dropped nearly a thousand and there were many empty homes in the city.

By 1930 things were booming again and in the following decade the population jumped from 4,268 to 6,019. By 1950 the total was 6,918 officially and the estimated population for 1960 is well over 8,000.

3-day Celebrate to Recognize 30 Years Advancement

The three-day Thirty Years of Progress celebration, centering about the coming to Thief River Falls in 1929 of Land O'Lakes Creameries, as well as noteworthy advances in other phases of community life, is getting underway here today and will continue through Saturday. Many firms will hold open house during the weekend.

Morris Howick, general chairman, stated that features of the event include an automobile and appliance show all three days in the arena, a style show in the municipal Auditorium this afternoon and Friday at 2 o'clock, a banquet in the Armory this evening at 6:30, with Land O'Lakes officials and area creamery men as guests; and sports events Saturday, sponsored by the Junior Chamber of Commerce, which also has arranged for a free dance in the Auditorium Friday evening.

During the three days, scores of turkeys and other prizes will be awarded to lucky persons among those who register at local business places.

Well over 20 1960 cars, representing 18 makes, are on display in the arena show, in addition to a varied display of appliances shown by ten local firms. Admission will be free, and numerous prizes will be awarded. Local dealers cordially invite the public to inspect the new models.

The Junior Chamber has arranged a safe-driving tractor contest to be held Saturday at 1:30 p.m. on Knight av. between First and Second sts. Prizes totaling $36 will be awarded to drivers in two age divisions. Immediately following, a pie eating contest will be staged for boys and girls up to the age of 14. Three prizes, $5, $3 and $2 will be awarded.

Models Named for Two Style Shows

The latest in fall and winter fashions will be presented to the public at two style shows during the "Thirty Years of Progress" celebration in Thief River Falls Oct. 15-17.

Shows will be presented beginning at 2 p.m. both Thursday and Friday in the city Auditorium under the chairmanship of Mrs. J. J. Womack and Mrs. M. D. Starekow.

Featured in two appearances at the Thursday show will be Prof. Cyrus Running of Concordia college, an accomplished musician who presents a Victor Borge type of piano and monologue act that has been well received throughout the area.

Friday's special attraction will be a musical duo, Warren and Shorty, who will present songs accompanied by an accordion and bass viol.

Both programs will have Mrs. L. L. Tygeson as narrator and Mrs. Curtiss Nelson as piano accompanist. The script has been prepared by Mrs. J. J. Womack.

Eight stores have cooperated in the two presentations of women's, girls' and boys' fashions which will be modeled by local residents. Fashion Shop wear will be shown by Mrs. Roy Oen and Miss Mary Lou Fisher; Bjorkman's fashions will be presented by Mike and Tim Kelly and Bob Race; Elaine's models will be Mrs. Tom Anderson and Mrs. Robert Bredeson; Ward's fashions will be shown by Mrs. Clarence Stromberg; Miss Rosalie Fonnest, Miss Cheryl Martin and Miss Vicki Koglin; Lein's wear will be modeled by Mrs. Les Ihle and Mrs. Tom Reich; J. C. Penney company models will be Mrs. Robert Baker and Miss Christy Baker; the Junior Shop will present Miss Julie Watzke, Miss Shawn Melander and Murray Melander in their fashion creations and the S&L will have as its models Miss Ann Gunderson and Miss Bonnie Burrell.

$475,317 Soil Bank Payments Made to Date in Pennington

Amount Represents 53 Per Cent of Amount to Be Distributed in 1959

Patrick W. Culkins, manager of the Pennington county Agricultural Stabilization and Conservation office announced today that as of the close of business October 14, the county office had paid out $475,317.01 to Pennington county producers who have all or part of their farms contracted to the government under the soil bank program.

This represents approximately 53 per cent of the total that will be paid out in Pennington county to farm owners and operators in 1959.

He also said that all payment statements have been completed by the county office, and are ready for the signatures of producers. He suggested that all producers who have not signed their payment statement do so at once, because checks cannot be issued until the signature of the claimant is secured.

SOCIAL ACTIVITIES

Sharon Hendrickson and Richard Olson Are Wed

Rev. Reuben Wangberg performed the double ring ceremony Saturday evening, Oct. 10, at Trinity Lutheran church which united Miss Sharon Hendrickson and Richard Olson in holy matrimony.

The bride is the daughter of Mrs. Julius Hendrickson and the bridegroom's parents are Mr. and Mrs. Melvin Olson, all of this city.

Baskets of gold and brown pompons and lighted candelabra graced the altar of the church for the 8 p.m. ceremony. Mrs. Walter Lawson was at the organ playing the traditional music and accompanying Mrs. Donald Olson as she sang "Crown With Thy Benediction" and "The Lord's Prayer."

Ushering in on the arm of her brother, Julius Hendrickson of Minneapolis, the bride was attired in a street length dress of champagne colored brocaded taffeta. The princess styled dress featured a scalloped neckline, long sleeves which came to a point at the hand, and she carried a bouquet of autumn roses surrounded by white feathered carnations. The traditional something old, new, borrowed and blue was carried out.

The Misses Kay Kollitz and Carole Thorson of this city, friends of the bride, served as maid of honor and bridesmaid, respectively. They wore street length dresses of brown velveteen with three-quarter sleeves and a waistline. The dresses were of sheath style and were accented by an Empire waist with a front bow. Their headbands were of gold satin featuring a large flax bow, and they carried bouquets of autumn roses and gold pompons.

Erling Olson, brother of the bridegroom, served as best man with Morris Olson, another brother, as groomsman. Ushers were Jerry Hendrickson, brother of the bride and Frank Marquette of Grand Forks, friend of the couple.

For her daughter's wedding, Mrs. Hendrickson chose a beige and brown tweed suit dress with brown accessories, while Mrs. Olson wore a green and black tweed suit dress with black accessories. Their corsages were of autumn roses and white carnations. Mrs. Lena Olson, grandmother of the bridegroom, was also presented with a corsage.

Following the ceremony, approximately 125 relatives and friends attended the reception in the church parlors. A three-tiered cake, topped with wedding bells, centered the bridal table. It was baked and decorated by Mrs. Henry Thorson. Cutting the cake was Mrs. Clifford Jorde with Mrs. Sherman LaPorte and Mrs. Elmer Andersen, aunt of the bridegroom, pouring. Waitresses were Miss Susan Forkenbrock and Miss Shirley Kulseth, friends of the bride.

Others assisting were Mrs. Duane Taggart, friend of the bride, of Bemidji, at the guest book, with Mrs. Jerry Hendrickson, sister-in-law of the bride, and Mrs. Frank Marquette, friend of the couple, at the gift table. A wedding dinner was served preceding the ceremony at the home of the bridegroom's parents, for immediate relatives and friends.

For their honeymoon trip, Mrs. Olson chose a green and brown tweed suit with brown accessories and a corsage from her bridal bouquet. They are making their home in this city.

The bride and bridegroom both graduated from Lincoln high school, class of 1958 and 1954, respectively. Mrs. Olson is employed in the bookkeeping department at Northern State bank while Mr. Olson is with the Minnesota highway department.

Relatives and friends from Minneapolis, Grand Forks, Bemidji, Benson and surrounding communities attended the ceremony.

Anita Aase and Gene Berg Are Wed At Gatzke

Anita Beth Aase, daughter of Mr. and Mrs. Juell Aase, and Gene Arnold Berg, son of Mr. and Mrs. Ernest Berg, all of Middle River, were united in marriage Saturday, October 10, at Gatzke.

The double ring ceremony took place at the United Lutheran church at Gatzke at 4 p.m. and was officiated by Rev. Duane Thompson. Mrs. Arnold Haugen was at the organ, playing the nuptial music and accompanying Mrs. Duane Thompson as she sang "O Perfect Love" and "The Wedding Prayer".

Given in marriage by her father, the bride chose a street length dress of navy blue wool and crepe with red accessories and a corsage of red and white carnations. Her pearl earrings and necklace were a gift of the bridegroom.

Mrs. Joseph Schmidt of Minneapolis, sister of the bride, was matron of honor, wearing a black wool jersey dress with black accessories and a corsage of carnations. Mrs. Hjalmer Hanson, sister of the bridegroom, was bridesmaid, wearing a forest green wool jersey dress with black accessories and a corsage of carnations.

The bridegroom was attended by Jerome Berg, his brother, as best man with Hjalmer Hanson, his brother-in-law, as groomsman.

Following the ceremony a wedding dinner was served at the home of the bride's parents. The bridal table was centered with a wedding cake, baked by the bride's mother and topped with a miniature bride and bridegroom. Mrs. John Loven and Mrs. Aksel Gormsen, served the dinner assisted by Judy and Arlene Berg, Marilyn Nelson of Thief River Falls, Janet Dahl and JoJean Monson of Minneapolis as waitresses.

Both the bride and bridegroom are graduates of Middle River high school and Mr. Berg served with the Army for four years. He is now employed with the Ness Construction Co. of Mahnomen.

Relatives and friends from Grand Forks, Thief River Falls, Minneapolis and Grygla attended the wedding.

Falls Squares To Dance Saturday

The Falls Squares will hold a regular dance meeting Saturday evening, Oct. 17, at 8:30 p.m. at the Odd Fellows hall in Thief River Falls.

Instructions will be given to those wishing to learn square dancing, according to President Arlyn Martig, with the club caller, Ed DeLap as instructor. Several new as well as old dances will be on the agenda for the evening, with lively couple dances and round and square dances featured.

Those wishing further information regarding membership in the club can call the president, Arlyn Martig; vice president, George Monroe of Radium; or secretary-treasurer Herb Hartje of Thief River Falls, or any club member. Anyone interested is invited to attend the meeting Saturday evening.

Ted Markus's Note 25 Years of Wedded Life

Mr. and Mrs. Ted Markus of Bemidji were honored recently at an open house held at the First Methodist church in Bemidji in observance of their silver wedding anniversary. Mr. and Mrs. Markus were residents of this city for several years.

Dr. Dick Edwards served as master of ceremonies for the program at which time a tape recording message from Rev. Lyle Christianson, who was unable to be present, was played. Dr. Edwards also read a clipping of the account of the Markus' wedding 25 years ago in Thief River Falls. Congratulatory messages were read from Dr. Crawford Grays and Rev. E. L. Tangseth, of Seattle, who officiated at the wedding ceremonies. Tim Bjolla, Jr., nephew of the honored guests, sang "I Love You Truly" and "The Lord's Prayer" during the ceremony.

The four original attendants were present for the occasion; Elnar Aakre of Everett, Wash., Richard Aakre of Grand Rapids, Mrs. O. Gullickson of Grand Forks, Mrs. Mel Olson, nee Wilma Aakre, of Tacoma, Wash.

Following the program approximately 200 relatives and friends attended the reception in the church parlors. A three-tiered anniversary cake centered the serving table. The reception also served for a family reunion for the eight brothers and sisters of Mrs. Markus, who hadn't been together for 35 years. Relatives and out-of-town guests were entertained at dinner at the Markus home that evening.

Those attending from this area were Mr. and Mrs. Dale Miller and Mr. and Mrs. Torjus Morken of Crookston, Mr. and Mrs. Ted Morken and Barbara of Climax, Mr. and Mrs. Selmer Erickson, Mr. and Mrs. John Erickson and Gary Vraa of Goodridge, Mr. and Mrs. H. P. Nabben and Haakon of Thief River Falls.

Kval-Nagatomo Vows Exchanged At Plummer

Before an altar graced with baskets of white gladioli, fuji mums and candelabra, Miss Elsie Jane Kval of Plummer became the bride of Lawrence Nagatomo of Minot, N. D., Saturday evening, Oct. 10, at the Immanuel Lutheran church at Plummer.

The bride is a daughter of Mr. and Mrs. Edwin Kval of Plummer and the bridegroom is the son of Mrs. George Nagatomo of Minot, N. D.

Officiating at the 4 p.m. double ring ceremony was Rev. O. M. Simundson with Miss Sonja Johnsrud of Dablin, N. D., at the organ. Soloist was Clarence Thompson of Plummer, who sang "O Perfect Love" and "The Lord's Prayer."

Entering in on the arm of her father, the bride was wearing a floor length gown of lace over tiered layers of white tulle and net. It featured a scooped neckline and long sleeves which came to a point at the hand, on a fitted bodice and a bouffant skirt. Her fingertip veil fell from a pearl bedecked crown and she carried a bouquet of white fuji mums.

Mrs. Gene Isaak of Grand Forks, sister of the bride, was matron of honor, followed by Mrs. Richard Hovet of Iowa City, Iowa, another sister, and Mrs. Erwin Kval of Flint, Mich., her sister-in-law, as bridesmaids. They were attired in street length sheath dresses of rust velveteen with matching overskirts of rust net. They featured square necklines, sleeveless and were accented by bouffant skirts. They wore headbands to match their dresses and carried bouquets of yellow and bronze fuji mums.

The bridegroom was attended by his brother, William Nagatomo of Fergus Falls as best man, with Robert Anderson and Ronald Abrahamrom, both of Minot, N. D., as groomsmen. Ushers were Erwin Kval of Flint, Mich., and David Flint of Grand Forks.

For her daughter's wedding, Mrs. Kval chose a brown sheath dress with matching jacket and accented by dark brown velvet trim with matching accessories. The bridegroom's mother wore a fall-colored dress with matching accessories. Their corsages were of yellow roses and white carnations.

Approximately 125 relatives and friends attended the reception in the church parlors following the ceremony. The three-tiered wedding cake, which centered the bridal table, was cut and served by Mrs. Eileen Townsend, sister of the bridegroom, of Chicago. Mrs. Melvin Bratland of Lisbon, N. D., served the punch. Hostesses were Mrs. Ostby, Mrs. DuChamp, Mrs. Froiland, Mrs. Stengel, Mrs. Heupel, Mrs. Skatvold, Mrs. Knutson, Mrs. Bill Robinson of Denver, Colo., sister of the bridegroom, was at the guest book with Muriel Bratland of Lisbon, N. D., and Glenda Welgum of Golden Valley, N. D., at the gift table.

For their honeymoon trip to Canada, Mrs. Nagatomo chose a royal blue wool sheath dress with a scoop neckline, accented with a large collar and matching accessories. Upon their return they will make their home in Chicago.

The bride and bridegroom are both graduates of the University of North Dakota in Grand Forks. Mr. Nagatomo has completed two years of law at the university and will now attend Kent School of Law in Chicago.

Relatives and friends from Chicago, Ill., Flint, Mich., Denver, Colo., Iowa City, Iowa, and various parts of North Dakota and Minnesota attended the wedding.

Methodist Church School Parley in City Is Canceled

Observation School Here Friday, Saturday Called Off Because of Conflicts

The observation school which was scheduled to be held in the Community Methodist church on Friday and Saturday, Oct. 16 and 17, has been cancelled because of unavoidable conflicts, the Rev. Henry Friedman, pastor, announced today.

This school which would have been under the direction of the Minnesota Methodist conference board of education would have brought four state leaders to Thief River Falls for the special training of Sunday church school and week-day church school teachers and leaders.

A similar school will be held in the Methodist church at Crookston on October 30 and 31, and local people interested are reminded that they will be welcome to attend the Crookston school in view of the cancellation here.

Rev. Henry Friedman has been in Minneapolis this week attending the semi-annual meeting of the Minnesota Conference Board of Education of which he is a member.

The Northrop PTA will hold its second meeting of the 1959-60 season in the school auditorium, Monday, Oct. 19, at 8:00.

Mrs. Lillian Smith will report on the PTA fall conference at Red Lake Falls and Miss Judy Wold will relate her experiences this past summer as an exchange student in Sweden. The St. Olaf college nurses quartet will sing.

The kindergarten mothers will serve the lunch.

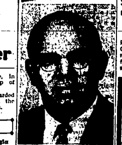
BAPTIZED Now seven months old, the Merideth triplets, who live with their parents, Mr. and Mrs. Claude H. Merideth on Greenwood blvd., were baptized at the Methodist church Sunday, Oct. 11, by Rev. Henry Friedman. Mr. Merideth is holding Charles after the baptism. Rev. Friedman is holding Paul and Mrs. Merideth is holding Beverly.

3 Lincoln Students Candidates for Trip Abroad Next Summer

From a field of eight applicants, three Lincoln high school juniors, all girls, have been selected to have their names submitted to the New York headquarters of the American Field Service, which will select one of the trio to spend the summer of 1960 in a foreign country.

Arnold Larson, Lincoln principal, announced that the candidates are Connie Ekeren, daughter of the Ole Ekerens; Marji Race, daughter of Mrs. Margaret Race; and Pamela Thorkelson, daughter of the Robert Thorkelsons.

Sharing in the sponsorship of the trip is the local chapter of the American Field Service, in cooperation with a group of other organizations.



Miss Judy Wold was awarded the 1959 trip, and spent the summer months in Sweden.

Co. Agent Advises Caution in Buying of Feeder Cattle

Are Expected to Average $5 to $2 Lower Per 100 lb.

Take a close look at the price tag, and figure if those feeder cattle you are about to buy can be over a check for 5 to 10 cents a County Agent Paul Hutchinson says.

The plain fact is this: If you pay as much per hundred for this fall as you did a year ago, you'll be hurt by it; you get paid for your feed and corn costs, and mention a return for your labor.

Here's why. Slaughter prices are expected to average $1.50 per hundred pounds lower in the fall of 1950 than they were in the spring of 1950.

That means, according to a University of Minnesota livestock economist, that you have to buy steer calves for $2.64 per hundred less to pocket the same profit you made last year.

Possibly, though, the October calves haven't, in general, dropped that much. The nice profit margins from a few years back have been little enjoyed since. With the unfavorable outlook, Hutchinson says, it is time to "about $2, but they'll be fools for cattlemen to make as much as they did last year."

However, 1950 is no year for the established cattleman to drop out of the business, Hutchinson says. Those who have been feeding will make it possible to market roughage and corn at paying market prices, plus other cash costs and still have some labor return.

And even if there isn't much profit in feeding cattle, there could still be the best outlet for unmarketable roughage, like a drouth-damaged corn silage and your hay.

Thomas Chittick Is Visitor Here

Thomas H. Chittick of Berkeley, California, is visiting relatives here in this city en route to Ithaca, New York, where he plans to spend the winter months with his daughter, Mrs. Howard Costello, 1107 East State street, Ithaca.

Mr. Chittick, formerly employed as a clerk from 1905 to 1924, although he still has established his home in Berkeley.

If all in a group always think alike it is probably only one person is doing the thinking.

WASHINGTON

Several of the educational facilities provided in Thief River Falls in the Washington elementary school complex at the new, story brick structure features the extensive use of glazed tile on interior walls and a multi-purpose room which is used as a gymnasium, cafeteria, and assembly hall. The school was open in the fall of 1937 and now has an enrollment of 360 pupils. All materials needed for the building of the school were purchased locally, thus giving employment to a greater efficiency. The old Washington school was remodeled and incorporated into the Lincoln high school plant.

Community Dairy Store Opening Set

Grand Opening Friday and Saturday at 212 Second st.

The Community Dairy Store, Cash and Carry store at 212 Second st. E., will have its grand opening Friday and Saturday, Oct. 20 and 21, it was announced by George Lien, manager of the store.

The location has been formerly used by the Rowland cream station for the Community creameries of Lake Benson. The station has been completely remodeled and redecorated and will be open for service while other operations on the building are completed from time to time.

George Lien and Oscar Nyhus expanded into the retailing of dairy products from their former wholesale activities. They will be in the location since that time, and have added a complete line of groceries, including milk, butter, eggs, ice cream, cottage cheese, fresh chickens and poultry.

Lien and Nyhus will be ready to serve the public at the store each days of the opening and door prizes will be awarded. The store will be open all day and evening until 10 o'clock.

Style Shows to Be Staged Today and Friday at 2 p.m.

(Continued from Page 1)

The fashion shows will be presented under the sponsorship of the Northwestern Hospital Auxiliary. In addition to Mrs. Nyhus and Mrs. Starebow, other members of the committee preparing the shows are Mrs. Gene Lien, Mrs. Ed Lien, Mrs. Ralph Ostlund, Mrs. Hugh Bergeson and Mrs. Everett Armitegard.

A small admission charge will be made.

Stelmaschuk Cites Benefits of 4-H Work

Ask any of the 5,000 Minnesota boys and girls in 4-H what they get out of their 4-H club work and you'll almost hear the fun they have. They'll also tell you about the real satisfaction they get out of learning by doing, according to Community agent Paul Stelmaschuk.

Four-H provides an opportunity for citizenship, recreation and achievement. There is never lack of something to do when you are a member. 4-H'ers are taking part in the International Farm Youth Exchange and an inter-state program.

4-H members are encouraged to exhibit and demonstrate their skills. In addition to their work they gain satisfaction and enjoyment from it. They may also win material awards — award pins, hats, cash prizes, certificates, special trips. Top winners in county 4-H activities are eligible for attending State Fair or Dairy and Conservation camps at Itasca park. Top winners in county and state competitions may also participate in district and state 4-H events.

Fun and fellowship with other young people, join your local 4-H club. Those of you between the ages of 9 and 21 all year calendar. Contact any local 4-H leader or the county extension office.

Paul Furuseth Named Head of 4-H Leaders Council Last Monday

Paul Furuseth will head the 4-H leaders council for the year 1959-60. A member of the City View club, he was elected president at the council meeting held Monday. Other officers elected and installed were Oliver Haugen, vice president, St. Hilaire; Mrs. Ray Maxson, secretary, St. Hilaire club; Lloyd Nelson, treasurer, Silverton.

Two new junior leader offices were set up. Elaine Hellquist of New Solum was elected roll call secretary, and Milton Leiran of Silverton was elected to the reporter post.

4-H'ers were encouraged to enter the safety poster contest sponsored by the Farm Bureau. The posters are to be 17 x 22 inches and can be the same as those used at the county fair. They are due October 22 at the extension office.

A score sheet for an electric award to be presented by the Red Lake Electric Co-op was reviewed. 4-H'ers in the electrification project will be mailed sheets which they need to complete and return to the extension office by October 30 to be considered for this award.

The council will serve coffee and doughnuts at the dairy sale and the car and appliance show at the arena on Thursday, Friday and Saturday. The committee in charge includes Mrs. Ray Oen, Mrs. Raymond Farnow, and Mrs. Wendel Corbet.

Appointed to the awards committee for the new club year were Paul Furuseth, Lloyd Nelson, Mrs. Ray Maxson and Mrs. Adam Lendobeja.

Council members selected to work on the 4-H achievement banquet committee were Mrs. Ray Maxson, Mrs. Arnold Gunderson and Mrs. Verton Wold.

A new project was accepted for county 4-H club work. 4-H'ers will now have an opportunity to enroll in the riding horse project. This includes ponies or riding horses. 4-H'ers should contact their leaders and get their names on the enrollment sheets if they would like to enroll in the horse project.

All project records will be mailed directly to 4-H members this year. This is a change from previous years when the leaders distributed the records. As soon as the enrollment cards and enrollment sheets are at the extension office, project records will be sent to the 4-H members in those projects in which they enroll. The records will have to be handled with care since only limited numbers will be available.

4-H'ers are encouraged to enter the Jaycees tractor driving contest Saturday. The age groups are 14 to 18; and 18 years and over. Registration for the contest can be made at the extension office.

Public Opinion

Editor, The Times:

Our erstwhile principal, Miles Nelson, speaking from the safety of distance, has voiced rather bitter criticism of the stand of the Thief River Falls Times, so far as the education of our children is concerned. I feel impelled to offer a rebuttal to his rather strong statements.

Every person's field of endeavor seems to him to be the most important one. In their zeal, many men overlook the logical aspects which are so important and which serve to balance every situation. School people are especially prone to fall into this category, because they have never had the experience of having to raise money for the payroll. In their case, the money for the payroll is raised by another agency, that is, extracted from the people, and is made available to the school officials without the heartbreak which is oftentimes the lot of the private business man. Tax money is not just figures. It represents the $4.20 which is deducted from the pay check of the tired mother who is working in the grocery store. It is perhaps, the $6.55 which is removed from the needed pay of the widow who is mopping floors in the office buildings.

We know the Times is strongly in favor of a high level of education. At the same time, reason must be exercised in the process of attaining this objective. The last election marked the end of an era in Thief River Falls where a despotic school board ran rampant over the wishes and desires of the people of the community. This era had its beginning when we imported a school superintendent who came not too well recommended, and gave him a free hand to turn our educational system upside down. He was here only long enough to spend a colossal sum of money, and then was on his way to preside over another building program.

It becomes necessary for a community to defend itself against these educators who are brought in from other areas. Many of them are here only temporarily and their actions show it. They are not averse to spending huge sums of money provided them by the community, because the chances are good that they will never become part of that community. At least, not any closer than renting a house for living quarters. It is these people who, when a suggestion is made to economize, make bitter attacks against the person who dares speak.

We know that bringing educational standards in our schools to a modern level was necessary. At the same time, we wonder if it could not have been done at a slower pace, and with a consequent saving of money.

As for me, I hope that the Times will continue to offer constructive criticism. We know we have a school superintendent of excellent ability and character, and a faculty of similar qualities. I think education in Thief River Falls will survive.
